FROM: Chief of Station, Mexico City

SUBJECT: REDTOP DIZTAG: Unconfirmed Report of Travel to Mexico of Oldrich NOVICKY

ACTION REQUIRED - REFERENCES

1. It was first reported by the LITEMPO airport personnel (according to their list of passports photographed by them at the airport) that Oldrich NOVICKY was among the passengers arriving in Mexico from Havana on 7 June 1968, at 0958 hours. According to the LITEMPO list, he was the only Czech on the CUBANA flight.

2. However, the CUBANA manifest did not list NOVICKY's name; the only Czech on the manifest was: F manifest bio data

Frantisek PROCHAZKA CIT: CSR

OCC Diplomatic Courier

Diplomatic Passport No. 3076 ΔCSR

Therefore, the LITEMPO film, accompanying the list, was checked carefully, and it was found that the only Czech passport actually photographed by LITEMPO was that of PROCHAZKA, (even though his name was not on their list).

3. The LIFIRE team was then queried (and showed a photograph of NOVICKY), and they responded that the only Czech they

recalled seeing arrive on the CUBANA flight was the courier PROCHAZKA; they could not recall having seen NOVICKY. LIENVOY reports during this period gave no indications of NOVICKY's presence here. LIHABIT-1 also reported that NOVICKY was not seen in the vicinity of the Czech Embassy.

4. Nevertheless, there are several mystifying aspects to the LITEMPO report. It is quite incredible that the LITEMPO airport team would know NOVICKY's name, and equally incredible that they could confuse this name with that of PROCHAZKA. They listed NOVICKY's full name, correctly spelled. Where then, if NOVICKY had not actually arrived, did they get his name?

5. Secondly, it is most unusual, and the only instance the Station can recall, for only one courier to make the trip to Mexico. They have always traveled here in pairs. (NOTE: It has been the case recently, however, for the couriers to travel to Mexico via Cuba and leave via Cuba, instead of traveling via Air France through New York, then to Havana, return to Mexico and depart Mexico via Air France again.) Further, PROCHAZKA's name is not on the list of known career couriers or audio technicians and sweepers of Book Dispatch 6423, dated 21 June 1968. A further curious departure from normal procedure was that according to LIENVOY (7 and 8 June 1968) reports, the courier PROCHAZKA did not stay at the Czech schoolhouse but at the Ambassador's residence. Per LIENVOY, and confirmed on the CUBANA manifest, PROCHAZKA departed Mexico on 10 June 1968, for Havana.

6. Finally, but quite possibly purely coincidental, there were two references to NOVICKY about the same time as his reported arrival. In one of the DISPERSE tapes, #351, in mid-June 1968, Oldrich STANCL (201-777862), in a rambling, slightly drunken speech, refers to one IYKA NOVICKY, as "his brother" (presumably referring to Oldrich NOVICKY). Another even more oblique reference, but again intriguing because of the timing was a reference in a LIFEAT report dated 7 June 1968; a local leftist journalist, Jorge ROSALES Natividad in a conversation with Nikolai LEONOV (201-132139), the Soviet Press Officer, sometime before 1120 hours, said that he "had asked NOVICKI for an opinion on SIEMPRE" (a Mexican magazine). There was no further explanation of who "NOVICKI" was, but Station records indicate ROSALES Natividad had been a regular contact of Oldrich NOVICKY, during the latter's tour here as Press Attache of the Czech Embassy. Just prior to this reference to "NOVICKI", ROSALES had been talking to LEONOV about having gotten a lot of material from Cuba (for an article about Che GUEVARA). Does Headquarters have any information about a possible trip or assignment for NOVICKY in Cuba?

7. In summary, the Station does not know exactly how, or why, NOVICKY, a Czech intelligence officer, might have entered Mexico clandestinely, but believes it was possible.

MEMORANDUM TO : THE AMBASSADOR

FROM : Winston M. Scott

SUBJECT : Soviet Participation in Colombian Subversive Activities

Returned 24 June 68

1. On the morning of 16 April 1968 our surveillance of Nikolay Sergeyevich LEONOV, Soviet Press Attache and Second Secretary of the Soviet Embassy in Mexico City, who is a known KGB officer, determined that he had a clandestine meeting with a Latin American male. LEONOV passed a small bundle to this individual. We followed the Latin American to the Hotel Principal, Bolivar 29. Checks at the hotel revealed that he was registered at the hotel as Feliciano PACHON Chaconta, a Colombian citizen, and that a woman, Librada MORENO Leal, also a Colombian citizen, was registered in the same room with him. Airline checks revealed that PACHON arrived in Mexico City on 6 April 1968 and that MORENO arrived on 12 April 1968. Both came from Bogota. Checks with our representatives in Bogota showed that they were both important members of the (PCC) Communist Party of Colombia. Further checks revealed that PACHON and MORENO had air reservations for 20 April 1968 to return to Bogota on separate airlines. Our surveillance confirmed their departure from Mexico City on 20 April 1968 on separate flights.

2. We informed our representatives in Bogota who informed the Colombian Security Service. Both were picked up upon arrival in Bogota. PACHON was carrying $70,000 (U.S.) and MORENO was carrying $30,000 (U.S.).

3. Both couriers broke and provided considerable information, the most important of which is:

a. Identification of the entire clandestine leadership of the PCC and FARC.

b. FARC: personnel and plans.

GROUP 1
Excluded from automatic downgrading and declassification

SECRET

201-132139

c. One courier has made several trips to Mexico to receive money from the Soviets. The largest amount was $200,000 (U.S.) which he got from LEONOV in June 1967. The smallest amount received was $75,000 (U.S.).

d. The address and identification of the PCC clandestine printing press. The Colombians raided this installation and captured the operator plus false documents and passports, forging material, presses, etc. He talked and said that he had received 1 1/2 years of training in the USSR in forgery. All equipment and false passport blanks were supplied by the Soviets.

e. All clandestine support and direction to the PCC and FARC comes from the Soviet Embassy in Mexico. The regular contact is Nikolay S. LEONOV. The chief referent for Communist Party matters in Latin America is Boris Aleksandrovich KAZANTSEV, Counselor of the Soviet Embassy in Mexico City.

4. This whole affair has been personally very embarrasing to Colombian President LLERAS because he had just agreed to diplomatic relations with the USSR. (The new Soviet Ambassador to Colombia, Nikolay A. BELOUS, presented his credentials on 27 May 1968). LLERAS had already been criticized in the press, when it was learned after BELOUS had been accepted, that BELOUS had been declared Persona Non Grata in Argentina in 1958, for direct involvement in fomenting Communist inspired strikes. (COMMENT: In the official curriculum vitae which the Soviet Foreign Office sent to Colombia on BELOUS, his assignment in Argentina was omitted.) Although LLERAS ordered a forceful prosecution of this matter, he insisted that the blame be put on the Cubans rather than the Soviets in order to avoid personal embarrassment.

5. We have been covering LEONOV thoroughly because he is the principal KGB contact in Mexico for Communist Parties in other Latin American countries. He has been in Mexico for ten (10) years doing very little other than handling Communist Party matters.

6. One of the principal clandestine activities of the Soviet Embassy in Mexico is the support, direction and financing of Latin American Communist parties in those Latin American countries where the Soviets do not have diplomatic representation. The Soviets have diplomatic relations with only six (6) Latin American countries, namely, Brazil, Chile, Colombia, Uruguay, Argentina and Mexico. Thus, the importance of Mexico in this matter.

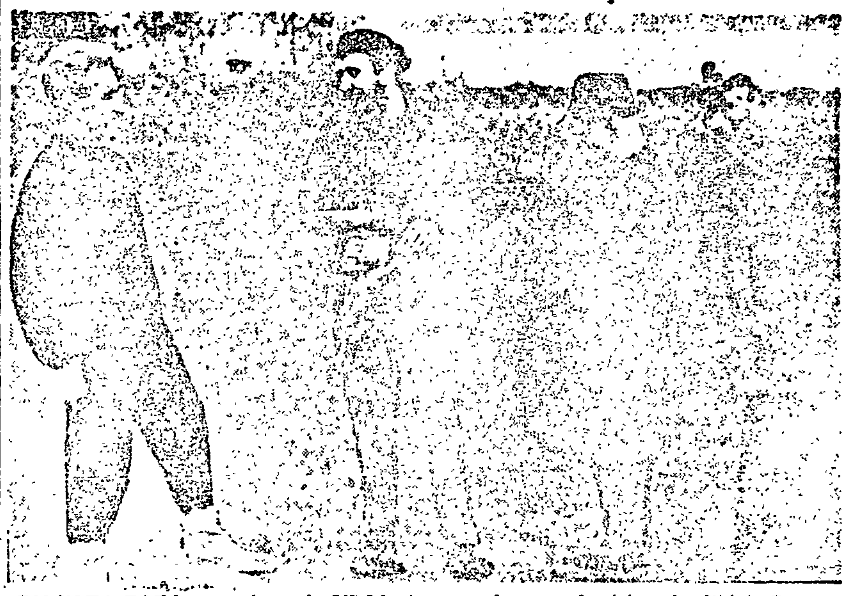
PRIMERA EDICION DIARIO DE MEDIODIA

MEXICO, D. F.—VIERNES 31 DE MAYO DE 1963

GERENTE GENERAL J. JESUS GARCIA

México en los Planes de Castro y Krushchev



EN ESTA FOTO, tomada en la URSS, durante la actual visita de Fidel Castro, puede verse en el extremo izquierdo al tercer secretario y agregado cultural de la embajada soviética en México, Sergeyevic Lenov Nikolai, en animada charla con Castro Ruz y Krushchev. Discutieron la agitación en Iberoamérica, alentada desde Cuba y México.

Huyó Aniceto del Valle, que Estuvo Allegado a Castro Ruz

Dice que se Planea la Agitación Continental Desde Cuba y México

Aniceto del Valle, uno de los más conocidos abogados de La Habana y que hasta hace veinte días parecía ser un simpatizador de Castro (ahora se ha exiliado) declaró anoche, antes de salir para Panamá, que la Unión Soviética prepara un plan subversivo para los países de la América Central, especialmente.

Según Del Valle, "Cuba será la cabeza de playa visible y México el centro distribuidor de armas de marcas mexicanas y norteamericanas".

El abogado aseguró que él obtuvo esta información en el Departamento de Asuntos Latinoamericanos del Ministerio de Relaciones Exteriores de Cuba en donde tiene muchos amigos.

Dos "hombres-clave" son los más importantes para realizar el plan, según Del Valle: Sergeyevic Leonov Nikolai, tercer secretario de la embajada rusa en México y agregado cultural de la misma embajada; y el capitán mexicano Lorenzo Cárdenas Barajas, el encargado de comprar armas y el encargado de entregarlas a Nikolai, que es el distribuidor.

De estas dos personas se habla (dice Del Valle) en el Ministerio de Relaciones Exteriores de Fidel Castro, como de los más importantes a los complotistas centroamericanos.

Por otra parte, afirmó que Nikolai salió de México el 21 de abril de este año rumbo a la URSS para que su llegada a Rusia coincidiera con la llegada de Castro a Moscú. Así, Nikolai participó en las reuniones de Castro y Krushchev. Para el caso afirmó que Nikolai apareció fotografiado junto con Castro y Krushchev en el periódico "El Mundo" de La Habana. El periódico es del 8 de este mes y la foto se encuentra en la página 8.

Lee Oswald en México

Por ALBERTO WILLIAMS

HACE poco se exhibió en un bonito salón de cine de la ciudad de México, una película que a quienes sómos admiradores del Presidente asesinado de los Estados Unidos, nos interesó y nos conmovió en alto grado. Era un filme muy realista, basado en la vida y la muerte del insigne estadista que supo ganarse el cariño y la admiración de todo el mundo. Se llama la película "Años de Relámpago, día de Tambores". Para la mayoría del público ese filme, no importa hasta qué grado haya despertado su interés, sólo significó un filme más acerca de John F. Kennedy.

Para nosotros los periodistas representó mucho más de eso, porque nos recordó la tragedia de Dallas y despertó nuevamente nuestra curiosidad respecto al asesino Lee Oswald y su visita a México en septiembre de 1963. Pensamos que tiene importancia el recordar a las personas con quienes tuvo tratos el asesino durante su permanencia en nuestra capital.

Aunque suele dudarse de la exactitud del informe rendido por la Comisión Warren acerca de sus investigaciones en torno a ese doloroso crimen, anotamos que ese reporte hace saber que Oswald visitó en la ciudad de México la embajada de Cuba comunista y la de la Unión Soviética. Como miembro activo que era de una organización llamada "Juego Limpio para Cuba en los Estados Unidos", ya se imaginarán los lectores que era bien conocido del presonal de la embajada de la Cuba comunista en México.

No se ha llegado a saber con seguridad los términos de la conversación que sostuvieron Lee Oswald y los rojos cubanos; pero es un dato seguro que Oswald salió de la embajada de Castro y se dirigió a la de la Unión Soviética, donde ya era conocido por los muchos años que pasó Oswald en el paraíso soviético. En esa misión diplomática sostuvo largas conversaciones con dos agentes rusos de la KGV, famosa agencia policiaca secreta cuya principal misión es dirigir campañas de terror y subversión desde puestos diplomáticos que simuladamente les asigna el Gobierno de Moscú para que actúen protegidos por un derecho internacional mal aplicado.

Diremos de paso que ese arreglo desleal de las cosas, que hace aparecer a la Unión Soviética como país amigo, en tanto que sus representantes diplomáticos asestan puñaladas traperas al país que no sabe defenderse, facilita el que los agentes rusos enviados a países pacíficos como México, sean muchos y que cada embajada soviética disponga de un personal tan numeroso, que aquello no es un misión diplomática, sino una verdadera inmigración de rojillos.

Lee Oswald tuvo tratos con los agentes secretos Pavel Yatskov y Valery Kostikov. Estos "diplomáticos" de la KGV están todavía en servicio. El primero aparece como segundo secretario de la embajada rusa en la ciudad de México. Kostikov figura como "agregado" de la misma embajada. Este diplomático tiene fama de representar en forma destacada la escuela antigua de accion de la KGV. Es de carácter frío, brusco y de poco refinamiento. Muestra poco respeto para sus compañeros soviéticos y menos todavia para los mexicanos en general.

Yatskov, en cambio, es el ejemplo moderno de los agentes secretos graduados por aquella institución de espionaje. Cortés, atento, no expresa nunca criticas de México y de los mexicanos, como suele hacerlo su compañero Kostikov. Pero ambos son agentes activos y de mucha confianza de la KGV en nuestro país. Los dos son personajes de cuidado, a quienes sin duda vigilan de cerca las autoridades para impedir que repitan el caso de otro esbirro soviético, Nikolai S. Leonov, que hace unos dos años estuvo dedicado por el Gobierno de Moscú a meter de contrabando armas de la Cuba castrista en los pacíficos países de la América Latina.

Nikolai S. Lenov, que vive y trabaja en la ciudad de México, dirige y realiza un amplio programa de distribución de impresos subversivos en la República, en Centroamérica y en la parte septentrional de la América del Sur. ¡Hay impresos que son más terribles que las armas y los pertrechos!

MUNDO MEJOR (C)
México, D. F., 7 de Diciembre de 1963.

EN NUEVO LEON

Piden al Gobernador Meta en Cintura a los Rojos

Agentes Castristas, "Diplomáticos" Rusos y Rojos Criollos se Mueven en Monterrey, como Peces en el Agua.

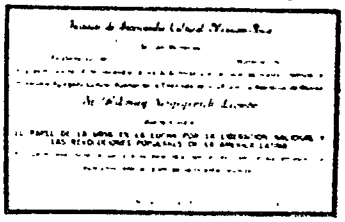
DESCARADAMENTE, los agentes castristas que agitan en la Universidad de Nuevo León solicitan apoyo de los mexicanos para "las fuerzas armadas de Liberación Nacional en Venezuela" en tanto que los marxistas hechos fuertes en el "Instituto de Intercambio Cultural Mexicano-Ruso", sección Monterrey, también abiertamente realizan labor de proselitismo entre el estudiantado, los obreros y otros fuertes núcleos ciudadanos.

En el número anterior, MUNDO MEJOR denunció que esos mismos "agentes castristas pretenden hacer un congreso comunista en Monterrey en complicidad con los rojos criollos, con intención de crear en esa ciudad el primer "Campamento Juvenil por la Paz y una Vida Mejor", uno de tantos señuelos de los rojos para engañar a la juventud mexicana". Nuestro periódico también dio cuenta de la propaganda abiertamente marxista que en favor de los rojos de Venezuela fijado y repartido por toda la ciudad los agitadores comunistas. He aquí las leyendas de algunos de esos carteles y volantes:

"Venezuela en armas. Hacer la patria libre, morir por Venezuela. Las fuerzas armadas de Liberación Nacional libran en estos momentos una lucha decisiva contra el imperialismo norteamericano y la pandilla entreguista y traidora de R. Betancourt. ¡Solidaridad con el pueblo venezolano! ¡Viva la revolución de América Latina! (Leyenda alrededor de una paloma que empuña un fusil que sirve como asta a una bandera tricolor en cuyo centro se leen las iniciales: FALN —Fuerzas Armadas de Liberación Nacional).

"Venezuela adelante en la revolución antiimperialista. Los pueblos de América Latina están contigo! Juventud Comunista de Nuevo León".

"Los monopolios yanquis saquean las riquezas de América y nos hunden en la miseria y explotación. Apoyemos a un pueblo hermano que lucha heroicamente por liberarse: ¡Venezuela! ¡Adelante, los obreros, campesinos y estudiantes de toda América están contigo, pueblo hermano! ¡Vivan las F. A. L. N.: Juventud Comunista de Nuevo León".



Uno de los volantes que han pegado en los muros de la ciudad de Monterrey agentes castristas y rojos criollos que agitan en la Universidad de Nuevo León. Asimismo, una "invitación" a estudiantes, obreros y campesinos, del "Instituto de Intercambio Cultural Mexicano-Ruso" de Monterrey a asistir "con su apreciable familia" a un acto en apoyo de las fuerzas comunistas de Liberación Nacional en América.

EL GOBERNADOR YA ESTA ADVERTIDO

Por otra parte, una muestra de la propaganda marxista que se incuba en el llamado Instituto de Intercambio Cultural (???) Mexicano-Ruso de Monterrey es esta invitación: "El próximo viernes... en el local de nuestro Instituto, el Honorable Agregado Auxiliar de la Embajada de la URSS en la República de México, señor Nikolay Sergeyevich Leonov, disertará sobre el papel de la URSS en la lucha por la liberación nacional y las revoluciones populares de la América Latina.

Nos permitimos invitar a usted y a su apreciable familia, así como a sus amistades, y esperamos tener el gusto de verlo entre nosotros. La Directiva".

Por supuesto que el gobernador del Estado, Lic. Eduardo Livas Villarreal, ya tiene en su poder las denuncias y protestas contra esta situación por parte de más de 50 profesionistas —como también informó MUNDO MEJOR en su número anterior—, por los padres de familia y numerosos organismos de todo tipo, por lo que toca a ese mandatario tomar las medidas en forma enérgica con los alborotadores rojos, tal como el pueblo de Sabinas hace unos meses los arrojó de sus límites.

MEMORANDUM FOR: Chief, SB

Chief, WH

SUBJECT : Nikolay Sergeyevich LEONOV, KGB Officer
Possibly Linked to PACHON Case in Colombia

1. BACKGROUND:

Feliciano PACHON Chaconta is the Colombian Communist courier apprehended by Colombian security officials in late April 1968 when aligting from a commercial flight from Mexico with U.S.$80,000 apparently destined for the Communist Revolutionary Armed Forces of Colombia (Military Arm of Orthodox Communist Party - FARC). A female cohort of PACHON was picked up several hours later aligting from a second aircraft with U.S.$20,000. Both arrests were based on a tipoff by another Colombian Communist, Adelmo URREA Garcia, whose motives are as yet unclear. URREA who first claimed that the funds were of Cuban origin later changed his story to the effect that they are in fact Soviet. Subsequent interrogation of PACHON, URREA, and the female courier has failed to shed further light on either story.

2. However, a re-examination of PACHON's suitcase turned up a compartment in which were found several cryptic notes, including a reference to Avenida Mazatlan. Mexico City 5455 (IN 03860) reports Avenida Mazatlan 206 to be the address of the Soviet Press Office, and Soviet Press Attache Nikolay Sergeyevich LEONOV (201-132139) to be a KGB officer, known to have handled CP operations in the past.

3. A review of LEONOV's file reveals the following possibly significant information, when related to the PACHON case:

a. 1956: Subject's personal calling card was found in an address book taken from Fidel CASTRO Rus when Fidel was arrested by Mexican police on 21 June 1956 in Mexico City. (See MEXICO CITY 6859, 27 June 1956, IN 35556.) This event was apparently reported in the Mexican press but the file does not contain a copy nor the date of publication, and there is some indication that the card may have been a plant. (See HMMW 10265, 24 Nov 61.)

NOTE: CARD WAS DEFINITELY PLANTED BY LIVESTOCK-2. This was discovered by the Station much later. [illegible] Walker

b. 1963: April. Subject was Fidel Castro's interpreter during the latter's tour of the Soviet Union. The file contains many photos of the two with all the big-wigs of the USSR. The event was reported in El Mundo with a picture of Subject, Fidel, etc. on 8 May 63.

c. 1963: May. Subject was observed in a meeting with a former Mexican army captain Lorenzo CARDENAS Barajas who was supposed to be an arms smuggler to the Guatemala guerillas. A Station inspired article appeared in the 31 May 63 edition of Atisbos, Mexican newspaper, accused Subject and Cardenas of being the key figures in Central American revolution plans. The source of the information was attributed to a former lawyer exiled from Cuba. The article was picked up and played in the 31 May 63 edition of Ultimas Noticias. A photo copy of the article is in Vol. 3 of Subject's file attached to HMMA 33295, 18 Oct 63.

d. 1964: A letter was obtained through LIMUD addressed to Subject from Carlos A. BONILLA S. (201-275728). The letter indicated that the two were apparent close friends. Bonilla at that time was the president of the Federation of Workers of Cundinamarca (FTC) and a leading Colombian Communist. (See HMMA 30130, 30 Sept 66 and HLBA 9425, 7 Oct 66.)

e. 1966: Subject was reported as being a close friend of Bernardo LEMUS Mendoza (201-91375) since 1953. LEMUS was at one time a prominent Guatemala communist, on Central Committee. Subject was also reported as being in contact with Ricardo MIRANDA Aldana, also a prominent Guatemalan communist who is now dead, during January 62 (201-737566).

f. 1967: Soviet Press Office, where Subject also lives, was used as a payoff point for funds given to support the Central Nacional de Estudiantes Democraticas which organization is controlled by the Communist Party of Mexico. Subject was not the contact man for the funds. (See HMMA 31117, 19 Jan 67.)

g. HMMA 33215, 5 Oct 67, gives a rundown on other contacts of Subject with Guatemalan communists or guerillas.

4. LEONOV was in Mexico from July 1953 to October 1956, as Secretary to the Ambassador, and returned in July 1961 as a Third Secretary and Assistant Cultural Attache. He has served since October 1964 as Second Secretary and Press Attache.

1. LIFIRE reported Subject's arrival in Mexico City on 9 April 1968 aboard PAA Flight 501. According to LIENVOY Subject departed Mexico City for Washington, D.C. on 13 April 1968.

2. The reason for Subject's trip to Mexico City is unknown. LIFEAT reported that Subject was in contact with Nikolay Sergeyevich LEONOV (201-132139), Soviet Press Attache and known KGB officer. Valeriya Ivanovna LEONOVA described Subject as being "a husband of her friend, visiting from Washington". LEONOVA on another occasion stated that her husband was quite busy with a visitor and mentioned Subject by name. LIFEAT also reported that Subject was a guest at the LEONOV's house on 10 April.

3. LILYRIC reported that Subject visited the Soviet Embassy on 11 April 1968. He was seen arriving at 0953 hours in a car driven by Soviet Embassy chauffeur, Viktor Petrovich STRIZHOV (201-779301). It is not known with whom Subject had contact while at the Soviet Embassy. He left the Embassy at 1240 hours.

1. Transmitted herewith is a personality sketch prepared by LIFEAT transcriber Carol K. ZINSMEISTER on Nikolay Sergeyevich LEONOV (201-132139), Soviet Second Secretary and Press Attaché in Mexico.

2. Of the three persons mentioned in the sketch with whom LEONOV appears to be in clandestine contact, the only one identifiable is Juan REJANO (Parras), 201-109935. He is a Spanish Communist, one of the leaders of the Spanish Communist Party in Mexico, with close ties to other Communist groups, especially Cuban and Czech; and at least once he was seen going into the Cuban Embassy with a leader of the Guatemalan Communist Party in Mexico. REJANO is in frequent contact with the Czech Press attaché. He is editor of the Czech bulletin published in Mexico. He is also frequently in touch with employees of the Soviet Press Office. In December 1967, according to an LNERGO report, REJANO gave NELSON (LNERGO double agent?) material on American bases in Spain when NELSON visited the Spanish Communist Party Headquarters in Mexico. On 28 January 1968, REJANO was among a group of "old friends" attending a dinner in Mexico City for Juan MARINELLO Vidaurreta, President of the Cuban-Mexican Society and Cuban UNESCO Ambassador.

Nicolas LEONOV, Press Attache

LEONOV is an extremely bright, intelligent man, and very quick-thinking. He is popular among the press people because he appears very frank, open and nice to them. He is not the kind, like many other Soviets, who is afraid to make comments, in his own name, on news items and this pleases the press who like personal opinions if nothing more. He is helpful and hard-working and any reasonable request he makes an effort to fulfill.

Apart from his work with the press, he does appear to be involved in intelligence work. He meets with David, Juan Rejano and another man (name not known) on matters which appear to have nothing to do with his press activities. It is possible that money is channeled through LEONOV for economic aid to certain magazines and propaganda work (perhaps even to the University groups although he is very cautious and this many not be true).

LEONOV tolerates (but does not love) his wife, who is quite a shrew. He apparently continues to live with her for the sake of their daughter, Irina, but they appear to have nothing in common. LEONOV is very popular with nearly everyone, but LEONOVA is almost universally disliked.

The actual work of the Press Office he leaves nearly entirely in the hands of his employees, who appear to do their job quite well. They only consult him on special problems and money matters, but he appears to devote very little time to the actual work done at the office. He is busy making contacts, seeing people, visiting newspapermen and doing extra and special jobs for the Embassy (since his Spanish is so good and his personality so nice). He interprets for most of the important Soviet artists when they come to Mexico and he accompanies the Ambassador on many occasions. The previous Amb. apparently trusted his judgment greatly and called on him frequently.

LEONOV apparently plays chess quite well and likes to hunt and fish, but is unable to devote much time to this. He has quite a social life, but mostly alone, and he appears to be high in favor in the USSR since he is able to take vacations frequently and do, more or less, as he likes.

1. Headquarters attention is invited to Department Airgram A-696 of 4 February 1968 reporting on a lecture given by Subject at Mexico's National University on 30 January 1968. The lecture dealt with Latin American Studies in the USSR and carried the current Soviet line that what was progressive in the Mexican-American war was the fight of the Mexican people against U. S. imperialism.

2. Nikolay LABROV, a Soviet scholar, arrived in Mexico City in late October 1967 to do research on Mexican revolutionary history. He has booked return passage via Canadian Pacific for 27 February. 1. A trace reply prepared for the FBI in November 1976 indicated that from 1956 until 1961 LEONOV was in Moscow during which time he was reported to have attended the KGB school from 1958 until 1960. From 1960 until 1961 LEONOV was at the Fifth Department of KGB Hqs. A statement was also included which said that during his tours in Mexico LEONOV was consistently active in clandestine support of Latin American revolutionary and subversive activities, particularly relating to Guatemala.

PDSTORAGE: As of 1976 LEONOV was Chief of Service No. 1 (Information) of KGB Headquarters First (Foreign Intelligence) Directorate in Moscow. LEONOV has been considered for at least two Ambassadorial posts.

A statement that a reliable defector had identified LEONOV as a KGB officer was transmitted to the State Department in August 1966 (NOTE: DERYABIN's iden in September 1964 was inconclusive but could have been misinterpreted.)

BIOGRAPHIC PROFILE
OF
NIKOLAY SERGEYEVICH LEONOV

1. Nikolay Sergeyevich LEONOV was born on 22 August 1928 in Almazovo, USSR (also reported as Ryazan, USSR.) LEONOV graduated at an unknown date from the Institute of Foreign Relations in Moscow. He was assigned as Interpreter and Secretary to the Ambassador at the Soviet Embassy in Mexico City from May 1953 until 17 October 1956. On 31 July 1961 LEONOV returned to Mexico City as Third Secretary and Assistant Cultural Officer. He served in this capacity until his PCS departure in June 1964. LEONOV and his family went on home leave to the USSR from 21 April to 20 July 1963. During this leave LEONOV served as Fidel CASTRO's interpreter in the USSR in May 1963. LEONOV was assigned to Mexico City again on 10 October 1964 as Second Secretary and Press Attache at the Soviet Embassy. He departed PCS for the USSR on 22 December 1968. From April to July 1969 LEONOV served temporarily as representative of the Soviet News Agency "NOVOSTI" in Lima, Peru.

2. Additional travel information reflects that LEONOV served as interpreter for Soviet Vice Premier Anastas MIKOYAN on his trips to Mexico and Cuba in November 1959 and again in February 1960 when the Soviet Cultural and Technical Exposition was being held. LEONOV traveled to the Dutch West Indies and Trinidad in September 1962; his position and purpose of his

trip are unknown. LEONOV was a delegate to the 31st Session of the United Nations General Assembly in New York City from 19 September to 10 October 1976. In late June 1977 LEONOV accompanied two other Soviet officials on a visit to Panama where they were scheduled to visit with Panamanian Government officials. The next day LEONOV traveled to Bogota, Colombia where he remained until 3 July 1977. On this date he departed for Frankfurt, West Germany, presumably enroute home to the USSR.

3. LEONOV and his wife, Valeriya Ivanovich, who was born 30 April 1928 in Ryazan, have a daughter, Irina Nikolayevna, who was born on 16 March 1962 in Mexico City. LEONOV reportedly speaks excellent Spanish, good English, some French and little German. He has been described as pleasant, outgoing, intelligent, shrewd, conscientious, and reliable. He has a sense of humor but displays a temper at times.

4. Based on his activities and associations in Mexico City during his tours of duty between May 1953 and December 1968 LEONOV is considered to be a staff officer of the KGB (Soviet Committee for State Security.)

2. LEONOV WAS BORN 22 AUG 28 IN USSR. HE SERVED IN MEXICO FROM 1953-56 AS INTERPRETER/SECRETARY TO THE SOVIET AMBASSADOR. (FYI: PER POSTORAGE FROM 56-61 HE ATTENDED KGB SCHOOL AND SERVED AT

DESTACADO LATINOAMERICANISTA RUSO NIKOLAI LEÓNOV, QUE VIVIÓ 12 AÑOS EN MÉXICO, HABLA A SIEMPRE! DE LOS MUCHOS PROBLEMAS DE NUESTRA AMÉRICA

POR INNA VASILKOVA

Estimado Sr. Pagés:

Nikolái Leónov –uno de los principales latinoamericanistas soviéticos de hoy, doctor en Ciencias Históricas y hombre por lo regular moderado en manifestar sus sentimientos– se pone sentimental cuando se habla de México...

"Considero a México, hasta cierto punto, mi segunda patria –dice–. He vivido allí doce años en total. Me enamoré de él a primera vista y estoy seguro de que mi cariño a este país no se empañará con los años."

Poco amigo de las entrevistas, esta vez Nikolái ha hecho una excepción. Para **SIEMPRE!** y para mí.

Ante todo, hablamos de la capital. Tanto más que Leónov publicó hace poco en la revista soviética *America Latina*, un extenso ensayo sobre ella. Pido a Nikolái que diga lo que, a su parecer, determina la fisonomía de esa ciudad.

Leónov: Cuando rememoro la ciudad de México e intento dilucidar en qué conjuntos arquitectónicos de la capital mexicana está mejor reflejado el espíritu de la nación, me vienen a las mientes, ante todo, los nuevos monumentos. Esos en los que se ha perpetuado la heroica lucha del pueblo por su independencia política y económica. Y entre ellos, en primer lugar, el dedicado a los "Niños Héroes", los cuales, aunque no pudieron librar de los norteamericanos a la ciudad, a costa de sus vidas salvaron el honor y la dignidad de la nación. Eso para mí es el símbolo de México... Recuerdo que el general Ridgway, verdugo del pueblo coreano, visitó México y depositó una corona al pie del monumento. A la mañana siguiente la corona estaba ante la puerta de la embajada de los EE.UU. con la siguiente inscripción: "De asesinos no admitimos coronas".

Un símbolo de México es también el monumento a los trabajadores del petróleo. No se puede ver con frecuencia en un Estado capitalista un monumento a obreros, y que además, éstos no estén representados en un estilo banal-alegórico, sino en el proceso del trabajo.

Al pensar en México, recuerdo siempre asimismo la obra simbólica de Francisco Eppens en la fachada de la Facultad de Medicina de la Universidad. La gigantesca cabeza que ocupa el centro de la composición es, para mí, personificación de la nación mexicana; en ella parecen haberse fundido tres caras: la de una mujer india, la de un hombre español y la de un mestizo.

Y por último, la singular plaza de las Tres Culturas. Me parece que esa "triada" es precisamente lo que da a la ciudad de México su originalidad sin par.

Pregunta: Pero una ciudad no son sólo las

En 1968, en la inauguración de la XIX Olimpiada.

Leónov con Siqueiros, en su taller de Cuernavaca.

Leónov: Para comprender aunque no sea más que un poco el alma mexicana hay que ver, por lo menos, tres cosas: la plaza del Zócalo en la noche del 15 al 16 de septiembre, una corrida y la plaza de Garibaldi.

En la plaza del Zócalo se percibe con particular agudeza el hálito del pasado remoto, de la rica y turbulenta historia del país, que forjara el carácter de la nación. Allí se llega a comprender a fondo el arrogante amor de los mexicanos a su patria, sus seculares anhelos de libertad e independencia y su odio abrasador a los colonizadores de todo género, que hollaran inclementemente la antigua cultura y las tradiciones del país.

La corrida es una emocionante fiesta de valor, destreza y, de seguro, suerte, donde brota a raudales el fogoso temperamento de los mexicanos. Entre las infinitas tradiciones de la corrida mexicana, una es de mi grado en particular: la de perdonar la vida y poner en libertad al toro que por su bravura, potencia y tesón se gana la simpatía del público. Me subyuga la sabiduría del bicho que tiene como base tal costumbre y que emplear al hablar ...

nes que interpretaban mariachis. Para mí eso era siempre una fiesta. Y no sólo porque estoy enamorado del arte popular mexicano. Allí el alma mexicana se ofrece abierta de par en par, poniendo en evidencia su prodigalidad espiritual, su afecto y, lo que es más importante, la habilidad de compartir con uno –sin que ello resulte importuno– la alegría y la tristeza. Se sienta usted alegre y afligido, los mariachis están siempre dispueto a embellecer la alegría o a hacer romántica la tristeza.

El Robin Hood de América Latina

En agosto del año pasado, cuando Fidel castro cumplio cincuenta años, Leónov publicó en la revista soviética América Latina un artículo titulado "Salud te deseamos, Fidel". Aquello no era tanto una característica de relevante hombre, cuando una exposición de todo lo grande que tiene la nación cubana. Aparte de que, como historiador, Nikolái Leónov se ha dedicado a estudiar la Revolución Cubana y a sus líderes, con Fidel le liga

mía universitaria, entendida según el concepto ya generalizado de la libertad de cátedra y de investigación científica, no como zona extraterritorial en el marco de las instituciones jurídicas ni como fuero para vulnerar el orden público ni los intereses sociales". Insistió en que son las autoridades judiciales las que han realizado averiguaciones sobre la presunta injerencia de universitarios, maestros y alumnos, en el secuestro y muerte de varias personas. Ante eso Figueroa Dijo: "Yo no he inventado los secuestros; mucho menos los muertos, cosa bien difícil". Añadiría, tras otras consideraciones, que "a nadie se le ha detenido en razón de sus ideas o de su militancia políticas. Cuando éstas han salido a relucir en los procesos legales, ha sido por propia declaración de los inculpados". En 1976 el gobierno del estado concedió a la Universidad de Guerrero un subsidio total de 19 millones 610 mil 482 pesos con 64 centavos, que casi duplica el otorgado el año inmediato anterior al inicio del gobierno de Figueroa. El gobernador reveló ante el Congreso y el numeroso públicó, que hay sectores locales que le han llamado la atención sobre un uso inadecuado del subsidio por parte de las autoridades de la Universidad y afirmó que "toda institución que recibe un subsidio tiene la obligación ineludible de informar a la sociedad respecto de su empleo, del mismo modo que los gobernantes informamos de nuestros actos y de la aplicación del presupuesto".

Al margen de la polémica, que siguió mantenida en esta parte del informe –o quizás como consecuencia de ello– Rubén Figueroa, hizo una proposición que constituye novedad en la materia; advirtiendo que no se vaya a interpretar mal su opinión y se piense que él se propone proscribir la enseñanza superior en Guerrero. Lo que desea es –aclaró– contribuir a la búsqueda de una solución pronta, eficaz y realista a este problema. Su gobierno está en posibilidad de aplicar una parte equitativa de su gasto educativo en becas otorgadas a alumnos de escasos recursos que deberían asistir a lo que llamó la Universidad compartida y solidaria. En el ambiente quedó una interrogante que demandaba una explicación de este concepto sorpresivamente nuevo. No flotó por mucho tiempo, pues acto seguido el gobernador contestó así: "Entiendo por Universidad compartida y solidaria un sistema nacional de enseñanza superior que, independientemente del que existe en el Valle de México, pueda instituir en cada entidad federativa una o varias escuelas, institutos o facultades que adopten aquellas especialidades que reclamen las características y las más ingentes necesidades de cada estado, a fin de que no se despilfarren recursos ni se malogren esfuerzos en la repetición de las mismas especialidades o profesiones, lo que redunda en la formación de profesionales frustrados, que no tienen ocupación".

la pesca, actividades de enorme importancia y de gran entidad, la cual carece de verdaderos especialistas. Esto n carreras liberales, las cuales según el plán del gobernado sujetas a otro régimen en el que los interesados cubran e enseñanza, mediante becas, crédito educativo o cuotas re Otra vez frente a cualquier interpretación, el gobernador "no estoy colocándome en el plan de reformador de l universitaria a escala nacional. Sólo indago las posibilid solución a un problema que particularmente en mi estado y sobrepasa nuestra capacidad económica".

Refiriéndose en circulo íntimo esta incursión en delicada cuanto conflictiva, el ingeniero Figueroa dijo al más, propio de su estilo: "Ni modo, me lancé al agua fría' comentó: "¿Y qué? Si usted nada todos los días".

Al licenciado Reyes Heroles, el gobernador Figue llevarle al presidente López Portillo el recado de que toman en cuenta todas sus recomendaciones para impulsar del estado, en lo agropecuario, lo industrial, en lo educa turístico, igual en lo relativo a la salud del pueblo como a la familiar, lo mismo a los derechos sociales como a las individuales, "pues deseamos que la incipiente democrac Guerrero empieza a abrirse paso, lo sea sobre bases sólidas, y políticas, en un ambiente de verdadera solidaridad social".

Si bien el informe del gobernador no fue un mazacote h reiterativas afirmaciones burocráticas, tampoco la respuesta sentante presidencial, Reyes Heroles consistió en las palab tradicional cortesía que el centro debe a los estados. El 'Charro' Leono

Durante la ceremonia solemne de la entrega por Leonid Brezhnev a Fidel Castro de la Orden de Lenin y la Estrella de Oro del Héroe de la Unión Soviética, en mayo de 1963. A la izquierda, N. Leónov.

Castro es, sin duda, una Personalidad con mayúscula. ¿Cómo definiría usted el papel de él en la historia de Cuba?

Leónov: Los numerosos biógrafos de Fidel, de entre los historiadores burgueses, hacen desesperados intentos de hallar ciertos factores externos que puedan explicar la victoria de la Revolución en Cuba. Se suelen remitir a fenómenos de orden subjetivo, repitiendo la versión sobre la "culpabilidad" de Eisenhower, que prefirió jugar un partido de golf a entrevistarse con Castro cuando éste visitó los EE.UU. en la primavera de 1959. Y ninguno de esos "investigadores" ha querido analizar las regularidades objetivas de carácter socio-económico ni el papel del mismo Fidel, quien sutil y oportunamente captó la orientación principal del desarrollo histórico y guió enérgicamente al país por el nuevo camino. Aquél fue un trabajo muy duro. Si antes Fidel hubo de dar reiteradas muestras de heroísmo personal, ahora ponía de manifiesto una colosal valentía política como hombre de Estado, asumiendo la responsabilidad por todas las decisiones relacionadas con la reestructuración del país. El aporte personal de Fidel a la primeros años consecutivos a la victoria de la Revolución había que dar a las masas trabajadoras la posibilidad de palpar inmediatamente los frutos de esa victoria, sus resultados prácticos. Y en un país subdesarrollado, atrasado, se buscaron los recursos para construir una vasta red de hospitales y escuelas.

Los sistemas de salud pública y educación, creados en breve plazo, son hoy los mejores de América Latina. Pero una reestructuración de la economía tan rápida y profunda no podía, naturalmente, llevarse a cabo sin dificultades ni errores. Hay que reconocerlo: Fidel ha admitido más de una vez lo erróneo de algunas decisiones, y eso únicamente ha reforzado su autoridad entre el pueblo.

Una cualidad relevante de Fidel es, a mi entender, que sabe inculcar a la gente una fe inquebrantable en la victoria de su causa. La gente le sigue dominada por la idea y segura de que todo lo ideado se hará realidad.

Me vienen ahora a la memoria las frecuentes intervenciones de Fidel por la televisión, en asambleas y mítines. Recuerdo cómo personas de miras superficiales, adoptando la pose de comentaristas políticos, pretendían ironizar

Castro para educar al pueblo cuban colosal autoridad de Fidel, su profunc erudición científica y sus vivas dotes de mista desempeñaron un papel que es sobrevalorar.

Debido al gran porcentaje de analf que había en el país y a la débil prepa política de la población, las intervencio Fidel eran una verdadera academia p para el pueblo cubano.

Hoy la autoridad de Cuba ha crec manera inconmensurable. Los nombres dirigentes no se caen de las páginas prensa mundial. Por pequeña que sea de la Libertad y por fuertes que se tradiciones imperialistas de no tener en ta los intereses de los pueblos [illegible] cubanos se han hecho respetar. [illegible] defender sus derechos es un ra[illegible] de la nueva política exterior de[illegible]is, d por Fidel Castro.

Este hombre de sino legendario, el Hood de América Latina, el artífice de las revoluciones socialistas más originale Edad Contemporánea, cuenta sólo cinc años. Estamos acostumbrados a que los cos y estadistas extranjeros, a esa edad, regular sólo empiezan a dar los primeros en la palestra nacional e internacional. ha dejado tras de sí montañas de logros. todo eso quiero hablar yo en un libro Fidel Castro, el cual estoy escribiendo actualidad.

América Central en el Espejo de la Historia

Me han contado que cuando Nikolái nov defendió las tesis de su doctorad Ciencias Históricas, la sala de conferenci Instituto de América Latina de la Acad de Ciencias de la URSS estaba literaln de bote en bote, tan grande era el interé el tema del estudio: "La historia mode contemporánea de América Central".

Cuando esa disertación publicóse en M en separata, al cabo de unos días er imposible encontrarle en las librerías: e bajo atraía no sólo a los especialistas, también al más amplio círculo de lectore lo singular de los datos reunidos por el durante su estancia en América Latina.

Nikolái Leónov me contó que, en los a vos centroamericanos, la mayoría de los mentos de esos tiempos han sido destru los dictadores han procurado no dejar ni rastro de sus crímenes. ACLARACIÓN...

(Viene de la página 5) co muy a mi pesar (a pesar también de los esfuerzos realizados por el gobierno) por causas insuperables fue imposible emprender la construcción de una nueva Penitenciaria. Sin embargo, siempre he tenido confianza en las instituciones y los gobiernos, esperando con vehemencia que algún día continuará esa cruzada de humanidad carcelaria. Algún día también, habré de tener la oportunidad de comentar directamente al admirable Blanco Moheno, que en efecto mi sueño no es tranquilo, mientras existan problemas vitales que resolver en México. Como no soy millonario ni corruptor, siento como hombre y en carne propia las desgracias de los míos.

Agradeceré, señor Director, su benevolencia y atención para estas aclaraciones que espero sean publicables, rogándole de igual modo me tenga desde siempre, como amigo y devoto de SIEMPRE!

Respetuosamente,

A ESPAÑA...

(Viene de la página 15) multitudinario de la península.

Va a ser invitado don Gustavo a partidas de caza. En los Montes de Toledo, podrá echarle el ojo aunque difícilmente la bala al gato montés y al lince, al ciervo seguramente meterle en las paletas un pedazo de plomo y de todos modos abismarse con el espectáculo de las liebres trigaleras que por el rumbo se multiplican como estrellas en una noche de verano. Igual hará en Pontevedra, en la Sierra de La Estrada y Lalín; en Teruel igual. Y en Salamanca, con menos suerte que puntería cobrar un jabalí de los centenares que nomadean los cotos aledaños.

Y vuelta a la comida que no lo dejará jamás; que de él va a ser sombra y manera de calar sus excelencias de gastrónomo "Indiano". Y el vino, sin el cual no es imaginable tragar ningún bocado español. Vamos a ver, a repasar, a presentir el bicarbonato que don Gustavo utlizará de continuo: en la misma Pontevedra, para no ir más lejos, pulpos a la Marinera, chuletas de Moaña y empanadas de todo lo que vive la tierra, el mar y el aire. ¡Recuerda usted, jefe, las panzurronas de bacalao con pasas y piñones y las apretaditas de lampreas, anguilas, salmonetes y mejillones? Para que toda esa masa luculesca se quede en el fondo hay que ayudarla con melindres de Silleda y Fuenteareas.

Tendrá que beber don Gustavo. En verano, valdepeñas ligerito. Y llegado el invierno los vinos espesos de Rioja. Recuerdo, jefe, que allá en Logroño, una tarde de frío junto a la chimenea de don Augusto Chenel, di cuenta de unos bizcochos de Torrecilla que insistía en mojar en un riojano de color igual al terno de luces que Paco Camino estrenó un domingo en Madrid, cabe el recuerdo de una Feria de San Isidro. ¡Mi dios, qué vino aquél para darle calor a mis huesos y andando el tiempo a mis nostalgias! Volveré.

Si le digo cuántos primores más lucirá el Embajador de México obli- [illegible] gremio de pedantes que exige que debe saber tanto de España que pueda distinguir entre Picasso y Dalí, entre Gaudí y Tarragó, entre Albeniz y Falla, entre Camilo José Cela y Unamuno, entre un colmao y una venta de gitanos, entre una farruca y una bulería. ¡Bah! Tanto de todo eso saber, ni los nacidos allá.

Usted movía tristemente la cabeza cuando intentábamos el diseño del Embajador. Yo hacía lo mismo. El meneadero lo hemos interrumpido. Ya tenemos. Y hay que reiterar que no me parece mal. Don Gustavo tiene apariencia formal, muy formal. Pero no sé por qué presiento que también gusta de vivir intensamente, a la manera española.

Cosas que platicamos hace poco, jefe, en su casa de Émerson, mientras dábamos cuenta de un arroz con azafrán hecho por las manos bordadoras de doña Beatriz, su señora esposa; de un cordero chilindrón con igual sello culinario y de una montaña de Lacón de El Bierzo leonés.

No exijo exclusivamente tragón a don Gustavo. También, jefe, es menester que sepa beber. A más de otras cosas intrínsecamente españolas. Lo demás, será lo de menos.

Lo saludo con afecto
Luis Gutiérrez y González.

EL ANTICOMUNISMO...

(Viene de la página 34) París, consideraba que la batalla a ser trabada en 1978 por las fuerzas liberales en defensa del régimen actual será la última frente al programa común de los partidos de izquierda cuya meta es alcanzar una sociedad que no sólo se transformará en marxista sino que será irreversible.

[illegible]eigh y su grey no se convencen de que Europa siempre modeló el destino de nuestra América. De ahí partieron [illegible]stros conquistadores. De ahí vinieron las ideas liberales de la Revolución Francesa. De ahí se derivó el fascismo que, derrotado en la segunda guerra mundial, se refugió en nuestro Continente para vivir oculto en los países que, hoy, lo exhiben, como una fiera sedienta de sangre, aun sabiendo que sus días están contados.

Los crímenes que el fascismo comete en Chile, en Uruguay, Argentina y otros países, muestran que su naturaleza no mudó, mas no abaten la resistencia de los pueblos afectados, sobre todo cuando esos pueblos se alientan con las victorias alcanzadas en Europa contra Franco y Salazar, en Asia (Vietnam, Camboya, Laos) y en África (Angola, Mozambique, Somalia, Argelia, etc.). Si los muros erguidos por el fascismo, el imperialismo y el neocolonialismo están cayendo, estrepitosamente, en otros Continentes, ¿por qué nuestra América habría de ser la excepción?

El mundo es una totalidad. Los dinosaurios de Asunción no pueden ignorarlo. Ellos suman 180. Y la América Latina son 300 millones. Es eso lo que los exaspera, que los irrita, que los atormenta.

Estas bestias ya no duermen. El marxismo es su pesadilla.

EL CHARRO...

(Viene de la página 43) una obra originalísima, que sin duda alguna llamará la atención también de los historiadores latinoamericanos.

Pregunta: ¿Por qué eligió usted precisamente ese tema?

Leónov: La historia de Centroamérica me [illegible] queños países a quienes los grandes "manejaban" como les daba la gana. Y en segundo, quería rendir tributo de respeto al gran historiador y científico guatemalteco Víctor Manuel Gutiérrez, un hombre de extraordinaria honradez e inaudita valentía, quien me inculcó el cariño a la América Central y me regaló una parte de su biblioteca particular. Entonces me dijo unas palabras que resultaron proféticas: "Por lo que se ve, ni yo ni mis compañeros podremos ya escribir acerca de la sufridísima América Central. Tal vez eso lo hagas tú".

Víctor Manuel sucumbió en las mazmorras de la dictadura guatemalteca. Y esas palabras suyas devinieron para mí un mandato, que yo consideraba indispensable cumplir.

Pregunta: ¿Qué enseñanzas puede sacar la humanidad, a entender de usted, de la experiencia histórica de América Central?

Leónov: La historia de cada país, aunque sea pequeño, y más aún la de toda una subregión, es aleccionadora. Lo importante es seleccionar los problemas y acontecimientos significantes que caractericen con más plenitud las peculiaridades del desarrollo histórico de esos países precisamente.

A mí me parece que América Central, ante todo, da una lección de lucha por la unidad. Toda su historia es la mejor confirmación de una vieja y sabia verdad: "La unión hace la fuerza".

Al mismo tiempo, al analizar la lucha por la unidad en América Central, se llega a la conclusión de que la unidad por sí misma no es un bien o un mal. Todo depende de en interés de quién se realiza. En las condiciones históricas concretas del siglo XIX, la lucha unionista de Francisco Morazán y Justo Rufino Barrios era, sin duda, un fenómeno progre[illegible], pues se mantenía bajo las consi[illegible]s que postulaban la defensa de la [illegible]ependencia de la región, el acelera[illegible]esarrollo socioeconómico y la ampliación de la democracia. Pero no se debe olvidar que también el aventurero norteamericano Willian Walker, que se apoderara de Nicaragua, lanzó asimismo la consigna de la unidad centroamericana: "¡Cinco o ninguna!", pero a base del restablecimiento de la esclavitud y de la supeditación absoluta de esa región a los Estados Unidos. Los pueblos de América Latina rechazaron y rechazarán la unidad en tales condiciones.

Quisiera señalar otra importante enseñanza que se puede sacar al estudiar la historia de América Central: la importancia que tiene valorar y comprender a tiempo a los grandes patriotas y luchadores por la libertad, apoyarlos cuando aún están vivos. Por trágica ironía de la suerte, todos los verdaderos héroes de América Central fueron ejecutados o asesinados por compatriotas suyos, cuyos descendientes hoy idolatran literalmente a aquéllos. Esos héroes son hoy la gloria y el orgullo de las naciones. Pero como suele acaecer con frecuencia, el reconocimiento y la comprensión de sus ideales llegaron sólo muchos años después de haber muerto ellos.

Pregunta: En el libro de usted se menciona con bastante frecuencia a los Estados Unidos. ¿Qué podría decir usted del papel de los mismos en la historia de América Central?

Leónov: A mi entender, la noción más plena sobre la política de los EE.UU. en esa subregión la dan las instrucciones redactadas por el Departamento de Estado para William Jeffers, el primer enviado extraordinario de los EE.UU. en América Central. Se decía en ellas que Centroamérica ofrecía un interés singular para los EE.UU. debido a la situación geográfica de la misma y a la posibilidad de [illegible] Central. En particular se decía en ellas que el bajo nivel de desarrollo industrial y la necesidad de capitales y de hombres diestros debían poner a América Central, para largo tiempo, en dependencia de los suministros extranjeros de diversas mercancías.

Ofrece gran interés en este plano, a mi entender, el discurso que pronunciara el 14 de septiembre de 1853 el enviado extraordinario norteamericano en Nicaragua, Solon Borlund, al hacer entrega de sus cartas credenciales. Declaró sin ambigüedades que la nación que ocupaba tan favorable posición geográfica no podía poseer esa riqueza sólo y exclusivamente en su propio interés, cerrando el acceso a todas las demás.

Mientras tanto, el enviado extraordinario mexicano en América Central (con residencia en Guatemala) escribía a México el 1 de abril de 1854 que los norteamericanos no ponían freno a sus actividades y con una insolencia inaudita procuraban el dominio de todo el subcontinente, apoderarse de él, por lo que creía la necesidad de dar otro giro a las relaciones entre los Estados hispanoamericanos, pues se trataba ya de defenderse, mediante la creación de alianzas militares, de la catástrofe que les amenazaba.

Pregunta: Por cierto, ya que se ha tratado de México, ¿qué influencia ejerció éste, a juicio de usted, en el desarrollo del acontecer en América Central?

Leónov: Se dio el caso de que en algunos periodos, bajo la presión reaccionaria, México actuó en la región de común acuerdo con los EE.UU. Así fue, por ejemplo, en los tiempos de la lucha de Justo Rufino Barrios por la reunificación de América Central (1871-1885). Pero en general, el papel de México ha sido progresista. No cabe ninguna duda de [illegible] el acontecer en México ejerció c[illegible]recuencia una gran influencia [illegible]a en sus vecinos meridionales. C[illegible] ejemplo aduciré aunque no sea más que el periodo de las Reformas en Guatemala, parecido al periodo de las transformaciones realizadas en México por Juárez, quien simpatizaba con sus correligionarios políticos en aquel país y los ayudaba.

Recordaré asimismo que precisamente a bordo de un buque de guerra mexicano marchó al exilio José Santos Zelaya, presidente de Nicaragua depuesto bajo la presión de los EE.UU. Y en los años veinte de nuestro siglo, el gobierno de México concedió a Sandino y a sus compañeros más inmediatos –en los tiempos más duros para ellos– la posibilidad de entrar en México para descansar y curarse y hasta se encargó del mantenimiento de los mismos.

Con frecuencia México hubo de hacer equilibrios en sus relaciones mutuas con sus vecinos norteño y meridionales. Así, explicando el porqué se había negado la ayuda en armas y municiones a los patriotas nicaragüenses, el expresidente mexicano Portes Gil decía en sus memorias que aunque el gobierno y el pueblo de México simpatizaban con la lucha de aquéllos, él no había podido entregarles armas, ya que durante los últimos dos años México mantenía las relaciones más cordiales con los Estados Unidos y él no debía dar ningún paso que redundara en perjuicio de dichas relaciones...

• • •

Para terminar le pregunto a Nikolái Leónov ¿qué quisiera transmitir él a sus numerosos amigos en México?

"Mis más cordiales, más fervientes y más sinceros votos de felicidad, éxitos y salud", responde. A continuación toma mi libreta de apuntes y escribe en ella: "[illegible]

SUBJECT: Nikolay Sergeyevich Leonov (201-132]39)

SOURCE : Petr Deryabin, a former KGB officer whose information has proven reliable in the past.

1. The attached report on Leonov was prepared by Deryabin, who knew him personally in Moscow as an officer of the KGB First Chief Directorate.

MEMORANDUM

SUBJECT: Deryabin comments on (...) ~~Nikolay Sergeyevich Leonov, KGB Officer and Personal Friend of Fidel Castro of Cuba.~~

1. Soviet magazine Latinskaya Amerika, issue No. 4, for July-August 1976 (pp 127-142) published an article entitled "To Your Health, Fidel!" by N. S. Leonov, who is identified in the article as a "journalist".

On page 138 there is a photograph of Fidel Castro with the author of the article, journalist N. Leonov. In this photograph I definitely recognize KGB officer Nikolay Sergeyevich Leonov. I knew Leonov in Moscow as a KGB officer of the First Chief Directorate (FCD). The last time I saw him in KGB Hqs was during the summer of 1953. At that time I did not know in what department of the FCD Leonov worked. (Copy of this photo is enclosed)

2. I recognized another photo of Leonov, N.S., in the late 1950's or the beginning of the 1960's for the Agency or the FBI.

N. S. Leonov also was recognized by me on the photograph published in the Soviet book Viva Cuba, which was published in Moscow in 1963 or 1964. In this photograph Leonov appeared in the company of Khrushchev, Castro and Alekseyev (Shitov) Aleksandr Ivanovich, (also known to me personally as a KGB senior officer.) the Soviet Ambassador to Cuba at that time.

N. S. Leonov also was recognized by me in the photograph published by Golos Rodiny, issue No. 32, for April 1963. In this photograph Leonov's face is shown between Khrushchev, Brezhnev, and Castro at Vnukovo Airport on 23 April 1963 when Castro arrived on his visit to the USSR. 3. In his article, highly praising Fidel Castro, Leonov reviews Castro's life and his accomplishments as a "revolutionary leader". The author revealed that when Castro lived in Mexico, 1955-56, he established contact with Alberto Bayo, former colonel of the Spanish Republican Army, who emigrated to Mexico after the Spanish Civil War, and who became Castro's "military instructor". Also, in Mexico Castro was joined by Che Guevara, who became his close friend. The author briefly mentioned that the CIA had planned "a physical liquidation of Fidel Castro".

In 1963 Castro was awarded the title Hero of the Soviet Union.

The article was written in connection with Castro's 50th birthday, which was on 13 August 1976.

The article provided photographs of Castro and some of his associates. The photographs for the article were provided by Novosti press agency, and by the Soviet magazine Kuba , which is published in Russian and in Spanish.

CIRA/E Comment: According to information in Leonov's 201, he had applied for a visa as an employee of the MFA to the UNGA, in September 1976.

According to SE/CI/Ext. Leonov is presently chief of Service #1 (Information) of the First Chief Directorate.

Any dissemination of this information to field stations or to officers not on the initial distribution must be coordinated with SE/CI/X. As a general rule, PDSTORAGE information is not releasable to foreign or domestic liaison services or to any office outside the DDO.

1. LEONOV, a high-ranking KGB officer, is currently Chief of Service No. 1 (Information) of the KGB's First (Foreign Intelligence) Chief Directorate in Moscow. According to one source, LEONOV was to be appointed Ambassador to Poland, but that assignment was cancelled when he became Chief of Service No. 1. Another source reported in early 1975 that LEONOV was Chief of Service No. 1 and was scheduled to be appointed as Ambassador to Portugal when he received his Service No. 1 assignment instead.

2. LEONOV is very knowledgeable on Latin America and speaks excellent Spanish.

To: J. A. ~~DJR's Preliminary Rundown of Soviet KGB Officers in Mexico City Associated with OSWALD Assassination of Pres. KENNEDY: Notes on~~

This is what I could dig out so far.

1. Notes on : ALEKSEYEV, A. I., known to me personally, senior KGB officer.

2. LEONOV, N. S., known to me personally, KGB officer.

3. SAGATELYAN, M. R. I didn't know him personally, but I have no doubt he is an RIS/KGB officer.

4. ANDRONOV, I. On the basis of his writings, he is probably RIS/KGB officer. For certain, at least a co-optee.

5. KOSTIKOV, V. V. I don't remember whether I identified him previously. He is exposed as a known KGB officer.

6. YATSKOV, P. A. Known RIS KGB officer and I have no doubt about him.

7. I have found some interesting writings in the Star for 18 June 1975, in the column: Party Talk Is Always CIA, by Betty BEALE. There is a discussion about the KGB involvement in the assassination.

Also, in the Washington Post for 19 June 1975, in the editorial page "Russia Reports on the CIA." A copy of these articles is included.

Please let me know if I can provide more assistance to you.

SUBJECT: LIREALM Progress Report, 31 October 1965 through 30 April 1966

ACTION REQUIRED - REFERENCES

References: A. HMMA-27674, 2 December 1965

B. HMMA-28838, 6 May 1966

1. Attached is the second LIREALM progress report, which covers largely the period during which Robert L. EASBY has assumed the handling of this agent. It will be noted that the main headings are those laid out in the statement of objectives forwarded with reference B.

2. Each month, LIREALM gives EASBY a list of new contacts, a brief sketch of each, and any ideas he has on how they might be used to get at his main targets. These are routinely traced in order to give him indications of people of particular interest, or of possible danger to his cover. For example, when he listed Charles and Bertha SMALL as persons he had met at an art exhibit, he was told to avoid them and their group unless at a social function where they could not be avoided. We have no desire to have ODENVY open a dossier on him.

3. Of the attached listed contacts, Station has traces only on the following:

a. Alimuddin LUBIS. The only material available is that contained in HMMW-14223, 22 December 1965.

b. Suzanne *FELICIEN. LIREALM has previously reported she is in charge of "medical relations" and scholarships at the French Embassy. The only other information in the files is that provided by Albert de BONFILS in June 1962 through a casual Station contact. Since we were never in direct touch with him, and owing to the questionable nature of the whole BONFILS background and the lack of any solidity, this information must be accepted with some reserve. "Extreme Communist--propagandist--extremely dangerous--bad influence on scholarship students whom she uses as instruments and contacts--head of the scholarship service--much favoritism in the distribution of scholarships--accepts and demands gifts and money--obliges certain applicants to take French lessons which she gives and charges for. These lessons are her method of indoctrinating them."

c. Jean-Claude *DUCLAY. A routine memo from Barbara C. HUFIG, dated 26 November 1964, mentioned subject as having been in charge of the intensive French course taken by members of the doctoral and the history programs at El Colegio de Mexico. On 23 November 1964 he married Irene *AZNAR, then about 27, who was also teaching in the course and who had been here only since 1963, coming directly from France where she had been a teacher.

d. Beno and Carol Cook *LIEBERMAN. LIREALM and his wife met Mrs. Lieberman shortly after they arrived here. Beno they met in late January at the Mexican Folklore Association, which they conduct weekly at their home. It is a variety of "hootenanny" where both hosts and guests perform, and occasionally visiting entertainers appear. It is a meager living indeed, with 25 pesos a person being charged, and fortunately they do not have to depend on it, since Carol Lieberman has a fairly well paying job at The News. Beno was described as aesthetic-looking, undernourished, ill-kempt and very Jewish looking. However, LIREALM found him sensitive, gentle and interested in people. It was at one of these evenings where LIREALM met Nikolay LEONOV (see below). The Lieberman's were also reported to have attended a luncheon at the home of Pearl [illegible], one of the reporters for The News, at which two officers of the Soviet Embassy were guests.

e. Nikolay Sergeyevich LEONOV (201-132134)
Leonov and LIREALM spent the evening discussing chess and later made an appointment to play at LIREALM's house. This visit was marked by totally unpolitical conversation and Leonov asked no leading questions. The two couples got on well, and a return match is planned. (A personality report is being prepared on Leonov and will be submitted after the second meeting. LIREALM is being encouraged to see Leonov, about whom little concrete is known outside of his cover work.)

4. The format of these reports will require some reworking, and this will be done following EASBY's return from home leave. During EASBY's absence, LIREALM will report to Willard C. CURTIS whom he has already met.

LIREALM Progress Report

31 October 1965 - 31 April 1966

1. The period October 1965 to February 1966 was largely devoted to building a circle of useful contacts in the French colony and intellectual world and getting to know the case officer. When the latter left in early 1966, I was introduced to my present case officer. Past activity was reviewed and evaluated, targets discussed and objectives clearly defined.

2. The following will give some indication of advances made so far against the target objectives laid out in HMMA-28838:

   a. French Embassy floor plan. Under various pretexts, numerous visits have been made to the Embassy. A rough diagram is ready with the occupants of most of the offices identified. Remodeling of the building is in process. Some officers will be transferred from one room to another. The basic structure of the building will not be altered.

   b. Contacts leading toward the French target. Those persons named below have all been met at least once during April and are deemed to be worthy of further development for their apparent access in the French community. This number represents only a fraction of persons met and virtually discarded for lack of operational promise:

      201-...

      (1) Regis Thillaye du Boullay. Met on several occasions. Press Attache of the French Embassy, and possibly their Political Section head. Several sources

CS COPY

describe him as displeased with his present rank at the Embassy. Some bio data is now available, but further development is definitely warranted. He is friendly and approachable. His value lies in (a) his leading to other Embassy officers and providing bio data about them; (b) his being disgruntled and providing information wittingly; (c) his being an intelligence officer.

(2) Henri de *Coignac. Met on several occasions. Have made tentative tennis date. Is very close to the Ambassador. The nature of his relationship or the services provided to the Ambassador have to be determined.

(3) Genevieve *San Jose. Have seen on several occasions and have established fairly friendly relationship. She is a journalist with the Le Journal Francais. Has already been a source of some bio data about Embassy officers, introduced to some members of French colony, corroborated some information obtained elsewhere.

(4) Marie Bidenult *Lesort. Switchboard operator at Embassy. Unmarried, friendly, helpful. Have visited her on various pretexts, now stop by just to say hello. Hope to set her up for another agent to meet and develop.

(5) Valentine *Honorat. Secretary to Jacques Seigle, Attache at Embassy. Elderly, friendly, helpful. Corrected letter I wrote to Ambassador. In return I gave her a box of chocolates for which she seemed genuinely grateful. Offered to help me in future in any way she could.

(6) Suzanne *Felicien. Assistant to Cultural Attache. Seen several times on business. Friendly. Known to mutual friends. Possible source of bio data on other Embassy personnel. Has invited my wife and me to dinner. This could be our first important break.

SECRET

c. Possibly Significant Contacts. Because of my close friendship with them, their access or their lack of apparent income.

(1) Jacques C. *Derney. Private businessman, "Artistic Counselor." Lives outside his apparent income, probably homosexual.

(2) Jean-Claude *Duclay. Professor at Centre Scientifique. Very friendly. Function of Centre and reason for its enormous staff not clear.

(3) Francois and Monique *Gilliot. Commercial Attache. He is very anti-U.S. She is friendly to my wife.

(4) Andre and Norma *Lesur. Close ties with Andre could lead to close friendship. Very prominent in French colony. Wealthy businessman. Possibly willing to collaborate with us wittingly.

d. Mexican Intellectuals

(1) Beno and Carol Lieberman. Run Mexican Folklore Association. Have access to large circle of Latin American semi-professional musicians and entertainers. Gradually obtaining bio data on Beno and his friends.

(2) Policiano *Bejar. Prominent artist. Friend of the U.S., but has many friends among the Mexican left.

(3) Martin *Foley. British national. Manager of Bejar. Technical director of Ballet Folklorico. Brilliant, friend of many Mexican artists and intellectuals, left and right.

(4) Adrian *Leyva Schoonmaker. Professor at Unidad Prof, de Zacatenco. A professed socialist. Brilliant student, introverted and peculiar. Access to leftist circles.

e. UAR

(1) Michel •Hamed. Low ranking member of Embassy. Met once, January 1966. No further progress or efforts made.

f. Indonesia

(1) Alimuddin •Lubis. Press and cultural attache. Very friendly. I have not yet followed up.

g. Soviet

(1) Nicolay T. Leonov. Press Attache. Off to a very friendly and casual start socially. Have permitted one month to pass without contacting him in order not to seem overly eager. I feel I can call him next week and proceed cautiously to develop him if mutual interest seems to be there.

3. Over the next few months, these contacts will be further refined, in coordination with the case officer. Owing particularly to the variety of French contacts, it should be possible to settle before too long on a handful of fairly productive sources of personality information.

Source does not know what his position in Mexico was. (Comment: Subject was an employee of the Soviet Embassy in Mexico City from July 1953 to October 1956). He then returned to Moscow and entered the KGB Intelligence School in ca 1958 and graduated in 1960. (Comment: Presumably Subject joined the KGB after his return from Mexico). Later that day [illegible] told [illegible] there would be a meeting on Monday at [illegible] home at [illegible], [illegible] of the "peace contact." [illegible] said the "white doctors" had been informed of it but that [illegible] [illegible] [illegible] [illegible] and "[illegible]" (this is believed probably to be [illegible] [illegible], [illegible] in the [illegible] [illegible] and the Partido Popular) had not yet been informed. [illegible] said that there would then be a meeting with the General Sunday afternoon.

6. On 7 January [illegible] informed [illegible] that the meeting with the General had been changed to Monday (9 January) at 20.0 hours. Apparently, the group which would meet with J[illegible] was to gather first at the home of [illegible] at [illegible]. Among them, in addition to the names mentioned above would be Dr. [illegible] (believed to be Dr. Guillermo [illegible] [illegible]). (It is concluded that the meeting referred to in paragraphs 6 and 7 must have referred to the [illegible] [illegible] Committee since the people mentioned are all active in it.)

7. On 12 January 1956 Mrs. [illegible], daughter of General J[illegible], again called the Soviet Embassy about the clinical [illegible]. They were not ready. She stated her father was ill in Veracruz. She gave her telephone number as 14-[illegible]-39, which is that of Dr. [illegible] [illegible] [illegible] at [illegible] [illegible], D.F.

Action: It is proposed that when LIEMPTY-2 is finally cleared, he be given the assignment of identifying as many as possible of JARA's supporters who have positions in the Mexican Government. Meanwhile, it seems likely that other [illegible] information will be received through [illegible].

On 3 August 1955 [illegible] called the Embassy to inquire about the type of dress to be worn to a social function that evening.

This matter aroused the interest of the Station because it is not often that the Soviets deliver documents to private parties.

ПЕРУ: ВСТРЕЧА С МИНИСТРОМ

Нужно немало поколесить по Лиме, прежде чем выберешься на окраины города. На одной из них, на пустыре возводится новое здание министерства энергетики и горнорудной промышленности Перу. Раньше такого министерства не существовало, так как соответствующие отрасли народного хозяйства были на откупе у монополий США. Но времена меняются. Перуанцы не только берут под свой контроль иностранные капиталовложения в столь жизненно важной сфере народного хозяйства, но намерены сами управлять этой отраслью экономики своей страны.

Третий этаж здания еще в лесах, крыши нет. Кругом - лязг и грохот, как на всяком строительстве. А в цокольном и первом этажах уже кипит работа. Сотрудники нового министерства разрабатывают основы политики в области энергетики и горнорудного дела.

Министр Хорхе Фернандес Мальдонадо, в январе этого года произведенный из полковников в генералы, один из активных участников военного переворота 3 октября 1968 года. Он согласился встретиться с корреспондентом АПН. Кабинет министра находится в полуподвальном помещении. Ни приемной, ни секретарей. Внутри - скромная мебель. За столом Фернандес Мальдонадо.

Нефть и горнорудная промышленность являются основой экономики Перу. (В 1968 году продукция этих отраслей составила 52 процента национального экспорта и дала стране

440мин. долларов).

-Каковы будут главные принципы политики правительства в этих важных отраслях экономики? - Спросили мы министра.

- Революционное правительство намерено обеспечить эксплуатацию горнорудных богатств в интересах страны. Находясь в руках частного капитала, эти богатства нередко служили спекулятивным целям, - заявил он. - Мы примем законы , которые в обязательном порядке заставят концессионеров разрабатывать месторождения и не позволят приобретать за бесценок право собственности на эксплуатируемые месторождения.

Мы надеемся развивать мелкие и средние предприятия, росту которых будут содействовать и налоговые льготы, и особенно наша кредитная политика, система государственного строительства дорог, геологических исследований и т.д. Конечно, - подчеркивает министр, - это не значит, что мы [illegible] действовать развитию крупных горно[illegible]й, когда их деятельность не будет проти[illegible]в[illegible]сам нации.

Учитывая частые заявления прессы и политических деятелей США о том, что в Перу-де начинаются "гонения" на американские капиталы, мы поинтересовались у министра, чем обоснованы подобные заявления.

- На иностранный капитал, - ответил Фернандес Мальдонадо, - у нас не накладывается других ограничений, кроме необходимости подчиняться перуанским законам. Мы намерены создать из разрозненных законоположений единый

кодекс норм, регулирующих деятельность иностранцев. Этот кодекс охватывает проблемы налогообложения и контроля над использованием валютных средств, вопросы техники безопасности и гигиены труда, основы взаимоотношений между иностранными концессионерами и рабочими и т.д.

В области ископаемых энергетических ресурсов (нефть, газ, уголь) государство оставляет за собой преимущественное право добычи, обработки и реализации продукции. Основная нефтехимическая промышленность также будет принадлежать государству. Революционное правительство заявило: частный капитал будет допускаться только на основе временных производственных контрактов.

Касаясь перспектив укрепления энергетической базы страны, министр сказал, что сейчас в центральной части Кордильер ведется строительство гидроэлектростанции. Мощность первой очереди составит 325 тыс.киловатт. Затем она будет доведена до I млн.квт. Осуществление многих других проектов, имеющихся в портфеле министерства, пока задерживается из-за напряженности в платежном балансе страны. Специалисты министерства работают над проблемой быстрейшего использования для выработки электроэнергии попутных газов нефтяных месторождений.

Министр говорит о том, что придет время, когда Перу наверстает потерянное и сможет приступить к использованию ядерной энергии в народном хозяйстве. Для выполнения намеченных планов стране потребуется экономическая и техническая помощь извне, и любое участие СССР в этой области будет приветствоваться.

– Путь революции не усыпан розами, но мы готовы идти по нему вперед, невзирая на разные уколы и занозы, – сказал министр в заключение встречи.

Лима.

SUBJECT : VOL...V, Valeriy
(aka . VOL...V, Valeriy Vasilyevich)

1. Reference is made to your request dated 12 September 1969 concerning Subject.

2. On 22 December 1966, an article entitled "Russians Continue Passing Themselves Off As Journalists" appeared in La Prensa Libre, a newspaper published in San Jose, Costa Rica, which made the following statements concerning Subject. According to the article, Subject, a journalist, had shortly prior to the date of the article arrived in Chile to attend the Congress of the CUT (Central Worker's Union). In this respect Subject's name was linked with that of one Mikhail KOLESNIKOV and one Aleksandr OPERUNOV, who were also to attend the Congress, and who, according to the article, on a previous visit to Colombia, had been accused of espionage activities by the Colombian authorities. La Prensa Libre article goes on to quote the Chilean magazine Politica, Economia, Cultura, as stating that Subject "does not work for any publication or information medium of the USSR which operates regularly. He prudently has not bragged about doing it, because recently no less than 100 representatives of Soviet newspapers, radio, or information agencies who work abroad (Pravda, Izvestia, TASS, Novosti, Radio Moscow) have been accused of being spies in the service of the KGB. In Latin America alone 15 Russian journalists have been declared persona non grata."

3. According to a report dated 12 August 1969 from a usually reliable source, Subject, the editor (sic) of Komsomolskaya Pravda, who had been permanently stationed in Havana, Cuba, since March of 1966, had visited Peru from 4 July to 5 August 1969. The files of this office contain the following reports concerning Subject's visit to Peru which may be of interest:

a. A report dated 8 July 1969, from the same usually reliable source of paragraph 3, provided the information that on arrival in Lima, Peru, on 4 July, Subject was not met at the airport by representatives of the Soviet Embassy, but went directly to a private residence where he spent the night. Source stated that shortly following his arrival in Lima, Subject made comments to the effect that he was a very close friend of one Nikolay Sergeyevich LEONOV. For your information, LEONOV had arrived in Peru on 23 April 1969, as a NOVOSTI representative and remained until 17 July 1969. Based on his activities and associations during his tour of duty in Mexico from May 1953 to 22 December 1968, LEONOV is considered to be a staff officer of the KGB (Soviet Committee for State Security). Further comments by Subject on this occasion which were reported by Source referred to a trip to Moscow to attend a World Peace Conference which Subject had made shortly prior to the date of the report. According to Source, Subject stated that while in Moscow he met one Felix Cabada ARIAS Schreiber, a member of the Central Committee of the Pro-Soviet Communist Party (PCP/Soviet) of Peru, and followed this statement with various questions concerning members of the PCP/Soviet, the situation in the universities, and the current strength of the revolutionary vanguard. Finally, Source also reported that on the following morning, 5 July 1969, Subject contacted the Soviet Embassy and was instructed to immediately obtain a room at the Savoy Hotel, where LEONOV was staying. According to Source, Subject was informed by the Soviet Embassy that staying at a private residence in Lima might create suspicions on the part of the local authorities and that the Soviet Embassy preferred to avoid such problems.

b. A second report, dated 11 July 1969, from a reliable source, provided the information that since Subject's arrival in Lima, Peru, on 4 July 1969, he had been in frequent contact with the Soviet Ambassador to Peru, one Yuriy Vladimirovich LEBEDEV, and with LEONOV (paragraph 3a). Source also stated that Subject was treated with notable deference by the Ambassador.

c. According to a report dated 1 August 1969 from the same reliable source of paragraph 3b, during his Peruvian visit Subject contacted one Edwin PEREZ, Traffic Manager of Faucett Airlines, and offered to sell him a small aircraft on very attractive terms. Source stated that PEREZ is interested in planes for a small private air service which he runs apart from his job with Faucett Airlines.

d. In an additional report dated 11 August 1969, the same usually reliable source of paragraphs 3 and 3a reported that prior to his departure from Peru on 4 August 1969, Subject stated that he hoped to have his office of Komsomolskaya Pravda transferred from Havana, Cuba, to Lima, Peru. He stated that the Soviet government is extremely interested in the current situation in Peru and is watching developments closely. According to Source, Subject also stated that he believed he had made a good impression on the Peruvian government and had made friends in Peru. In this regard, Subject mentioned that he had become very friendly with one General Marco Fernandez BACA Carrasco, the head of PETROPERU (Peruvian State Petroleum Agency). Subject also stated that BACA had arranged trips for Subject at the expense of the Peruvian government to Talara and Iquitos, Peru. [Comment: No immediate explanation was apparent for Subject's activities and comments as reported in paragraphs 3a and 3d.]

4. For your information, in the same 12 August 1969 report of paragraph 3, the same usually reliable source stated that Subject stated before his departure from Peru that he planned to return to attend the Congress of the Youth Faction of the Pro-Soviet Communist Party of Peru (JCP/Soviet), and stated that he planned to visit other Latin American countries, including Colombia and Ecuador, after leaving Peru. The comment was made in this report that Subject might also be planning to attend the meeting of the World Federation of Democratic Youth which was scheduled to be held in Bogota, Colombia, the 9th through the 12th of October 1969.

EL CASO LEONOV

Nikolay Sergeyevich LEONOV arribó a Lima el día 23 de Abril de 1969. LEONOV, subdirector del servicio de prensa NOVOSTI en Latino-America, es experto en asuntos latino-americanos. Y también es alto oficial de la KGB, el servicio secreto de inteligencia de la Unión Soviética. Durante su estada de diez años en Mexico, funcionaba como segundo secretario y agregado de prensa de la Embajada Soviética para dirigir el curso y financiamente del apoyo clandestino de la Unión Soviética a todos los partidos comunistas de Latino-America. Si estos años de actividad subversiva muestran indicios del papel que desempeñó como representante oficial del gobierno soviético (y así lo indican los contactos que tomó) se puede suponer que el propósito de su misión en Lima no consiste meramente en informar al pueblo soviético sobre el Peru y los Peruanos.

Las actividades de LEONOV tambien incluyen apoyo a los movimientos guerrilleros. Como se vera, en Abril de 1968, mientras que desempeñaba su misión como oficial de la Embajada Soviética en Mexico, LEONOV fué identificado como el diplomático soviético que entregó más de cien mil dólares al colombiano Feliciano Pachon Choconta para uso de la FARC y el ELN. PACHON fué capturado al ingresar a Colombia con este dinero. (Al ser capturado PACHON, se le incautó un trozo de papel que contenía la dirección de la oficina de LEONOV en Mexico en la Avenida Mazatlán.) Como una prueba más de su complicidad en este caso, Moscú ordenó su regreso inmediato cuando el citado asunto fué desenmascarado por la prensa.

Pero, a pesar del riesgo que acarreaba la publicación de dicho incidente, de conducir a la ofensiva diplomática de los soviéticos en Latino-America hacia un fracaso, el régimen soviético persistió en su propósito de alentar la subversión en nuestro continente y para lograr su objetivo nos ha enviado a LEONOV por segunda vez. El 23 de Abril, cuando se encontraba de tránsito en Bogotá, tomó contacto en el aeropuerto con varios miembros de la unidad clandestina del Partido Comunista de Colombia. Se presume que en esta ocasión se discutió sobre la presunta complicidad de LEONOV y su dirección de los nuevos frentes guerrilleros que vienen operando en la frontera panameña-costarricense, así como también de los grupos en Venezuela y Colombia y los terroristas en Puerto Rico.

A su arribo a Lima el mismo día, LEONOV se reunió con los representantes locales a quienes dió a conocer su plan de establecer oficialmente un despacho de NOVOSTI en Lima---un bien establecido método de los soviéticos para sentar la base legal y abierta que luego se emplea para ocultar el verdadero propósito de los soviéticos que es la dirección y financiacion de la actividad subversiva. (Hasta la fecha no menos de cien representantes de la prensa soviética han sido publicamente desenmascarados como agentes de espionage en diversos paises del mundo. Treintaidos de estos fueron expulsados como persona non grata, incluso quince que operaban en Latino-America.)

LEONOV no ha perdido cualquier oportunidad para establecer sus contactos. De fuentes fidedignas bien informadas en Mexico se destaca que LEONOV ha tomado contacto en el Peru con estos miembros del PCP: Jorge Vladimiro del PRADO, Raul ACOSTA Salas; Isidoro BAMARRA Ramirez; Mariano Eleuterio MUNIZ Yabar; y con los activistas del FLN, Pedro Anibal MOROTE Cornejo; Angel CASTRO Lavarello; Walter SOLORZANO; Jesus HORNA Galvan; Purificacion ROMERO Esquivel; y Amelia FLORES, Ademas, ha visitado en Piura y Talara donde tomó fotografias de las instalaciones petroleras; y en Pisco y Tambo de Mora donde estableció contacto oon los sindicatos de obreros pesqueros; y en junio viajó tambien a Arequipa y Cuzco. Lev Aleksandrovich NOVIKOV, representante de Radio Moscú en Santiago de Chile y presunto agente de espionaje, se reunió en Lima con LEONOV y estuvo con él varios dias.

Durante su estada en Mexico, LEONOV viajaba a menudo a Cuba donde se reunía con altos dirigentes del régimen cubano, incluso

ATT 1 TO HFLA 11204   CS COPY

con Fidel Castro y Che Guevara. Como entonces no existían relaciones diplomáticas entre la Unión Soviética y los países de Centro-America, ni tampoco con los de la costa norte de Sud America, uno de los cargos principales de LEONOV era coordinar con los cubanos la guerrilla armada, y especialmente en Venezuela y Colombia. Ademas LEONOV era el especialista de la Embajada Soviética en Mexico en las actividades con los exiliados comunistas que vivían en esa capital. Interesa saber que en 1961 LEONOV viajó a Cuba con el cargo especial de actuar como interprete en las charlas secretas sostenidas entre Fidel Castro y el entonces representante soviético a las Naciones Unidas, Anastas Mikoyan. No cabe duda de que entre la Unión Soviética y Cuba existen diferencias ideología y táctica, pero en lo que se refiere al establecimiento clandestino de focos guerrilleros en Centro-y Sud America, existe amplia evidencia de estrecha cooperación entre los dos gobiernos y del financiamiento soviético de estas operaciones. El caso Pachon, previamente citado en este informe confidencial, es uno de los muchos que se divulgó publicamente, gracias a la diligencia del servicio nacional de seguridad de Colombia. El interés de Cuba por los hechos que ocurren en el Perú sin duda estarían ligados a la presencia de LEONOV aqui y con sus largos y frecuentes viajes al interior. Ocurre preguntar: ¿se le permitiría a un periodista peruano tomar fotografías de refinerías de petroleo en la Union Sovietica, tal como lo ha hecho LEONOV en el Peru? ¿Se le permitiría a un diplomático o periodista peruano viajar tan libre y extensivamente por la Unión Soviética, pretextando estar reuniendo informaciones y articulos para NOVOSTI? ¿Existe alguna relación entre los desordenes provacados por estudiantes y campesinos que se vienen desencadenando en el interior del país y los extensos viajes de LEONOV a esta región? La respuesta parecería lógica si se toma en cuenta la vasta experiencia de este agente en las actividades subversivas. Y más lógica aparece la conclusión cuando se sabe que estableció contacto clandestino en el Perú con el comunista Pedro Anibal Morote Cornejo, citado en los primeros párrafos de este informe, que también es miembro y dirigente del FLN. Morote se entrenó en la guerra de guerrillas en Cuba en 1962 y a petición personal de Fidel Castro se unió al FLN para actuar como enfermero. Ahora se encuentra en el Perú y ha tomado contacto con LEONOV. Precisa preguntar por qué, y para qué.

Monograph of Nikolay Sergeyevich LEONOV

Nikolay Sergeyevich LEONOV, the Soviet official who visited Peru from 23 April 1969 to 17 July 1969 as a representative of the Soviet news agency NOVOSTI, is a long-time,firmly identified KGB officer who served in Mexico during most of the period 1953-1968. Although he was able to function effectively in his overt jobs as Cultural Attache and later Press Attache, he was consistently active in clandestine support of Latin American revolutionary and subversive activities, particularly relating to Guatemala. Following are details of his career.

LEONOV was born 22 August 1928 in Ryazan oblast, USSR. His wife, Valeriya Ivanovna, was born 28 April 1928 in Ryazan. As of 1968 the LEONOVs had one daughter, Irina, born in 1962.

LEONOV was first posted to the Soviet Embassy in Mexico in May 1953. His initial position was secretary to the Soviet Ambassador. In addition to administrative duties and cultural matters, LEONOV functioned as a translator and interpreter, since he spoke excellent Spanish.

Two of LEONOV's most interesting contacts from his first tour in Mexico were:

a. Fidel CASTRO. CASTRO, who was in exile in Mexico from 1953-56, was arrested by the Mexican police in June 1956, and a ~~police~~ search revealed LEONOV's calling card in CASTRO's possession. [1]

b. Bernardo LEMUS Mendoza. LEMUS, an important Guatemalan Communist youth leader, was a close friend of LEONOV's dating from the period 1953-56, during part of which time LEMUS was in exile in Mexico. [2] LEMUS, who was a friend and former prison-mate of Raul CASTRO, allegedly conducted liaison in Mexico City during 1955-56 between the Cuban Communist Party exiles and the Fidel CASTRO group.

LEONOV and his wife departed Mexico City on 17 October 1956 for the USSR, where they remained until their return to Mexico in 1961. While in the USSR, LEONOV was used for important interpreting chores; most notably, he accompanied Soviet Vice Premier Anastas MIKOYAN on his trips to Mexico and Cuba in November 1959 and February 1960. During the

February 1960 trip to Cuba, LEONOV first met Ricardo MIRANDA Aldana, Guatemalan Communist and revolutionary who was then in Cuba recovering from wounds received in a Cuban-sponsored, Nicaraguan-led movement to overthrow Nicaragua's President, General Somosa. Leonov was to have later clandestine contact with MIRANDA in Mexico.

On 31 July 1961, the LEONOVs returned to Mexico. This time, LEONOV was listed as Third Secretary and worked as assistant to the Cultural Affairs Officer, Svyatoslav Fedorovich KUZNETSOV. A KGB officer KUZNETSOV is, as of this writing, once again serving in Mexico, this time as First Secretary of the Soviet Embassy.

During this tour of duty, LEONOV's particular responsibility for support of the Guatemalan revolutionary effort began to emerge. In January 1962, Ricardo MIRANDA Aldana, Guatemalan revolutionary mentioned above, passed through Mexico City on his way to Cuba for guerrilla training. MIRANDA, reported to be in charge of accumulating arms for the activist arm of the PGT (Guatemalan Communist Party), brought to Mexico a message for the Soviets. He delivered this message to the leading Guatemalan exile in Mexico in direct touch with the Soviets, Victor Manuel GUTIERREZ, who passed it to his Soviet Embassy Contact.[2] During MIRANDA's stay in Mexico, LEONOV met with him. MIRANDA returned to Guatemala from Cuba

in October 1963 and thereafter took a leading role in PGT/FAR guerrilla actions. As of 1965, he was a member of the Military Commission of the PGT and conducted terrorist actions. He had in his possession at that time sketches of the homes of various Guatemalan officials who were on the PGT/FAR assassination list. MIRANDA was arrested in September 1965 on charges of assassination of two Guatemalan businessmen. He apparently was released, or escaped, about mid-1966. He left Guatemala, and is believed to have gone to Mexico and to have had clandestine contact with LEONOV there in December 1966.[3] MIRANDA returned to Guatemala after spending some time in El Salvador, and was killed on 3 May 1967 near Guatemala City by unknown assailants.

In 1963, LEONOV was also in clandestine contact with a former Mexican army officer named Lorenzo CARDENAS Barajas, who was heavily involved in the procurement of arms for the Guatemalan revolutionaries. CARDENAS, a fervent adherent of the revolutionary left, had contact with Victor N. GLOTOV, another KGB officer in the Soviet Embassy, Mexico, as well as LEONOV. LEONOV is known to have met CARDENAS clandestinely two days before LEONOV left for the USSR on vacation on 21 April 1963.

LEONOV is believed still to have been in contact with CARDENAS as recently as March 1967.[5] In recent years, CARDENAS has been active in the Movimiento Latinoamericano de Liberacion, a Latin American revolutionary organization founded in Mexico in 1964 and headed by Guillermo CARNERO Hoke, a Peruvian who has spent many years in exile in Mexico, and is now back in Peru. CARDENAS' activities have involved agitation among Mexican students and peasants, which led increasing difficulties with the police, and he claims to have asked for asylum in Peru in 1968.[6]

LEONOV and his family went on home leave to the USSR 21 April 1963 to 20 July 1963. During this leave, LEONOV renewed an old acquaintance with Fidel CASTRO, serving as CASTRO's interpreter in the USSR in May 1963. After home leave, LEONOV returned to Mexico, where he remained (except for two more trips to the USSR in 1964 and 1966) until 22 December 1968, when he and his family departed permanently from Mexico. Upon his return to Mexico from home leave in 1964, LEONOV was promoted to Second Secretary and Press Attache at the Soviet Embassy.

LEONOV, in his role as Press Attache, was energetic and effective. Although he was mainly responsible for the work of the Press Office, which was in the same building as

his living quarters, he spent a great deal of time at the Soviet Embassy proper, going out frequently for his many meetings. He was popular among his wide contacts among newspapermen in Mexico and his most intimate press contact was Luis SUAREZ Lopez, a Spanish Communist journalist with the Marxist weekly magazine, Siempre. LEONOV saw SUAREZ very frequently on press placements and possibly other matters. SUAREZ has a long history of pro-Soviet activities, is a member of the Communist front International Organization of Journalists, and has traveled extensively in the Soviet bloc, Communist China, and Cuba.

As to LEONOV's personality, he has a pleasant, outgoing manner, is extremely intelligent, and gets along well with both his colleagues, and his numerous outside contacts. He is hard-working, generally accommodating to people, and is a good conversationalist. He enjoys playing tennis, volleyball and soccer. He also likes to hunt and fish, and enjoys chess. In addition to excellent Spanish, he speaks English. On the negative side, LEONOV gets along badly with his wife; they often quarrel violently, and he neglects her for his numerous sports and social activities. He is also quite unkind and cutting with those whom he regards as his

intellectual inferiors, treating them quite rudely when he is in a bad mood.[7, 8, 9, 10]

As Press Attache, LEONOV had the pretext for contact with many people with whom he had apparently innocuous relationships, but probably developed for intelligence purposes.

As an example, he had close contact with Victor RICO Galan, a Spanish-born, naturalized Mexican Communist journalist, who has very close ties to both the Guatemalan revolutionary movement and the Cubans.[11] RICO was a founding member in 1962 of the MLN, a pro-Cuban Communist front organization. A regular writer for Siempre and Politica magazines, RICO acted, in Spring of 1965, as the Radio Havana representative in Mexico for coverage of the Dominican situation. LEONOV consulted frequently with him at this time, meeting in RICO's home or in cafes. LEONOV also established direct contact with certain Dominican exiles through RICO.[12] In August 1966, RICO was arrested and imprisoned because of his leading role in the Movimiento Revolucionario del Pueblo, which had been organizing an armed insurgent movement in the Mexican countryside.[14] This movement was reported to have secret radio contact with Cuba. RICO was arrested as he was about to board a flight to Cuba.[15]

Other LEONOV's Mexican contacts of particular interest are:

Roberto JARAMILLO Flores, Mexican former President of the youth Section of the Mexican Socialist Party (JPS), and in 1967 involved with the revolutionary Students Front, youth affiliate of the National Organization of Revolutionary Action. JARAMILLO and LEONOV were in frequent contact, particularly in 1963-64, on matters involving the JPS, over which the Soviets were exerting active control.[16]

Juan REJANO Porras, Spaniard, member of the Central Committee of the Spanish Communist Party, leading intellectual and poet. REJANO and LEONOV had been in regular contact since at least 1965. Meetings between them were arranged through a third person, another Spanish Communist employed in LEONOV's Press Office.[17] REJANO was, as of 1968, editor of the Czech Bulletin, published in Mexico by the Czech Embassy.

Enrique SEMO Calev, Bulgarian-born long-time member of the Mexican Communist Party. LEONOV and SEMO had frequent social contact, as well as dealings on press and cultural matters. SEMO assisted LEONOV in developing social contacts outside of his normal area of access.[18]

A particularly interesting foreign contact of LEONOV's was Carlos BONILLA Sanchez, Communist labor leader from Colombia. He and LEONOV, reportedly close friends, were in correspondence during 1966-67. BONILLA was President of the Federacion Sindical de Trabajadores de Cundinamarca (FESTRAC) until November 1964, when he was removed because of his Communist sympathies. He visited Cuba at the special invitation of Fidel CASTRO in November 1964, transiting Mexico on the way,[19,20] where LEONOV was at that time. It should also be noted that LEONOV traveled to Lima on 23 April 1969 via Bogota.

LEONOV's connections with Feliciano PACHON Choconta, Colombian Communist courier arrested in April 1968, have been discussed in a paper previously provided to you, and so will not be repeated here.

Although LEONOV's sphere of KGB activity obviously broadened considerably over the years, as he gained contacts and area knowledge; his involvement with Guatemalan matters continued throughout his long stay in Mexico. As recently as 1968, he was reliably reported to still be the main clandestine Soviet contact for the Guatemalan Communists in Mexico.[14]

The LEONOVs left Mexico permanently on 22 December 1968, and returned to the USSR.

LEONOV, during his years in Mexico, showed himself to be a capable, hard-working intelligence officer, who was able to fulfill his cover job with skill and at the same time pursue his clandestine missions. It may be presumed, on the basis of his capacities demonstrated in Mexico, that he will have worked effectively in his apparent task of setting up the Novosti news agency in Peru, and that he will also have begun to develop contacts among the Peruvian Communist Party and other sympathetic elements with an eye to spotting and assessing prospective agents for subsequent exploitation by the KGB reszidentura which will inevitably function as a part of the new Soviet Embassy.

Comments on Dispatch HPLW-5390

SUBJECT: The LEONOV Matter (Nikolay Sergeyevich LEONOV, (201-132139)

REF : HPLW-5390, Typed 29 August 1969

GENERAL OBSERVATIONS:

1. With one exception (HCGW-4035, 2 Dec 66), the personality and biographic report on LEONOV is based entirely on Mexico City reporting. Much of this appears to be quite sensitive if passage to Peru liaison is intended.

2. Since the report concerns a Soviet official, the fact that the report is based upon WH Division material exclusively appears to be self-limiting and, possibly, self-defeating.

3. Although the writer of the report refers to its acceptability to SB Division, there is no SB coordinator.

4. It would appear that, to achieve the desired result (and we don't really know what this is), it would not be necessary to go into such exacting detail. A more generalized report, following more or less an AEASSAULT format, might achieve the results desired by Station Lima without the pitfalls of utilizing the sensitive material incorporated in the present compilation.

5. Seeking approval of Station Mexico City for the release of the total report seems to violate the concept of Headquarters control of operational information. Would it not be more appropriate to ask Station's opinions only in areas of doubt in the matter of source-sensitivity?

6. Although this dispatch was coordinated according to para 2 with SB Division and the Guatemalan Desk, the first inkling this Branch got of the paper is when the dispatch arrived on my desk.

7. This is a good paper for the Lima Station background information. For passing to a third liaison service, it poses some potential danger to the Mexico Station clandestine sources:

a. page 2 - LIVESTOCK-3 is now dead but he was also a Soviet Embassy contact in Mexico and was run by the British. He was fired by us for unreliability.

The search team that arrested Fidel CASTRO and did the interrogation was LITEMPO-4 (now an important Station contact) and only about four years or so ago told COS about the calling card of LEONOV.

b. page 3 - Specific information about MIRANDA trip in January 1962 and delivery of message to GUTIERREZ could pinpoint the source : LINLUCK/ ESDEW-1.

c. page 4 - Specific date of clandestine contact between MIRANDA December 66 could pinpoint LIFEAT on LEONOV residence.

d. page 4 - Specific date of clandestine contact between LEONOV and CARDENAS 19 April 1963 might reveal surveillance (LIEMBRACE though probably would not identify team members. It could also be argued that Soviets have long ago identified these teams.)

e. page 5 - CARDENAS' request for asylum in Peru could pinpoint BITEMPO-12. In any event, references to the police sources throughout the report definitely tell Lima authorities that CIA is working closely in Mexico with the Mexican officials.

f. page 8 - REJANO Porras and LEONOV. The sentence "Meetings between them were arranged through a third person, another Spanish Communist employed in LEONOV's Press Office" implies clandestine coverage of that office (LIFEAT).

g. page 8 - the same is true with Enrique SEMO Calev and LEONOV.

h. page 9 - BONILLA Sanchez and LEONOV "being in correspondence" implies mail intercept (LIMUD) which it is.

i. page 9 - LIREBEL-2 is a sensitive source and about the main source right now on Guatemalan exile activities. The last sentence might implicate him. At least it tells the Peruvians that CIA has a penetration here.

8. Finally - It tells the Peruvians that the Station (CIA) Mexico has phone taps, mail intercepts, penetration of the Cuban IS, penetration of Guatemalan exiles, surveillance and police liaison.

It concentrates throughout that the information was developed by coverage of LEONOV while he was stationed in Mexico. These activities are treated in specific terms whereas his activities <u>outside</u> Mexico are treated in a very general manner.

The Branch would prefer to have the paper re-written omitting all specific dates and references which reveal the clandestine collection technique which produced the information,

and should incorporate AEASSAULT information and be coordinated with SB Division in writing. It might be pointed out that previous efforts to "burn" LEONOV have not been successful.

Conversations between DULINDEN-11 and Nikolay S. Leonov and DULAUREL-1

ACTION REQUIRED - REFERENCES

Action Required: FYI

1. On 15 July after leaving a local publisher's office DULINDEN-11 drove Nikolay S. Leonov to his hotel. DULAUREL-1 who accompanied them to the publisher's office was left at her home and DULINDEN-11 and Leonov were alone during the course of the drive. Leonov proceeded to ask DULINDEN-11 various questions about his private life including his economic situation and also queried him about his future goals in life. DULINDEN-11 responded to all questions and said he enjoyed his work with DULAUREL-1 and was interested in journalism and felt that he had learned quite a bit in the short time he has been involved in assisting DULAUREL-1 with Panorama Internacional. He said that he did not work with DULAUREL-1 for money alone but because he saw this as an opportunity to improve himself which would eventually lead to an improvement in his economic standard. DULINDEN-11 said that it was a relaxed conversation, Leonov was very friendly and appeared to be interested in DULINDEN-11's goals and aspirations.

2. On 16 July DULINDEN-11 saw DULAUREL-1 and the latter asked him how his conversation went with Leonov. DULINDEN-11 gave DULAUREL-1 a summary of what had been discussed and commented that Leonov appeared to have a genuine interest in his future. DULAUREL-1 then told DULINDEN-11 that previously she had a rather lengthy conversation with Leonov about DULINDEN-11 and told Leonov the problems he had with the party, the accusations made against him, her conversations with DULINDEN-11 during this period and the investigation she had conducted while DULINDEN-11 was under party control. Leonov told DULAUREL-1 the fact that DULINDEN-11 was under party control is of no significance and once again re-iterated his general disgust with the party leadership.

3. It appears from the foregoing that DULAUREL-1 arranged the circumstances which led to the private conversation between Leonov and DULINDEN-11. The above "interest" displayed by Leonov in DULINDEN-11 might be nothing more than politeness on his part but the Station believes that DULINDEN-11 is undergoing an assessment by Leonov, DULAUREL-1 and Valeriy V. Volkov and at least up to this juncture apparently has made a favorable impression.

SUBJECT: Interview of Mr. Luis E. GUTIERREZ

ACTION REQUIRED - REFERENCES

See paragraph 1 below.

1. Your assistance is requested in interviewing the Salvadorian citizen, Luis E. GUTIERREZ, for information which would be helpful to this Government in determining the accuracy of certain claims made confidentially by Herbert L. ITKIN. Mr. ITKIN is a prime witness in legal proceedings presently underway in New York City involving the Mafia and related underworld organizations. ITKIN lives under the protection of U.S. Federal Marshals.

2. The following data is for your information. It should not be used in dealing with GUTIERREZ or outside of this Organization. ITKIN has been an FBI informant since March 1963. He has now claimed to have worked for this Organization during the period 1954/55 to 1960. ITKIN asserts that his contact during these years was one Philip HARBIN. This inquiry is concerned solely with ITKIN's claimed relationship with this Organization from 1954/55 to 1960 when he alleges HARBIN was his contact. As will be seen, GUTIERREZ, ITKIN alleges, also knew HARBIN during that time and that fact, therefore, is material to the credibility of ITKIN's story.

ITKIN's first contact with Philip HARBIN was in 1955 when he claims to have been contacted pursuant to a meeting he, ITKIN, had in Philadelphia with a leading personality of this Organization and another high-government official late in 1954 or early 1955. According to ITKIN, HARBIN never made the specific claim of being from this Organization but that was ITKIN's assumption.

ITKIN describes HARBIN as about 42 or 43 (in 1955), an American. He had receding hair, combed back but parted. He was about 5'8" in height,

well-built with little evidence of fat. He always wore a vest. He spoke fluent Spanish and could have been of Polish or Russian family background. HARBIN always drank tea, never coffee. He appeared affluent with a professorial air about him.

Following an initial meeting, ITKIN alleges that he and HARBIN met periodically in New York City. ITKIN alleges that he passed to HARBIN copies of the correspondence developed by his law firm, Delson, Levin and Gordon, dealing with Indonesia, Burma, and India. ITKIN left that law firm in mid-1957, presumably thereby losing total access. Among the materials ITKIN claims he passed to HARBIN before he left the Delson, Levin and Gordon firm was information he picked up from a friend who worked at the United Nations for the Government of El Salvador. This friend was Luis E. GUTIERREZ (see biographic sketch, Attachment A). ITKIN claims that he became very friendly with GUTIERREZ, who was studying either at New York University or Columbia where he prepared a master's thesis on El Salvador's economic position. HARBIN, he says, was interested in the topic and ITKIN alleges he furnished HARBIN notes of GUTIERREZ' monograph.

Sometime presumably after mid-year 1957, HARBIN asked ITKIN if he knew anybody else who could do (intelligence) work. ITKIN recalled GUTIERREZ, who meanwhile had moved to the position as Consul General of El Salvador in New Orleans, Louisiana. HARBIN--ITKIN says--accepted the suggestion and ITKIN provided an introduction for HARBIN by letter, which he sent to GUTIERREZ in New Orleans. ITKIN asserts that HARBIN--according to his own statement--went to New Orleans and made the "new contact". ITKIN claims he last saw HARBIN in 1960.

3. A comparison between the key points of ITKIN's account as summarized in the immediately preceding paragraph with the data set out in Attachment A and E will show immediate contradictions that tend to destroy any credibility in ITKIN's account, particularly with respect to his relationship to GUTIERREZ. We also point out, solely for your information, that we have found no confirmation in our records of any relationship between this Organization and ITKIN during the period 1954-1960. No traces have been found in our records or anywhere in government thus far of a Philip HARBIN, and there is explicit denial that there was any meeting in Philadelphia in 1954 between ITKIN and the high officials he nominates. Finally, there is no substantiation in our files of any of the intelligence product which ITKIN allegedly passed to HARBIN. This case, however, is of such a nature that we must strive, if possible, to have GUTIERREZ' own statement for the record.

4. We leave to the Station determination of the best manner to approach GUTIERREZ. It is our preference that a Station officer, under suitable cover, perform the interview, but it may well be that a consular or embassy officer might be the best person to do the job. We repeat that we are concerned in this matter solely with the verification or denial of ITKIN's statements, specifically the allegation that he introduced HARBIN to GUTIERREZ in New Orleans and that as a consequence GUTIERREZ would be in a position to identify and describe HARBIN in a way that would permit us to locate him if he exists. The request for GUTIERREZ' assistance in this matter is in no way predicated upon hostility towards ITKIN nor is there any predisposition against his claims if indeed evidence is found to back them up. If GUTIERREZ indicates that he is willing to provide whatever information he can, you can assure him that his information is solely for U.S. Government use and will not be made public by us at any time without his expressed consent. Also, it is clear that we are prepared to accept his decision to give no assistance in the matter.

5. We have compiled a short statement that might be used by the interviewer to explain to GUTIERREZ the purpose of the interview (see Attachment B). A list of questions, which should be given orally, is elaborated in Attachment C. You will note that these questions concern the larger as well as narrower elements of GUTIERREZ' relations with ITKIN. We are willing to settle for a specific answer to the narrower question of Philip HARBIN in preference to generalizations about the whole relationship. If, as a consequence of your handling, GUTIERREZ is willing to talk in depth, we will be grateful.

6. Attachment D is a copy of a New York Times article concerning ITKIN and one of the completed federal cases in New York City. This item is attached for your background reading. This may be shown to GUTIERREZ, of course. Attachment E is a copy of a letter dated 26 February 1965 from GUTIERREZ to ITKIN. Again, the content of this letter tends to support the theory that ITKIN's story, as elaborated in paragraph 2 above, is a fabrication. While possibly based on a real relationship, it appears to be a fabrication with respect to chronology and with respect to the exact mutual interests involved. Also included in this attachment is ITKIN's answer to the letter. We feel in retrospect that GUTIERREZ might be unhappy to read his own letter in the course of a consular interview. We, therefore, suggest that this not be shown to him. However, there is no objection to an indication that the U.S. Government is aware that GUTIERREZ was in perfectly correct correspondence with ITKIN during 1965 on business matters.

7. We would appreciate compliance at your earliest convenience and a preliminary indication by cable of GUTIERREZ' response, if one is forthcoming, on the questions concerning GUTIERREZ' knowledge of HARBIN. If there is anything unclear in this dispatch, Headquarters would welcome any questions by cable. All correspondence should be addressed Chief, WOMUSE, via Chief, WH.

Suggested Statement to GUTIERREZ

I understand you have a friend named Herbert ITKIN, a lawyer, now living in New York. Mr. ITKIN is under the protection of United States authorities because he is the prime witness in very significant legal cases presently pending before the Federal court in New York City. Mr. ITKIN, in private testimony to U.S. authorities, has indicated that you were a friend of his; he met you in New York while you were at the United Nations. He has also indicated that sometime in 1957 he sent a letter of introduction to you in New Orleans, presenting one Philip HARBIN whom ITKIN claims did go to New Orleans and introduced himself to you. Your answers to questions relating to the above would be of great help to the U.S. Government in determining the veracity of ITKIN's statements.

Attachment C to HSSW-2742

Questions to be presented orally to Luis E. GUTIERREZ

Would you describe the circumstances leading to your introduction to Mr. Herbert ITKIN and the nature of your contacts with Mr. ITKIN? When did you first meet Mr. ITKIN? Where were you working at the time? What was your position?

What school or university were you attending at the time? For what degree were you preparing? In what subject? What subject did you use for your thesis? Did you show it to ITKIN and/or did you give him a copy?

Did you continue to maintain contact with him after your departure from New York? Do you still maintain correspondence with him? When did you last have contact with Mr. ITKIN?

In 1957 or 1958 did you receive a letter from Mr. ITKIN introducing a Philip HARBIN?

Did a man named Philip HARBIN come to New Orleans and introduce himself to you? Did he have a letter of introduction from Mr. ITKIN? (How did he represent himself, i.e., whom did he represent?) Would you describe Philip HARBIN? Would you describe your first meeting with Philip HARBIN? What subjects were covered? How long were contacts maintained? When were they terminated? For what reason?

SAN SALVADOR,
EL SALVADOR, C. A.

February 26,1965.

Mr. Herbert Itkin,
300 Madison Ave.,
New York City, N.Y.

Dear Herby:

It was a real good surprice to receive your letter of February 15, 1965. I had written you twice in the last three years, and I had no answer. I went to New York to the C.I.O. Convention in September 1963; then I looked for you every where, but I found you nowhere. So I realized that you had disapeared from New York and moved to another place. But what a relief now;; You still are in the Empire State kicking around and thinking about your old friends.

As you probably remember we do not see each other since 1952. Let me give you a rough breifing on what happens during this time. In November 1952 I was appointed Consul General of El Salvador at New Orleans; in 1958 I resigned and came back to my country and was appointed Comptroler of the Bank Inspecting Bureau; then in 1960 I was appointed General Director of the Social Security Bureau. then in 1961 I moved to private business as General Manager of INVERSIONES COMERCIALES, S.A., a small insurance company. Among some of my present extra activities, I am: a) member of the City Government (City Commissioner); b) member of theAdvisory Board of the Central Bank and c) Professor of Economics and Business Management at the School of Engineering of the University of El Salvador.

Although, as you can see, I am in the High Brass category I belong at the same time to the low income bracket group. For that reason I have been looking for a more juicy business, but so far I have found nothing. That is why I would say you are just on time offering me to do some business with you. I hope you will write and tell me more about what you have in mind. Also I will be waiting for you in April or any other time; the sooner the better.

There is something else I must tell you. I want to go back to New York and I need your help very badly. You know that in order to work in the States one must have a resident visa and to obtained such visa one must have an affidavit from an American Citizen. Could you be so kind giving me such a help? I hope you will say YES.

With best regards, I am

Sincerely yours,

Luis

Figure in Marcus Case Said to Have Risked Life to 'Stand Up to Mafia'

By BARNARD L. COLLIER

Herbert Itkin, one of six persons indicted in the Marcus kick-back scandal, has been described by Federal officials as an undercover agent who infiltrated the world of organized crime and reported regularly to the Federal Bureau of Investigation.

Mr. Itkin, now under 24-hour armed guard by Federal marshals, is to be the Government's key witness in a Federal conspiracy case. He is a co-defendant along with former Water Commissioner James L. Marcus; a reputed Mafia leader, Antonio (Tony Ducks) Corallo; Henry Fried, owner of a New York construction company; Daniel J. Motto a union leader, and Charles J. Rappaport, a former law partner of Mr. Itkin.

Mr. Itkin—called one of the most important Government informers in recent years—is described as having provided undercover information to the F.B.I. while he engaged in numerous private business ventures around the world.

There is no solid information on his motives for becoming an informer. However, one high Federal official has called the 41-year-old Manhattan lawyer a "strange" man who risked his life to "stand up to the Mafia."

An Element in Other Cases

Federal officials disclosed that Mr. Itkin was providing the Government with large quantities of "inside" information on underworld characters and their dealings. He is a potential witness, they say, in numerous criminal cases apart from the Marcus affair.

These cases are said to involve labor racketeering, gambling, bribery, income-tax evasion and a whole range of other felonies at the city, state and federal levels, some with international dimensions.

The story of Mr. Itkin's activities as an undercover agent was pieced together by The New York Times—and then confirmed by Government officials—after extensive interviews and a search of public and private documents and letters in New York, Washington, the Caribbean area and elsewhere.

Along with his activities as an undercover agent, Mr. Itkin was involved in numerous international business ventures.

Some of His Involvements

His associations and business dealings—at least those indicated by the available documents and by people who are willing to talk about him—show that his involvement was not only with Mafia figures like Corallo and public figures like Mr. Marcus, but with politicians in the Dominican Republic, coup-minded exiles from Haiti, businessmen in Miami, union officials in New York and Detroit, and gamblers in London.

Investigations are already proceeding on the basis of in-

Southern [illegible] has provided. [illegible] officials say they are hopeful that the inquiries will enable them to obtain several indictments in the near future.

Government officials would not specify whether Mr. Itkin was a paid or unpaid informant.

Government officials are quick to point out, however, that Mr. Itkin, despite his free-spending ways over the last several years, did not, as far as is known, amass a lot of money from his business activities.

"In fact," said one Federal official, "he is damned near broke, his family life is in a mess, he can't practice law and he can't do anything but wait it all out."

Concern has been expressed by some high Government officials about a disclosure of Mr. Itkin's background.

"There are many people," said one official, "who would like to discredit Mr. Itkin as a witness in this [Marcus] case and in other cases that might be made."

Edward Bennett Williams, the Washington lawyer who is representing Mr. Marcus in the conspiracy case, said he could not comment on the disclosure of Mr. Itkin's role.

Also of concern, some Government officials say, is Mr. Itkin's personal safety.

"But we are going to preserve him in good health until he can testify," one official said. Federal investigative agents say privately that Mr. Itkin had already been the target of an alleged murder plot for which two Long Island men are now under Federal indictment, although he has never been officially identified as the intended victim.

In a development of this aspect yesterday, Federal Judge Marvin E. Frankel ordered the Government to disclose officially who the murder target was. The indictment did not name anyone as the intended victim.

Identification Due Soon

Assistant United States Attorney Robert G. Morvillo said he would identify the alleged victim next week to the lawyers for two men indicted in the murder plot.

The two under indictment are Robert Schwartz, 43, a lawyer, of Huntington Station, L. I., and Robert Roden, 39, of Uniondale, L. I., a carpenter. No motive has ever been ascribed to the alleged plot, but it is said that it had nothing to do with the Marcus kickback case.

Judge Frankel also ordered that the Government name the city or other place where the two men or "collaborators carried on any activities connected with 'arranging the murder' as charged in the indictment," and the names of any persons who allegedly collaborated or conspired in "arranging the murder."

Mr. Itkin's relationship with Mr. Marcus, as far as is now known, was as a friend, business partner and his personal lawyer. City Hall [illegible] say that Mr. Marcus introduced Mr. Itkin to other commissioners and city officials as "my lawyer."

According to some of these commissioners, Mr. Itkin made attempts afterward to meet and discuss business matters with them.

Mayor Lindsay has said that every city official who came into more than casual contact with Mr. Marcus or Mr. Itkin has reported in full to city investigators.

Mr. Itkin has been under protective custody since shortly after he was arrested by the F.B.I. last Dec. 18 in connection with the Marcus case. Aside from Federal and local law-enforcement officials, only a few close friends know his whereabouts.

People who have spoken recently to Mr. Itkin describe him as extremely nervous. His second wife is under guard with him.

Several of Mr. Itkin's friends have described him as confident that when the Marcus case comes to trial his "real role" as an undercover agent will be made clear.

"Won't Be a Defendant"

"I won't be a defendant when the case comes up," Mr. Itkin is quoted as having told a friend. "I didn't do anything I didn't have to do to keep from being suspect."

His current status as a defendant in the Marcus case could be changed before the trial and the charges against him could be dropped, Federal officials say.

Mr. Itkin has also told close friends that within the last five years he provided information to the Central Intelligence Agency on the activities of persons in the Dominican Republic, where he often traveled, and in Haiti, where he is also known to have had dealings.

A spokesman for the Central Intelligence Agency denied that there was anything about Mr. Itkin in its files.

Mr. Itkin appears to have been many things to many people. To some lawyers who knew him he was, as one put it, "brilliant in his law practice." Another described the swarthy, well-dressed Brooklyn Law School graduate as "formal, retiring, not one to seek the spotlight."

Called a "Fast Talker"

But a friend describes him as "a fast-talking guy, a fast-thinking guy, who said he knew everybody and could make a deal in the blink of an eye." He added: "Herb was always on a jet going somewhere—to London, Geneva, Rome, Santo Domingo, Haiti, Puerto Rico."

Many people regard Mr. Itkin as a specialist in labor law, but several labor leaders and mediators say they know little of his activities for unions.

It was the highly publicized Marcus case, a scandal that stunned Mayor Lindsay's administration, that first brought Mr. Itkin to wide public attention.

He was charged in a Federal indictment, along with Mr. Marcus, Corallo and others, with being part of a scheme whereby 5 per cent of an emergency contract awarded without bidding by the Department of Water Supply, Gas and Electricity would be paid as a kickback.

The contract, estimated at $800,000, was awarded to S. T. Grand, Inc., which is owned by Mr. Fried and his family. It called for the cleaning and refurbishing of the Jerome Park Reservoir in the Bronx.

The indictment charges that Mr. Fried and his company paid Mr. Marcus 2 per cent of the total contract price, and gave 1 per cent each to Mr. Itkin, Mr. Motto, and Corallo.

It further charges that the conspiracy began on or about Jan. 1, 1966—eight months before Mr. Marcus became Water Commissioner on Sept. 1 and 10 months before Mr. Marcus awarded the contract to S. T. Grand.

At the same time the alleged conspiracy began, Mr. Marcus was acting as an unpaid mayoral assistant—he took responsibility for water department business and Mr. Itkin was his lawyer and partner in several joint ventures.

On Jan. 11 the case took its bizarre murder twist when the F.B.I. arrested Mr. Roden on charges of trying to buy the murder—for $2,500, a Federal official said then—of an unidentified witness in the Marcus affair. Mr. Itkin was said then to have been that witness.

Four days later, Mr. Schwartz, the Long Island lawyer, was arrested in Manhattan as a participant in the same alleged murder conspiracy. He was charged with being involved in an attempt to murder "a witness and defendant" in the Marcus case.

Exactly a month after the Federal kickback indictment was obtained by United States Attorney Robert M. Morgenthau, both Mr. Marcus and Mr. Itkin were arrested for the second time on a warrant by District Attorney Frank S. Hogan.

They were charged with having accepted a $10,000 bribe as a down payment on any emergency contracts that a company called Vintray Enterprises, Inc., might receive from Mr. Marcus's department.

Scarcity of Documents

There are very few public documents in which Mr. Itkin's name appears. And even what is available only serves to deepen the mystery surrounding his career.

On Sept. 16, 1963, for example, Mr. Itkin filed with a form with the Justice Department to register himself as a foreign agent of the Dominican Republic.

He declared that his purpose was to act for a Coral Gables, Fla., company called Westrade, Inc., in efforts "to negotiate on behalf of the Dominican Republic and bank or brokerage company in the United States, a bond issue in the amount of $35-million to extend over a period of 15 years."

Westrade, Inc., described as

14-00000

a concern that dealt in the export of furniture and the production of prefabricated buildings, has since gone bankrupt and was formally dissolved last year for nonpayment of Florida state taxes.

Despite the filed registration, the company's former president, a Haitian-born Miami businessman named Robert Deschamps, denies that Mr. Itkin was ever authorized to represent him or the company.

"I spoke to him exactly twice," Mr. Deschamps said recently. "Once in New York and once in Miami in either late 1961 or early 1962. He was sent to me, I recall, by Louis Dejoie [a Haitian political exile who opposed the Haitian President, François Duvalier]. He said he had met Dejoie in the Dominican Republic.

"We talked first in a hotel in Miami and he told me he could get us financing from a union pension fund—I think he said the teamsters, or maybe the teachers union. I told him to see what he could do and we'd discuss it again."

"Then I went to New York," Mr. Deschamps said, "and saw him in his office. I was put off by him right away. One thing was, he opened a black cabinet behind his desk and I saw a secret telephone and a nightstick. I had done some checking on him and I didn't like all the secrecy business."

Can't Recall '$2,000 Fee'

Mr. Deschamps insists that the New York meeting was the last he had with Mr. Itkin, and that he is completely unaware of any agreement between Mr. Itkin and Westrade, Inc.

As for a $2,000 fee that Mr. Itkin stated in the registration form that he received from Westrade, Inc.: "Perhaps that was for some expenses he might have had, but I don't remember paying it," Mr. Deschamps said.

Mr. Itkin was also registered as a foreign agent for the Provisional Government of the Republic of Haiti in San Juan, P.R. This exile group was headed by Mr. Dejoie.

In an agreement filed with the registration and dated May, 1963, Mr. Itkin was to be paid an annual retainer of $50,000 for a period of two years—"immediately due and owing as soon as the said Provisional Government becomes the de facto or de jure Government of the Republic of Haiti and Haitian Territory."

The records indicate that the relationship between Mr. Itkin and the Haitian group was terminated in September, 1964, and that instead of getting his retainer, Mr. Itkin personally lent Mr. Dejoie $15,000 for unstated purposes.

Mr. Dejoie was unavailable for comment, but Haitian exiles who asked not to be identified, said that during the time the registration was in effect Mr. Dejoie was often in the Dominican Republic, and was active in one abortive attempt in 1963 to invade Haiti across the Dominican frontier.

A Washington [illegible] man, who also asked not to be named, said that during that same period Mr. Itkin met with him [illegible] in New York [illegible] the possibility [illegible] arms and developing a clandestine organization to help overthrow the Duvalier regime in Haiti.

In the years since, Mr. Itkin's contacts in the Dominican Republic have been maintained, and records show that he traveled to Santo Domingo numerous times up until his indictment last fall.

Dominican 'Mission'

According to businessmen, Mr. Itkin made about 20 visits to the Dominican Republic in 1965, beginning shortly after the civil war broke out in April of that year.

A close friend said Mr. Itkin described his trips to Santo Domingo as "missions" having to do with United States efforts to bring stability to the war-torn country.

It is not clear exactly when Mr. Itkin first became involved with Corallo, the reputed Mafia figure, but [illegible] officials say it was before 1963 and after 1961.

The officials confirm that Mr. Itkin traveled with Corallo to London—a city Mr. Itkin visited often—in 1966, when the British Government refused to permit Corallo to remain. The reported cause of Corallo's ouster was that he was trying to gain control of some of England's legal gambling casinos for Mafia "families" in the United States.

John F. Malone, assistant director in charge of the F.B.I.'s New York office, said he would not comment on any aspect of the Marcus case. United States Attorney Morgenthau was unavailable for comment.

N.Y. Jury Indicts 6 in Marcus Kickback Case

NEW YORK, July 18 (UPI) —A Federal grand jury indicted today six alleged associates of attorney Herbert Itkin, key figure in the Marcus kickback case, on charges of another kickback conspiracy involving mortgage applications made to the Teamsters' Union pension fund.

U.S. Atty. Robert Morgenthau identified two of the defendants, Salvatore Granello, 45, and James Plumeri, 65, both of New York, as members of the Mafia. Their codefendants were David Wenzer, 57, Great Neck, N.Y.; John Kielly, 37, Oyster Bay Cover, N.Y., and Hyman Levine, 58, of Coral Gables, Fla., and Leonard Russo, 45, of Larchmont, N.Y.

Itkin was not indicted but was named in each of four overt acts cited in the indictment.

THE NEW YORK TIMES, FRIDAY, JULY 19, 1968

Accused of Kickback Plot Involving Teamster Fund

By MARTIN TOLCHIN

Six men linked to Herbert Itkin — the key Government informant in the James Marcus kickback case — were indicted yesterday by a Federal grand jury in an alleged kickback conspiracy involving a teamster union pension fund.

Itkin was not indicted, but was named in most of the overt acts charged in the indictment, and he appeared to be the unifying figure in the conspiracy.

Itkin, who was an informant for the Central Intelligence Agency and the Federal Bureau of Investigation, testified in Federal Court that he had paid off teamster officials and criminals to arrange loans from the fund on behalf of individuals and corporations.

Itkin did not name the persons who allegedly received the payoffs. However, Government officials indicated privately that the indictment—and three previous indictments involving teamster pension funds — had resulted from Itkin's information.

Construction Involved

Yesterday's indictment charged that the six men had participated in a scheme to get a $1,350,000 mortgage for Big Value Discount Department Stores, Inc., of 24 West 25th Street, for the construction of three discount centers in Pompano Beach, Cocoa and Fort Lauderdale, Fla.

Robert M. Morgenthau, United States Attorney, said that the men had obtained a tentative mortgage commitment from the Central States Southwest and Southeast Areas Pension Fund of the International Brotherhood of Teamsters, based in Chicago. Mr. Morgenthau added, however, that the loan never was made.

This was the fourth indictment involving the pension fund since May. Three of the

SUBJECT: Inquiry Concerning CIA Connection of Herbert ITKIN, New York Lawyer

1. A call received on the listed telephone of the New York Office on the afternoon of 15 February 1966 concerned claims by Herbert Itkin, a lawyer now practicing in New York City, to the effect that he was closely tied in to the CIA.

2. The call was made by Mr. E. Kent Kane, R.D. #1, Kane, Pennsylvania. Mr. Kane is a prominent attorney in Pennsylvania, Naval Reserve Officer (USNR 192947), a Republican politician who gave the present Governor and Senator Hugh Scott as references.

3. Herbert Itkin is a former son-in-law of Mr. Kane's. Itkin allegedly claimed that he had been of considerable assistance to CIA in Haiti and elsewhere. The implication was that he was a trusted CIA informant or agent, not a staff employee.

4. Mr. Kane contacted this office for two specific reasons:

(a) He wanted to warn CIA that Itkin was not at this time a desirable CIA contact because of doubts concerning his reliability, discretion, ability to meet his financial obligations, and mental equilibrium.

(b) He (Kane) did not wish to proceed any further in pursuing his (unspecified) course of action against Itkin if there were any substance to Itkin's claims. Put in another way, Kane is planning to take some action against his former son-in-law, and he wants to disprove the latter's claims of some CIA affiliation or backing before proceeding further.

5. Mr. Kane phoned the New York office from a room at the Hotel Drake, New York City, prior to his departure for

Florida. He thought perhaps this office could clear up his problem. Recently, Itkin phoned Kane from New York and put on an alleged CIA staffer, who identified himself only as "Charley" and who dutifully confirmed Itkin's great value to the Agency. Kane is suspicious of the whole business.

6. We explained that it would take some time to have our headquarters check this out. Although Kane would have liked an immediate response, he agreed that a written advice to his Kane, Pennsylvania, address within two weeks would satisfy him. Such a reply could be quite cryptic and need not be signed. We assumed that it would originate in Washington rather than in New York. Mr. Kane did not ask for our name and was given no name.

SUBJECT: Conversation with IDEN-A on 3 October 1963 with HQS Fan (Using Alias)

ACTION REQUIRED REFERENCES

1. I called on IDEN-A at the home of his son-in-law in ZRMETAL. IDEN-A remembered me from our previous meeting in May of this year, and his greeting was cordial. He said that he was in ZRMETAL and was going to New York for the purpose of making the situation of his followers known and to see if he could obtain support for maintaining his activist following in the DR.

2. IDEN-A believes that it has now been proven that no reliance could be placed on any of the Haitian military: EVLUSH/1 is obviously finished; EVLIFE/1 is unwilling to act without positive guarantees of ODYOKE support; Colonel Armand is able but weak; and General Boucicaut lacks courage. Colonel Biambi is a good man but is being supported by the Dominican government. If anything effective is to be done, it must be done through non-military personalities. Only a national leader who has the support of the people can do anything effective. Had he been in charge of the EVLUSH/1 effort, the peasants would have rallied to the invading forces, but they will not do so to a force under the command of a military man.

3. IDEN-A's camp is still in existence in the DR and contains about 70 men at present. Among these are EVLUTE/4 and Henri Clermont. He said that EVLUTE/4 is able but somewhat erratic and he (IDEN-A) fears that he would accept support from any source including the Communists, though he knows that EVLUTE/4 is not himself a communist. He likewise mistrusts the EVLUTE group because it s leadership is too far to the left. Again, he does not believe that the members of EVLUTE are themselves Communists, but they attempted to obtain support from Mexican Communists.

4. IDEN-A concerned at the moment in obtaining support to enable him to continue feeding the men in his camp. He said that he has been informed that the former followers of EVLUSH/1 are now flocking in, thus placing an intolerable burden on his slim resources. He needs a few thousand dollars for food supplies and hopes to get some help in New York from CARE or some other philanthropic organization.

5. IDEN-A regrets the overthrow of the Bosch government. He says that he is aware of Bosch's shortcomings as an administrator, but that he had the interests of the Dominican Republic at heart and had demonstrated his sympathies for IDEN-A and his followers. Nevertheless,

IDEN-A believes that he will be able to have a friendly relationship with the new regime. He has an appointment to see Ambassador Jose [illegible] today and hopes to obtain his support. He also is a good friend of [illegible] and believes this will stand him in good stead. He thinks that the new government must be recognized within 60 days.

6. He has received some aid from PBPRIME friends and from Cuban and Dominican private individuals. He did not further identify them other than to say that they were not the same persons who had supported EVLUSH/1 who had been counting on the support of Masferrer. This support had not been forthcoming due to the fact that certain of the Haitians and Cubans that Masferrer was supposed to provide, refused to work with Masferrer. IDEN's Cuban supporters' aim is to use Haiti as a base against Cuba. He agrees this should be done.

7. IDEN-A is certain that Garrido informed EVMAYA of EVLUSH/1's plans. He said that Garrido was greedy and would take money from any source.

8. IDEN-A says that ODYOKE plans to send a new ambassador to Haiti will greatly strengthen the government. He said this fact is known and has caused considerable disappointment among exiles. (I made no comment on this.)

9. IDEN-A had wanted to bring these matters to the attention of IDEN-B. He has no selfish ambition. In outlook, he is a Catholic and a capitalist who wants to do what he can for his country. This is his sole reason for wanting to be President. I explained that his views would be made known to IDEN-B and other interested senior officials. IDEN-B regretted not being able to talk to him personally, but was prevented from doing so at present due to the many demands on his time caused by the present critical situation in the Caribbean.

10. Our parting was cordial and IDEN-A said that when he returned to the DR in the next few days, he would be glad to establish contact with one of my associates should we desire to do this. I told him that should it be necessary to get in touch with him, the person chosen would identify himself as my friend.

1. On 10 February 1970 LIREBEL-2 provided the details of his 6 February meeting with Jose Luis BALCARCEL Ordonez (201-160-30), leader of the Guatemalan Communist Party (PGT) exile organization in Mexico. LIREBEL-2 reported that he arrived at BALCARCEL's home at 2000 hours on the 6th, and found BALCARCEL about to leave. BALCARCEL requested that LIREBEL-2 take him to a garage where his car was being repaired, which LIREBEL-2 did. Since BALCARCEL's car was not ready, BALCARCEL asked LIREBEL-2 to drive him to a meeting which he had scheduled for 2100 hours with his "Soviet contact." (Note: BALCARCEL had previously told LIREBEL-2 that Valery KOSTIKOV was his contact in the Soviet Embassy.) LIREBEL-2 and BALCARCEL drove to the "Parque Escondido," also known as the "Parque Hundido," located on Insurgentes Sur between Gomez Farias and Millet Streets. LIREBEL-2 parked and BALCARCEL held his meeting with his "Soviet contact" standing on the sidewalk of Gomez Farias Street bordering on the park. The meeting lasted for 30 minutes.

2. BALCARCEL commented after re-joining LIREBEL-2 that his "Soviet contact" had been very upset about a long distance telephone call which he had received from a Guatemalan student. The student had asked to talk to the Soviet by true name and asked him for some information on the Soviet national soccer team, which is scheduled to play some games in Guatemala. The Soviet told BALCARCEL that he had told the student that he could not provide any current information on this subject, and that the student should try to get this information from El Salvador, where the team was to play some games prior to their arrival in Guatemala. BALCARCEL said that the Soviet was angry that this student had asked for him by true name, and he speculated that the University Students Association (AEU) leader who was recently in Mexico (see Reference B) may have been indiscreet in giving his name out to unauthorized persons.

4. It is of interest to note ~~that past LIENVOY reporting has shown~~ his contact with Subject 201-305052 KOSTIKOV setting up clandestine contacts with Alejandro ~~HERNANDEZ~~ Alegria (201-062689), leader of the Nicaraguan Communist Party exile organization in Mexico, and similarly with Lorenzo ZELAYA Romero (201-045172), a Honduran Communist in Mexico. SUBJECT: Phone Call from AEU Representative to Valery KOSTIKOV

ACTION REQUIRED - REFERENCES

Reference : MEXICO CITY 2303, 21 January 1970

1. LIENVOY reported that on 6 February 1970 Valery KOSTIKOV (201-305052), 2nd Secretary of the Soviet Embassy in Mexico, received a long-distance telephone call from Guatemala. The operator asked for KOSTIKOV by name, then told the caller "Mr. MONTENEGRO, I have your call to Mexico ready". When KOSTIKOV came to the phone, the caller stated he was calling on behalf of the Guatemalan University Students Organization, but did not further identify himself. The caller and KOSTIKOV discussed the USSR national soccer team and its scheduled appearance in Guatemala. KOSTIKOV stated he was not certain exactly what date the team was scheduled to arrive in Guatemala, and suggested that the caller contact the soccer federation in El Salvador, where the team would be playing prior to its arrival in Guatemala. The caller also inquired whether there was any information on the Ballet (Reference) and was told that there was none.

2. It should be noted that normally queries concerning the Soviet soccer team or the appearance of a Russian Ballet troupe would be handled by one of the Cultural or Sports Affairs officers of the Embassy. KOSTIKOV's participation in these matters, as reported above, would seem to confirm previous Station reporting that KOSTIKOV handles dealings between the Soviet Embassy in Mexico and Guatemalan leftist organizations.

LISACK Progress Report, 1 July - 30 September 1969

ACTION REQUIRED - REFERENCES

1. Operations

Under this roof project, operations continue to be directed against the MHMARSH target and, on occasions, Bloc targets. Activities covered by the Project include providing information on MHMARSHers, their activities, personalities, visitors, and contacts (LISACK-2, -4, -6, and LICOWL-1); serving as access agents (LICRAVE-1, -2, -3, LIROCKET-1, and BESABER); spotting, assessing and occasionally recruiting access agents (LIEMPTY-3); providing information on DMLET activities (DMPETAL-1) and BEBOX activities (BESABER); and performing such other tasks as may be required on an ad hoc basis (LISACK-7 and all other assets of the Project).

2. Administration

As assets take on a permanent character in terms of expenditure or other continuing administration, they are transferred from SB/OOA to LISACK for orderly handling. Beginning with this reporting period, and as outlined in the LISACK Project Renewal, BESABER, DMPETAL, and LICOWL-1 were transferred from SB/OOA to LISACK. Details of the functions, security, and meeting procedures are reported below for each asset.

3. Assets

a. LICRAVE-1, -2, and -3: The activities of these assets have been covered in detail in recent and continuing correspondence dealing with AETAKEOFF. Please see HMMA-38364 of 5 November 1969.

b. BESABER: During the reporting period, BESABER was met six times. When he travels to Mexico City, meetings are held in his hotel room at a pre-arranged hour using a telephone code to establish the location. On occasions, he is met at his home in Cuernavaca. BESABER is currently targetted against Subject of 201-268115, with whom he has re-established a good social relationship. Through Subject of 201-268115 he also met Subject of 201-276184, Chief of the Referentura. In addition to serving as an access agent to Subject of 201-268115, he has fulfilled spot requirements such as providing information on Centro Intercultural de Documentacion (CIDOC) and personalities of Station interest. Although BESABER has a fairly good social relationship with the BEDOX Ambassador and his wife and has entree to other BEDOXers and MHHARSHers, we are having him concentrate his efforts on the higher priority MHHARSHer, Subject of 201-268115.

c. LICOWL-1: He was met routinely once a month during the reporting period. Each meeting date is established at the preceding meeting and no further contact or confirmation is required. LICOWL-1 arrives by bus at a car pick-up point and is then driven by the case officer to a small coffee shop where he reviews his diary with the case officer. Due to the nature of his job and the level of his access, LICOWL-1 is not in a position to do more currently than to report on the brief encounters he has with MHHARSHers who come into his store. His reports normally consist of his assessment of personalities, description of new arrivals and, occasionally, biographic information he has been able to pick up. He also gives timely reports of demonstrations and other unusual activity in the vicinity of the MHHARSH installation.

d. LIEMPTY-3: LIEMPTY-3 is met at irregular intervals at various out-of-the-way restaurants for the purpose of briefing and debriefing on operational assignments and discussion of his written reports. Meetings are arranged by phone using open code. His most recent assignment has been the development, assessment, and recruitment of 201-810981. LIEMPTY-3 has few peers at the art of developing an operational lead, but his extensive operational activity in past years against the MHHARSH target has required that he be used sparingly, selectively, and always under alias. Development of 201-810981 has been his only assignment during the reporting period, and LIEMPTY-3 made good early progress. Purporting to be the representative of a film club for architects, LIEMPTY-3 was able to get 201-810981 to agree to become a consultant. Thereafter, LIEMPTY-3 continued to ask questions about 201-810981's work, to the point where 201-810981 realized that more than a film club for architects was involved. At this point it was decided to let LIEMPTY-3 break cover, recruit 201-810981 to supply information on the work of his office (but not--at this point--the people in his office), and continue to handle him until the recruitment was firm and previous questions about the stability and reliability of 201-810981 had been resolved. This was done, and 201-810981 accepted recruitment, knowing that WOLADY intelligence was involved. LIEMPTY-3 held several meetings with 201-810981 after recruitment, and countersurveillance did not reveal any signs of MHHARSH surveillance. For about a month, however, LIEMPTY-3 has not been able to contact 201-810981, and it is possible that the latter has developed cold feet. If LIEMPTY-3 can reestablish contact, he will continue to

handle this case for the time being. If he is unable to reestablish contact, he will be given another lead to follow up. LIEMPTY-3 is a very active person who has an extremely full business day, with many contacts. The Station believes that within this busy "cover" life, LIEMPTY-3 can handle selected operational tasks without coming to hostile attention. As long as proper security precautions are taken by him in his operational activities, and by him and the Station officer (who meets him in alias) in their meetings, there is no reason why LIEMPTY-3 cannot be a useful part-time contributor to the Station's REDTOP program for the foreseeable future.

e. LIROCKET-1:

1) LIROCKET-1 is met monthly, time and place arranged at the previous meeting. During these meetings he is debriefed on his twice-weekly teaching sessions at the MHHARSH Embassy. His regular student has been the Subject of 201-028975, and he has had occasional dealings with other MHHARSHers, particularly AESEASICK. The meetings with 201-028063 have not been of particular interest, and we had been waiting impatiently for the latter's replacement to arrive, so that LIROCKET-1 would have a better target to work on. It was LIROCKET-1 who came up with the first local confirmation of the identity of this replacement (MEXICO CITY 1105, 2 August 1969). Dealings with AESEASICK have been concerned with attempts by the director of the school where LIROCKET-1 teaches to borrow sociological films from the MHHARSH film office.

2) It now appears, however, that LIROCKET-1 has reached the end of the line. For some time he has been involved in a rather messy divorce action, and in August LIROCKET-1 reported that his wife had denounced him to Mexican authorities as an RVROCK agent (a few months previously, she had denounced him as an MHHARSH agent). LIROCKET-1 was not inclined to take his wife's ravings too seriously since he considered her slightly nuts. However, LIENVOY reported that on 16 September 1969 LIROCKET-1's wife called 201-028975 and told him she had to see him urgently on something of extreme interest about her husband. 201-028975 told her to come to the Embassy, which she did, and she presumably repeated her accusation. Since that time, LIROCKET-1 has received a polite brush-off. He has been told that the MHHARSH Embassy has run out of funds for English language training, and that there would be no more lessons unless 201-028975's replacement, or the new Ambassador (when and if one arrives) wanted to rehire him. He was told, however, to check in regularly, and he was given, as usual, an invitation to the annual MHHARSH national day reception (he did not attend because he was ill). LIROCKET-1 has not spoken with 201-028975 since his wife's visit--all dealings have been through AEPOLYP, who has for some time been the paymaster for LIROCKET-1.

3) LIROCKET-1 was not aware of his wife's visit, and even after the case officer, without telling him that we knew of the visit, brought LIROCKET-1 around to the conclusion that she might have done this, he still does not think that she spilled the beans to 201-028975. (It is apparent that the MHHARSHers, whether or not they believe Mrs. LIROCKET-1's story, have concluded that LIROCKET-1 represents a security hazard, and they are simply going to drop him. LIROCKET-1 will continue to press the MHHARSHers for an answer regarding his future with them, and if, as suspected, they keep putting him off, he will be instructed to break contact and he will be terminated by the Station.)

4) Other than the blowing of LIROCKET-1 himself, little damage has been done. The wife has never seen the current case officer and knows none of the meeting arrangements or other

details, and neither she nor LIROCKET-1 knows the true name of any of LIROCKET-1's past or present handlers. Necessary security precautions have been taken at all meetings with LIROCKET since his wife's conversation with 201-028975, and there have been no signs of MHHARSH surveillance.

f. DIPETAL-1: She has been met weekly for a total of 13 times during the period. Meeting hours are prearranged and the location is always a safehouse. Her normal function has been to report on the activities at the DMLET installation where she is employed as the secretary to the DMLET Ambassador. In addition, she performed some casing and investigation in support of the AETAKEOFF audio operation. Since the DMLET target is of low priority, DIPETAL-1 has been attempting to increase her usefulness to us by trying to obtain a job in the office of the President of the PRI, the ruling political party, with excellent prospects for success.

g. LISACK-2: Until he lost his job in September, he was the resident administrator of the apartment building in which both AEMERGER and AEMAESTRO reside. Meetings were held bi-weekly for a total of four times, pre-arranged by telephone call several days in advance to his office in a publishing firm. Meeting location was a restaurant/cafe and meetings normally lasted about thirty minutes. He provided information on the activities of these two MHHARSHers and their families, license plate numbers, and descriptions of visitors.

h. LISACK-4: He is the portero of the apartment building in which Subject of 201-305870 resides. He maintains a daily log of the movements and activities of this and other MHHARSHers, and he reports the license plates and description of visitors to the building. He was met weekly for a total of 12 times, always in a small restaurant within walking distance of the downtown office where he works a half day. Meeting hours are pre-arranged to permit LISACK-4 to attend on the way to or from this second job. He compensates for his lack of formal education by responsiveness to case officer direction, natural intelligence and cooperation.

i. LISACK-6: He is the portero of the building in which Subjects of 201-837203 and 201-788861 (who took the apartment of Subject of 201-205304) reside. He maintains a daily log of these two MHHARSHers, their families and visitors. He was met 12 times during the period. Since he cannot be absent from the building for over thirty minutes without arousing suspicion, meetings are always for a brief ten minutes and are held in a nearby park. As has been reported, the case officer who handles LISACK-6 became the target of unknown surveillance in August, and again in October, following meetings with LISACK-6. The Station believes that the surveillance was accidental, in that the meeting place was in a neighborhood frequented by male and female prostitutes and other undesirable characters. In any event, LISACK-6 has been put on ice, to be revived if the occupants of his building become higher priority targets.

j. LISACK-7: She was not met during the reporting period. She remains a "reserve asset" for special requirements in the real estate field for such potential uses as safehouse rental, key acquisitions and locating tenants when needed. Although there is no immediate requirement for her talents, we would like to maintain her Operational Approval so that she can be called on as a cleared asset when needed.

4. Problems

There are no problems connected with this Project.

5. Security

There are no known unresolved problems of security. The security problems relating to LIROCKET-1 and LISACK-C (discussed above) are under control with no adverse effects noted.

6. Plans

a. There are several assets of the REDTOP section who have been carried under SB/COA for a fairly long period of time. Since the targets of their access change from time to time, as well as the nature of the information they provide, we do not believe they warrant special or new projects to cover them. We do believe, however, that they should be brought under a project to facilitate orderly reporting and administration without resorting to separate progress reports on each.

b. Since their activities closely parallel those of assets already covered by LISACK, we believe it would be logical to include LIROBBIN-1 and -2, LIORDER-1 and Subject of 201-843659 (on whom we are awaiting an Operational Approval) in this Project. Although none of these is paid a salary, such a change will require some cost amendment to the Project to account for minor operational expenses which have heretofore been charged to SB/ODA. Separate correspondence will follow on these assets.

c. There are several additional assets currently in the developmental stage who may eventually be administered under LISACK. These include Subject of HMMA-37742 of 28 August 1969, targetted against AEPOLYP; Subject of 201-851552, targetted against AEMERGER; Subject of 201-848881, currently in social contact with Subjects of 201-259583 and 201-029068 under Station direction; and Subject of 201-859225, who reports on his contacts with Subjects of 201-305052 and 201-744341, among other MHHARSHers.

Las "Instalaciones Diplomáticas" Rusas en Lima

Por CARLOS MONTIEL

En una carta llegada a es[ta] redacción, periodistas peru[a]nos me informan que, enter[a]dos de mi artículo del 11 d[e] enero "Ahora Perú", pregun[ta]ron al Canciller de aquel país, Edgardo Mercado Jarrín, si la llegada de una misión comercial rusa a tierras peruanas sería sólo la primera entrega de otra misión más importante, la de una representación diplomática soviética.

En ese artículo comentaba que miembros de la Embajada moscovita en México, habían asegurado en los corrillos sociales de esta ciudad, que en menos de dos semanas Perú establecería relaciones diplomáticas con el Kremlin, a nivel de embajada.

Según me informan en esa misiva, apenas tres días después, el 14 de enero, el diario limeño "La Prensa", confirmó en su primera plana la noticia que comenté en EL UNIVERSAL GRAFICO, y que obtuve gracias a la indiscreción de los diplomáticos soviéticos que figuran en el "circuito coctelero" que aquí se lleva al cabo por los embajadores y encargados de negocios de las naciones extranjeras.

Recuerdo que también en EL UNIVERSAL GRAFICO, el colega Alonso Fonseca G., publicó el 20 de diciembre una nota titulada "Alegres Diplomáticos", con la divertida historia de la "juerga de Vladislav Kromovshkin y Valeri Kosunov, agregado y segundo secretario, respectivamente, de la embajada rusa en México, quienes la empezaron "entre burbujas de vinos caros en la zona rosa de la ciudad de México, y se vieron obligados a ponerle fin en Ciudad Victoria entre sus insultos a México bajo inmunidad diplomática". Al parecer los diplomáticos soviéticos no sólo han renunciado a ser decentes, sino que también están [illegible] [illegible] [illegible].

El Canciller peruano, Mercado Jarrín, quien anunció la [ll]egada de la misión comerc[i]al rusa, respondió a la pre[g]unta de los periodistas con [u]n lacónico "oportunamente [t]endrán información si es que el Gobierno decide dar ese paso" (el de establecimiento de relaciones diplomáticas con la URSS). Antes de que el Gobierno de Lima "decida dar ese paso", quisiéramos pasarle traslado de estos dos párrafos que el periodista Bernardo Escalante acaba de publicar en un artículo de "El Sol de Mexico" (14 de enero de 1969), bajo el título: "La Embajada Misteriosa".

"Lo extraño está en que la Embajada de la URSS es una de las que cuentan con personal más numeroso y las que menor quehacer tienen. Las dependencias contadas que tienen trato con el público —sección consular, sección cultural, agencia turística— laboran sólo cuatro horas a la semana. Con los dedos de la mano se podrán contar los mexicanos que en un año van a solicitar una visa. El comercio entre México y la URSS es casi nulo. Las "relaciones culturales", como todos lo saben, consisten sólo en hacer propaganda "de allá para acá", ya que en los dominios de Brezhnev y de Kosygin ni idea tienen de lo que es México".

"¿A qué se dedica, pues, ese enjambre de personal ruso —en esa Embajada en que no trabaja un sólo mexicano y hasta la servidumbre es soviética— en esa enorme mansión que podía ser guarida de vampiros? El misterio sube de punto si se toma en cuenta que la Embajada de México en Moscú apenas si está integrada por unas seis o siete personas, y en cambio la URSS mantiene aquí más de un centenar ¿Por qué la URSS tiene una Embajada tan numerosa en nuestro país, si hace lo mismo que la nuestra en Moscú?

1. Reference is made to your request dated 25 July 1969 concerning Subject.

2. In a report dated 27 August 1962 from a reliable source, Subject was listed as a known or suspect KGB (Soviet Committee for State Security) officer. Although this report did not specify how Subject's position or possible position as an intelligence officer was determined, numerous additional reports have established that Subject is an officer in the KGB. Several of these reports are noted below.

a. A report dated 12 January 1962 from a reliable source indicated that Subject had a background which "smelled strongly" of Soviet intelligence service (RIS) connections (i.e., a graduate of the Foreign Language Institute and/or the Institute of Foreign Affairs in Moscow). Subject was described as possibly RIS as early as 1959 when he attended an Electrotechnical Congress held in Madrid, Spain, from 30 June to 10 July 1959. During this congress, Subject was frequently absent from the delegation, studiously avoided having his picture taken, and was generally noted for his "suspicious" behavior.

b. According to a report dated 16 March 1962 from a reliable source, Subject participated in a Soviet effort to cultivate an American Embassy employee.

c. A report dated October 1962 from a reliable source indicated that Subject was believed to be a KGB officer because of his position in the Consular office where most of the personnel were connected with the KGB. Subject had been known to attend meetings in place of other identified KGB officers.

d. According to a report dated 20 December 1963 from other reliable sources, Subject KOSTIKOV had apparently taken over as the case officer for one Margarito LNU, an agent of the Soviets who was formerly handled by First Secretary ~~Viktor Nikolaevich~~ GLOTOV 201-053674. GLOTOV was suspected by reliable sources to be the KGB Resident in Mexico City. Subject also had VALERI V. KOSTIKOV HAD considerable contact with Ivan Gavrilovich 201-236701 ALFERYEV, the Pravda correspondent and suspect KGB officer with whom Subject KOSTIKOV traveled to Tijuana, Mexico, on 1 September 1963. Subject frequently escorted diplomatic couriers to and from the airport, a function primarily of the consular section officers and, as far as was known, strictly a KGB responsibility. This same report identified all of Subject's close friends as KGB officers. PER TRACE REPLY ON KOSTIKOV (201-305052) SENT TO DEPT. OF STATE

SUBJECT IS MENTIONED AS AN CONTACT OF ONE VALERI V. KOSTIKOV (201-305052) IN A TRACE REPLY ON KOSTIKOV SENT TO DEPT. OF STATE.

3. In a report dated 14 May 1965, a reliable source, in an attempt to analyze the KGB Residentura in Mexico City, Mexico, stated that Subject was probably a KGB officer.

4. According to reports dated 22 December and 27 June 1967 from reliable sources, when Subject came to Mexico he replaced a suspect KGB officer. When he left Mexico, he was replaced by an identified KGB officer.

4. For further information concerning Subject, you are referred to the Federal Bureau of Investigation.

Embajada rusa en México tiene un gran personal que trabaja poco

Por Carlos Montiel, desde México.

En una carta llegada a esta redacción, periodistas peruanos me informaron que, enterados de mi artículo "Ahora Perú", preguntaron al Canciller de aquel país, Edgardo Jarrín, si la llegada de una misión comercial rusa a tierras peruanas sería sólo la primera entrega de otra misión más importante, la de una representación diplomática soviética.

En ese artículo comentaba que miembros de la Embajada moscovita en México, habían asegurado en los corrillos sociales de esta ciudad, que en menos de dos semanas Perú establecería relaciones diplomáticas con el Kremlin, a nivel de embajada.

Según me informan en esa misiva, apenas tres días después, el diario limeño "La Prensa", confirmó en su primera plana la noticia que comenté en EL UNIVERSAL GRAFICO, y que obtuve gracias a la indiscreción de los diplomáticos soviéticos que figuran en el "circuito coctelero" que aquí se lleva a cabo por los embajadores y encargados de negocios de las naciones extranjeras.

Recuerdo que también en EL UNIVERSAL GRAFICO, el colega Alonso Fonseca G., publicó una nota titulada "Alegres Diplomáticos", con la divertida historia de la "juerga de Vladislav Korcmovshkin y Valeri Kostikov, agregado y segundo secretario, respectivamente, de la embajada rusa en México, quienes la empezaron "entre burbujas de vinos caros en la zona rosa de la ciudad de México, y se vieron obligados a ponerle fin en Ciudad Victoria entre sus insultos a México bajo inmunidad diplomática". Al parecer los diplomáticos soviéticos no sólo han renunciado a ser decentes, sino que también están demostrando ser incapaces.

El Canciller peruano Mercado Jarrín, quien anunció la llegada de la misión comercial rusa, respondió a la pregunta de los periodistas con un lacónico "oportunamente tendrán información si es que el Gobierno decide dar ese paso" (el de establecimiento de relaciones diplomáticas con la URSS). Antes de que el Gobierno de Lima "decida dar ese paso", quisiéramos pasarle traslado de estos dos párrafos que el periodista Bernardo Escalante, publicó en un artículo de "El Sol de México", bajo el título: "La Embajada Misteriosa".

"Lo extraño está en que la Embajada de la URSS es una de las que cuentan con personal más numeroso y las que menor quehacer tienen. Las dependencias conectadas q' tienen trato con el público — sección consular, sección cultural, agencia turística — laboran sólo cuatro horas a la semana. Con los dedos de la mano se podrán contar los mexicanos que en un año van a solicitar una visa. El comercio entre México y la URSS es casi nulo. Las "relaciones culturales", como todos lo saben, consisten sólo en hacer propaganda "de allá para acá", ya que en los dominios de Brezhnev y de Kosygin ni idea tienen de lo que es México".

"¿A qué se dedica, pues "se enjambre de personal ruso —en esa Embajada en que no trabaja un solo mexicano y hasta la servidumbre es soviética— en esa enorme mansión que podía ser guarida de vampiros? El misterio sube de punto si se toma en cuenta que la Embajada de México en Moscú apenas si está integrada por unas seis o siete personas, y en cambio la URSS mantiene aquí más de un centenar. ¿Por qué la URSS tiene una Embajada tan numerosa en nuestro país, si hace lo mismo que la nuestra en Moscú?

SOVIET EMBASSY IN MEXICO HAS LARGE
STAFF WHICH DOES LITTLE WORK

by Carlos Montiel

Source: La Prensa Libre (Free Press), 6 May 1969, San Jose, Costa Rica

Mexico City -- In a letter addressed to our editorial department Peruvian newsmen informed me that, being acquainted with my article "Ahora Peru" [Now Peru], they asked that country's chancellor, Edgardo Jarrin, whether the arrival of a Soviet trade mission in Peru would be only the prelude to another more important mission, that of Soviet diplomatic representation.

In that article I had observed that members of the Soviet embassy in Mexico City had predicted in that city's social circles that in less than 2 weeks Peru would establish diplomatic relations with the Kremlin at the embassy level.

According to the letter, barely 3 days later the Lima daily La Prensa confirmed with prominent play the report that I had made in El Universal Grafico whose substance I had obtained thanks to the indiscretion of Soviet diplomats included in the "cocktail circuit" organized here among the ambassadors and trade representatives of foreign countries.

14-00000

I recall that also in El Universal Grafico my colleague, Alonso Fonseca G., published a note entitled "Alegres Diplomaticos" [Tipsy Diplomats] recounting the entertaining story of the "binge of Vladislav Koromovshkin and Valery Kostikov, attache and second secretary respectively at the Soviet embassy in Mexico. These officials began their spree "between glasses of expensive wines in the 'red' district of Mexico City but had to bring their adventure to a close at Ciudad Victoria amidst the abuse they hurled at Mexico under the diplomatic immunity which they enjoyed." Apparently, the Soviet diplomats not only have given up decent beha but are also demonstrating their incompetence.

The Peruvian chancellor, Mercado [sic] Jarrin, who announced the arrival of the Soviet trade mission, answered the newsmen's question with a laconic comment that "at the appropriate time you will learn whether the government has decided to take that step" (of establishing diplomatic relations with the USSR). Before the Lima government "decides to take that step," we would like to reproduce these two paragraphs which the journalist Bernardo Escalante published in an article entitled "La Embajada Misteriosa" [The Mysterious Embassy] in the newspaper El Sol de Mexico.

"The strange thing is that the Soviet embassy is one of those with the largest staff but with the least to do. Those branches that have contact with the public -- consular section, cultural section, tourist agency -- work only 4 hours a week. One can count the number of Mexicans applying for a Russian visa on the fingers of one hand. Trade between Mexico and the USSR is practically nil. The 'cultural relations,' as everyone knows, consist simply

in making propaganda 'from one place to another' inasmuch as in the land of Brezhnev and Kosygin they do not even have a remote idea of what Mexico is like.

"What is this plethora of Soviet personnel used for then in that embassy where not even a single Mexican citizen is employed, where the domestics themselves are Soviet, in that huge mansion that could serve as a den of vampires? The mystery deepens if one considers that the Mexican embassy staff in Moscow barely numbers six or seven employees whereas the USSR has more than a hundred in Mexico. Why does the Soviet Union have such a large embassy staff in our country if it does what ours does in Moscow?"

Alegres Diplomáticos

Por ALONSO FONSECA G.

Querido lector: esta es [illegible] divertida historia de una "parranda" que [illegible] en la [illegible] madrugada del [illegible] de diciembre, entre borrachos de [illegible] rusos en [illegible] de la ciudad de México, y que terminó [illegible] en Ciudad Victoria. Se trata de dos marxistas-leninistas de la URSS que por haber caído [illegible] en las [illegible] de los diplomáticos [illegible] "templaron" el [illegible] en [illegible] burgueses, no para [illegible] y olvidar una que otra [illegible] que les [illegible] el [illegible], sino para [illegible] una [illegible] de [illegible] e injurias a México y a los mexicanos, con el pretexto de que, cuando uno está "alegrito" todo se le dispensa.

Los diplomáticos de la embajada rusa en México, Valeri Kostikov, segundo secretario, y Vladislav Koromovshkin, agregado, no sólo olvidaron entre hipos la moral socialista, para colocarse una "guarapeta de esas que hacen época", sino que en medio de una gran "Luna" a base de [illegible] [illegible] [illegible] [illegible] y [illegible] [illegible] en [illegible] a Ciudad Madero, [illegible] después de [illegible] que [illegible] los [illegible] del alcohol, la "[illegible]" [illegible] [illegible] [illegible] "[illegible]", de [illegible] que la [illegible] de la [illegible] de [illegible] señala como las grandes [illegible] conquistados por los hombres [illegible] del [illegible], y [illegible] los [illegible] contra los mexicanos. Los cuatro ingenieros de PEMEX —como lo hubiera hecho cualquier hijo bien nacido— defendieron con firmeza a su Patria. Sin [illegible] los rusos se convirtieron [illegible] en diplomáticos pistoleros, al empuñar sus armas contra los ingenieros, pero sin duda [illegible] la preparación rusa consiste más bien en el manejo de cohetes teledirigidos hacia la Luna, que en manejar con habilidad [illegible] pistolas [illegible], se vieron prontamente desarmados por los mexicanos.

Al llegar a Ciudad Victoria, los ingenieros de PEMEX entregaron a las autoridades locales los agregados rusos y sus pistolas. Pese al clamor unánime de todos los allí presentes para que los soviéticos fueran castigados, éstos, con arrogancia insultante, [illegible] el respeto a su inmunidad diplomática. [illegible] nota de la agresividad de ambos [illegible] al gobierno chino de Mao Tse Tung tan empeñado en seguir la línea dura, aunque no creemos que los contrate, ya que son pistoleros malos.

El lector que quiera confirmar los detalles de esta borrachera interplanetaria y sideral con [illegible] de quienes creen que con la conquista [illegible] del poder en Rusia el [illegible] y la decencia en todo el mundo [illegible] [illegible]

1. On 1 April 1969 the Station received a memorandum from local LNERGO concerning the latest meeting AEBURBLE had with his Soviet Case Officers. This memorandum is forwarded under separate cover as Attachment #1. The meeting took place in Mexico City on 3 and 4 February 1969. The Soviet case officers were Aleksandr Aleksandrovich NIKITIN (201-784917) and Valeriy Vladimirovich KOSTIKOV (201-305052).

2. On 8 April 1969 we answered LNERGO's memorandum with comments concerning NIKITIN's and KOSTIKOV's whereabouts on 3 and 4 February 1969, the possible meeting place on 4 February 1969, and the cars used. Recent photographs of NIKITIN and KOSTIKOV were forwarded to local LNERGO also. This Station memorandum is forwarded under separate cover as Attachment #2.

3. It is interesting to note that the 1969 Volkswagen with Mexico City plates 787 IW, assigned to Stanislav Vasilyevich SYCHEV (201-326963) was used as the vehicle to drive AEBURBLE to the meeting site on 4 February 1969. The use of SYCHEV's vehicle, which is one of two Soviet vehicles which do not have diplomatic license plates, strengthens our suspicion that SYCHEV is a KGB officer.

Valeri V.Kostikov I have met him but I do not know him much.

Valentin Longuinov, in charge of consular affairs, his wife Alexandra has been an ~~skimingzzzkarm~~ skating star, both and friendly very nice, speak very good Spanish and fair English. Their daughter ~~Kkirinam~~ Kirina, sixteen years old, very sophisticated, came here for a holiday. The only child of that age we have ever seen here. They have another child, who is in Moscow. Both have been at our house for a party. In general soviet people come alone, leaving the wives behind. Longuinov was an exception.

Dmitri Prygov, wife Natalia, have an small child born here, he has been writing a book on the Mexican revolution. We are fairly good friends. He was introduced to me by Boris Kazantsev who invited me for lunch for the ocasion. When we go to the Soviet embassy both he and Tchmykhov are always very attentive.

I know several other people from the Soviet embassy but really I could not place them together with their names.

Alegres Diplomáticos

Por ALONSO FONSECA G.

Querido lector, ésta es la divertida historia de una "parranda" que empezó en la álida madrugada del 12 de diciembre, entre burbujas de vinos caros en la zona rosa de la ciudad de México, y que terminó muy lejos, en Ciudad Victoria. Se trata de dos marxistas-leninistas de la URSS, que por haber roto las cadenas de la oprobiosa tiranía de los diplomáticos decentes, "empinaron el codo" en bares burgueses, no para alegrarse y olvidar una que otra tristeza que les rasguñaba el corazón, sino para lanzar una andanada de denuestos e injurias a México y a los mexicanos, con el pretexto de que, cuando uno está "alegrito" todo se le dispensa.

Los diplomáticos de la embajada rusa en México, Valeri Kostikov, segundo secretario, y Vladislav Koromovshkin, agregado, no sólo olvidaron entre hippies la moral socialista, para colocarse una "guarapeta de esas que hacen época, sino que, en medio de una gran "feria" a base de odiosos orgías y whisky capitalistas, decidieron acompañar a cuatro ingenieros de PEMEX en un viaje en automóvil a Ciudad Mante. En el camino, después de los desmanes habituales que provocan los humos del alcohol la "cruda" los hizo llegar a los peores extremos de la grosería, expuesta sin ningún "academicismo", de esos que la Universidad de la Amistad de Moscú señala como los grandes derechos conquistados por los hombres avanzados del leninismo, y llovieron los denuestos contra los mexicanos. Los cuatro ingenieros de PEMEX —como lo hubiera hecho cualquier hijo bien nacido—, defendieron con firmeza a su Patria. Sin más, los rusos se convirtieron súbitamente en diplomáticos pistoleros, al empuñar sus armas contra los ingenieros, pero sin duda porque la preparación rusa consiste más bien en el manejo de cohetes teledirigidos hacia la Luna, que en manejar con habilidad prosaicas pistolas obsoletas, se vieron prontamente desarmados por los mexicanos.

Al llegar a Ciudad Victoria, los ingenieros de PEMEX entregaron a las autoridades locales los agregados rusos y sus pistolas. Pese al deseo unánime de todos los allí presentes para que los soviéticos fueran castigados, éstos, con arrogancia insultante, exigieron el respeto a su inmunidad diplomática. Corremos nota de la agresividad de ambos moscovitas al gobierno chino de Mao Tse Tung tan empeñado en seguir la línea dura, aunque no creemos que los contrate, ya que son pistoleros malos.

El lector que quiera confirmar los detalles de esta borrachera interplanetaria y sideral, con desmanes de quienes creen que con la conquista soviética del poder en Rusia el respeto y la decencia en todo [illegible] puede llamar al teléfono 15-30-33.

TIPSY DIPLOMATS

by Alonso Fonseca G.

Source: ~~Not Identified.~~ [illegible]

This is the amusing story of a "spree" which began in the frosty dawn of 12 December among bubbles of expensive wines in the "red light" district of Mexico City and reached its conclusion very far off, at Ciudad Victoria. What are involved are two Marxist-Leninists from the Soviet Union who, on breaking the chains of disgraceful tyranny weighing on respectable diplomats, "tanked up" in bourgeois bars, not in order to cheer up and forget some sorrowful episode or other that gnawed at their hearts but rather to fire a broadside of abuse and insults at Mexico and Mexicans under the pretext that when one is "tipsy" everything that he does is absolved.

The diplomats of the Russian embassy in Mexico, Valery Kostikov, second secretary, and Vladislav Koromovshkin, attache, not only forgot among hippies the socialist ethics in order to indulge in a "small drink among those who are in the limelight"

but, in the midst of a big "binge" made possible by hateful capitalist brandy and whiskey, they decided to accompany four engineers of PEMEX [Petroleos Mexicanos; Mexican Petroleum] in an old automobile to Ciudad Mante. On the way, after the customary excesses that alcoholic fumes provoke, the "wine" drove the Russians to the worst extremes of crudeness exhibited without any of the "academic bearing" that the Friendship University of Moscow notes as the major assets acquired by the progressive men of Leninism. Accordingly, abuse rained on the Mexicans.

The four PEMEX engineers, as any well-born sons would have done, defended their country with firmness. Thereupon, the Russians suddenly became transformed into diplomat-gunmen, brandishing their weapons at the engineers. However, no doubt because Russians are better at getting ready to handle remote-controlled spaceships directed at the moon than in the skillful discharge of prosaic pistols, they found themselves disarmed in short order by the Mexicans.

On reaching Ciudad Victoria the PEMEX engineers handed the Russian attaches and their guns over to the local authorities. Despite the unanimous desire of all those present to see the Soviet representatives get their comeuppance the latter, with insulting arrogance, insisted that their diplomatic immunity be respected.

Let us compare the aggressive stance of both Muscovites with the Chinese government of Mao Tse-tung so insistent on

14-00000

following the hard line even though we do not believe that Mao would hire Russians of this ilk considering how ineffective gunmen they proved to be.

REDCOAT [illegible]

Soviet Contact with Alejandro BERMUDEZ Alegria (201-062689)

1. The Station believes that Alejandro BERMUDEZ Alegria, Nicaraguan Communist living in exile in Mexico and known to have been the link between Moscow and the Nicaraguan Communist Party in regard to sending Nicaraguans to both CPSU school and Patrice Lumumba University in Moscow, is identical with the Modesto *RIVAS who in 1965 was reported in contact with identified KGB officer Valeriy Vladimirovich KOSTIKOV (201-305052) as well as with the Modesto *BERMUDEZ, originally thought to have been a Panamanian, who in 1965 was reported in contact with KOSTIKOV and then with his successor, Vladislav Sergeyevich KORMUSHKIN (201-744341), who is also an identified KGB officer. It is noted that Alejandro BERMUDEZ Alegria uses the alias Modesto RIVAS for receiving mail at his post office box letter drop.

2. Following is a chronology of the LIENVOY reporting on "Modesto's" contact with the Soviets. As will be seen, it appears that the combination "Modesto BERMUDEZ" was a conclusion jumped to by LIENVOY and was in fact probably never given as such. The references to "Panamanians" could be a cover for "Nicaraguans."

a. On 1 Jun 1965 "Modesto RIVAS" called at the Soviet Embassy for KOSTIKOV and arranged to meet him at four o'clock "in the same place."

b. On 29 Jun 1965 "Modesto RIVAS" called KOSTIKOV to say he would like to talk with him and also to give him the message that Ricardo was waiting in his office for him. KOSTIKOV asked if Modesto was working that day, and when Modesto said no, he would be working at home all day, then KOSTIKOV said he would stop by his house in the afternoon.

c. On 6 Jul 1965 "Modesto" called KOSTIKOV and asked if there was anything new about the people travelling to Helsinki. KOSTIKOV said nothing yet, but he hoped to have word by the end of the week. KOSTIKOV also asked if Modesto had received any news from the doctor, and Modesto said no, even though he had sent a telegram. Modesto said he would keep a copy of the telegram he sent for KOSTIKOV.

d. On 7 Jul 1965 "Modesto" told KOSTIKOV that, after he had talked to him the day before, he had received a cable asking the same question, i.e., what was with the trip to Helsinki, and Modesto wanted to know what to answer. KOSTIKOV said that they would have to wait about two more days but that he would send a cable to pressure for an answer. Modesto said he would answer his cable saying that they were trying to get a cabled reply and added that he would be in his office in the afternoon, if KOSTIKOV wanted to reach him.

e. On 8 Jul 1965 a man identified by voice as the above Modesto called at the Soviet Embassy for the Vice Consul (i.e. KOSTIKOV). He was told to call back, and when asked who was calling, he said he was calling on behalf of the Panamanians ("de parte de los panameños").

f. On 9 Jul 1965 a man called at the Soviet Embassy for KOSTIKOV, who was out. The man then said to leave the message that "BERMUDEZ...no...tell him that Modesto called." (This is evidently what made the LIENVOY monitors assume that the caller's name was "Modesto BERMUDEZ.")

g. On 9 Jul 1965 a man left a message at the Soviet Embassy for KOSTIKOV saying that Modesto had called. (This comes out in LIENVOY as being a call from "Modesto BERMUDEZ, panameño," but this was probably the monitor's way of identifying the same man of the above conversations and not what the man actually said.)

h. On 12 Jul 1965 Modesto again spoke to KOSTIKOV (and is again described by LIENVOY as "Modesto BERMUDEZ, panameño"). Modesto informed KOSTIKOV that the job from Ensenada ("el encargo de Ensenada") had arrived. KOSTIKOV suggested meeting Modesto at the usual place and asked if (he, she, it?) was with Modesto. Modesto said yes, at his house, and KOSTIKOV said then it would be better for him to visit them at his house. Modesto also asked about the "other matter," but KOSTIKOV still had no news.

i. On 14 Jul 1965 it was again reported that "Modesto BERMUDEZ, panameño" called and left a message to tell KOSTIKOV that he had called. (Again, the "Modesto BERMUDEZ, panameño" is probably a LIENVOY assumption, rather than what Modesto actually said.)

j. On 4 Aug 1965 "Modesto BERMUDEZ, panameño" (again, probably the LIENVOY assumption) called at the Soviet Embassy for KORMUSHKIN and was told to call him on another number. (No record of a second call.)

k. On 12 Aug 1965 LIENVOY reported that "Modesto BERMUDEZ, panameño" called KORMUSHKIN and asked whether the young man had been dispatched. KORMUSHKIN said he had just left. [illegible]

l. On 22 Sep 1965 LIENVOY reported that "Modesto BERMUDEZ, panameno" called from inside the Soviet Embassy at 1128 hours to a local travel agency (T.C.I./Greyhound) and spoke with Miss LABASTIDA, asking her about the price of the ticket to Prague under the same system they had used to send the other people. LABASTIDA asked for one of the names in order to pull the card to see how it had been done, and "BERMUDEZ" gave her the name Guillermo *AGUIRRE. LABASTIDA gave him various possible flights and asked that he call back in the afternoon for more definite information. (Station traces show that Guillermo AGUIRRE Rodriguez, 201-245711, is a Nicaraguan who was at the CPSU school in Moscow in 1965.) (LILYRIC reported that the man in the attached photograph, who is undoubtedly identical with Alejandro BERMUDEZ Alegria, visited the Soviet Embassy in Mexico City from 1111 to 1137 hours. There therefore seems no question that he is the "Modesto BERMUDEZ, panameno" who has been reported by LIENVOY in all the above conversations.)

m. On 29 Sep 1965 LIENVOY reported that "Modesto BERMUDEZ, panameno" called KORMUSHKIN and said he had some things ("encargos") for him. KORMUSHKIN said he would see Modesto at seven o'clock in the usual place.

SUBJECT: REDCOAT - Modesto BERMUDEZ

ACTION REQUIRED - REFERENCES: Δ MEXICO CIT PANAMA

REFERENCE: PACY - 7321, 8 July 1965

1. Panama City traces are requested on Modesto BERMUDEZ, a Panamanian currently in Mexico City. BERMUDEZ has been in touch with Valeriy Vladimirovich KOSTIKOV (201-305052), Vice Consul at the Soviet Embassy in Mexico City and identified KGB officer, on several occasions.

2. On 7 July 1965 "Modesto" called KOSTIKOV, saying that he had just received a cable asking about the trip to Helsinki, to which "Modesto" wanted to cable a reply. KOSTIKOV said that they had to wait a day or two, but that he would send an urgent cable. On 8 July 1965 an individual identified by voice as the "Modesto" above called KOSTIKOV, who was out, and left the message to tell him that he had a call "from the Panamanians." On 9 July "Modesto BERMUDEZ," a Panamanian, left a message for KOSTIKOV to call him. (Source: LIENVOY.)

3. It appears that the conversations above refer to the Panamanian delegation to the World Peace Congress being held in Helsinki 10-17 July 1965. BERMUDEZ is not, however, one of the Referenced six Panamanians who arrived in Mexico on 6 July on their way to the Congress.

LICOWL/1 gave a fiesta at his home on 12 September 1964, which was attended by several Soviets. Subject and Yuriy Dmitriyevich KALININ (see Soviet contacts) became drunk and sick. When Subject fully realized what a state KALININ was in, he pulled himself together and drove KALININ home. During this fiesta, Subject became interested in Juana Valdes aka Juana Prieto GONZALES (see Western contacts). Sra. Prior to the fiesta, LICOWL/1 told Yuriy Dmitriyevich KALININ (see Soviet contacts) that Subject and Oleg Maksimovich NECHIPORENKO (see Soviet contacts) were also invited. KALININ stated that he did not like these two, that they were tyrants and felt that they were important personnel since they were diplomats. 12. INTELLIGENCE AFFILIATION (including justification, sources and narrative discussion):

Subject is a known KGB Officer probably from the 13th Department of the First Chief Directorate, identified as such through the AEBURBLE case. (See Intelligence Activities). (3?)

Subject was a member of the group who met Sergey Nikolayevich ANTONOV, Chief of the Latin American Department of the KGB, at the Airport. (32)

Subject continued the clandestine contact with Margarito LNU (See Western Contacts), an unidentified agent previously handled by First Secretary Viktor Nikolayevich GLOTOV, formerly KGB Rezident. (33)

Subject has frequently escorted diplomatic couriers to and from the airport, a function primarily of the consular section officers and, as farras is known, principally a KGB responsibility. (33)

In the consular office all of Subject's immediate associates are identified KGB officers. (See Soviet contacts). (34)

14-00000

13. INTELLIGENCE ACTIVITY (positions, functions, agents, contacts, other details, including how we learned about each item, all in chronological order including narrative summary where necessary, such as D/A cases, incidents, etc):

About March 1963, Subject and CARMASHEV (see Soviet Contacts) flew from Mexico City to Tijuana, Baja California, where they rented a Hertz car allegedly for a recreational visit. The men travelled to Mexicali and Ensenada and departed for Mexico City on 13 March 1963. (35) (36)

On 1 September 1963, Subject and ALFERYEV (see Soviet contacts) flew from Mexico City to Tijuana where they rented a Hertz auto. While renting the auto, Subject was asked for identification. Subject stated he was an employee of the Mexican Department of Exterior Relations. Later, when pressed for identification, Subject stated he was an employee of the Soviet Embassy in Mexico City. Subject and ALFERYEV spent most of their time in the company of Isaak Carlos Chapluk (see Western contacts). The Soviets visited Estero Beach, Punta Banda and Nuna SIMANOVICH's curio shop (see Western contacts). On 7 September 1964, they visited the Bahia Hotel for dinner and a floor show in the company of Miguel POPOFF (see Western contacts). On 10 September 1963 the Soviets purchased 20,000 bales of cotton to be shipped to Ensenada, final destination unknown. Subject and ALFERYAV were also in contact with Demetrio ALMAGUER (see Western contacts). ALMAGUER was allegedly authorized by the Soviets to find three Mexican youths to travel and study in the USSR. The two Soviets departed Tijuana on 13 September 1963. (37)

On 19 January 1964, when LICOZY/5 (a Station double agent) returned to his apartment building, SHUBIN (see Soviet contacts) and Subject were seated in a car outside and NECHIPORENKO (LICOZY/5's case officer) was about to ring the door bell. NECHIPORENKO told LICOZY/5 that PRIKHODKO (the former KGB case officer) was in town and wanted to see LICOZY/5. NECHIPORENKO also gave LICOZY/5 tickets for the Soviet Soccer game on 19 January 1964. (38)

(COMMENT: LICOZY/5 is being handled by NECHIPORENKO and is a KGB agent. This is the only known occasion of Subject being involved with LICOZY/5 in anything but an overt business contact.)

Subject met with AEBURBLE in Mexico City on 9, 11 and 12 February 1963 and received information from AEBURBLE on industrial and missile sites in PBPRIME. Subject also gave AEBURBLE requirements of the same nature to be carried out in the future. Subject made arrangements with AEBURBLE for his next meeting, to be held in New York City, with a different, unidentified Soviet. On 6 May 1963, AEBURBLE was met in accordance with the above arrangements by Oleg Danilovich BRYKIN (201-292588), a translator assigned to the U.N. Secretariat in New York City. BRYKIN has been identified by a sensitive reliable source as a member of the KGB's 13th Department. (31)

Substantiating information that Subject is a member of the KGB is derived from his connections with Margarito LNU (see Western contacts) undoubtedly an agent (unidentified) formerly in contact with the former First Secretary and KGB Rezident Viktor Nikolayevich GLOTOV. (33)

Subject attempted to cultivate David T. PATON (see American contacts) an American Embassy officer formerly assigned to the Visa Section and who now has protocol functions (1965). This cultivation ceased, as far as is known to the Station, immediately after the Station (with Embassy approval) advised PATON to indicate to Subject his disinterest in socializing with him. (33)

201-305052

Since 1 August 1964, Subject has received in double talk, apparently clandestine calls from Ricardo LNU, an unidentified male with a Central American or Cuban accent. Meetings have been arranged at unnamed places.

(COMMENT: A Ricardo LNU with a Central American or Cuban accent has been in contact with Rogelio RODRIGUEZ Lopez, Second Secretary and Intelligence Officer, Cuban, Embassy, Mexico City.) (39) (40)

On 11 March 1963, one Ricardo PEREZ (not further identified) attempted to call Subject and left a message that he would like to meet with Subject the "place Subject knows" on the next Friday. (41)

(COMMENT: Ricardo PEREZ may be identical with RICARDO LNU of the above paragraph because of the similar trend in conversation in arranging meetings. One Ricardo PEREZ called the Cuban Embassy, on 26 June 1964 to tell Antonio GARCIA Lara, 201-328338, Commercial Attache and Intelligence Officer, Cuban Embassy, Mexico City, that he had a message for GARCIA from Marguerita DALTON Mexican citizen, student at University of Havana and sister of Raque DALTON, Cuban IS Agent. (42)

14. NON-INTELLIGENCE ACTIVITY (positions, function, contacts, general activity):

On 18 January 1962, Subject called Valeriy Aleksandrovich ANDRIANOV, GRU Chauffeur, and asked for data on the trade of Mexico with Red China for "this year". (43)

On 27 March 1962, Subject called the Belgian Embassy to obtain transit visas for two Soviet artists transiting Belgium. (40)

On 7 July 1962, Subject was in Cuernavaca, probably for a pleasure trip. (44)

Subject called LICOZY/5 on 24 August 1962, and asked about travelling by plane from Mexico to Trinidad. LICOZY/5 explained that one would have to go from Mexico to Caracas to Trinidad. Subject stated he would order tickets in September. (19)

(COMMENT: The Station has no additional information on this matter.)

Subject called Jorge RUEDA to complain because two weeks previously an order had been placed with RUEDA to find a specialist to repair the billiard table at the Embassy. (45)

On 7 January 1963, Subject called GARMASHEV (see Soviet contacts) long distance from Vera Cruz, where he had gone to make medical arrangements for a Soviet seaman burned in a shipboard fire. Subject had an automobile accident while on his trip which he related to GARMASHEV. GARMASHEV told Subject he would have to pay his own expenses back to Mexico City and also pay his expenses when he returns for the car after it's repaired. (25)

In mid-November 1963, Subject went to Cuautla, (near Mexico City) apparently for recreational reasons. (46)

On 16 April 1964, Subject called the Embassy and asked that Aleksandr Mikhaylovich DENISOV, Third Secretary and GRU officer, call New York and tell "them" (not further identified) the couriers left on Aeronaves de Mexico, flight # 400 at 10:45 am and also asked that DENISOV then call Vladimir P. GOULINE, Attache-Chief of the Secret Files and Suspect KGB Officer, and tell him "everything is all right". (47)

On 29 January 1963, an unidentified man called the Embassy and left a message for Subject to go to the EDITORIAL to see the new edition. The caller also said "it's urgent". (48)

(COMMENT: EDITORIAL may be identical with Editorial Jus S.A. Plaza de Abasolo 14, Col. Guerrero, Mexico 3, D.F.)

In September and October 1963, Lee Harvey OSWALD (see Western contacts) was in contact with Subject regarding a visa so that OSWALD might return to the Soviet Union.

On 14 September 1964, FNU ALFARO of Mexicana de Aviacion called Subject to say that Subject's Customs Declaration for importing two cameras to Mexico was valid until the 17th, and that he (ALFARO) needed information for the financial details to be arranged. (50)

SUBJECT: Contact Report/ Silvia McDonald
12 May; Maria Cristina garden

1. Gestetner, known as Don Jackson, and Marheinz, introduced as Mort Bryan, met Subject on 12 May. Subject reported on her attendance at the WWII Victory celebration at the SovEmb held on 9 May, and its aftermath on 11 May at the art gallery of Alfredo Santos.

2. Subj, who attended the reception alone, her invited friend Georgina did not go, attracted a small circle of companions during the evening. First, there was a Guatemalan, a professor at the National University, who made conversation, learned she was a singer, and spoke of having her appear at a concert in Puebla. Next, Vladimir Andreev, his receiving line duties ended, joined her. Their conversation dealt with artists in Mexico, a pick-up from the first time they had met at the Santos Gallery some two months ago. Then, Valeriy came by and seemed to be mostly interested in watching Subject. Subj took an instant dislike to Valeriy (probably Kostikov). A short, blond Russian then drifted into the group, whom Subj pegged as a parachutist. This turned out to be accurate (probably Nikolai Leonov). Andreeva came by just about the time Subj was inviting the group to visit the Santos Gallery. Subj was just about able to include Andreeva in the invitation, and then Andreeva was gone from the group. The invitation was for 11 May at 1100. During the evening Andreev mentioned that he would like Subj to perform at the SovEmb. Subj said she would, but nok details for the engagement were made.

3. On 11 May Andreev and Valeriy showed up at the Santos Gallery. Subj introduced them to Alfredo Santos. Andreev seemed to be enchanted by the Gallery; Valeriy was less demonstrative. They had brought a bottle of Vodka and passed a few hours in the company of Alfredo. Subj confirmed her distaste for Valeriy, and formed her impression of Andreev that he wanted to break out of dull Soviet circles into the gayer, freer atmosphere of the artist set in Mexico. No specific appointment was made for Subj to see either of the two Sovs another time.

4. Subj, in her concern to know where this operation was taking her and the part she was to play in it, rang in some additional characters in her personal life. There was Georgina (lnu), her very good friend, aimless, clinging to Subject's orbit, student at U of A, who considered Andreev a "dear." Subj considered that Andreev and Georgina might very well develop a relationship

because she, Subject, though willing to pursue a platonic friendship with Andreev would have none of the other, and it was not unlikely that Georgina might captivate Andreev. There was Antonio Garza, Subject's current boy-friend, a bodyguard to Diaz Ordaz, who was giving evidence of growing serious about her. Subj was concerned that her participation in the operation might in some way cause harm to Antonio. Subject who entertains a host of artist friends at her home expressed concern that if she were followed and spied upon, a misleading impression might be gained.

5. Other personal matters about Subject that came out in the conversation were that she has income from stocks (sufficient to maintain her in Mexico), she is in visitante artista status, would like to attain inmigrado because she has difficulties with the Musicians Union (AMDA) that hampers pursuit of her profession; she is not interested in marriage; she is opposed to by-passing the limitations on her work imposed by her status.

6. The C.O.'s, in their guidance to Subject, made it clear that she could pull out of the operation any time she wanted, that it was in her power to terminate it either with us or with the Sovs, if she got involved with them. She was told that there was absolutely no harm that could befall her boy-friend, Antonio, from her continued participation. As for Georgina, the chips would have to fall as they may with Andreev; since Subject was Georgina's confidante, we would be appreciative of knowing about Andreev's involvement in any affair. She wanted to know why we were interested in Andreev, and the C.O.'s gladhanded her to the extent of telling her that it was our business to know about important Soviets, since one never knew when a Soviet might be in need of "help." Subject indicated she was willing to go along further at a slow pace.

7. In talking about the Soviet Victory reception, the presence there of LICRAVE-1 (his picture had been in the News) came up. Subject said she knew L-1. She characterized L-1 as flighty. She said he didn't get along with his wife. She intimated that when L-1 was lonely, he chasedxx after female companionship. L-1 drops by Subject's place every so often. She knew that L-1 had left his father's business and had gone in for crop-dusting (a relatively recent development).

8. Arrangements were made that "Mort" would keep in touch with Subject about once a week by phone (Tel. 46-71-06, Calle Rio Neva #32) and that later she would be given an emergency number to call.

SUBJECT: Operational/REDCOAT/LCIMPROVE/Characterization of Valeriy Vladimirovich KOSTIKOV

ACTION REQUIRED - REFERENCES

1. Forwarded herewith is a characterization of Subject prepared by Douglas J. FEINGLASS. The SPR on Subject has been prepared and will be forwarded as soon as typed.

2. It is interesting to note that LICOWL-1 describes KOSTIKOV as follows: He is a man who would do anything to anybody. He is without morals, education or manners. He uses foul language and has no respect for others. When KOSTIKOV drinks at his (LICOWL-1's) establishment, with Soviet women present, KOSTIKOV will run his hand over the legs of the wives of other Soviet employees, while their husbands are present, and thinknothing of it. According to LICOWL-1, the husbands say nothing when KOSTIKOV does this. (Comment: However, from a recent LICOWL-1 tape, it appears that Yuriy Aleksandrovich ANDRIANOV, GRU chauffeur, was complaining to Viktor Petrovich KALININ, administrative employee, that his wife was running around with KOSTIKOV and he (ANDRIANOV) was going to say something to KOSTIKOV - someday - but had not said a word to him as yet.)

Valerly Vladimirovich KOSTIKOV

Valerly Vladimirovich KOSTIKOV is approximately 35 years of age, corpulent and paunchy, with a round somewhat fleshy face that sports a 5 o'clock shadow, and wears oversized tinted glasses in dark heavy frames, which partially obscure a pair of small, but piercing eyes. His heavy jowls, thin lips, wide nostrils and dark hair add to an impression that his features are more of a Semitic, or a Near-Eastern type than that of a Slav. A shapeless dark suit-coat, carelessly put over a white shirt, with unbuttoned collar, through which protrudes a tuft of dark hair complete a photograph of Valerly Vladimirovich KOSTIKOV, Attache ot the Consular Office and identified member of the KGB.

KOSTIKOV arrived in Mexico in December 1961 and assumed his duties as an attache at the USSR Consulate at the Soviet Embassy in Mexico City. Owing to his extrovert nature and propensity for drinking, he soon acquired several "buddies" of similar background and with similar tastes. Among these individuals, his closest associates have been, or still are, the following: Vitaly Borisovich SHUBIN, Attache and identified member of the KGB, who left for the USSR in July 1964; Ivan Gavrilovich ALFERIYEV, Pravda Correspondent and KGB officer, who left for the USSR in October 1964; and Oleg Maksimovich NECHIPORENKO, Vice-Consul and identified member of the KGB, who is still in Mexico, and who has accepted KOSTIKOV into his circle of intimate friends.

att 1 to HMMA 25516 CS COPY 201-305052

However, it was mostly with SHUBIN and ALFERIYEV that KOSTIKOV felt entirely at ease. Many a time KOSTIKOV would talk to either one of them on the phone and indulge in a friendly exchange of obscenities, whereas he has never spoken to NECHIPORENKO in a like manner, even though KOSTIKOV has been a frequent guest at NECHIPORENKO's house. KOSTIKOV developed an exceedingly close relationship with SHUBIN. They used to travel together to various parts of the country and to spend time together with their families at the Casino de la Selva, a hotel in Cuernavaca. But it was ALFERIYEV's wife Roza, who became the prime target of KOSTIKOV's attentions. An embittered acrimonious woman, Roza, who despised her husband and had a fierce hatred for NECHIPORENKO, was transformed into a different human being when KOSTIKOV talked to her on the phone in his best unctuous and ingratiation manner. It is impossible to say whether they had sexual relations, but the obvious and strong sexual overtones in Roza's voice led one to presume that she had more than just a friendly interest in KOSTIKOV, who on the other hand, was probably using Roza as a target for his amorous or illicit aspirations.

It seems that KOSTIKOV is quite preoccupied with matters of sex and if given an opportunity would turn into a veritable profligate. Apparently his

14-00000

wife Roza has a tolerant attitude towards KOSTIKOV's probable incursions into the domain of marital infidelity, since, on one occasion, when KOSTIKOV had been invited to a supposed stag party at ALFERIYEV's home, and Roza KOSTIKOV had phoned to caution KOSTIKOV against drinking too much, a woman answered the call and then called KOSTIKOV to the phone. When Roza talked to KOSTIKOV it sounded that she was more peeved at the fact that she had not been invited to the party rather than that other women were present there at the time.

When KOSTIKOV started talking to his wife on this particular call, he already had had a few drinks and in disguised voice spoke to her in Spanish, French and English, possibly to impress those who were present. His Spanish is quite good and fluent, his French is rather tolerable, but his English is somewhat stilted and of a school-room type. Possibly, he studied these languages at the Moscow Institute of Languages.

This fluency in Spanish affords KOSTIKOV a great latitude for making friends among Mexicans and his easy-going earthy approach is presumably of considerable help to him in developing contacts. Since his consular duties are quite negligible, he can easily engage in this sort of activity. In fact, this neglect of official duties prompted a heated argument between NECHIPORENKO and the visiting Soviet correspondent Timur GAYDAR,

who declared that ostensibly the consular staff does not preform any useful function, but just loafs around. His assertion has been confirmed in part by the attitude of this particular group of Soviet Embassy employees, who quite often seek some diversion of a non-intellectual type. Thus, on one occasion, when a group of Soviet tourists has a brief stay in Mexlo, one of them - a woman, complained during a phone call to the Embassy that KOSTIKOV and Leonid Vasilyevich NIKIFOROV, Intourist representative in Mexico, had taken the group leaders to NIKIFOROV's apartment in order to have a few drinks, leaving the rest of the tourists without any information about their next move and letting them shift for themselves.

Since the departure of SHUBIN and ALFERIYEV, KOSTIKOV has started to "cultivate" NIKIFOROV, presumably as a potential drinking companion, and has been talking to him on the phone a number of times recently in quite a familiar tone of voice. It seems that NIKIFOROV, a younger man, is being influenced by KOSTIKOV to a certain degree.

KOSTIKOV's family life does not appear to be a stormy one, because his wife Roza A. sounds easy-going and friendly. She is in charge of the Embassy's dining-room. Her co-workers treat her with a good-humored tolerance and a slight contempt. KOSTIKOV's daughter Svetlana, born in 1959, seems to be an average child, who does not present any outstanding problems to her parents.

To summarize KOSTIKOV's character traits and abilities: KOSTIKOV is well trusted to take trips around the country in the company of another Soviet Embassy employee on various matters of importance and, on occasions, he acts as an interpreter for visiting Soviet officials. His known physical defect is weak eyes. Sometime ago KOSTIKOV called up an eye-specialist for an appointment, because his eyes were troubling him and that is probably the reason for his wearing tinted glasses. Sometimes Mexicans refer to him as the man with glasses. It is quite possible that an auto accident KOSTIKOV had in Vera_cruz may have been caused by his somewhat defective vision and was not the result of carelessness. However, when KOSTIKOV was excusing himself for it, GARMASHEV, to whom he spoke on the phone, told him dryly that it was about time KOSTIKOV learned to drive.

Owing to this shortcoming of having weak eyes and his physical make up, KOSTIKOV does not participate in various indoor or outdoor sports as much as do other members of the Soviet Embassy. It seems that billiards are about the most strenuous exercise that he undertakes. However, it must not be surmised that he is a weak individual in a physical sense and will probably give a good account of himself if a situation will demand it. Many of his intimate collaborators call him "Kopchenyy" or "Smoked"

which in Russian slang may mean an individual with a dark skin, or may refer to the fact of his wearing tinted glasses, or it may signify that he went through a school of hard knocks

It is quite certain that KOSTIKOV and ALFERIYEV belong to the same group of former hooligans, who by dint of sheer disregard for moral standards forged ahead and became "somebodies".

KOSTIKOV seems to be quite unsrupulous, ready to perform any sort of task set before him, not in a cold and methodical way, but with a certain zest and bravado. It appears that he has no moral, religious, or any other type of scruples. He is vulgar, untidy and lecherous, with a penchant for using lewd and obscene expressions in conversation with his "buddies", with whom he drinks quite a lot, circumstances permitting. In addition, it must be noted that he is a shrewd and resourceful individual unquestionably loyal to the Communist system.

AEPURPLE positively identified photo of Valeriy Vladimirovich KOSTIKOV as Soviet who had met him in Mexico City on 9, 11 and 12 Feb 1963. KOSTIKOV gave PURPLE meeting arrangements for next meeting to be in NYC. Soviet who appeared in NYC was Oleg D. BRYKIN. BRYKIN has been identified as member 13th Dept of KGB's FCD.

PURPLE is naturalized German American, has crop dusting business in Middle West, furnished info on industrial and missile sites in area. BRYKIN particularly interested in pipelines, [redacted]

The 13th Dept may have exercised its prerogative and taken over case from First (American) Dept. Former case officer Yuriy V. KOSTIKOV was apparently from American Dept, not 13th. But it appears that BRYKIN asked PURPLE for same ~~ixix~~ type of info assigned by KOSTIKOV, suggesting that KOSTIKOV was from same KGB dept as BRYKIN.

ACTION REQUIRED - REFERENCES

C-94.....

1. We have recently reviewed available information on Valeriy Vladimirovich KOSTIKOV, a consular attache at the Soviet Embassy in Mexico City. It appears quite possible that KOSTIKOV may be a member of the Thirteenth Department of the KGB's First Chief Directorate, as will be seen below.

2. KOSTIKOV has been positively identified as the Soviet who met AEBURBLE in Mexico City on 9, 11 and 12 February 1963. (Mexico City Station identified KOSTIKOV as the only Soviet in Mexico who fit the description, and subsequently AEBURBLE identified him from a photo spread.) KOSTIKOV received information from AEBURBLE on industrial and missile sites in PBPRIME and gave him requirements of the same nature for the future. KOSTIKOV also made arrangements with AEBURBLE for his next meeting, to be held in New York City with a different, unidentified Soviet. On 6 May 1963 AEBURBLE was met in accordance with the above arrangements by Oleg Danilovich BRYKIN (201-292588), a translator assigned to the United Nations Secretariat in New York City. BRYKIN has been identified by a sensitive, reliable source as a member of the KGB's Thirteenth Department. AEBURBLE passed BRYKIN aeronautical charts and was given additional requirements particularly relative to missile bases. Nothing transpired during the latter meeting to suggest that BRYKIN wished to change the nature of the case, and in fact he told AEBURBLE that he was doing a good job. It therefore can reasonably be assumed that BRYKIN and KOSTIKOV both were representing the same KGB department.

DISPATCH

3. It has been reliably reported that at present the KGB's Thirteenth Department places the greatest emphasis on its sabotage mission. Sabotage targets include the most important strategic military and industrial facilities of Western countries. The requirements assigned to AEBURBLE by both KOSTIKOV and BRYKIN correspond to this mission.

4. In view of the obvious ODYOKE interest in any activities of the Thirteenth Department, we urge that you prepare an analysis of KOSTIKOV's activities and contacts in Mexico.

Age about 30-35. Not very tall. Rather French looking. He is a photographer for Novosti. Source met him through visitors from Paris Match, whom MARTYVOV makes a practice of guiding around town. He has never been stationed abroad but comes out to Paris once in a while. The next time he comes he will look up Source. He speaks very good French, and has a pleasing personality. He is rather outspoken at times. For instance, when someone said "bunch of stupid people" about the Soviets, MARTYNOV replied, "You're damn right." He appears to be tempted by western living. He concentrates on the French. He is married to a nice girl with brown hair and eyes. They have children, but Source is not sure whether one or two.

About 40 years old, he is the administrator of the Conservatory, and Source will see him in Paris when he next goes there. He speaks very good Spanish, having formerly been stationed in Buenos Aires as a cultural attache or something. He is probably a KGB officer, but he works hard at his cover job. During a trip to Paris, he called Source's father to arrange for the quick renting of two pianos for the orchestra he was with. He looks like a frog and is rather bald, short, blond, with dark blue eyes. He is very friendly and accommodating, lively, and nice. He goes out a lot, and sees a lot of foreign colony, particularly Argentines and other Spanish speaking people. He is married and has a little boy called Emilyan. He once invited Source to go to his dacha, but she didn't have time. She intends to send him a postcard with her new address.

1. Subject, an IZVESTIYA correspondent, was identified as a good source of information for two American journalists in Moscow who were suspected of having been recruited by the KGB.

2. Although we have no record of his being stationed abroad, Subject has made several visits to non-bloc countries. In June-July he visited New Delhi and Bangkok. In December 1962 he visited Iran. While in Iran he was introduced as IZVESTIYA's special correspondent. He corrected the individual who was making the introduction by saying that he was an international observer.

3. Subject visited Turkey in April 1963. While in Ankara he is reported as having participated in "propaganda tactics" and made an "attempt to feel the pulse of the public" as part of the Soviet efforts at that time to establish closer relations with Turkey. During visits with various heads of mass media organs he commented that while in Iran he had written "friendly articles" which were well received by the Iranians. As a result he was the first Soviet journalist to be admitted to the oil regions of Abadan and Ahvas.

4. LEDNEV is described as tall, balding dark hair, high cheek bones, small mouth, wears clear plastic-rimmed glasses, smokes Kent cigarettes. He speaks English, but speaks better German.

Kaname TAKAHASHI, business representative of International (Japanese firm)

This man is about 55 and lived in China for a long time. He married a White Russian girl from Harbin. They left Shanghai in 1951, which Source considers strange, i.e. it would have been normal for them to leave in 1949 when the Communists took over. They have a son in the United States who is married, and possibly a daughter there as well. They have another daughter, unmarried, Svetlana TAKAHASHI, who lives in Japan. Source met her by chance at Orly airport and also in Moscow. She is a beautiful girl, half Japanese and half Russian. She speaks good Russian, as does her father. Her mother, TAKAHASHI's wife, is in Japan. TAKAHASHI also speaks Chinese and poor English. He has a lot of Soviet contacts. Source thinks he is probably somebody's agent, theirs or ours, probably ours and/or the Japanese. A curious and interesting man.

Mr. Robert A. D/H/FORD

Position (Jan 65): Ambassador, Canadian Embassy, Moscow, USSR

Closest English speaking friend of SOURCE in Moscow. Anti-Gaullist in outlook but otherwise quite "French-friendly." Is a cripple but often tries to take a few steps on the dance floor. Suffers from Polio. Former university professor in Canada (medieval history) before becoming diplomat. Wife is the most charming ambassador's wife in Moscow. She was introduced to FORD by the former Brazilian ambassador to Moscow (currently the Brazilian foreign minister) when the latter served at the UN in New York as a member of Brazil's delegation. The Fords are very much in love with each other and are a fine couple. Mrs. Ford is the best dressed, most cultured woman in town, also has the best jewels. Her name is Terese. Both speak good Russian and he is probably one of the most competent ambassadors in the Soviet Union. Mrs. Ford is a particularly close friend of the Israel ambassador Mr. TEKOAH.

C. O. Comment: The following information is the result of a hurried debriefing which lasted one hour only.

I Previously identified by Source, not yet in new book.

#1 (SAMOYLOV, Nikolai A.)

#2 (ZARUBINA, Zoya V.)
Has something to do with the press or Inturist. Speaks French.

#3 (TOCHILIN, Sergei)
Has seen, but remembers nothing.

#4 (MEDVEDEV, Vladimir A.)
Source remembers this man, because he is a dead ringer for Kosygin. The picture is a good likeness, although he now has somewhat less hair. He is about 55, is dark and of medium height.

#5 (KHARLAMOV, Mikhail A.)
This is a good likeness. He is of medium height, with a "typical Soviet figure." Nothing more remembered.

#6 (SHIBAYEV, Pyotr A.)

Source has not seen this man.

#8 (NOSENKO, Yuriy A.)

Source has never seen this man, nor #192 in regular Mugbook.

#9 (VLADYKIN, Nikolai A.)

Source had difficulty identifying this picture. Said she hardly knows this man.

#13 and #60 (SUNTSOV, Aleksei V.)

Source has never seen this man.

#25 (PETROV, Vladimir I.)

Source has never seen this man.

The picture looks familiar to Source, but she can state nothing about the man.

#32 (SUMSKOY, Mikhail M.)

Source has never seen this man.

#34 (SHCHERBAK, Fyodor A.)

Source definitely has seen this man, but can say nothing about him, other than that he is about fifty, stout, upper medium height, and she saw him at the 14th July French reception, 1966.

#37 (FEDYANIN, Vladimir P.)

Source does not recognize this man.

#40, 93, 138, 172 (PANASENKO, Ivan A.)

#40: Source thinks this man has something to do with the military; she has seen him with military attaches.

#93: No recognition.

#138: This man is from the Ministry of Foreign Affairs, speaks a lot of languages, including English and French. He is a good-looking, charming man, about 38-40 years old, 178 cm. tall, well built. She saw him at the 14th July French reception, 1966.

#49 (SUNTSOV, Aleksandr V.)

Source did not recognize this picture.

#72 (KURILENKO, Ivan P.)

At first Source did not recognize this picture. She later said she had seen him during the de Gaulle visit and at various national day parties.

#97 (DITYATYEV, Dmitriy A.)

Source did not recognize this picture.

15 SEP 1966

#101 (GLAZUNOV, Ilya S.)

Source recognized this picture by name. GLAZUNOV is about 35; the picture is a good likeness but makes him look too healthy. He looks like an "uncooked spaghetti," pale complexion, thin, short. He speaks Italian. Source considers GLAZUNOV not intelligent, and entirely too eager to mix with foreigners. Source sent the Canadian, Benoit de Margerie, to GLAZUNOV when the Canadian was interested in having his portrait painted. GLAZUNOV's wife (NU) is about thirty, has long dark hair; is very intelligent.

#106 (SHVARTS, Ilya P.)

Source did not recognize this picture.

#122 (FILIPPOV, Grigoriy A.)

#163 (GUK, Yuriy I.)

Source stated she may possibly have seen this man a long time ago at a diplomatic party.

Source did not recognize this picture, nor #8 in Section I.

III New Mugbook: new identifications.

#5 (FEDYANIN, Vladimir P.)

Source has seen this man but could not remember anything about him.

#20 and #76 (ALYOSHIN, Yevgeniy N.)

Source thought these two pictures might be of her husband's "friend", meaning the case officer who keeps dogging him, turning up at the next seat in the theatre, etc. She said she would check with her husband as to this man's name, and ask him for details. She said she already discussed this "friend" during the last debriefing. He poses as a history professor.

#39 and #63 (ZHUKOV, Georgiy A.)

Source identified this picture as that of Yuriy ZHUKOV, either TASS or MFA press department man. She last saw him at the farewell party for Source and her husband at their embassy. She could not remember anything else about him, but promised to ask her husband, who, she knows, hates him for some reason.

#61 (ZAITSEV, Lev N.)

Source identified this picture as that of a Novosti man, or at least a journalist. He is about 35, tallish, good looking. Speaks French. Has been abroad. Deals with foreign journalists.

#125 (LOUIS, Viktor)

UNITED STATES

America House Club

SOURCE comments this is little more than a brothel where the lower echelons of the foreign diplomatic colony arrange trysts. There is a great deal of passing whiskey and cigaretts here, particularly among the foreign service personnel (maids, etc) of members of the diplomatic corps. At least within the French embassy the general feeling is that one should stay away from the place, since no diplomats of status go there, except on rare occasions (an especially good film). The enlisted American military personnel are known to use the facilities of the club to shack up with foreigners.

DATE ACQUIRED: SEPTEMBER 1966

The tone of the Club has improved greatly owing to security measures which have been introduced in controlling the people who may enter. It has now become chic and even ambassadors go there.

His wife is French. SOURCE sees them at a number of American and British parties. Frequently present at African parties, since he is embassy officer responsible for African affairs. Wife is a bore.

DATE ACQUIRED: SEPTEMBER 1966

Mr. Henry SHAPIRO

Position (Jan'65): Chief, UNITED PRESS INTERNATIONAL Bureau in Moscow, USSR

SOURCE and SOURCE's husband like S. He is Jewish, sharp and quick, speaks excellent Russian. Knows a tremendous amount about Russian, very well informed. SOURCE speculates SHAPIRO may have helped the Russians in the past (she means the RIS) but does not think he has to now that he has established himself. SOURCE comments that SHAPIRO, like all Western press people have to be extremely careful what they file, otherwise they will be thrown out of the SU. This is very true in SHAPIRO's case, since he married to Soviet national who might not be able to leave with him if he were thrown out. Most noteable thing about SHAPIRO is his very extensive contacts in the dip circuit - Henry literally knows everybody worth knowing. On very good terms with past US ambassador (Thompson). Probably because of religious bonds, he is also on very good terms with current Israeli ambassador.

DATE ACQUIRED : September 1966.

Shapiro hates to spend money. He is very hard on his assistants, and very quick-tempered. He hates Edmund Stevens and his wife. He is close to the Austrian ambassador (Walter Wodak), the Italian ambassador (Federico Sensi) and the Norwegian ambassador (Frithjof Jacobsen). Recently Shapiro decided to do a story on the prostitutes who hang out at the Hotel National. He sent someone to interview some of these girls. As a result he was attacked in Pravda. Shapiro was terribly upset at this, almost crying. He is normally a very careful man. He knows all the Soviet journalists well, and possibly cooperates with them. SET

NEWSDAY

Mr. Edmund STEVENS

Position (Jan 65): Correspondent for NEWSDAY (USA) in Moscow, USSR

Neither SOURCE nor SOURCE's husband like. Drinks a lot, especially early in the morning - often drunk, and when so tends to make stupid remarks. However, terribly well informed about what is going on in the Soviet Union, in fact one of the best informed Western correspondents in Moscow. He has a find collection of modern paintings. SOURCE believes he probably works for the KGB, since he openly involved in black marketing, selling of ikons, and always seems to have more than enough money. He is the type who would sell his sould for cash. Daughter now in Rome, trying to become a movie actress. She was formerly a student at the Bolshoi Theater, studying ballet. She was something of a whore and slept with a number of Russians.

15 SEP 1966

Edmund Stevens

Date Acquired: September 1966

STEVENS' wife told Peter GROSE of the New York Times that she wasbuying up paintings from Soviet artists and reselling them for a profit. Source considers Mrs. STEVENS a real bitch. STEVENS argues with her a lot. Source thinks he is no longer capable of having a sex life. Source has no doubts that he works for the KGB.

STEVENS' contacts in the foreign colony are extensive. He sees most of the important ambassadors, including KOHLER (US), HARRISON (UK), and SENSI (Italy). Among the many Americans he sees are GUTHRIE and ARMITAGE.

The only Soviet contacts of the STEVENS whom Source knows are figures from the artistic world: musicians MOISSEYEV and KAGAN, and the ballerina PLISETSKAYA.

UNITED STATES

US EMBASSY MOSCOW

General Comments:

Embassy officers all believe they are very important people by virtue of the fact that the Department sent them to Moscow to represent the States. They try to impress everybody with their position and with their knowledge of Soviet affairs (which is not too good in the first place). They tend to live a getto-like existence, do not mix with other members of the dip set. Stay at home or in the embassy and do not get out around in the city. From a social point of view they are for the most part boring - only wish to talk business and office politics. No lightness of sense for "things gay." Heavy. Do not have many of the social graces, do not dance well, do not play cards well, etc. Wives are poor dressers and can not cook.

SOURCE feels she has to watch what she says to JAFFE, lest he uncover some of her husbands "sources" for news. JAFFE does a good job, knows the ropes of his profession and is a thoroughly competent journalist. SOURCE wonders why, in view of his position, Mr. Kohler has a Chinese cook - she thinks this is a poor security practice. The STOESSELs tried to entertain in a grand way but were obivously amateurs. They would serve entirely too much liquor before dinner and get their guests potted. Their food at dinners was indifferent though of good quality. They did serve good French wines. One got the impression Mrs. STOESSEL did not take too many pains in planning and serving her dinners. She has a terrible cook. SOURCE entertained the STOESSELS in her home on about 10 occasions (from Oct 62 to the time the STOESSELS left). Wife dresses badly, even worse than Mrs. Kohler.

Nikita Khrushchov and Fidel Castro at the Likhachov Automobile Works, which they visited the day before May 1.

The workers of the plant were holding a social evening at their Palace of Culture, and the distinguished guest was greeted by thousands of people. Both Nikita Khrushchov and Fidel Castro were presented with models of the ZIL car made at the Works. Before the concert, Nikita Khrushchov, Fidel Castro and his party saw a documentary film about the Works, which was the first Soviet automobile plant. Famous performers and amateurs took part in the concert, which wound up with the "July 26th March". The last [illegible]s were drowned in enthusiastic applause, and cries of "Viva Fidel!" and "Viva Cuba!" resounded in the hall long afterwards.

(S) (Gp-1) A Soviet Embassy official in Mexico City, Nikolai S. LEONOV, is allegedly actively planning an insurgent movement in Latin America. LEONOV left Mexico for the USSR on 21 April to confer with KHRUSHCHEV and CASTRO. Credence is given this report by the publication of a photograph of the three on 8 May in a Cuban newspaper. The photograph was purportedly taken during a recent meeting.

(S) (Gp-1) Cuba and Mexico, according to LEONOV's schemes, would serve as bases for the insurgency. Cuba would be the "invisible beachhead" and Mexico the point for covert distribution of arms.

(S) (Gp-3) The individual selected as the contact man for arms acquisition is said to have been engaged in similar activity in Guatemala about a year ago.

(S) (Gp-3) Another report from sources in Colombia stated that pro-CASTRO ex-President CARDENAS planned to call a meeting in Mexico City of "leftist bent", disgruntled retired military officers from Latin American countries on the subject of insurgency. (DIA, 3 June 1963)

The Soviet Government has assured the Cuban Government that it will give its assistance to the Cubans in the event of an aggression against Cuba. The Soviets consider Guatemala to be the most sensitive spot in Latin America at the present time, and are very interested in the Guatemalan problem. Because of this the Soviets are prepared to give their all out assistance to both countries in their current political struggles.

Nikolai Sergeyevich LEONOV returned to Mexico 11 July 1960 and has been assigned to the Soviet Embassy staff, Third Secretary, diplomatic rank, as an assistant to Vladimir NOVIKOV in the Office of Cultural Affairs. While the Station feels that Fidel CASTRO Ruz's recent public statements admitting his long-time sympathies and associations with Communism somewhat lessens the exploitation impact of this "expose", it is also felt that LEONOV's Mexican background, dating back to 1955 and including the incident played up by the Mexican press in 1956, is worthy of press replay. LEONOV's return and present responsible position in the Soviet Embassy of Mexico will provide added interest in the story. The Station will therefore attempt to obtain the Mexican press accounts of the 1956 incident, updating this information into a press article for exploitation as suggested in reference.

1. Your attention is directed to reference A which mentioned the proposed [illegible] exploitation of the finding of the personal calling card of Nikolai S. LEONOV in the address book of Fidel CASTRO Ruz.

2. Although there were OTHER reports at the same time as reference A, which reported that the Mexican press carried a generally accurate and complete account of the breakup of the Cuban revolutionary conspiracy, that the leader was linked with the Soviet Embassy and that he carried in his wallet a card of LEONOV, secretary to the Soviet ambassador, it can not be determined at Headquarters whether there was specific Station play-up of this incident.

3. In reviewing Station dispatches pertaining to the CASTRO case, reference B was examined, as well as its attachment, the report of LEONOV. The latter apparently attempts to explain the circumstances under which the personal card of LEONOV was "planted" in the CASTRO address book. A discrepancy is noted in the reconstruction of the incident of the arrest of CASTRO and the discovery of LEONOV's card in that both the reference and the attachment describe the circumstances surrounding the arrest of CASTRO as occurring in November 1956 whereas reference A had already reported the arrest and discovery of the card in the address book as having occurred in June 1956.

4. Now, there is renewed interest in this matter due to the fact that reference C reported LEONOV's return to Mexico for what appears to be a second tour of duty.

5. The views of Station Mexico are requested as to whether it would be feasible to replay the original incident indicating the tie between CASTRO and LEONOV. Even if the incident was not exploited before, it is the opinion of Headquarters that it would be useful to cite a specific CASTRO tie with the Soviets before he took over in Cuba. From a Headquarters viewpoint the alleged action of LIV[illegible]/2 in "planting" the card would still not impair the replay of the original incident.

I. [illegible]

The following information on the activities of the Soviet Embassy in Mexico was developed during the month of October 1956. Separate reports will be furnished on the Commercial and on Cultural and Propaganda Activities of the Embassy. References made below to the visiting Soviet musicians will be detailed in a special report concerning the activities of the musicians while in Mexico.

II. DIPLOMATIC

A. Relations with Mexican Government

1. On 1 October the secretary of Alfonso [illegible] Diaz, Private Secretary to Foreign Minister Luis PADILLA Nervo, conferred with Leonid [illegible], Third Secretary of the Soviet Embassy, about a dinner being given by the Embassy the following evening. Soviet Ambassador Anatoliy G. [illegible]KOV invited [illegible] and his wife to attend a piano concert with him after the dinner. On 3 October [illegible] informed [illegible] that he was very embarrassed about what had happened the previous evening, but he had had a meeting with PADILLA Nervo and had not gotten out until 8:30 p.m. He had not known whether to go to the Embassy or to the concert, and asked that [illegible] excuse him with the Ambassador.

2. The private secretary of Jose [illegible]ZA, Sub-Secretary of Foreign Affairs, left a message at the Soviet Embassy on 3 October indicating he would be unable to accompany the Ambassador to the concert by a Soviet violinist that evening, as he had to attend a special dinner. However, [illegible] had apparently accompanied the Ambassador to a piano concert the previous evening.

3. Eduardo GUZMAN of Perex and (fnu) GARCIA Rojas, also of Perex, accepted invitations from Boris A. KAZANTSEV, recently appointed Counselor of the Soviet Embassy, to lunch on 5 October at 2:30 p.m. When GARCIA Rojas became ill that day, KAZANTSEV and GUZMAN decided to lunch alone, and meet another day with GARCIA Rojas. Later GUZMAN had to postpone the luncheon because of a special meeting with Antonio [illegible] of Perex. Both GUZMAN and GARCIA Rojas were invited and since the latter could not attend, GUZMAN had to be present. GUZMAN suggested to KAZANTSEV that they postpone their luncheon date until 8 October when GARCIA would probably be able to attend also.

4. On 4 October KAZANTSEV contacted Bernardo [illegible] Morales of the Press Section of the Foreign Ministry and apologized for not being able to obtain a third ticket for him for a concert that evening. [illegible] had requested a ticket for his daughter, but KAZANTSEV assured him that since their tickets were for the balcony all three could probably enter on the two tickets.

5. The secretary of Ricardo J. ZEVADA (of the Banco Nacional de Comercio Exterior) informed the Embassy on 8 October that ZEVADA was back at work. The Embassy had been trying to contact him, probably for the purpose of inviting him to a dinner or concert.

6. On 10 October a farewell reception was held at the Soviet Embassy in honor of Mikhail F. CHERKASOV, Counselor of the Embassy, who was scheduled to leave Mexico on 17 October. On 9 October Jose MARTINEZ Caballos of the Protocol Office told Viktor N. GLOTOV, First Secretary, that Jose MUNOZ Zapata of the Foreign Office wanted to know if it would be possible for the Embassy to give four invitations to the following friends of Mrs. PADILLA Nervo (believed to be the wife of Luis PADILLA Nervo, Secretary of Foreign Relations): Enrique [illegible] and wife; Dr. Grover [illegible] and wife; M. [illegible]; and Mrs. Mary [illegible]. The Embassy agreed to send the invitations to Mrs. PADILLA Nervo, who would pass them on to her friends. MARTINEZ Caballos also indicated that in case the Ambassador and CHERKASOV did not know, that Eduardo ESPINOSA Prieto of the Mexican Diplomatic Service, and his wife Tamara were in Mexico and it would be a good idea to invite them. GLOTOV replied that these people were their good friends. MARTINEZ Caballos did not know if Minister PADILLA Nervo and Sub-secretary GOROSTIZA would be able to attend, but added that he and MUNOZ Zapata would be there. Federico A. MARISCAL, new Director of Protocol, also planned to attend. Pablo CAMPOS Ortiz of the Foreign Ministry could not be there because he was still in the hospital recovering from an operation.

7. [illegible] CHAVEZ Ramirez, Minister of Hydraulic Resources, and his wife received an invitation to a concert of the Soviet musicians on 21 October and requested eight seats. On 20 October they asked that eight seats be reserved for the 28 October concert.

8. Enrique ROSA Pontones, private secretary of Antonio CARRILLO Flores, Minister of Finance, informed [illegible] on 15 October that CARRILLO enjoyed attending the concert with the Ambassador on Sunday, but would not be able to accompany him on Wednesday, 17 October because of a meeting with the French Economic Commission.

9. Soviet Ambassador [illegible] made an appointment to meet with Director Rodrigo [illegible] of the Banco de Mexico on 18 October at 12:00 noon.

10. On 16 October the Ambassador consulted with [illegible] Zapata concerning an idea he had of organizing a small concert at the Embassy for a very restricted group - only Secretaries and some Sub-secretaries and their wives. [illegible] and told [illegible] Zapata that the question of attending was difficult because of the limited time and the protocol. [illegible] Zapata suggested that the Ambassador send out invitations or indicate to him who might be interested. He and MARISCAL could not attend on the 17th because they were invited to a cocktail party in the afternoon at Bellas Artes and a dinner in the evening. [illegible] had already heard the artists at Bellas Artes and at the cocktail party at the Embassy.

11. On 24 October [illegible] received a message from Salvador [illegible], secretary of President [illegible] Cortines, thanking the Embassy for offering a concert by the Soviet artists as mentioned in the note received from the Soviets. However, they would not be able to attend due to the fact that the wife of the president had some engagements out of town.

12. The private secretary of [illegible] informed [illegible] on 27 October that [illegible] had received the Ambassador's invitation to the concert on 28 October, but had to go out of town and would not be able to attend. He asked that the tickets be given to his son.

B. Relations with Other Latin American Diplomats:

1. Ambassador [illegible] made arrangements with Gral. Gabriel [illegible] Quiroga, Bolivian Ambassador, to meet at the Bolivian Chancellery on the afternoon of 2 October.

SECRET 50-4-1-303

2. On 5 October [illegible]OV contacted Jorge [illegible], Attache at the Panamanian Embassy, to make an appointment with Ambassador Eusebio A. [illegible]. However, the ambassador was in Panama City so [illegible]OV made arrangements to meet with RAMIREZ the following day.

3. On 17 October [illegible]OV informed (Dr) Otto [illegible] Salazar, Second Secretary at the Nicaraguan Embassy, that the Soviet Ambassador would participate in the ceremony in honor of Carlos PEON del Valle, former Chief of the Mexican Protocol Office. The Soviet Ambassador had indicated that they could handle the matter of the money as they liked, taking from the funds of the diplomatic corps if they wished.

2. On 12 September Rafael FUSONI, formerly of the local United Nations Office of Information, thanked Mikhail Frolovich CHERKASOV for the use of the typewriter, and asked what the Russian delegates had thought of the Geology Congress. CHERKASOV indicated that they thought it "magnificent." FUSONI also informed CHERKASOV that on Friday evening, 14 September at 8:00 p.m., a small dinner was being held at his home for an engineer named Eduardo GUZMAN of Pemex, (fnu) GARCIA Rojas, and some other engineers who helped organize the Congress, and that he would like to invite CHERKASOV and the man who accompanied him the last time. CHERKASOV indicated that he and Vitaliy Aleksandrovich KHARITONOV, First Secretary, would be pleased to attend.

3. KAZANTSEV informed the Oficina de la Comision Economica para la America Latina (CEPAL) on 13 September that the Ambassador would be unable to attend the reception that day, but that CHERKASOV would come in his place.

4. The Ambassador's request for an audience with the Mexican Foreign Minister was postponed until 11:00 a.m., Tuesday of the following week, 18 September, which is the usual reception day.

5. On 19 September Carlos PEON del Valle, Chief of Protocol, informed Nikolay Sergeyevich LEZHKOV, Secretary to the Ambassador, that he would be unable to accept Ambassador KULAZHENKOV's invitation to dinner on 27 September because of a previous engagement with the Ecuadorean Ambassador.

6. On 20 September Boris A. KAZANTSEV, First Secretary, discussed with Cristobal LARA of CEPAL a meeting of the Economic Commission scheduled to take place in La Paz, Bolivia at the beginning of 1957. No definite date has been set, but LARA estimated it would probably be held in May of the following year. Since LARA was leaving the city on Monday, 24 September, for a two-week vacation, he could not accept KAZANTSEV's invitation to lunch, but promised to call him on returning to Mexico City.

7. On 25 September KAZANTSEV indicated he was sending a gift to Delfin SANCHEZ Juarez, a lawyer, of the International Affairs Office of Seguro Social (Social Security).

9. On 21 September the secretary of the Cuban Ambassador informed Albert Alekseyevich MATVEYEV, Attache, that she had just talked to the Cuban Ambassador who was ill, and would like to postpone their luncheon date for that day until Thursday or Friday of the following week. After checking with the Ambassador arrangements were made for 7:30 p.m., Friday, 28 September. The Cuban Ambassador and his wife, and Francisco DOMINGUEZ Comas, Second Secretary of the Cuban Embassy, would attend.

10. Plans were made for KAZANTSEV and DOMINGUEZ of the Cuban Embassy to meet for lunch on Wednesday, 26 September. However, KAZANTSEV later cancelled the date upon learning that they would have an opportunity to see each other at the Soviet Embassy.

7. The Czech Legation contacted the Soviet Embassy on 29 September to ask if they had a truck or pick-up that could be used to transport a ping-pong table from the Czech Legation to the Minister's residence for the party that evening. 7. Felice STERN (ph) of the British Embassy contacted CHERKASOV on 19 September concerning plans for a luncheon and some table tennis games on Saturday, 22 September at 1:00 p.m. Since she could only seat ten persons and there would be five from the British Embassy, she would like to invite five of the Soviets. They decided on the Ambassador, CHERKASOV, AKSENOV and his wife, and GLOTOV and his wife. However, since that added up to too many guests, CHERKASOV agreed to let her know exactly the following day, and added that since he played table tennis badly, he would serve as referee.

8. On 21 September J. K. Ganju of the Indian Embassy congratulated KAZANTSEV on his promotion (see section on Personnel) and asked about the chart which the Soviet geologist delegates had distributed at the cocktail party at the Embassy. Part of the chart received by the Indians was missing and they would like another copy. KAZANTSEV said that all but six or eight of the delegates had returned and the rest were visiting in Yucatan. He would try to get another copy, but if he could not, he was sure the Indian delegates could get it through the Soviet delegate at New Delhi.

KOLOMYAKOV, Attache in the Cultural Office, to a cocktail party being given at the Palacio de Bellas Artes that same day in honor of Maestro (fnu) HERRERA de la Fuente who was leaving for Europe. SANCHEZ apologized for not having been able to notify them sooner, but stated that he had been sick. He informed MASYUKEVICH that Jan PAWALOWSKI, Cultural Attache of the Polish Legation, was going to attend and that he thought that it would be very interesting for the people from the Soviet Embassy to speak with the people that were going to be there. MASYUKEVICH promised he would do everything possible to be there.

b. On 13 September SANCHEZ Arriola apologized to MASYUKEVICH for not having come that morning and said he had been with KOLOMYAKOV the night before. MASYUKEVICH was aware of this and said arrangements had been made. SANCHEZ inquired about some pictures, but KOLOMYAKOV knew nothing about them and was leaving next day for San Luis Potosi, so MASYUKEVICH would talk to him about it later.

c. Arrangements were made for the Ambassador to see Miguel ALVAREZ Acosta, Director of Bellas Artes, at 1:30 p.m. on Monday, 24 September.

2. IICMR (Mexican-Russian Institute for Cultural Interchange)

a. KOLOMYAKOV contacted the IICMR on 13 September and told Tomas CHAVEZ Morado that it would not be necessary for the Institute to send over an operator and projector as they had been able to obtain a 35mm copy of the film they were going to show.

b. On 25 September the president of the Sociedad de Guerrerense contacted the Soviet Embassy and requested some motion pictures to take on a cultural tour through his state of Guerrero. He was referred to the IICMR as the films were not kept at the Embassy.

B. Specific Cultural Activities of the Embassy:

1. Art:

a. Ignacio MARQUEZ Rodiles, prominent Mexican leftist in education and artistic circles, informed KOLOMYAKOV on 7 September that he had received at the Comite del Trece a letter from the Soviet Painters' Federation or Union, and would like to talk to KOLOMYAKOV concerning it, because it was related to a plan which they had already taken up at the Embassy about Mexican cultural relations. An exposition of Mexican paintings would be ready to leave China around the end of November and they must decide whether it would return to Mexico, or whether

they should take advantage of the invitation which the Soviet painters had made for 1957. The Soviet painters could not receive the exhibition this year because of lack of space and other expositions being presented. MARQUES indicated that they would like to have the exhibition go to the Soviet Union, and he would like to talk with both KOLOMYAKOV and the Ambassador concerning this matter.

b. MARQUEZ called MATVEYEV on 7 September, and told him that the committee of the Frente Nacional de Artes Plasticas, of which he is a member, had received a letter from the Union de Artes Plasticas in the USSR and he would like to talk with the Ambassador concerning it. He was told to take the matter up with the Cultural Attache first. Later arrangements were made for MARQUES to see the Ambassador at 10:00 a.m. on Thursday, 13 September. MARQUES wished to bring all the committee with him, because of the importance of the matter, but was told to bring just one other person.

2. Motion pictures:

a. Gaston GARCIA Cantu (of previous record) contacted MASYUKEVICH to ascertain if he had any photographs of the film "Viva Mexico." MASYUKEVICH replied negatively, but added that they did have a photograph of "Sergio" and he would look for a copy.

b. On 15 September MATVEYEV conferred with Mario CALVET to see if he had received the new Soviet films. CALVET said they had received the following: "Las Damas"; a short entitled "Monumentos Historicos del Kremlin"; "El Gallito de la Cresta de Oro"; a short, "Antilope de Oro"; "Kashtanta"; and "La Daga" of which they had a previous copy. Later the same day a man from CALVET's office contacted BOLSHAKOV to see if he could come by/for the film, "Cerilla Sueca," which was to be used for a matinee showing to the Sindicato de Cinematografistas (Motion Picture Union), who had requested it. The man was told to come by the Embassy and ask for Boris BORZAKOV.

3. Dance - Theatre:

a. On 12 September, SANCHEZ Arriola asked MASYUKEVICH if Juan TOLEDO had to ask authorization to put out publicity on the ballet. MASYUKEVICH said he only had to make some arrangement with the Soviet Embassy so as to be in agreement about the publicity, but he believed they could publish what they wanted.

b. KOLOMYAKOV confirmed to Juan TOLEDO on 19 September what they had previously said, and stated that they were supporting his idea. TOLEDO said that it was only a matter of consultation

because (fnu) LUMBROSO had told him that they usually asked for the opinion of the Embassies of each country to be certain that no country would object. Soviet opinion was positive. KOLOMYAKOV promised to go by one day and greet TOLEDO in person.

e. Jose Luis MARTINEZ of Exito informed MASYUKEVICH that the article on the Russian ballet had been published.

She also stated that she had left a small box containing a silver item and Mexican cent-piece which she was sending to ZUBOTINA as a remembrance of Mexico. Sra Maria Luisa ROBLES, Chief of Paleontology of Pemex, had asked her to check on these things. She would stop by the Embassy around 3:00 p.m. to check further, as she lived near by.

4. On 28 September MASYUKEVICH talked to (fnu) RODRIGUEZ Toro and his wife and apologized for the glass broken by their child when they were at the RODRIGUEZ home. He said he had some gifts for them, perfumes from Moscow, and was only awaiting an occasion to give them to them. RODRIGUEZ told MASYUKEVICH that he had his lighter. MASYUKEVICH had thought it lost and bought another. RODRIGUEZ mentioned that he had been in Veracruz and had seen ALEKSEYEV there. He also had spoken with Alberto BELTRAN, pro-Communist artist, concerning the possibility of going out to the country on Sunday. MASYUKEVICH thought it an excellent idea.

IV. ACTIVITIES OF THE MILITARY

1. Captain Carlos SANTANDER Bonilla of the Second Section of the Mexican Army Staff informed Naval Attache Mikhail [illegible] REMIZOV on 2 September that Captain Vladimir Nikolayevich KALININ, of the Soviet Military Attache office, had brought them a list of Soviet technicolor movies from which they could choose. It was arranged that KALININ would talk to SANTANDER about sending the following pictures which they had chosen: "Circo Ruso," "Los Virtuosos del Ballet Ruso," "Cerilla Sueca," "Romeo y Julieta," "Deporte Sovietico 57," and "Vuelo a la Luna." On 5 September KALININ contacted the office about the movies, stating that they could not send them all at once, but that he would bring by "Los Virtuosos de Ballet Ruso" and "Romeo y Julieta" when they were ready.

2. Naval Lt. Jesus RAZO Reguero cancelled a luncheon engagement with REMIZOV on 4 September because of the illness of his daughter. (Field Comment: RAZO, who joined the Mexican Navy on 14 September 1939, was promoted to Lt. j.g. in 1948, served as an assistant at Petty Officers School in 1950, and currently is an aide to Vice Admiral CHAPITAL, Inspector General of the Navy.)

3. On 6 September REMIZOV contacted Comandante Alfonso CASILLAS Gomez and asked when they were going to "hear Mexican music." Arrangements were made to get together at 8:00 p.m. on 11 September at REMIZOV's home. Both men sent greetings to each other's families.

5. On 11 September ROSCHIN attempted to make arrangements for Admiral Mario RODRIGUEZ Malpica to visit Grigori Korneyevich NIKIFORETS, Naval Attache, at the latter's home. However, RODRIGUEZ was leaving for Guaymas early the next morning and would not be back until January. RODRIGUEZ expressed the hope that NIKIFORETS would still be in Mexico when he returned so they could renew their "friendship."

6. On 12 September Major Isver FERNURI (of previous record) left word with TROFIMOV for NIKIFORETS and the Military Attache that he would be pleased to have them attend a luncheon at "Jardines del Pedregal" on Friday, 14 September to celebrate the inauguration of his equestrian school. He also invited TROFIMOV and told him that the school is on Boulevard de la Luz at its furthest point.

7. On 13 September REMIZOV informed Enrique BALTANAZ Holt, Acting G-2 of the Navy under CHICO, that ROSCHIN had not received an invitation to the Independence Day parade. BALTANAZ later contacted ROSCHIN to say that the Defense Department had sent out invitations to four officers in the Naval Attache's office, but they had obviously been mislaid. A duplicate would be sent to ROSCHIN, but in case it was not received in time ROSCHIN would have no problem getting into the stand, as he was expected. ROSCHIN was business-like in the conversation to the point of being curt. Later KALININ called Major Alfredo NUNEZ Arguello, Army Second Section, concerning the same matter of the invitations.

8. Comandante SANDOVAL of the Naval Staff contacted ROSCHIN on 18 September and said he had just received a letter from Luis NUNEZ Cepina (ph), whom he described as a very small man. ROSCHIN knew to whom he was referring. NUNEZ has asked SANDOVAL to convey his thanks to ROSCHIN, stating that the injections had a marvelous effect, and that his wife would require further injections in four or five months. He said he would make another request for serum at that time, and ROSCHIN promised to order five more ampoules for December. ROSCHIN also expressed his pleasure at the recovery of Comandante ZETINA and sent greetings to ZETINA and SANDOVAL. (Field Comment: The Soviets appear extremely polite with all members of the Naval Staff, surpassing all efforts at courtesy with other officials in the Mexican government. This may possibly be attributed to better indoctrination of the Naval Attache's staff.)

9. The secretary of the Guatemalan Military Attache advised REMIZOV on 19 September that invitations were on the way for the Military Attaches Association meeting to be held on 21 September in the Restaurant Los Montejos, Insurgentes 675. 13. On 28 September Yuriy Alekseyevich CHELPANOV talked to Col. RAMOS Flores and asked if General Tomas SANCHEZ Hernandez were coming to the reception at the Embassy the following day. However SANCHEZ had left for Toluca and Tenancingo, and Col. Eduardo SOBRINO Quintero, Chief of Staff, Air Force, would attend alone, as his wife was ill. In all, four persons with wives would attend and SANCHEZ without his wife. RAMOS Flores mentioned that Col. Rosendo ESPARZA Arias would be taking his place on the first of January, and asked if they would like for him to invite ESPARZA also. However, CHELPANOV apparently did not understand, and they decided only on those mentioned previously.

14. On 29 September ROSCHIN contacted Lt. Miguel LOSADA of the Second Section of the Navy and asked why they hadn't sent for any motion pictures. LOSADA answered that the projector had been out of order for about a month, and was being fixed at Casa Steele. ROSCHIN said that they had some new pictures, and that BALTAZAR should let them know when they wanted some.

Official Activities

LEONOV remains an obscure figure and although we assume he is employed in the administrative section of the Chancellery, we cannot pinpoint his duties. He has identified himself from time to time as the secretary to the Ambassador, has been noted taking his turn as embassy duty officer and has taken hospital bedside guard duty. During 1953, before the arrival of the regular administrative officer, Vladimir Ivanovich ZHUKOV, in November 1953, LEONOV was handling calls concerning goods and services but was probably merely filling in, because of his facility with the Spanish language, until ZHUKOV's arrival. In December 1954 APARINOV asked one of the guards whether he had the keys to LEONOV's room in the embassy. Since, during that time, we believe LEONOV was residing at Industria 71, it would appear that LEONOV had a private office in the embassy, one which was apparently kept locked when he was away. One or two other very vague references indicate he might have something to do with communications work. Beginning about November 1955 LEONOV began to emerge as an interpreter and translator. He spent a good deal of time with the Social Security delegation, with Soviet pianist GILELS and with Soviet movie director ALEKSANDROV, each time appearing as the interpreter or translator. His recent association in January 1956 with the daughter of Communist General Heriberto JARA also involved translation work. Other more recent references make us begin to wonder now if LEONOV might not be connected with the Cultural Section. During the last two months of 1955 he appeared to be associated in work with NASYUKEVICH, director of the Soviet Embassy Information Bulletin. In March 1956, when PAPOROV could not keep an appointment at University City at the invitation of Mexican President RUIZ CORTINES, he asked that either LEONOV, GUNDAREV or POPOV keep the appointment. It is known that PAPOROV, GUNDAREV and POPOV are all definitely assigned to the Cultural Section indicating further that LEONOV may be associated with that group. We, therefor, classify LEONOV as

SECRET

having worked in the administrative section until late 1955 when his position began to appear as that of translator and interpreter, perhaps more clearly associated with the cultural section. Again, however, he may still be assigned to administrative work in the Chancellery which overlaps with the cultural end.

LEONOV's contact with Samuel RAMOS as dispatched in HMM-A-4356 (19 March 1956) was reported again on 7 March 1958 when RAMOS called LEONOV and the two discussed a chess tournament to which Soviet delegates were apparently to be invited. When LEONOV asked from where RAMOS was calling, he replied from his home. RAMOS stated he was now back in class "at the University" and so "we won't be able to meet at my house now." RAMOS invited LEONOV to one of the tournaments the following week and also made arrangements to visit subject at the embassy to give him the list of books "which we (want)..."

Unless LEONOV has something to do with consular affairs, we are at a loss to explain the following LIMERICK reference. On 10 November 1955 a man identifying himself as "your friend, Col. GONZALEZ" asked LEONOV if he had found out about some matter he had requested. It appeared that LEONOV had forwarded the "request" to the USSR and that the Mexican Ambassador to the Soviet Union was to notify Col. GONZALEZ. GONZALEZ stopped short after starting to ask what happened to that matter, explaining it would be better if they got together and talked it over. The two arranged to meet at the embassy. At the beginning of the conversation GONZALEZ, in recalling to LEONOV's mind who he was, stated,"We were chatting about this project which I have to present to the Presidencia about the use of the waters from the Toluca volcano, Chinantecatl." The Cia. Exportadora e Importadora Mexicana, S.A. (CEIMSA) had commissioned GONZALEZ to go to Chihuahua to see some farmers and therefore he was not able to contact LEONOV earlier.

Other than the two preceding LIMERICK references, which in themselves are inconclusive, we have no indication that LEONOV is engaged in RIS activities.

There are vague references suggesting that the LEONOVs may be leaving Mexico in April 1958.

Private Activities

During February 1954 LEONOV was hospitalized at the Sanatorio Dalinde where he underwent an appendectomy performed by Dr. Gustavo BAZ.

A LICOOL-2 reference of August 1954 revealed that former Soviet Consul MELNIKOV and his wife agreed that LEONOV played well (possibly a musical instrument or a ball game ??). During March 1955,after he had arranged a movie or given a lecture, two of the embassy wives remarked on how good LEONOV was. (It is known that LEONOV has taken his turn at giving Political Information Class lectures.) LEONOV also appears to enjoy athletics — he plays tennis, attends shooting matches, arranges football games with the Czechs, and plays volleyball. He takes some sort of lessons, not necessarily Spanish, in the embassy. As for LEONOV's feeling about American movies, he was heard to tell one of the Social Security delegates, "You can really run into trash in an American film."

It is reported by LIMERICK that LEONOVA gives some sort of instruction to embassy personnel and although it is not known just what type of lessons these may be, we venture a guess that she teaches Spanish. During October 1955 LEONOVA underwent a very serious operation, lasting two hours, during which the anesthetization had to be discontinued because her heart could not take the strain. LEONOVA returned to work again in November 1955.

Although one vague reference hinted that LEONOVA may be pregnant now, there have been no allusions to any children the LEONOVs might have. When MATVEYEV returned from home leave in the USSR in October 1955, while LEONOVA was undergoing her operation, he said he had seen LEONOVA's father but, because of his age, it would be better that he not be told of her sickness.

Operational/LCIMPROVE
Samuel RAMOS; Renee SALGO Burger; et al

1. LIMERICK reported that on 24 February 1956 one Samuel RAMOS contacted Nikolai S. LEONOV, who acts as secretary to the Soviet Ambassador in Mexico. RAMOS told LEONOV "We are not going to meet at my house this afternoon but at SALGO's (which is at) Insurgentes 429-51 at the usual hour." LEONOV replied that he thought he could get to the meeting at 1900 hours and sent greetings "to the boys." RAMOS said "we have some books we want to order" through LEONOV.

2. On the face of it, this conversation appeared to be quite unusual and attracted the interest of this Station. Furthermore, it is known that for years the Soviets have used the hours between 1900 and 2000 for meeting clandestine or unusual contacts in Mexico.

3. The following steps were taken to ascertain general information on RAMOS and "SALGO":

a. Station file record on Samuel RAMOS resulted in no clear identifications. There is a Samuel RAMOS who was listed in 1948 as Rector of the School of Philosophy and Letters of the University.

b. LIENTHENITE ascertained that the address mentioned is occupied by a female doctor named Renee SALGO Burger, allegedly of French nationality, who operates a beauty parlor. This is confirmed in the telephone book.

c. Files of this office indicate an ODENVY report that one Renee SALGO was a member of the Hungarian club EMUNA in 1951. The files also show that one Alejandro BURGER was a member of the club and that he and Renee lived at the same address. The file further shows that one Andres SALGO was a member of the club and describes him as a Communist sympathizer.

III. HISTORY OF SOVIET COMMERCIAL ORGANIZATION SINCE 1949:

SAMOILOV, Mikhail Kuzmich, was Commercial Officer from November 1949 to 14 November 1954, part of the time under Commercial Counsellor KUDIN, since departed.

MAYEVSKI, Aleksei Danilovich, went through a break-in period in administrative and operational routines from March 1954, to September 1954, with SAMOILOV still nominally in charge.

BOLSHAKOV, Leonid Ivanovich, appeared in September 1954, and also went through a similar break-in period until 14 November 1954, when SAMOILOV left. From 14 November 1954, to date, BOLSHAKOV has been in complete charge of the Commercial Office.

IV. RESPONSIBILITIES AND DUTIES OF THE COMMERCIAL OFFICE:

The main efforts of the Soviet Commercial Office as evidenced by its past and current activities are as follows:

(a) A determined effort to infiltrate into Mexican industry and trade, by the introduction and implementation of transactions advantageous to local industry and trade.

(b) Establishment of important economic and financial contacts in the Mexican government.

(c) Establishment of contacts with Mexican rank and file business people.

(d) Coordination with Soviet Cultural Office in the procurement of certain films, books, and other propaganda material, and distribution of same.

(e) Utilization of Mexico as springboard for trade with other countries in Latin America.

V. METHODS OF ECONOMIC PENETRATION:

In order to attain economic objectives in Mexico, the Soviets utilize various methods. According to observations made about past and current activities, most of them fall under two headings, which overlap. These are:

(a) Extensive use of local business contacts.

(b) Cultivation of key people in various organizations which can be easily used as propaganda outlets (i.e., films and newspapers) or as more conventional contacts (banks and customs officials, etc.).

VI. SOVIET COMMERCIAL CONTACTS AND TRANSACTIONS:

Set out below is a listing of the contacts made by the Soviet Commercial Office during December 1955, together with details as to the nature of these contacts, and the transactions made or proposed with them.

A. Combined Propaganda and Commercial Contacts:

1. BANDERA, Molino, Juan,
Peliculas Mexicanas
Ejido 43-107-105
Phones: 35-53-55; 36-46-05; 10-12-99; 18-22-48; 18-60-05; 21-30-81; 10-12-74.

BANDERA is a direct contact of the Soviet Commercial Office in the matter of film procurement, as well as an intermediary in securing Mexican films for the Soviets. It is known that the Soviets must purchase a certain amount of Mexican films, in order to be able to sell and exhibit theirs here. BANDERA was consulted several times during the month of December 1955, on film procurement. On 1 December 1955, MAYEVSKI (see IIA 2 Personnel), consulted BANDERA in reference to having BANDERA procure a certain film on time, so that a contract could be signed. Due to BOLSHAKOV's absence on a trip (see HMM-A-4109, pp. 2,3,4, 6 February 1956), MAYEVSKI wished to have the contract signed before 1 January 1956.

On 20 December 1955, BOLSHAKOV consulted BANDERA on whether the Mexican film "Raices" could be acquired. BANDERA explained that Cimex (a film company) controlled this film, but arranged a meeting for BOLSHAKOV with the director of Cimex, for 1100 on 21 December 1955.

2. CALVET Mario Arce, CALVET Arce, Mario
Dicina Films De Mexico SA
Av. Morelos 45-206-Bis 7-8
Phones: 21-13-46; 35-98-04.

CALVET appears to be a very important contact for the Soviets in the coordination of various factors. According to information received, he is very

active in h[illegible]g Soviet films presented in Mexico, smoothing out customs difficulties, arranging for favorable publicity for Soviet films, and is making an effort to circulate Soviet films elsewhere in Mexico beside in the capital. CALVET, according to one report, is the sole exhibitor of Soviet films in Mexico.

On 1 December 1955, MAYEVSKI consulted CALVET about some books which he (MAYEVSKI) wished sent to the Soviet Export Film Office. MAYEVSKI had received a cable from Soviet Export Films on returning films which were on permit No. 117773242. CALVET arranged an appointment with Jorge FERRETIS, head of Cinematografia (Mexican Government film department), for MAYEVSKI on 3 December 1955. It is believed that FERRETIS is the man to see for withdrawal approvals.

On 17 December 1955, LEONOV, Nikolai Sergeyevich, an administrative employee of the Soviet Embassy, contacted CALVET in reference to possible receipt by CALVET of new Soviet films. CALVET informed LEONOV that the only information he had, had been given to MAYEVSKI a few days back.

On 17 December 1955, it was ascertained that BOLSHAKOV had been shown parts of the films and titles of Soviet pictures, as revised for showing in Mexico. It was further ascertained that plans were afoot to inaugurate Soviet film showings at the "Teatro Ideal". The Teatro Ideal is alleged to have 1600 seats.

MAYEVSKI repeatedly told CALVET that he was interested in obtaining showings for the Soviet films, "Romeo y Julieta," and "Gran Familia."

On 17 December 1955, POPOV, Yevgeni Mikhailovich, 3rd Secretary of the Soviet Embassy, asked CALVET through MAYEVSKI to give certain films to the Soviet Embassy.

Arrangements were made for POPOV and ROMANOV, Leonid Mikhailovich, 3rd Secretary in the Embassy, to pick up some films. Among those obtained were "Gran Familia," "Romeo y Julieta," and the "Golden Antelope."

On 19 December 1955, it was arranged for POPOV to call on CALVET for certain films.

On 30 December 1955, the Soviet Embassy was notified by the Mexican Government that permission had been received for showing certain films, but not for "The Best in the World."

3. Editorial Popular (also known as Fondo De Cultura Popular),
Hidalgo 75
Phone - 12-37-77

This Communist publishing and bookselling shop has been noted as an outlet for Soviet books and periodicals for years. Its two managers, Jesus LAZCANO and Miguel Angel VASQUEZ, are both Communist Party members. Over the years they have imported a steady though relatively small amount of Soviet material.

In general, contact between the Editorial Popular and the Soviet Commercial Office takes place through LAZCANO and VASQUEZ on the one hand and IZOTOV and MAYEVSKI on the other.

TOP SECRET

144535

It was ascertained that in December 1955, the Editorial Popular was selling copies of two Maxim Gorki's works, their titles as translated into Spanish being "Los Sarta Monos" and "Mi Infancia."

4. GRIJALVO (or GRIJALBO) Serres, Juan,
General Manager of Exportadora De Publicaciones Mexicanas S. de R.L.,
Av. De La Granjas 82
Phone: 27-46-57

On 20 December 1955, GRIJALVO sent word to the Commercial Office that a book entitled "Economia Politica," which the Soviets were apparently anxious to acquire, was ready and asked the Commercial Office to state the quantity needed.

B. Purely Commercial Activities:

1. EISENBERG, Jacques, was contacted on 16 December 1955, and reportedly told the Soviets that the affair with the electrodes would have to be postponed until 10 or 15 January 1956, due to his (EISENBERG's) sickness. This electrode transaction was connected with the visit to Mexico of two Soviet engineering experts (Comment: See HMM-A-4129, pp. 2-4, 6 February 1956). EISENBERG is known to be considering a deal with the Soviets in agricultural machinery, and to be participating in a trade agreement with the French Government in cotton. EISENBERG has been noted in connection with Czech commercial activities in Mexico.

2. GONZALEZ, Jose R.
Uruguay 55-218

GONZALEZ is a frequent contact of the Soviet Embassy Commercial Section, and their actual and proposed transactions cover a rather wide range.

a. Rails and Pipe:

Early in December GONZALEZ and MAYEVSKI discussed the prospects for importing Soviet pipe and standard gauge railway rails into Mexico. It is reported that the market for rails in Mexico was not considered to be very hopeful, but the Soviets believed they might be able to arrange some sales in Central America.

b. Petroleum:

GONZALEZ brought news that the Matarazzo industrial combine in Brazil had bought sufficient petroleum (from outside the Soviet orbit) to cover its needs for four months, but would need more when the above time expired. MATARAZZO asked for an estimate on about 15-20,000 tons of Soviet petroleum delivered in about 100,000 drums per boat.

c. Cellulose:

GONZALEZ informed BOLSHAKOV that a US firm named PARSONS & WHITTEMORE wished to know why GONZALEZ was selling cellulose to Brazil, and further wished to know GONZALEZ' source of supply.

TOP SECRET

144535

GONZALEZ informed BOLSHAKOV that an unnamed Chilean company wanted to buy a 1000 tons of raw cellulose. Other information given by GONZALEZ was to the effect that he had received correspondence giving Finnish and Swedish prices on cellulose.

d. Wood Pulp:

GONZALEZ informed BOLSHAKOV that a large wood pulp company in Brazil was interested in doing business. It was reported that the transactions would be made with a Senor AMARAL in Rio. The difficulty in dealing with AMARAL was that he wished to have cargos marked as coming from another country, rather than the country of origin.

e. Copper

It was also reported by GONZALEZ that someone named CHILDS was interested in making a deal in copper (no details).

3. NASSER Quinones, Guillermo,
Director-Manager of Compensacion Internacional, SA
Bolivar 51
Phone: 21-70-63

NASSER engaged in talks with BOLSHAKOV on several occasions, discussing the following items:

a. Wood and the need for a factory and equipment of a (Sr.) RIVERA (fnu), probably sawmill machinery.

b. Samples of agricultural machinery from the USSR.

c. Information on unspecified chemical products.

d. Vague talk on watches, cigars, and medical equipment.

4. RIVERA, fnu,
Member of Comercial Ultramar SA
Hamburgo 138
Phones: 35-81-17; 35-81-15; 14-55-81.

RIVERA and BOLSHAKOV discussed the impending arrival of certain recorders reportedly due at the end of the month of December 1955 in Veracruz.

5. PEREZ Urizar, Adolfo,
Manager of Tractor Dept., Ford Motor Company SA
Calzada Guadalupe y Henry Ford
Phone: 17-50-00

PEREZ was visited twice in December 1955, by MATEVSKI; the talks were held on farm equipment, i.e., agricultural machinery, such as tractors, etc.

6. ROAN, Mony De (For more detailed report see HM-A-1166, 16 Feb. 1956)

HMM-1464
5 March 1956
Page 6

144535

7. MORAN Valdes Ramon
Donatello 17

It is reported that MORAN discussed on various occasions the mechanics of credit modifications with MATEVSKI. It was reported that MORAN mentioned the fact that other business firms had requested banks to modify the letters of credit, and it was also ascertained that the modifications for the letters of credit the done. MORAN may be connected with the Naval foodshop.

8. ZELLINGER

A man named ZELLINGER also has various deals under discussion with the Soviets, among them being:

a) Alkalines and Alkaloids: ZELLINGER sought information on establishing a trade in alkalines. It is believed that this deal may be well advanced. ZELLINGER expressed a need for alkaloids and for a special machine needed for this. It is reported that BOLSHAKOV informed ZELLINGER that either the machine or information on the machine had already been sent, and that ZELLINGER had an excellent mechanic with General Electric experience to install this machine.

b) Acids: According to information received, the USSR claimed not to have Letters of Credit for transactions involving Red Black and Blue Black acids.

c) Radios: ZELLINGER claimed to have a market for radios on the condition that these not be imported fully assembled. The purchasing people desired information on parts, assembly, details and pictures. It was highly desirable to import and assemble the radios here. In conjunction with this ZELLINGER claimed to have a market for TV parts.

d) Drills (Unspecified type): It is reported that ZELLINGER was involved in a transaction for $8,200 worth of drills (ZELLINGER is reportedly connected with ZLOTNIK, see below).

e) Medicines: It was ascertained that ZELLINGER had presented a list of medicines most widely used in Mexico. ZELLINGER, according to reports, had stated that he could sell as much of the medicines as could be provided him by the USSR.

f) Cameras: It was reported that ZELLINGER claimed to have a market for cameras.

9. ZLOTNIK, Abraham
Toltecas 166

ZLOTNIK appears to be both an independent businessman and intermediary for other businessmen dealing with the USSR. It was ascertained that most of ZLOTNIK's transactions during the month of December concerned dyes. According to information gathered, delay on shipment of several types of (unspecified) dyes, was caused by the wait for a Letter of Credit. Direct Violet K dye, for which a Letter of Credit was opened on or about 30 November 1955, was not sent evidently due to shortage of same. It was reported that the Soviet Commercial Office stated that, according to a contract dated 29 October 1955, all the dyes were packed and awaiting shipment from an unknown

port of exp... It was stated that no Letter of Credit had been received for certain dyes, but ZLOTNIK claimed to have sent a Letter of Credit some time back to Sojuzk-Chemie Export, through the "Banco Popular."

ZLOTNIK stated that Violet Dye had arrived a few days back, but that he lacked information on how it was charged.

There was also some brief information to the effect that ZLOTNIK had given an order for tools.

C. Miscellaneous Commercial Activity:

Other transactions on which vague information has been received were:

1) Dyes: Confirmation received from Moscow on Letter of Credit 18 978 for Violet Dyes.

2) Coffee: BOLSHAKOV ridiculed a newspaper story that a Latin American country (Colombia?), claimed the Soviet Union was offering dollars for that country's coffee.

3) TV: Vague information has been received to the effect that Soviet Export Film is interested in the TV market in Mexico.

Information on certain contacts is rather vague; but it was ascertained that the Soviet Commercial Office had dealings with the following in December 1955, the exact nature of which was not clear:

1) GARCIN, Francisco, a member of the "Comision de Vigilancia" (Part of Mexican Social Security).

2) GARCIA Vidal, Raul, was contacted by BOLSHAKOV during the month of December 1955, with information that certain material was in readiness for GARCIA. It has not been ascertained exactly what GARCIA's relationship with the Soviet Commercial Office is.

SPECIFIC DS-623 Identifications from Soccer Match Photographs

1. Shortly following DS-623's defection in January 1955, and again on 28 April 1955, Douglas M. Moir of VOB showed him the Vienna Station collection of soccer match photos. DS-623 was able to make 43 identifications from this collection, some by name and position, some only by function. In a few instances, as indicated specifically below, his identifications were erroneous, but are nonetheless forwarded on the assumption that even this fact will be of interest to you.

2. A total of twenty-one (21) separate photographs, some of them merely sections cut out of the original enlargements, are sent as an attachment to this dispatch. Persons identified by DS-623 are indicated on them by a heavy black inked circle around their heads; in a separate circle to the side, or in some instances above the circle surrounding their heads, are the numbers keyed to the list in Paragraph 3 below. In the event you have difficulty deciphering the numbers inked in on the front of the photos, you may refer to the reverse side, on which you will find the same numbers in approximately the same positions. We have just completed transmission of all negatives of the photos represented in the attachment. From these negatives, it will be possible for Headquarters to make individual blowups of the personalities identified by DS-623 for the appropriate Washington files. As you are already aware, the numbering system used on these negatives is that devised by the USIA Photo Section, which was responsible for taking the photos. For the six different matches represented in the attached photos, the following are the pertinent references:

the young priests undergo a thorough study of Marxist-Leninist doctrine. After graduation they are appointed to parishes where they exercise their pulpit prerogative by preaching Communism to the faithful. ~~[illegible]~~, when one of these young priests is first appointed to a given parish, his first step is to go to the [illegible] Communist Party secretary and ask him what the Party missions in the area are and how the priest would be of assistance in carrying out these missions.

6. ~~[illegible]~~ religion is becoming a tool of the Communist Party of the USSR since most of the older priests of the last generation, who would have fought Communism, have died off or have been purged and the younger priests, who have replaced them, are completely dominated by Communist Party influence.

THIS IS UNEVALUATED INFORMATION

SOURCE DS-623, a Soviet electrical engineer, born in 1914, is a graduate of the Leningrad Polytechnic Institute. From May 1950 to January 1953, he was General Director of the USIV Siemens-Schukert plant in Budapest. From January 1953 until his defection in January 1955, he was General Director of the USIA AEG Union plant in Vienna. During the war he became a member of the Communist Party and was always active in Party affairs, primarily because he found such participation expedient in furthering his career. He defected to the West because he feared that lengthy imprisonment would result from a forthcoming investigation of production of faulty transformers at his plant. Source is a well-educated, intelligent, and shrewd individual. Source was relatively reluctant to provide data on personalities known to him personally.

Following are biographic sketches of USIA Soviet personalities known to source. For further information on the duties of these individuals, see the above referenced report.

LIMERICK, LIPSTICK, LIVESTOCK

Name: Nikolai Sergeyevich LEONOV
Born: 22 August 1928 in Ryazan
Arrived in Mexico: 11 July 1953 aboard SS Andrea Gritti, Veracruz, with wife
Documents: Holds service passport 10724, issued 29 January 1952, in Moscow
Title: Unknown **Position:** Unknown
Residence in Mexico: Juanacatlan 81
Wife: Valeriya Ivanovna
Children: None known. None in Mexico
Languages: Spanish good
Other personal data: Nickname - KOLYA
Occasionally drives one of Embassy automobiles

Official Activities

Our few references to LEONOV make it appear that he, like BELYAKOV and ANTYASOV, with whom he seems to be vaguely associated, is a third echelon functionary who probably performs a variety of administrative tasks in support of one or another phase of the Embassy operations and might be in on-the-job training for a specialized job as assistant to, at a guess, SAMOILOV. In early August, shortly after his arrival, he called a woman instructor at an obscure local business school and was told that he could come by for his grades the following week. (We infer from another conversation that MATVEYEV was attending this school with him.) LEONOV was also with ANTYASOV and BELYAKOV when ANTYASOV was detained on their way "back from the University" at the end of September. (See: ANTYASOV.) This should indicate that he was principally occupied during the weeks after his arrival in acquainting himself with local business methods and commercial practices, and perhaps taking some further formal instruction. Otherwise, his appearances in the traffic have been limited to answering the telephone for both KOLOMYAKOV and SAMOILOV in their absence (without making decisions or taking any action) and, under the tutelage of LAZAREV before the latter's departure, making routine calls connected with ordering wine, repairing the movie projector, and the like. He has also occasionally been seen driving one or another of the Embassy automobiles, apparently filling in for one of the chauffeurs.

Private Activities

Our only information on LEONOV's private life is the fact that the ZHUKOVs moved into the LEONOVs' apartment (No. 4 at Industria No. 71) upon their arrival

62202

on 7 November and the two couples lived together for about three weeks, when the LEONOVs moved into other quarters at Juanacatlan 81. (There were no indications that the original arrangement had ever been intended to be other than temporary or that the subsequent move of the LEONOVs was due to friction between the two couples.) This raises the suggestion that ZHUKOV may be associated in some way with LEONOV within the Embassy as well, a possibility which is borne out to some extent by the fact that both habitually answer and make calls from the same Embassy telephones.

Comment

We cannot yet assess LEONOV for operational purposes.

Name: Valeriya Ivanovna LEONOVA
Born: Unknown
Arrived in Mexico 11 July 1953 aboard MS Andrea Gritti in Veracruz with husband
No known title or position
Residence in Mexico: Juanacatlan 81
Children: None known. None in Mexico
Languages: Unknown
Other personal data: Nickname: LERA

Private Activities

Although we have no definite indications to that effect, there is a fair possibility that LEONOVA is employed in some administrative or clerical position in the Embassy, since she seems to be present in the Chancery area a good deal during office hours and, without children, would not otherwise have a great deal to do.

Our only information relating directly to LEONOVA occurs during a conversation between APARINOVA and MELNIKOVA on 26 October in which APARINOVA complained bitterly that LEONOVA was shirking her share of responsibility in preparing food for the 7 November reception. LEONOVA had apparently failed to buy ingredients, after being asked to do so, on the plea that she had not been told exactly what kind of apples to get nor where to buy them. APARINOVA: "KOMSOMOLTSI always brag about being in the front line, but in actuality, bah!" MELNIKOVA: "Yes, when I was at their home, we happened to discuss the reception, and Rita (ANTYASOVA) said, 'Why should we do the work for the reception?' I told her she should be ashamed of herself. I work in the Embassy and hold out during receptions and all holidays, and I don't complain. LEONOVA claims she is not going to do any shopping because she was not given the responsibility." APARINOVA: "What does she mean? I met her and said 'Lera. . .' She said she'd come over Sunday and make a list of the things to be bought." MELNIKOVA: "And she didn't come over. She was probably afraid of the work and the money involved. APARINOVA: "How silly. I told her we would refund all expenses."

Comment

We infer that LEONOV (and perhaps her husband as well) is a good KOMSOMOL and may be endowed with the aggressively unpleasant personality which the Soviet system seems to foster so often. As shown in our photo coverage, both she and her husband have the appearance of persons who could be the well-disciplined, unquestioning, devoted Communists idealized in Soviet propaganda.

Nikolay LEONOV

20 May 1955: Rodolfo NERVO called Subject and was told "We have found the books and material you requested (re Soviet foreign policy)." LEONOV said he would take the books to NERVO the next day. NERVO for many years active in the Mexican Diplomatic Service, at one time being Charge of the Mexican Legation in Warsaw, Poland. Now about 75 and inactive in Government, but does write articles for the newspaper Excelsior (HMMA 3736 5 Dec 55).

6 January 1956: The daughter of General Heriberto JARA spoke with Subject at the Soviet Embassy saying she had been told that he was the person who could inform her of when she should come by to pick up translations of the "clincial documents" relative to herself and her father. Subject said they were having some trouble getting the documents translated because of the medical terms, but said they should be ready in about five days (HMMA 4200).

1 February 1956: Subject called Velia Jara de NIETO, daughter of General JARA, and told her that the translations of her father's clinical history had been made from Russian into Spanish. Mrs. NIETO said she would visit the Embassy the next day and ask LEONOV for the materials (HMMA 4410).

24 February 1956: One Samuel RAMOS contacted Subject who acts as secretary to Soviet Ambassador, Mexico. RAMOS told LEONOV "We are not going to meet at my house this afternoon, but at SALGO's (which is at) Insurgentes 429-51 at the usual hour." Subject replied that he thought he could get to the meeting at 1900 hours and sent greetings "to the boys." RAMOS said "we have some books we want to order through LEONOV" (HMMA 4336).

2 March 1956: Samuel RAMOS left a message for Subject that "if he has time I hope he will come to my house today" (HMMA 4600).

7 March 1956: Samuel RAMOS called Embassy and asked for data on the possibility of staging an international chess match in Mexico. In this conversation it was indicated that RAMOS is in the academic line of work. He stated that ~~xx~~ he was "back in classes" and that meetings could no longer be held in his home. He told LEONOV that a tournament featuring a person named "POMMARD" would begin Monday (12 March) and invited Subject to see some of it. LEONOV said he would attend if he had time. RAMOS then asked when he could see LEONOV to give him a list of books "we want". LEONOV told him to come to the Embassy at any time, and RAMOS said he would come right away (HMMA 4600).

c. 27 June 1956: Subject's personal calling card found in address book of Fidel CASTRO Ruz, Cuban revolutionary detained in Mexico (MEXI 839 IN 35356 REF: MEXI 825 IN 34161).

22-29 July 1956: Subject served as translator for Eighth International Radiology Congress Soviet delegates (HMM 1752).

1 October 1956: Subject and wife requested U.S. transit visas to leave Mexico 17 Oct by rail, entering U.S. via Laredo; to depart New York 24 October on Queen Elizabeth (MEXI 231 IN 34833 6 Oct 56).

PROJECT OUTLINE

1. Identification

Mexico City, Mexico. Support for singleton contract agent operating into right-wing political milieu in Mexico for intelligence purposes with some covert action by-product.

2. Objectives

a. Objective The objective of this project is to provide support for a U.S. contract agent who has access to a wide variety of right-wing political elements and organizations in Mexico.

b. Conduct of Project The contract agent, LIHUFF/1, was born in Mexico and has had a long history of business experience in Latin America, as well as, over the past fifteen years, in Mexico. At the present time, he is Executive Director of U.S. Chamber of Commerce of Mexico City, which gives him a great deal of mobility in both American and Mexican business circles. Generally, it is from the Mexican business community that the financing and support for right-wing political movements, organizations, and institutions eminate. Given the general trend of recent Mexican regimes, as well as the present one, toward more governmental regulation and manipulation of the economic life of the country, the Mexican businessmen continue to support right-wing political movements or ostensibly non-profit civic, research, and other types of organizations used by them as front instrumentalities for expounding their philosophy and taking action in the politico-economic fields. LIHUFF/1 has natural access through his present position and past extensive experience in the business community here. Over the years, as a matter of fact, his numerous associations with these elements have earned him their trust and respect. In addition, for the past four years he has funded Lic. Agustin NAVARRO Vasquez (was LIHUFF/2) organization, consisting primarily of Instituto de Investigaciones Sociales y Economicos, A.C. (IISE), "Espejo" (a magazine on politico-economic affairs), and Movimiento Universitario de Renovadora Orientacion (MURO, a student organization). Also, he has handled LICHANT/1 who has a history of, and numerous associations in, the Mexican right-wing political arena. These and many other contacts of this type will provide the basis for his reports on this particular segment of the political spectrum in Mexico.

c. Targets Right-wing political elements and organizations in Mexico. This would include not only Lic. NAVARRO, IISE, "Espejo," and MURO, but Hugo SALINAS Price, Jorge SIEGRIST Clamont and numerous others of political significance on the Mexican scene. In connection with LICHANT/1's present

position, it should be possible to obtain information on the Ministry of Education and other aspects of the Mexican education system which, according to the last word received from Headquarters, is somewhat of a priority requirement.

d. RMD. This project is responsive to Priority A3d and f of the Related Mission Directive for Station Mexico City (approved October 1963). This priority reads in part: "obtain information on the stability of the Government ... through high-level penetrations and through surveillances and controlled assets of other powerful political groups such as the Frente Civico... and through continued development and influencing of high-level government contacts." As an ancillary measure, the project could contribute to MHSPAWN objectives of the RMD under certain circumstances where use of right-wing platforms and organizations is merited.

3. Background.

a. Developments Leading up to Project.

(1) Mexico, politically, is a country in which, increasingly, a centrist political concensus is developing based on the impact of education and economic development. On either side though of this growing central political spectrum are extreme left and extreme right wings which are quite active and quite vocal and which have an influence in the form of individuals, organizations, and movements greatly out of proportion to their numbers. Political disturbances and efforts to induce lack of stability eminate in the main from these two extreme wings. As the centrist force grows slowly, it is possible and probable that these two wings will intensify their efforts and become more and more radical. The Station has intelligence coverage of the extreme left-wing, but has neglected the equally important extreme right-wing when, in the final analysis, any threat to Mexican political stability by fomenting unrest and incidents does, and will continue to, eminate from the right-wing as well as the left-wing. Assumin g that, as indicated in the present RMD, the long range national policy objectives of the U.S. toward Mexico are to encourage a stable democratic government and political environment, then coverage of the right-wing is required if for no other reason than meeting normal Station responsibilities for political reporting. HBFINCH contacts in this area have been, and probably will continue to be, virtually nil. In fact, at present in this area HBFINCH contacts are non-existent.

(2) LIHUFF/1 was first picked up as a contact by Station Mexico City in 1950 after having been a contract agent for Station Panama City for some three years (while engaged in business in Panama). He has been in a continuing

relationship of one degree or another with this Station ever since then. This relationship developed from "contact" into formal contract status in November 1962. LIHUFF/1 has handled Station contacts and activities with LIHUFF/2 as well as LICHANT/1 from 1962 to date. In addition, he has done a good deal of reporting on right-wing activities from other sources and other contacts of his. Subsidy of the LIHUFF activity for MHSPAWN purposes will be terminated effective 30 June 1965. Use of LICHANT/1 will be continued in an intelligence reporting capacity and, in a limited way, for covert action efforts.

b. Prior Negotiations. There have been no prior negotiations with the Mexican Government, intelligence or security services, or ODYOKE elements on this project. LIHUFF/1 has been used in the past, prior to his contract with KUBARK, as a source by ODIBEX and ODMARK.

c. Relationship to Other Projects. This project has no relationship to any other Station project.

d. Utilization of Same Operational Assets. LIHUFF/1 has not been utilized on any other project, past or present, except to the extent he was involved with the LIHUFF activity indicated in subparagraph 3a(2) above.

4. Operational Assets.

a. Personnel.

(1) LIHUFF/1 (OA granted on 10 October 1962 with no number forwarded to field) -- Subject was born in Mexico, is fluent in Spanish, and is about 49 years old. Since World War II, he has been in private business in Latin America, first in Panama and then in Mexico from 1950 on. During World War II, he was in Army intelligence in China and, therefore, had an understanding of covert operations prior to his KUBARK experience. While in Panama, he was employed by the Station there for several years " to organize a net directed against a target of high priority interest". This association was terminated by reason of his move to Mexico for business reasons. Although he was in contact with this Station virtually from his time of arrival in Mexico, he was not picked up as a contract agent until November 1962. His cover for his past and proposed activities has been natural: that of a businessman with a conservative political outlook and interested in the economic and political posture of the

Mexican Government. Contact with him is covered by a social relationship between his case officer and himself; this is easily maintained given the large American community in Mexico City. He has had no formal intelligence training other than that he received from the Army during World War II and on the job with KUBARK. Control of Subject is no problem inasmuch as he is an American citizen and has had considerable experience with KUBARK by now. His motivation is that of an attraction to this type of work, being a U.S. citizen in a foreign area, natural concern forhis business interests, and, probably, the compensatory return from KUBARK. He is witting of his KUBARK association and, aside from his World War II intelligence experience with ODIBEX, in 1961 he had an intelligence relationship with ODIBEX which has long since been terminated.

(2) LICHANT/1. (OA granted on 22 April 1963, but no number forwarded to field) -- Subject is a very conservative Mexican educator and intellectual about 49 years of age. He has alternated between working in various capacities for the Government of Mexico and in Mexican universities. At the present time, he is Private Secy. in Min.of Ed., a position which gives him unique access in the government to the general fields of education and politics as well as considerable contact with other influential people in right-wing circles. He was recruited by LIHUFF/1 in August 1962 on the pretext of doing research work and collecting information for LIHUFF/1's general use for business purposes. Subject has natural cover for obtaining information on right-wing activities from others due to his long association with right-wing activities as a student, educator, and government servant. Contact between Subject and LIHUFF/1 is maintained under the guise of private business relationship. Subject has had no intelligence training from KUBARK other than that imparted by LIHUFF/1 in discussing his reports. There has been no problems in control since essentially Subject understands that this is a business relationship with certain requirements involved for it to be sustained. Subject's motivation is that of an intellectually-convinced conservative who has common objectives and outlook with LIHUFF/1 on political and economic matters plus the financial aspect of the LIHUFF/1 relationship. Subject is not witting of KUBARK or ODYOKE interest in his activities and reporting. He has no known contacts with other intelligence or security services, past or present.

b. Mechanisms. There will be no mechanisms involved in this project although LIHUFF/1 will continue to have access to Lic. NAVARRO, and, in turn, to IISE, "Espejo," and MURO for intelligence purposes.

5. Security Evaluation.

In the unlikely event of compromise, LIHUFF/1 could continue to claim that he was not doing anything that hundreds of other businessmen, U.S. and Mexican, aren't doing as commonly-accepted practice: trying to influence the politico-economic climate in Mexico for their own benefit. Whatever the extent of the compromise, there would be no repercussion insofar as other operations or activities *per se* were concerned except that there might be some tightening of the general operational climate for a while. If, somehow, LIHUFF/1's true role were disclosed, he could probably be backstopped with a minimum of publicity through high-level Station contacts with the Government (explaining the Station interest in right-wing circles as attempting to follow what they were up to in case they became a threat to the stability of the present government).

6. Coordination.

No coordination is desirable or required with other ODYOKE or PBPRIME elements, with the Mexican government, or with other governments and intelligence services. It is assumed that normal coordination with various elements within KUBARK Headquarters will take place.

7. Costs.

a. General. It is requested that this project be authorized in the amount of $9,000 per annum effective 1 July 1965.

b. Breakdown of Costs (per annum).

(1)	LIHUFF/1 salary	$3,600.00
(2)	Operational Expenses	3,000.00
(3)	Entertainment and Travel	2,400.00
	Total per annum	$9,000.00

No non-KUBARK funds will be involved in this activity.

c. Foreign Currency. It is anticipated that any forseeable foreign currency requirements will be within the Station's capacity to handle.

d. Commitments. No commitments have been made to LIHUFF/1 other than a salary of $300.00 per month with a thirty day's notice on termination.

e. Funding and Accountability. Since this project will only involve salary for the most part, no unusual requirements are deemed necessary for accountability. In the event that funds are passed for any type of special activity other than salary, normal standards of accountability will be used.

8. Annexes.

a. Administrative Plan or Fiscal Annex. Not applicable.

b. Communications. Not applicable.

c. Technical Support. Not applicable.

d. Logistics. Not applicable.

e. Intelligence. Not applicable.

9. Emergency Conditions.

If an official anti-USA atmosphere of sufficient intensity prevailed in Mexico, LIHUFF/1 very probably would not be able to maintain himself here, particularly if his employment continued in his present capacity. . This, however, is not seen as anything except a very remote contingency due to the Government of Mexico's dependence on the U.S. tourist trade. In a general war, it is probable that LIHUFF/1 would be able to continue in place without too much difficulty and would be willing to continue operating on current objectives or to undertake entirely new operations against new targets. Contact and communications should represent few problems in Mexico.

1. RAYMOND H. GERENDE, (IDENTITY A) WAS RECRUITED IN MARCH 1955 AS A MEMBER OF A STATION UNILATERAL SURVEILLANCE TEAM. GERENDE RECEIVED AN OPERATIONAL APPROVAL ON 28 FEB 55 AND ON 1 OCT 55 WAS CONVERTED TO CONTRACT STATUS WITH AN INITIAL ANNUAL SALARY OF $3600. BY LATE 1956 HE HAD BECOME THE P/A IN CHARGE OF THE SURVEILLANCE TEAM AND ADDITIONALLY WAS IN CHARGE OF PHOTO SURVEILLANCE OF THE SOVIET MISSION, INCLUDING PROCESSING THE FILM. AT THIS TIME HE WAS DESCRIBED AS BEING "CONSCIENTIOUS, LOYAL, HARDWORKING AND DEDICATED." IN 1957 HE WAS GIVEN FIVE WEEKS OF CLANDESTINE OPS TRAINING IN THE HQS AREA, BEING DESCRIBED BY HIS TRAINER AS MORE "PRO-AMERICAN THAN MEXICAN." IN LATE 1958 HE WAS DESCRIBED AS ONE OF THE STATION'S "MOST VALUABLE ASSETS", ETC.

2. ON 12 DEC 58 GERENDE MARRIED LIEMPTY-19 (IDENTITY B), WHO ASSISTED HIM DURING THE NEXT TEN YEARS AS A PART-TIME SUPPORT ASSET. IN GENERAL GERENDE APPEARS TO HAVE PERFORMED A CREDITABLE JOB AS THE P/A FOR THE KDFACTOR ACTIVITY, WHICH PROVIDED SURVEILLANCE AND PHOTO COVERAGE OF THE SOVIET TARGET. AT THE TIME OF TERMINATION, HIS CONTRACT AGENT SALARY HAD INCREASED TO $7000 PER ANNUM. SIGNIFICANTLY EXCEPT FOR GIVING ENGLISH LESSONS AND OTHER MINOR COVER ACTIVITIES, GERENDE WAS CONSIDERED TO BE A FULL-TIME RTACTION EMPLOYEE. HE PERFORMED A NUMBER OF TASKS IN ADDITION TO KDFACTOR, INCLUDING SERVING AS LP KEEPER AND TRANSCRIBER/TRANSLATOR OF AN AUDIO OPERATION, INVOLVEMENT IN OPS AGAINST THE CUBAN MISSION AND CUBAN EXILE GROUPS, GENERAL OPS SUPPORT, AND SPOTTING AND ASSESSMENT. ON 8 OCT 1963, GERENDE SUCCESSFULLY PASSED AN SGSWIRL, ALTHOUGH IT EMERGED THAT HE HAD NOT ACCOUNTED FOR ALL FUNDS PASSED TO HIM (THE STATION DISMISSED THIS PROBLEM) AND FELT THAT HE WAS BEING UNDEREMPLOYED BY RTACTION. CONCERNING THE LATTER CHARGE, THE STATION SEEMS TO HAVE HAD PROBLEMS THROUGHOUT THE 1960'S KEEPING GERENDE FULLY OCCUPIED, SINCE FOR SECURITY REASONS THERE WAS RELUCTANCE TO INTRODUCE HIM TO ANY MORE OPERATIONS THAN THE CONSIDERABLE NUMBER HE WAS ALREADY AWARE OF. (FYI: IN ADDITION TO HIS WIFE, GERENDE'S MOTHER, 201-0262488, AND TWO BROTHER-IN-LAWS (KDFACTOR-1) AND (KDADAGE-14) WERE ALSO STATION ASSETS.

3. IN 1969 GERENDE SEPARATED FROM LIEMPTY-19 IN WHAT TURNED OUT TO BE THE BEGINNING OF AN EXTREMELY ACRIMONIOUS DIVORCE PROCEEDING AND FIGHT FOR THE CUSTODY OF THEIR THREE CHILDREN. IN DECEMBER 1969 GERENDE WAS PUT ON HALF PAY AND HAD HIS OPS DUTIES SUSPENDED BY THE STATION BECAUSE OF HIS FULL-TIME INVOLVEMENT IN LEGAL MATTERS SURROUNDING THE DIVORCE. ON 26 JUNE 1970 GERENDE AND LIEMPTY-19 SIGNED QUIT CLAIMS AND SECRECY AGREEMENTS. GERENDE WAS PAID $10,000 AND LIEMPTY-19 $2500 AS TERMINATION BONUSES, AND THE PAYMENTS WERE MADE ON A MONTHLY BASIS SO THAT THE STATION WOULD HAVE SOME CONTROL OVER THE TWO AND THEREBY KEEP THEIR RTACTION STATUS FROM EMERGING DURING THE DIVORCE PROCEEDINGS. ON 8 JULY 1970 LIEMPTY-19 UNEXPECTEDLY APPEARED AT HQS IN AN ATTEMPT TO GET A LARGER TERMINATION BONUS. SUBSEQUENTLY LIEMPTY-19 AND HER CHILDREN WENT TO RESIDE IN THE HAGUE, NETHERLANDS, WHERE SHE WAS PAID THE REST OF HER TERMINATION BONUS VIA MONTHLY CHECKS SENT TO HER BROTHER IN THE HQS AREA. SHE WAS LAST REPORTED TO BE WORKING AS A SECRETARY AT THE U.S. MISSION IN THE HAGUE.

4. ACCORDING TO MEXICO CITY 19452, 10 APRIL 72, THE LAST STATION CONTACT WITH GERENDE WAS IN MAY 1971, WHEN HE RECEIVED THE FINAL INSTALLMENT OF TERMINATION BONUS. CABLE NOTED THAT GERENDE APPEARED FINANCIALLY PRESSED, BUT WAS GIVING DAILY ENGLISH CLASSES AND RENTING HIS HOUSE TO STATION STAFFER JESSE R. GARDALPHE. THERE WAS NO INDICATION THAT EITHER GERENDE OR HIS WIFE HAD VIOLATED THEIR SECRECY AGREEMENTS. STATEMENT WAS MADE THAT HE NO LONGER APPEARED TO BE DRINKING EXCESSIVELY.

5. IT SHOULD BE NOTED THAT GERENDE'S AGENT SERVICE RECORD QUALIFIES RECOMENDATION FOR HIS REUSE BY SAYING THAT HE SHOULD HAVE SUFFICIENT OUTSIDE EMPLOYMENT INCOME TO OBVIATE THE NEED FOR FULL-TIME RTACTION EMPLOYMENT, AND HAVE RESOLVED HIS PERSONAL PROBLEMS. IT WOULD APPEAR THAT EXCEPT FOR A POSSIBLE ROLE IN SERVICING SPECIFIC OPS SUPPORT TASKS, GERENDE OFFERS LITTLE POTENTIAL FOR THE STATION. SUGGEST THAT THE STATION MAY WISH TO DISCUSS GERENDE WITH THEODORE G. KINDOPP (P) UPON HIS ARRIVAL, SINCE GERENDE WAS HIS LANDLORD DURING PREVIOUS STAY IN MEXICO.

Mr. Maurits Roos
4744 Kenmore Avenue
Alexandria, Virginia

Dear Mr. Roos,

As you may be aware, your sister, Hestor Roos de Alvarez was associated with this Agency in Mexico City for a number of years, and due to personal problems with her husband, her services (and those of her husband) with this Agency were formally terminated on 26 June 1970. In the termination agreement, this Agency agreed to pay Mrs. Hestor Roos de Alvarez a bonus payment amounting to $2500 payable in ten monthly installments of $250 beginning 31 July 1970. Since Mrs. Roos departed Mexico City in July 1970 and came to the U.S., she could not be contacted in Mexico City to receive these payments. While in the U.S., Mrs. Roos de Alvarez contacted our Agency on 8 July 1970 and requested we pay her the funds here; and while her request was being considered she departed the U.S. for Mexico, and later went to The Hague where she is residing at Ary Schefferstratt 47, The Hague, Netherlands. Mrs. Roos de Alvarez has written to this Agency from the Hague requesting we forward the payments to her via international mail. If you concur, this Agency would perfer to forward these payments to you directly, and request that you forward them to your sister via the international mails. The initial check for $750 covers payments for the months of July, August, and September 1970; and hereafter, we will forward to you monthly a check (from October 1970 through April 1971) in the amount of $250 in your sister's name so that you can forward them on to her every month. We appreciate your cooperation in this matter and request that these payments not be discussed with anyone except your sister, Mrs. Hestor Roos de Alvarez, since the case is considered to be a sensitive matter by the United States Government.

MEMORANDUM FOR: Office of Security/OSD

VIA : Chief, WH/Security

SUBJECT : Mr. Maurits ROOS

1. Mr. Maurits Roos is the brother of Hester Roos de Alvarez, an asset of Mexico City Station, who was terminated without predjudice on 26 June 1970. In the termination agreement, this Agency agreed to pay Mrs. Roos de Alvarez a bonus payment amounting to $2500 (USD) payable in ten monthly installments of $250 (USD) beginning 31 July 1970. Since termination, Mrs. Roos de Alvarez has departed Mexico City and is now resident at: Ary Schefferstraat 47, The Hague, Netherlands. Mrs. Roos de Alvarez has written directly to this Agency requesting that we forward the monthly payments directly to her or via her brother. For security reasons, this office has decided to obtain a cover check in the amount of $750 (USD) made out to Mrs. Hester Roos de Alvarez, to cover payments for July, August, and September (@ $250 (USD) per month); and it is requested that a representative of your office establish contact with Mr. Maurits Roos, her brother, brief him on the background of the case, and request he forward the check on to his sister in The Hague. A brief note for Mr. Roos to read is attached to this Memorandum and will explain how future monthly checks for his sister will be forwarded through him.

2. As the result of any inquiry to your office in August of 1969, the following information was developed on the Subject: Mr. Roos is presently a GS-13 research cryptographer at Ft. Belvoir, Virginia and has been employed by the U.S. Government since May 1952. Employment records further disclosed that Roos is a U.S. citizen, was born 2 January 1927 in Java and was granted a top secret clearance on 3 April 1970 by the U.S. Army. His local telephone number is 931-8132 and he resides at 4744 Kenmore Avenue, Alexandria, Virginia.

3. On 8 July 1970 Mrs. Roos de Alvarez appeared at the main gate of Headquarters building, and subsequently was interviewed by Mr. Paul Leverone, the Security Duty Officer; and a statement was taken from her. Mrs. Roos was given an Agency Security office telephone number for future contact while in the U.S., and on 13 July 1970, her brother, Mr. Maurits Roos, called the Agency and informed us that his sister had returned to Mexico and could be reached there at a certain address, so we are certain that Mr. Roos is aware of the fact that his sister was employed at one time by this Agency in Mexico City.

17 July 1970

MEMORANDUM FOR: Chief, Western Hemisphere Division

SUBJECT : Raymond H. GERENDE (P) and Wife.

1. Raymond H. GERENDE is a Mexican citizen and contract agent who has been employed by the Agency in Mexico City since 18 March 1955 under an MOC, during which time he has served this Agency well. During the past fifteen years GERENDE has been generally engaged in the area of operational support activities in Mexico City. For the past two years he served as a principal agent handler for a sensitive fixed surveillance project, LIEMPTY; was used in unilateral recruitment approaches against the Cuban target; and in special support investigations. Mrs. GERENDE, who is LIEMPTY/19, has been employed off and on since 1958 as a support asset, (transcriber/translator) under MOC, and during the past two years has worked intermittently transcribing unilateral telephone tap tapes.

2. During the past year GERENDE and his wife have had serious marital problems which culminated in a separation in November 1969, and divorce actions were initiated by both parties. The divorce proceedings are still in the courts, and bitter disputes have resulted between both parties concerning custody of the children, division of personal property, and the monetary settlements. The above problem is compounded by the fact that GERENDE's wife knows in some considerable detail of GERENDE's activities on behalf of the Agency and if she exposed him, it could lead to the surfacing of GERENDE's Agency employment and possible compromise of operations LIEMPTY, LIMESA, LIEMBRACE, and LIFEAT, as well as numerous individual Station assets such as LISTERINE, LIRAZOR/1, LIBAND/1, and David M. WILSTED (P). Since late 1969, Mexico City Station has been in touch with both GERENDE and his wife on this problem, and every effort has been made by the Station to have

SECRET

File: GERENDE (P)

both parties settle the divorce amicably and to protect GERENDE's cover and that of the projects. Because of the above family problems which threatened GERENDE's personal cover and security, he was relieved of all operational responsibilities and placed on half salary in December 1969.

3. In March of 1970, Mexico City Station decided that GERENDE's personal problems were not being resolved, and because of the continuing security threat, plans were made to terminate both GERENDE and his wife by the end of FY 1970. The LIEMPTY Project renewal, approved in May 1970, was amended to include a termination bonus for GERENDE of $10,000 for 15 years of service with the Agency, and in addition approval was received to pay Mrs. GERENDE the sum of $2,500 as a security measure designed to keep her from revealing her husband's Agency affiliation and what she knows about Agency operations in Mexico. This project approval carried the ADDP caveat that the termination bonuses to both GERENDE and his wife be paid on a monthly basis rather than in one lump sum as a security measure to assure at least an element of control over both individuals, since the continued receipt of these monthly payments depended on their loyalty to the Agency. GERENDE and his wife were terminated by Station representatives in Mexico on 26 June 1970 under standard Agency procedures, and separate Quit Claims and Secrecy Agreements were signed by both GERENDE and his wife. Neither GERENDE nor his wife had any objection to the wording of the Quit Claims or the Security agreements, and both appeared to be satisfied with the terms of the settlement, and with the fairness of the Agency's position.

4. On 8 July 1970 at 1115 hours, Mrs. GERENDE appeared at the main gate of the Headquarter's building, and requested to see an official from the Office of Security. During the subsequent interview, Mrs. GERENDE established her identity, and supplied the interviewer with details on her and her husband's past employment with the Agency in Mexico City and the fact that they had terminated said employment in late June 1970. Mrs. GERENDE made three specific requests of the Agency:

"A. That she be released from the stipulation in her secrecy agreement which prohibits her from revealing her or her husband's affiliation with the Agency, in order that she may substantiate her husband's salary to be awarded support payment from her husband.

"B. If her first request cannot be fullfilled, that she be awarded a higher amount of support from the NCE. Agency.

"C. If neither of the above two can be fullfilled, that she be sent the Agency check (in present amount) either at the address mentioned above or in care of the Embassy of the Netherlands in Mexico City, which is accepting mail for her."

In addition to the above, Mrs. GERENDE stated she feels she must permanently leave Mexico City because of threats made on her life by her husband, and that she cannot meet her AgencyEcontact in Mexico City as specified in her termination, to receive the monthly payments from him. Mrs. GERENDE has been given the phone number of the Agency Secur[illegible] Duty Officer and her local phone number and address, where she is temporarily residing, was obtained. She was advised she would be contacted within the near future with an answer to her requests.

5. Upon receipt of the above information, Mexico City Station was notified by cable of the situation and their comments were requested. The Station, on 10 July, recommended that Headquarters hold Mrs. GERENDE to her secrecy agreement, not grant her any increase beyond the amount agreed upon in her termination, and proposed that she be given her termination payment in one lump sum or that checks be mailed to her monthly.

6. Headquarters, in agreement with the Station's position on the case, attempted to telephone her without success on 13 July 1970. That same afternoon at 1400 hours, Mrs. GERENDE's brother, a naturalized U.S. citizen who resides in Alexandria, Virginia, and works at Fort Belvoir, called the Office of Security, using the number supplied to Mrs. GERENDE, and informed the security official that since Mrs. GERENDE had not received any response, she expects to hear from JKLANCE by letter in care of the Netherlands Embassy, Mexico City.

7. On 14 July 1970, Headquarters cabled Mexico City Station advising them of the above development, and requested they contact Mrs. GERENDE and inform her of the following Headquarters answers to her requests (as outlined in paragraph 4 above):

A. We cannot release her from her from her security agreement.

B. We cannot consider awarding her additional financail benefits beyond the amount stated in the termination agreement, which she accepted.

C. We are willing to forward checks to her by mail, but request an address other than the Netherlands Embassy.

8. Headquarters has also requested that Mexico City Station keep Headquarters advised of developments in the case of Mrs. GERENDE.

TIME 1330 Hours

NAME Hester Roos de Alverez GRADE N/A OFFICE N/A
Temp. 4744 Kenmore Avenue
Add. Alexandria, Virginia

INCIDENT Request for Assistance TIME 1115 PLACE Headquarters

SUMMARY OF INFORMATION: SUBJECT came to the Main entrance of the Headquarters building and asked the guard on duty to place her in touch with someone from the Office of Security. The undersigned responded to the Main entrance and escorted SUBJECT to the Main Reception area where she was interviewed. After displaying some reluctance to speak openly, SUBJECT related that she had been employed on a contract basis by the Agency at the Embassy in Mexico City. She gave in way of biographic data that she is the daughter of a former Dutch embassy official stationed in Washington, that she was employed at the Dutch embassy in Mexico City, and it was there that she met her presently estranged husband Ramon Alverez, who at the time of their meeting was employed also on a contract basis with the Agency. She stated that both she and her husband renounced their former citizenships to become citizens of Mexico. After her marriage to Alverez she gained employ with the Agency and stated that her specific duties included but were not restricted to the monitoring and translation of tapes. SUBJECT stated that her husband was terminated from Agency employment for Security reasons within the past year, and received at the time of his termination, six months salary and the promise of $1000.00 per month for 10 months. She stated that inasmuch as she is in the process of filing for divorce from her husband, and could not substantiate her husband's salary in a court of law because of the termination agreement she has signed, the Agency has agreed to and is paying her the sum of $250.00 per month which she is using to support her four children of whom she has been awarded custody. She stated that she is presently employed as a school teacher, but feels that she cannot provide ample support to her children on her salary and the allowance furnished by the Agency.

SUMMARY OF INFORMATION: SUBJECT made three specific requests of the Agency:
A) That she be released from the stipulation in her secrecy agreement which prohibits her from revealing her or her husband's affiliation with the Agency, in order that she may substantiate her husband's salary to be awarded support payment from her husband.
B) If her first request cannot be fullfilled, that she be awarded a higher amount of support from the Agency...
C) If neither of the above two can be fullfilled, that she be sent the Agency check (in present amount) either at the address mentioned above or in care of the embassy of The Netherlands in Mexico City, which is accepting mail for her. She stated she feels she must permanently leave Mexico City because of threats made on her life by her husband, and cannot meet Victor Bellini (allegedly Agency contact) at the specified restaurant location on a monthly basis to receive her check, as is the present requirement.

SUBJECT reiterated her statement that she cannot stay in Mexico City because of her husband's activities directed against the welfare of both herself and her children. By way of reference, SUBJECT mentioned the names of Victor Bellini, Bill Mills, and Don Vogel; all of whom are allegedly Agency personnel in Mexico City.

SUBJECT was advised that the undersigned could not make a decision on any of her requests but that a report of the interview would be made and forwarded to

SUMMARY OF INFORMATION: the appropriate Agency officials. SUBJECT was given the phone number of the Security Duty Office and was requested to contact the undersigned later in the day when perhaps she could be given some concrete information. SUBJECT thanked the undersigned for the interview afforded her and departed the building stating that she would contact the OSDO later in the day. Responded to SR&CD and initiated an indices search which produced records of one covert source on each Mr. and Mrs. Alverez, and one covert reference file on Mr. Alverez. The Covert source files had been retired but will be forwarded to Mr. Kenneth Carroll at his request. Contacted and briefed Ed Duffy and Jack Poirier, PSD/OS, who referred the matter to Messrs. Kenneth Carroll, OS, and Greg Maruca, WH/SO, who requested and will be furnished with a copy of this report, and will initiate further checks within WH Division.

In the opinion of the undersigned, SUBJECT was completely coherent and sincere in her conversation, and seemed completely rational in her conversation and actions.

MEMORANDUM FOR THE RECORD

SUBJECT: GERENDE's Wife's Visit to Washington

1. On 6 July 1970, Mr. Walt Raymond of the CA Staff advised that GERENDE's wife was in Washington and had been in touch with him. Apparently Mr. Ramond and GERENDE's wife had been acquainted for some time in the past. Neither admits that Mr. Raymond is an Agency employee. GERENDE's wife advised that she wanted to get in touch with someone in Agency Headquarters. Mr. Raymond advised her he would contact his liaison people to see what could be done.

2. DIRECTOR 048632 was sent to the Station outlining this and requesting Station's advice as to whether a Headquarters representative should meet with GERENDE's wife. MEXICO CITY 3612 (IN 117477) outlined details of the termination of GERENDE and his wife and recommended against seeing her.

3. I discussed this matter briefly with Mr. John Green, Legal Counsel's Office, who felt even if Station should recommend seeing GERENDE and his wife, that it would be limited to WH Division representation. On 7 July I advised Mr. Raymond of the Station's answer as contained in MEXICO CITY 3612. He said he would contact GERENDE's wife approximately 8:30 of the evening of 7 July, and tell her that his liaison contact had been unable to find anyone who would see her. Mr. Raymond was uncertain as to what GERENDE's wife might do.

Security Risks: GERENDE has known a number of Station officers in true name, although with the PCS departure of RIZZUTO the last of these will have left Mexico. (GERENDE's remaining contact will be Bruce H. FERNALD, whom he knows in alias.) GERENDE knows all agents currently associated with the LIEMPTY operation, as well as LIEMPTY-10 and -11, currently working with the LIEMBRACE team. He also knows LIEMBRACE-1, -2, and -4, and is, of course, aware of the objectives and methods of the LIEMPTY and LIEMBRACE operations. He knows that the Station has access to the entire LIMESA complex, although he does not know of the LIMUST operation. GERENDE knows the true names and JKLANCE status of Oliver G. SCANTLING, David N. WILSTED, and Raymond L. BARCENAS. He knows of the LIFEAT operation through his own former activities as well as those of his mother (LIFEUD-19) and his wife (LIEMPTY-19). The husbands of his two sisters work for the Station. One is LIEMPTY-4, who was handled by GERENDE, and the other is LIBAND-1, whose activity is not supposed to be known to GERENDE. In past years GERENDE was exposed to almost all phases of Station support activity. In recent years he has been more compartmented. GERENDE received five weeks of Headquarters covert training in 1957.

SUBJECT: LIEMPTY Progress Report 1 November 1969 - 25 March 1970

ACTION REQUIRED - REFERENCES

Reference: HMMA-38119, 18 November 1969 PRIORITY

SUMMARY

1. The LIEMPTY Project has thus far survived the absence from duty of its principal agent, Raymond H. GERENDE, as well as the threat to the security of the Project represented by GERENDE's marital problems. Bruce H. FERNALD has been handling all Project personnel since early December 1969, when GERENDE was deactivated and placed on half-pay. No problems have resulted from this, other than a delay in the receipt of photos (FERNALD is unable to meet LIEMPTY personnel as frequently as GERENDE was). The security threat will remain as long as GERENDE's estranged wife has it within her power to expose GERENDE's RVROCK connection and the type of work he was engaged in. She has continually promised not to do this, and thus far she has kept her word.

2. The LIEMPTY product continues to be a valuable one for the Station. It continues to play an important CI role (particularly for LNERGO and LNREAD) but its greatest value, as far as the Station is concerned, is in the positive field. Two recent examples underline this: The early (and thus far only) debriefing of AEMIDRIFF was accomplished almost exclusively by showing her photos of all MEHARSH Embassy personnel and getting from her a character sketch on each individual. These photos were all obtained by LILYRIC and LICALLA. Secondly, LIEMPTY observations (as opposed to

photos) played an important role in our total coverage of AESEASICK during the recent operational activity undertaken against AESEASICK. In short, LIEMPTY remains a highly effective and highly useful support asset, whose product is obtained in order to be used operationally, not simply collected for the files.

GERENDE

3. The GERENDE problem is unquestionably a serious one. We are forwarding under separate cover copies of several memoranda prepared by GERENDE. One outlines the history of his marital problems, another describes the current legal situation, and a third outlines proposals for a settlement. There is no hope of reconciliation. The Station's position with GERENDE from the start has been that he must agree to an amicable settlement with his wife in order to insure that she would not feel forced to take steps which would jeopardize the security of Station operations. For this reason, the Station insisted from the beginning that any financial settlement with his wife would have to take into account the fact that he was receiving a certain salary from RVROCK, and that he could not fairly keep this salary out of the settlement on the grounds that his wife could make no legal claim to that salary. GERENDE's wife was made aware of our position on this, and she was grateful, even though she realized that this arrangement was strictly informal. The Station felt that GERENDE could not be allowed to use his RVROCK salary as a weapon in the dispute with his wife, because if he did, she could hardly be expected to refrain from exposing his connections. Indeed, events have shown that GERENDE's wife is a vindictive woman, and if it had not been clear to her that she, as well as GERENDE, would lose money if he loses his job, she might have blown the whistle long ago. GERENDE, for his part, would have preferred to keep his RVROCK salary entirely out of the picture. Eventually, however, he agreed that the Station position was fair, and he said he would conform.

4. The attached memoranda from GERENDE are, in the Station's opinion, basically fair accounts. In the beginning, the Station was inclined to give GERENDE's wife (LIEMPTY-19) the benefit of the doubt, largely because her description of GERENDE's character weaknesses came as no surprise (particularly his tendency to procrastinate, even when his marriage was at stake). Early in the conflict, LIEMPTY-19 contacted RIZZUTO and asked point blank what she could tell her lawyer about GERENDE's salary. She was told she could not mention the RVROCK portion under any circumstances, and that if she told anyone that GERENDE had any connection with LNPURE, the connection would be denied and GERENDE would be terminated. She appeared to accept this gracefully, even though it meant she would have to scale her support demands down to the level of GERENDE's overt income (GERENDE's monthly salary from RVROCK was over 7,000 pesos; he earned an additional 4 to 5,000 pesos teaching English, and he has since rented their house, for which he is receiving slightly less than 7,000 pesos monthly). Subsequently, LIEMPTY-19 was told that the Station would see to it that as long as GERENDE continued to receive an RVROCK salary, he would give her the same proportion of this salary that the courts determined should be paid from his overt income. This, of course, was strictly an informal arrangement, one which would stop the minute GERENDE stopped receiving a salary. Later, as LIEMPTY-19's position hardened and her vindictiveness began to rule her actions, LIEMPTY-19 was reminded by the Station that the longer it took for an amicable solution to be reached, the greater was the chance that GERENDE would lose his job. If she persisted in having him arrested (which she succeeded in doing twice), his job would be jeopardized. While she continued to repeat sweetly that she had no intention of causing his termination, and had never breathed a word to a soul about his RVROCK affiliation, her attitude was in fact jeopardizing his job and if he lost his job, she and the children, as well as GERENDE, would lose income. Her attitude is

doubly disappointing in view of the fact that as she became more and more unreasonable, GERENDE was moving in the other direction.

5. The outcome can still not be predicted. As can be seen from GERENDE's memos, the two sides are still far apart on a number of points, including specifically money. LIEMPTY-19 insists on 10,000 pesos per month. GERENDE is willing to pay 5,000. GERENDE is currently on half-pay, which means that his total (all source) monthly income is around 14,000 pesos. From this, he would not only have to pay the amount which is finally agreed upon, he must also continue payments of 2500 pesos per month to LIEMPTY-19's father (paying off a loan obtained to build their house). The complicating factor is the uncertainly of GERENDE's future with RVROCK. The Station has maintained for some time that it is impossible to continue to pay GERENDE his full salary solely torun the LICALLA and LILYRIC basehouses. Now that FERNALD has absorbed this duty with only small inconvenience and some loss of timeliness, it makes even less sense to put GERENDE to work only to do this. GERENDE has long been aware of the Station's thinking in this regard, and prior to the current personal crisis he had been told that he would have to work harder at a greater variety of tasks in order to retain his position. As Headquarters is aware, he had been given additional tasks, and, as reported in reference, he had begun to respond very well. There has never been any question of GERENDE's ability. As we have previously stated, he is personable, intelligent, bilingual and binational, and has had good training and experience in certain fields. On the other hand, there has long been doubt about his seriousness of purpose, his initiative, and his ambition. The "reversal of roles" which he describes in one of the attached memos, which took place when he was confined to his home as an LP keeper, did more than cause domestic problems -- it apparently deprived him of the discipline of a daily job. His well-deserved reputation for being lazy was earned years ago.

6. The question which must be answered is whether or not to terminate GERENDE. He can be useful to the Station, but the Station has learned to get along without him. What are the security hazards involved? The general range of his knowledge is described in paragraph 5 of reference. If all of this were blown, the loss to the Station, particularly in terms of support operations against the MHHARSH target, would be considerable. The Station does not believe that GERENDE would deliberately expose any of this, but it is impossible to predict what LIEMPTY-19 might do, particularly since she would feel that she had nothing to lose, having already lost a possible source of income through the termination. GERENDE's termination bonus would probably be in the neighborhood of ten thousand dollars. Presumably LIEMPTY-19 is aware of the fact that he would get such a bonus, although the Station has never discussed this with her and the possible division of such a bonus between the two of them has never been mentioned.

LICALLA

7. The LICALLA basehouse continues to function without changes, except for the fact that Bruce H. FERNALD has been meeting LIEMPTY-9 since 9 December 1969. Brief meetings with LIEMPTY-9 are held once a week at pre-arranged times and places (well away from the MHHARSH area). Occasionally special meetings are called, by phone, by FERNALD, if special coverage is desired (as in the AESEASICK case, for example). There have been no problems, operational or personal, involving the basehouse or LIEMPTY-9 during the reporting period. LIEMPTY-9 provided 1,728 photographs during the reporting period, and in addition to his regular reporting on observed activities of MHHARSH personnel, he provided special coverage as requested. This "special coverage" consists of his observations of a selected individual -- who does he spend his time with, how is he behaving, when was he present (or absent), etc. LIEMPTY-9 spends over 40

hours a week just watching (and photographing) MHHARSH personnel, and over the years he has gotten to know them, and their habits, very well. He can spot unusual or atypical behavior, and when he is asked to put a certain individual under close scrutiny, his comments can be very useful. Newcomers, no matter what their cover, will frequently gravitate to their IS colleagues in the "safety" of the MHHARSH back yard, thereby enabling us to make tentative AEKICK or AEGRIP identifications. TDYers can often be linked up with their internal escort officers. In the case of specific targets, LICALLA special coverage can sometimes give clues to personal relationships which can be exploited. During the reporting period we had special coverage on AESEASICK (to determine any changes in pattern following the AEMIDRIFF defection and following the operation against him -- and in both cases LICALLA did report some change in pattern); 201-305870 (for much the same reason, although here the evidence was not as clear); AEPOLYP (to gather information on his patterns and his associations); AETAKEOFF (for the same reason); and 201-838166 (to find out if he did, in fact work in the "restricted area" and who his associates were, a requirement which was quickly satisfied). Also, LICALLA has been asked to report on the arrival and activities of TDYers such as the AEKICK security inspectors (he is not, of course, told that "security inspectors" are expected -- he is told of the expected arrival of visitors, and he can spot a visitor or newcomer immediately), the possible arrival of 201-314616 and, currently, to attempt to identify, at least by association, the person who went out to meet an LNREAD agent (subject of MEXICO CITY 2741, 17 March 1970). The value of LICALLA to the REDTOP program in Mexico City can scarcely be overstated.

LILYRIC

8. There have been no changes during the reporting period of the operation of the LILYRIC basehouse activity, except that Bruce H. FERNALD took over the handling of the LILYRIC personnel from GERENDE in early December. FERNALD normally meets only LIEMPTY-13, at pre-arranged sites and times (also well away from the MHHARSH area), once a week for pick-up of the films and reports. He occasionally meets LIEMPTY-14 (LIEMPTY-13's wife) when LIEMPTY-13 may be out of town. The LILYRIC coverage is a family enterprise with the work equally divided among LIEMPTY-13, -14, -26, and -27, who split up the hours of duty so that there is uninterrupted coverage Mondays through Fridays from 0800 to 1800 hours, and 0800 to 1500 hours Saturdays. (Extra-hour or week-end coverage may be requested as necessary, and the LILYRIC personnel responded to the Station request for such extra coverage during the AEMIDRIFF and AESEASICK cases.) The family has continued to provide reports during the reporting period on all activity centered on the front entrance of the MHHARSH Embassy. Such coverage included, as in the past, daily logs on the comings and goings of MHHARSH officials, up-to-date recording of MHHARSH license numbers, special activities and visitors (particularly Americans, of whom five were spotted and reported on during the reporting period), and some 3,500 photographs. As an example of the value of LILYRIC coverage, within one week of the change of license plates at the MHHARSH Embassy (a biannual change affecting all of Mexico, with new numbers bearing no relation to the old), LILYRIC had provided a complete list of the new numbers (along with the cars to which the plates are assigned). Among other things, this enabled the Station to identify AESEASICK's companions during his last few days in Mexico. Without LILYRIC, identification of the new license plates would have taken months and would have handicapped our operations. LILYRIC has also provided special coverage of the visit of a Latin American CP representative, and is currently watching for the two AEKICK security technicians, 201-314616, and the man who went to meet the LNREAD agent. Also, LILYRIC has reported on visits of Mexican students and the identity of the MHHARSH representatives who deal with them or hand out literature to them. In short, LILYRIC's services, even though the

MHHARSHers undoubtedly assume we have a LILYRIC-like facility, and act accordingly, are another vital element of the REDTOP program.

LIEMPTY-4

9. LIEMPTY-4 has continued to develop and to print all of the LICALLA and LILYRIC photographs. He has been met regularly by Bruce H. FERNALD (taking over for GERENDE) since 26 November 1969. The first few meetings at that time (late November and early December) were arranged by FERNALD by telephone to LIEMPTY-4 and primarily concerned LIEMPTY-4's reports on GERENDE's family problems and related security arrangements. Since mid-December, LIEMPTY-4 resumed a regular schedule (usually weekly) of meetings at pre-arranged sites and times. LIEMPTY-4 has been given a special extension in the Station to which he may call as "Dr. Carlos" to leave a message for "Victor" (FERNALD). FERNALD can change meeting plans by directly calling LIEMPTY-4. The only personal problem directly involving LIEMPTY-4 was surgery on his knee which required his wearing a full cast on his leg for over six weeks. During this period when LIEMPTY-4 has been unable to drive, FERNALD has been meeting LIEMPTY-4, for the exchange of LICALLA/LILYRIC films and prints, at LIEMPTY-4's office, under a suitable pretext and with appropriate security precautions. LIEMPTY-4's services are invaluable since the Station could not, on a continuing basis, process the LIEMPTY material in its own photo lab.

SECURITY

10. Other than the security problems inherent in GERENDE's personal problems, there have been no security problems during the reporting period.

FUTURE PLANS

11. As for GERENDE, the Station has reached the conclusion that he must be terminated. This is not an easy decision to make, nor will it be easy to confront GERENDE with this decision. He has, after all, devoted 15 years of his life to RVROCK. However, as noted above, in spite of his talents the Station has been able to get along without his services. Furthermore, the constant security risk posed by his wife is, frankly, an unacceptable risk. To try to molify her by promising her a portion of his salary is probably unworkable in realistic terms, particularly since her attitude has progressively hardened. The Station, therefore, intends to terminate GERENDE prior to the end of FY 1970. GERENDE's contract calls for a termination bonus of one month's salary per full year. This would come to $8,750 (USD). For various reasons, including the need to preserve the security of the operation by ensuring that the termination is amicable, it will probably be necessary, as stated in paragraph 6, to give GERENDE about $10,000 (USD). Furthermore, it will be necessary to inform LIEMPTY-19 of the termination, and, to keep her from revealing what she knows, she will undoubtedly have to be given some money herself. The Station does not believe that it would be equitable or sound from a security point of view to use the money which GERENDE himself has earned for this purpose. Therefore, while the figure will remain negotiable, the Station believes that the sum of $2,500 (USD) would be a reasonable amount. Total obligations for FY 1970 in the LIEMPTY Project are currently estimated at slightly less than $33,000 (USD). The Project has been approved in the amount of $38,970 (USD) leaving unobligated approximately $6,000 (USD). It is therefore requested that the LIEMPTY Project be amended for FY 1970 to provide an additional $8,000 (USD) to be used in the GERENDE termination. Funds will be available at the Station.

12. Regarding the project renewal for FY 1971, as far as LICALLA, LILYRIC, and LIEMPTY-4 are concerned, no changes in procedure are planned. The product is useful, it is as timely as present circumstances permit, and the personnel involved are doing their jobs well. The only change foreseen is an increase in salary for some, if not all, of these agents. The most recent salary increases took effect in May 1968. LIEMPTY-4 has not had an increase since January 1967, and LIEMPTY-13 since January 1964. Increase in cost of living alone would be sufficient justification to raise salaries, but in the case of these agents their consistently excellent work deserves to be rewarded. These salary increases will probably range between 10 and 20 percent.

13. As for other project expenses, LIEMPTY-10 and LIEMPTY-11 will no longer be funded under LIEMPTY, but have been transferred to LIEMBRACE effective 1 July 1970. Real estate expenses should remain fairly constant, with perhaps a slight allowance for inflation. The rent on GERENDE's dark room (MEXI 137) will no longer be paid with his termination. MV-2823 will be sold or otherwise disposed of and should not be included in the project for FY 1971. Equipment and operational expenses should remain constant.

FROM : GERENDE

SUBJECT: GERENDE Background and Status Report of Present Marital Conflict

1. While this is not intended to be a full exposition of my personal and private life over recent years, I would like to make known some of the factors that have, from my point of view, led up to the present situation.

2. I realize that the interests of the organization and the interest of the individuals who may have opportunity to come in contact with my case dictate as little personal involvement as possible in the lives of agents. Indeed, the requirements of security, compartmentation and efficiency prescribe the modus operandi and, to a great extent the modus vivendi, of agency personnel not only in the sense of earning a living but also in manner of living. Ideally, the less said about an agent's private life, the better, but, as the years go by, changes may occur which go unreported or unnoticed and which may bring about unexpected events and repercussions. When a person has been working for the Station, as I have, for fifteen years with little or no personnel handling problems, no security flaps, no obvious problems on the job, and something comes up like the abrupt separation of my wife (LIEMPTY-19) and me with the personal and potential security risks it has entailed, I feel that some explanation is necessary. Should it be in order, I would like this explanation to reach not only my present case officer and Chief of Station but also the former Chief and officers with whom I have had the privilege to work over the years.

3. I would like to give thanks, in advance, for the patience and understanding that have been shown me thus far. Whatever the final outcome, I know that people have been bending over backward to be helpful and patient in hopes of an early solution to the conflict.

4. Back in September 1959, shortly after our wedding in late 1958, my wife and baby girl, were moved, by the agency, into a

SC ATT 1 TO HMMA-38700

SECRET

spacious, carpeted, furnished apartment near the DIZTAG Embassy, which served intermittently as a listening post-basehouse for the agency. At the time, LIEMPTY-19 was working as the manager of the bookstore at the University of the Americas and, at the same time, studying for a B.A. in philosophy. These were happy times. We received a two-month leave, went to Europe, the Rome Olympics and visited LIEMPTY-19's family in Holland. Back in Mexico, when the base was in operation I stayed home a lot (one of the requirements), minded the dial and tape recorders and the baby -- an unfortunate reversal of marital roles. After exactly five years the basehouse was closed down and we lost rent, LIEMPTY-19's salary and my mother's salary which she had been receiving as part-time basehouse keeper. My mother and youngest sister gave considerable help in taking care of the baby while LIEMPTY-19 worked and when we went to Europe and left the baby with them. This was during the first three years at the base until we had our second child, Christopher.

5. We moved to a small apartment in Lomas and, to supplement the loss of salary and rent allowance, the Station began paying 1,000 pesos a month for the use of a dark room I had built on the roof of the building. We had our third child, Madeleine, unplanned, two months after settling in the two-bedroom apartment. The apartment need not have been so small but we had chosen it for its location and style and because it was to be a temporary stop until we could find something better. We missed going to the Olympics in Tokyo which we had planned to do (1964) and instead began negotiating to buy a home building site at Rio Escondido but when the deal fell through, we decided to go on leave to Europe again, this time with the two older children, leaving the baby with my sister. We visited with LIEMPTY-19's parents in Holland (they had moved back to Holland after having lived in Washington, D.C., since 1943) and the two children stayed with them while LIEMPTY-19 and I made side trips. Traveling is LIEMPTY-19's greatest love in life. Upon our return to Mexico (I came back two weeks earlier), LIEMPTY-19 was so depressed at leaving Europe and being back in Mexico she was emotionally and physically inaccessible for about six weeks. She had not fully adjusted to living in Mexico or to settling down and becoming a housewife. Our cramped quarters, way of living, lack of money, my job, my irregular hours and habits, my Friday night poker games, the three children, all these got her down.

6. In the fall of 1965 after our return from Europe I began teaching English to beginners in the adult education program at the American School in the evenings. This started as a two-hour a week moonlighting experiment but by early 1966, through student contacts made at the school, I had branched out to teaching at the offices of Carnation Milk Co., Singer Sewing Machine, and Richardson-Merrell Drug Co. for a total of about twenty hours per week. LIEMPTY-19, meantime, was working part-time at the Hamilton School in Lomas where the two older children were attending. The family finances improved and I was able to convince LIEMPTY-19 that

the best thing to do was to invest in land and build a house big enough for our growing family which by now had a fourth child on the way. With three friends as partners, I entered on a land-buying deal which turned out to be complicated as we bought the land in the form of company stock. The company was liquidated and the assets were distributed, as land, to the four partners. I paid for our share with the proceeds from the sale of a small lot I had been paying for since 1955. LIEMPTY-19 was at first reluctant to tie us down with a house but when we finally got the papers and land deed straightened out, she threw herself wholeheartedly into the project and the building which began in August 1967. While LIEMPTY-19 supervised the construction, I worked during September and October almost full-time for the Olympic Organizing Committee and the group from Czechoslovakia which came to train in the pre-Olympics. My father-in-law deposited money in Mexico to help us with the major part of the financing of the house. We used $286,500 pesos of his money and about $60,000 that LIEMPTY-19 and I had saved and got the house finished enough to move in in March 1968. We were very short on furniture and shortly after moving in bought three bedroom sets, an automatic washer and even a piano. Naturally, cash was scarce, dirt was plentiful. The yard was a pile of rubble, the carpentry work had just begun, there were no closets, the house was unpainted. Thereafter, we did things on the house as the money came in: continued with carpentry, finished the driveway, put in grass, built a fence and front gate.

7. Six months after moving in came time for the Olympics and I worked, unofficially this time, with the water polo team from Australia. LIEMPTY-19 worked for the month with the Dutch and Belgian radio and TV group. LIEMPTY-19 was, once again, caught up in the atmosphere of being among Europeans and doing something exciting and out of the routine of home and children. She fell in love with the Australians as well, and for several months all she could talk of was that we should move to Australia. I gave it some thought but decided that we had neither the money to invest nor the youth and technical training to make it as pioneers "down under" and, on the other hand, family, friends, a house, and job seniority here in Mexico.

8. Toward the end of 1968, LIEMPTY-19 decided it was time for me to move out of the master bedroom as she could no longer face that aspect of our married life. For several months we tried this but it did not work out for me. One night in March 1969 after we returned home from a party, she asked me to help her undress and when she, once again, refused to have anything to do with me, I got rough with her, prompting a decision on her part, which she had already been pondering, to visit her parents in Holland as soon as possible. Her father provided the plane fare and she left in April for the United States to visit her brother and sister and Holland, for what she said would be a five week trip. She stayed away ten weeks. The four children remained with me, the maid, and

my mother who came to help three days a week. Upon her return, LIEMPTY-19 bore an air of resignation rather than of enthusiasm and, again, as on her previous return from Europe, was physically down and mentally unhappy. When asked about her thoughts on Australia she said that if she had wanted to live in Australia, she should have married an Australian. The separation had not improved our intimate relationship.

9. In August I was to take five weeks' leave and go with the children to Astro-World in Houston and visit my mother's family in South Carolina. When I suggested postponing making monthly payments on her father's loan until December when the Christmas Bonus would cover the back debt, in order to make the trip, she was adamant. saying that if I did not have the cash for going, I should not take leave. I borrowed from my life insurance policy and left with the three youngest children. Adriana had a touch of hepatitis and joined us three weeks later. After spending the month in South Carolina, we returned to Mexico to find that LIEMPTY-19 had very much enjoyed her solitude. We had already talked about divorce before her trip to Holland in the spring. I had told her that I would not consider parting with the children and she said she would consider leaving them to me if I would settle the debt to her father as well as give her a substantial share of what she considered was her part of the house. The title of the house was in my name and had been since the buying of the land. LIEMPTY-19 said I could mortgage or sell the house but that the money was what she was mainly interested in. I told her that the sale of the house was not financially wise in its unfinished state and that the house and land are very likely to appreciate sharply over the next three or four years considering the housing developments going on in the area. Added to this was the sentimental attachment to the house and area. A mortgage, on the other hand, for the amount of her father's loan plus what she was asking, was something I could not afford considering the more than 12 percent cost of such a mortgage in Mexico.

10. At the same time, during September 1969, that we were going through the above-mentioned discussions, LIEMPTY-19 was taking a course at Japan Airlines to become a tour guide and group leader for trips to the Orient as early as November 1969 and, certainly, to Expo '70 in Osaka during the spring and summer of 1970. She received a diploma to that effect. I told her that if she wanted out of the marriage and wanted to be free to travel it was all right by me but that the children would stay with me and I would continue to repay her father at the agreed rate ($2500 per month and 5 percent per year). She then sought legal advice from an old friend, Dutch lawyer Guillermo Floris Margadant who, in turn, steered her to a young woman lawyer, Dra. Berta Martinez, who must have advised LIEMPTY-19 that under the local legal system the only way to try for a sizable cash settlement and considerable support was to hang on to the children because LIEMPTY-19 made a radical "about-face" in her attitude concerning them and she now said that she could not

"abandon" the children. I refused to visit her lawyer with her saying I was not interested in getting divorced, whereas she said that her mind was made up and that we would have to split up.

11. Things came to a head on the night of 12 November when I got home around 9 PM and she suggested we have a drink and talk things over. I mixed some martinis and she began laying down the terms under which she thought we should get divorced, i.e. I should move out of the house, mortgage to pay back her father's money, grant her custody of the children and support of 2,000 pesos per month per child ($8,000). I said I would not get divorced under those conditions and we discussed and argued in the kitchen for about three hours, killing a bottle of gin in the process. We went upstairs and when I tried to make up to her she tried to rouse the children, unsuccessfully, and then tried to leave the house which I would not let her do. She got hysterical, phoned a neighbor, Uta de la Hoz, then she went into the front yard and awakened the next door neighbors, Walter Hurley and his wife, and asked to go to their house. A few minutes later, Uta and her husband Guillermo came and LIEMPTY-19 went with them to their home two blocks away. About a half-hour later I walked up to Uta's to ask LIEMPTY-19 to come home but was told that she was busy phoning her lawyer and would not return.

12. The following morning I took the children to school as usual and my sister Marcia (LIEMPTY-4's wife) picked them up and took them to her house where I joined them for lunch. LIEMPTY-19 came by in the late afternoon while my sister was out, picked up the children saying she was taking them home, failed to do so, then disappeared and was not to be found.

13. It was the subsequent action taken by LIEMPTY-19 in dropping her lawyers and taking on the services of Bernabe Jurado, the most notorious penal attorney in Mexico, that led to the potential security hazards that ensued.

TO : Case Officer

FROM : GERENDE

SUBJECT: GERENDE Status Report

The present situation of the marital conflict between GERENDE and his wife (LIEMPTY-19) is as follows:

1. GERENDE is living at his mother's apartment at 99 Carlos B. Zetina Street, Apartment 9. He has rented a three-bedroom apartment at Tornel 3 corner with Pedro Antonio de los Santos where he has stored the household effects and furniture removed from his former address at Ladera 39, Lomas de Bezares.

2. The house at Ladera 39 is rented to an executive of Chrysler Corporation International, Dr. Leon MARKIEWICZ, his wife, and fifteen-year old daughter, all of Argentine nationality. The monthly rent is 6,700 pesos M/N and the contract is for two years, beginning 1 February 1970.

3. LIEMPTY-19 and the four children are apparently still living at the residence of the Netherlands' Ambassador, Baron Schelto Van Heemstra at Peña 360, Jardines del Pedregal. It seems fairly certain they are at that address from things that the two older children, Adriana and Chris, have said to GERENDE on the last two occasions he has seen them. They have been there since 5 December 1969. LIEMPTY-19 has denied that she has a fixed address and says that she is staying with "friends."

4. LIEMPTY-19 is continuing to use the services of Bernabe Juardo as her lawyer and, through him, is pressing for even more advantageous terms in the divorce than she had asked in November. Please see the attached copy and translation of the latest proposal made by Juardo on 4 March 1970.

5. The charges and accusations made by LIEMPTY-19 against GERENDE are still not completely resolved and are as follows:

a. Insults, threats and attempted homicide -- this charge rests at the 5° Juzgado Penal, 2ª Corte Penal located at

Lecumberri. The judge is CRUZ Mellado. These charges have not been pressed since they were originally made on 13 November 1969 by LIEMPTY-19. The ruling on these charges, should the case come to trial, must be made by three judges of the 2a Corte Penal composed of the 4th, 5th, and 6th Juzgados Penales. The judge of the 6° Juzgado is Lic. QUIRAZCO, an alumnus of GERENDE's lawyer, Jorge Mario MAGALLON. Together they have, on two occasions, been to speak to Judge CRUZ Mellado who agreed not to issue an arrest warrant and who has, finally, called for a hearing on 16 March (subsequently postponed) at 10:00. MAGALLON has given GERENDE assurances that the charges are likely to be dismissed.

b. Fraud -- this charge was made by LIEMPTY-19 and her lawyer on 11 December 1969, the day after GERENDE left the Villa Obregon jail after having spent a week there for disobeying a court order. (The court order had consisted of an unfounded request to have GERENDE expelled from his house and to have LIEMPTY-19 reinstated there with her father, as the temporary custodian of the children. GERENDE refused them admission under those terms, hence disobeying the Villa Obregon judge's order, so the judge's secretary arbitrarily ordered, on the spot, a 10-day detention. Subsequently, the judge, LUCAS del ARENAL, was forced to lift the detention after seven days and dismiss himself from the case and divorce proceedings as incompetent. The judge has had to face charges of collusion from and with the lawyers of both parties, i.e. Magallon and Jurado. The charge of fraud rests at Mesa 31a of the Procuraduria del Distrito Federal. The Public Ministry Agent in charge of that table is Jorge GUTIERREZ Cruz. LIEMPTY-19 claims that the money lent to her and GERENDE for building the house at Ladera #39 was actually loaned to buy the house and that GERENDE, knowing they were married under the separate property marriage clause had wrongfully placed the property in his name only, thereby committing fraud. Actually, the land was bought by GERENDE before Christmas 1965 in a complicated transaction involving three other partners: Robert Bancroft WHITEHOUSE, John (Dick) RENNA, and James Walter HURLEY, and each of the partners placed the property in their respective names with the complete knowledge of their spouses. Later the land was subdivided and after nineteen months the deeds were issued. LIEMPTY-19 supervised and prodded the notary who made the transaction and she was perfectly aware that the property was in GERENDE's name. In August 1967 when construction of the house began, LIEMPTY-19's father's money was used which he had deposited in Mexico for the purpose. Since January 1969, according to the terms of the loan agreement, GERENDE has been paying it off and has receipts from LIEMPTY-19 to show for it.

GERENDE has presented both the land deed ("escritura") pre-dating the construction of the house and the receipts

showing up to date payment of the loan at the "Mesa 31a."
No further action has been taken by LIEMPTY-19 or her lawyer on this matter but the charge has not finally been settled and is still pending. The charge is, of course, unfounded and is awaiting the proper "lubrication" in order to be filed away.

c. Neglect -- this charge was made by LIEMPTY-19 in December 1969 at the 7° Juzgado Mixto de Paz claiming that GERENDE had abandoned LIEMPTY-19 and the children to their fate and that they were utterly destitute. GERENDE was not notified of this charge and on 9 February after attending a hearing at the Villa Obregon juzgado (see below), once out on the sidewalk, Judicial police agents detained GERENDE, took him to the Procuraduria and from there to Lecumberri. This process involved being finger-printed and mugged. The following day GERENDE was out on a 2,000 pesos bond and three days later, 13 February, the justice of the peace (a woman) formally set GERENDE free for lack of evidence. GERENDE and Magallon went back on 5 March to pick up the bond money and see if Jurado had appealed but he had not and, apparently, that matter is closed.

6. On 14 November 1969, one day after LIEMPTY-19 disappeared from home taking the children with her, GERENDE brought charges against her for minor lesions and showed medical proof thereof. The hearing of 9 February after which GERENDE was detained, was called by Villa Obregon judge Bonfilio SEGURA. GERENDE reiterated the charge, LIEMPTY-19 denied it, the judge ruled against her, ordered her to prison but since the injuries were minor, it does not require privation of liberty and she must only go and sign-in once a week.

7. LIEMPTY-19 is at present teaching school at the Edron Academy on Caleri Street in San Angel Inn. The two older children are going to school there. During the latter part of November, all December and half of January, the children did not attend any school. On three occasions GERENDE has been to the school at 13:30 to try to speak to LIEMPTY-19 and see the children. LIEMPTY-19 has objected to this and the meetings have been short and fruitless except for GERENDE learning that they are still staying at the Dutch Ambassador's. GERENDE's last visit there was on 3 March (Tuesday).

8. After the Villa Obregon judge dismissed himself from the divorce proceedings, according to standard procedure, the case went to Coyoacan and Xochimilco respectively where the judges, in turn, excused themselves from the case and it has finally come to reside at the 1st Juzgado Civil in the D.F. The judge is Olda CORREA (woman) and has the reputation of being tough and pretty straight. Since LIEMPTY-19 has not given an address where divorce suit papers can be served her, the suit has not yet been initiated on GERENDE's part. LIEMPTY-19, on the other hand, has not had

GERENDE served with papers though his current address is known, apparently because she is still seeking a voluntary divorce along the lines and terms which are stated in the accompanying set of proposals. GERENDE cannot begin to accept these proposals in their present form as they are patently unfair and hardly a point to beginning bargaining from.

14-00000

8 March 1970

The following proposals were made to GEREDE on 4 March 1970 (Monday) by LIEMPTY-19's lawyer, Bernabe Jurado, through a mutual friend, Licenciado Carlos Heyn, to wit:

TERMS under which the problem of [LIEMPTY-19] and [Raymond H. GERENDE] could be solved.

1. The right (patria potestad) to the minors would be kept by both the mother and father.

2. The guardianship and custody of the four children is entrusted to the mother. The father may visit the children once a week between 10:00 and 19:00 hours; he may take them out once a month and will return them to the mother's address before 19:00.

3. The father is obliged to pay the mother the sum of 10,000 pesos MN, in advance, per month beginning with the month of November 1969, since which time he has not given the mother or children any money at all.

4. This agreement will be raised to the level of a formal public writ the day it is signed by both parties.

5. Both spouses agree to divorce voluntarily under the terms of this agreement.

6. Upon termination of the divorce procedure, by mutual consent, both parties will desist from the civil and penal actions that either might have initiated against the other.

7. Both spouses are obliged to attend punctually the meetings that the legal procedure establishes as well as grant the guarantees demanded by the Public Ministry and acting Judge for the approval of this agreement and granting of the divorce.

8. In order that the father may visit his children and take them out, the mother is obliged to give notice of every change of address.

9. With the exception of the one day a week that the father may visit the children and the one day a month when he may take

1C ATT 3 TO HMMA 38700 SECRET 50-6-74/3

them out, the father contracts the obligation of absolutely abstaining from calling on the mother's address, so that she may carry on her life freely without neglecting her children.

10. While the voluntary divorce is being processed, the mother and children will live at ______________________ and, as above stated, to satisfy their needs, the father will make the first monthly payment of $10,000.

11. Neither the father nor the mother may take the children out of Mexican territory without the authorization of the other.

12. Since GERENDE owes the parents of LIEMPTY-19 the sum of $286,500 plus agreed-on interest, minus whatever payments he has been able to make, the said GERENDE is obliged to mortgage the house at 39 Ladera, Lomas de Bezares in this city, precisely during the course of the divorce procedure by mutual consent as established in the antecedent clauses and before the divorce is granted so that LIEMPTY-19's parents are reimbursed on their loan or on the outstanding unpaid balance.

13. The expenses of making this agreement a formal writ as well as the fees of B. Juardo will be paid by GERENDE but these will be fixed in an equitable manner by Carlos Heyn to whose decision both will submit.

14. In case of failure to comply with any of the clauses of this agreement at any time or for just one time, either by GERENDE or LIEMPTY-19, both agree to expressly establish the following sanctions and terms:

15. If GERENDE is the one who violates any clause just one time, he will forfeit the house at Ladera 39 to the mother and children, LIEMPTY-19, Adriana Juliette, Christopher Ramon, Maria Madeleine, and Laurence Fernando, and said property will belong to the above mentioned persons.

16. If LIEMPTY-19 is the one who violates the terms of this agreement for just one itme, she will lose the custody of children in favor of the father or whatever person he designates for the guardianship and custody of the minors.

17. Since LIEMPTY-19 has to establish an appropriate place to live, in the company of her four children, both parties agree that the household effects will be turned over by GERENDE, to LIEMPTY-19 for that purpose, as well as the automobile she has been using throughout the marriage.

Mexico, D.F., 4 March 1970

NOTE: GERENDE's lawyer advised him not to make a counter proposal. His comments on the above terms are as follows (keyed to above):

1. OK

2. Visitation rights everyday at any time; he may take them out overnight once per week.

3. Will pay 5000 pesos per month, to begin with date of settlement (i.e. not retroactive)

4. OK

5. OK, assuming that agreement is reached on terms

6. OK

7. OK

8. OK

9. Revise to agree with GERENDE's version of paragraph 2

10. OK, except payment is to be 5000 pesos.

11. OK

12. No. GERENDE prefers to continue paying off under the terms of the loan agreement with LIEMPTY-19's father. Later, if a mortgage can be obtained at an acceptable interest, GERENDE might consider this.

13. No. GERENDE and LIEMPTY-19 will each pay their own lawyers.

14. See below

15. Not acceptable

16. Not acceptable (in context of paragraphs 14, 15, and 16)

17. She may receive household effects, but not the car.

SUBJECT: LIRAZOR/Progress Report for the Period 1 August-30 September 1969

ACTION REQUIRED - REFERENCES

ACTION REQUIRED: For Your Information

REFERENCE : HMMA-37623, 4 August 1969 (Last Progress Report)

1. Although this report might normally be submitted one month from now, the use of Oliver G. SCANTLING has shifted sufficiently to warrant a special report at this time. Our next progress report will be submitted for the period 1 October through 31 December unless exceptional circumstances justify another change.

2. The fundamental change in the use of SCANTLING (who has suffered the past six weeks from paratyphoid) is that he has been divorced from routine cut-out operations and will henceforth be used for priority tasks and targets which will better utilize his proven talents. First, in late September ZARBOCK took over LICASA-1 for direct handling. The LICASA operation offered no particular challenge to SCANTLING and it is doubtful that his intermediary role offered any particular additional security in this case. In fact, if a flap should ever develop in this case SCANTLING would just add one more local who would have to be extricated from the tongs of the GOM. Second, it has been decided that SCANTLING will very soon turn LIANVIL-1 over to Raymond GERENDE. The details are presently being worked out.

3. PLANS: In line with our decision to use SCANTLING for recruitment efforts principally (and less so for routine agent handling) he is presently preparing for a recruitment attempt against Subject of * MEXICO CITY-1502. When that operation is completed he will be targeted against the MHHARSH target both through a commercial outlet of the Bloc and through various clubs and sports centers where he may have access to MHHARSH types. Aside from these responsibilities, he will be used as needed in other recruitment situations especially in support of a new surveillance team.

MEMORANDUM FOR: Executive Officer, Western Hemisphere Division

VIA : WH/FI
WH/CONTRACTS

SUBJECT : Recommendation to Amend the Contract of Raymond H. GERENDE (Contract Agent) to Include Improved Termination Benefits and a Salary Increase

1. During the past year Mexico City Station has submitted several dispatches recommending that paragraph 11 of Subject's contract be amended to include new benefits in the event of Subject's termination and/or resignation from Agency service. These Station recommendations have been carefully reviewed by C/WH/Contracts and a Memorandum was forwarded to C/WH/1 containing guidance on the suggested contract amendment.

2. The above information has been reviewed again by AC/WH/1, and we are requesting approval for the following amendments to paragraph 11 of Subject's contract:

A) In the event of GERENDE's termination by the Agency he will receive three month's pay plus one month's pay for every full year of service since 18 March 1955, calculated at the rate applicable at the time of termination.

B) In the event of resignation and/or voluntary retirement upon 60 days notice the following schedule would be acceptable to the Agency as being in its best interests and a payment considered as a terminal payment as follows:

(1) Less than 15 years service (prior to March 1970) 20 days pay for each full year of service.

(2) Over 15 years service, but less than 20 years service (prior 18 March 1975) three months salary plus 20 days pay for each full year of service.

(3) Over 20 years service, three months salary plus one month's pay for each full year of service.

(4) All payments above are to be calculated at the rate of pay applicable at the time of retirement and/or resignation.

3. As to the points raised by WH/Contracts in their Memorandum concerning this amendment we would like to note the following:

A) GERENDE is a Mexican citizen, working for the Agency since 18 March 1955 under an MOC, who considers himself to be a "career" employee of the Agency, and whose initial local employment for cover purposes was largely notional under a system of "ghost payrolling". GERENDE received no income or benefits from this "cover" position which terminated due to the demise of the company on 31 December 1967. GERENDE's other "cover" is self generated in that he gives English lessons in his spare time to middle management Mexican nationals employed by American owned companies in Mexico City. His income benefits from this "cover" are minimal, but suffice for satisfying acquaintances as to the source of his income. In conclusion, GERENDE is considered by the Station to be a full time contract agent, on call at all times for operational activity. Any other local benefits which may accrue to him by the virtue of his being a Mexican citizen should not, we feel, be a concern of this Agency given the above circumstances of his employment with us.

4. This Branch is of the belief that the resignation and/or retirement schedule outlined in paragraph 2, B above provides career benefits for GERENDE in the event that he must resign and/or retire in the event of unforseen personal circumstances. It additionally rewards him for his loyalty of service, and at the same time provides him with incentive to remain in Agency service for the additional financial benefits that will accrue to him providing both future security and incentive.

SECRET

5. During the past two years GERENDE has served as a principal agent handler for a sensitive fixed surveillance project; has carried out unilateral recruitment approaches against the Cuban target; has been used in special support investigations; and is presently being considered for use in special operations of a sensitive nature. A review of the progress reports in GERENDE's operations discloses that the Station has been more than satisfied with GERENDE's performance and is anxious to take advantage of his full potential. GERENDE's last salary increase from $6,000 to $6,500 per annum was granted in July 1965, and there have been no increases since. Since the Field Station/Headquarters negotiation over amendment of paragraph 11 of GERENDE's contract has been in progress for over one year and a half, we are of the belief that the Station wished to finalize this amendment prior to requesting a salary increase for the agent. It is therefore requested, considering the above, that approval be given for a salary increase from $6,500 to $7,000 effective 1 August 1969, and that his contract be so amended. The Field Station will be queried for their approval via cable prior to implementation of the contract amendment.

DATE: 7 March 19[illegible]

FROM : C/[illegible]/Contracts

SUBJECT: Raymond H. GERENDE - Severance/Retirement/Resignation Pay

REF : [illegible]-30312

1. Reference asks that GERENDE's contract be amended to provide the following:

a. Three months pay for purposes of a termination payment.

b. The following schedule in the event of resignation upon 30 days notice which would be acceptable to the Agency as being in its best interests and a payment considered as a termination or terminal payment as follows:

Less than 15 years service (prior 18 March 1970)--20 days for each full year.

Over 15 years but less than 20 years service (prior 18 March 1975)--three months plus 20 days for each full year.

Over 20 years--three months plus 1 month for each full year.

2. The Station has pointed out that Mexican law requires an employer (presuming that we are being considered as an employer in the sense of Mexican law) to grant an employee who is terminated three months pay plus an additional 20 days pay for each full year of service. In the event of resignation, Mexican law does not make any requirement for payment by the employer to the individual.

3. GERENDE's basic contract was effective 1 October 1955. An amendment, effective 1 July 1959, provides for a terminal payment of one months salary for each year of service since 18 March 1955, and thus bears out the Station's use of the date 18 March 1955 for service computation.

SECRET

4. It is to be noted that [illegible], who was born December 7, 1932, will have 20 years service in March 1975, and in December 1975 he will be 43 years of age.

5. The Station did not indicate whether or not [illegible]'s overt employment provides him any termination pay or pension benefits. Mexican law does provide that an individual covered under their "social Security benefit" program is eligible for annuity at age 65. Should he retire between the ages of 60 to 64, he would receive a reduced annuity.

6. I believe the Station's proposal is quite practical except it does, of course, give the individual an option of resigning at any time and thus being eligible to receive a "resignation payment" rather than what should, I believe, be considered as a retirement payment or program. I, therefore, suggest the following:

a. That prior to effecting a contract amendment providing for a resignation payment for acceptable reasons, information be obtained as to whether [illegible] would actually be entitled to receive from his overt employer additional payment(s) for termination and/or retirement. This then could be used as a basic figure on which to build in terms of termination and/or retirement.

b. The proposed schedule certainly appears adequate. As there is no limit on the accumulation, the individual might well reach a point of "temptation" to resign. I believe there should be a maximum limit on accumulation - why encourage the individual to resign?

c. As both the Station and [illegible] want some program for purposes of security and incentive, I believe more emphasis should be given to such a retirement program rather than on "resignation". Similarly, retirement would not be thought of at age 43.

A retirement program could provide for participation by the individual and also take into consideration what the individual would receive from his country's Social Security program. This type of plan would give the individual a vested interest as well as a feeling of security in terms of the future.

7. It is recommended that your dispatch in answer to Reference be coordinated with the appropriate WH Staff and WH/[illegible].

SUBJECT: Raymond H. GERENDE's Cover Status

ACTION REQUIRED - REFERENCES

1. In preparing a recent request for an amendment to Raymond H. GERENDE's contract, it occurred to us that it would probably be useful to bring Headquarters up-to-date on GERENDE's cover status. As a full-time contract agent, GERENDE is on call at all times for operational activity. His cover activity not only provides him with the necessary flexibility, it is also solid enough to provide him with a plausible explanation of his existence and his income.

2. GERENDE has two major cover activities. One is the teaching of English, mainly to middle-management personnel of American-owned firms in Mexico City. This is done on a regular basis for a few hours each day and earns GERENDE an income of about 5000 pesos per month. His second cover activity, and one which is largely a cover and not really activity, is working as a salesman for IDEN A. [OSRAM] GERENDE actually earns only about 500 pesos per month from this, but this fact is a closely guarded secret. GERENDE's acquaintances assume that a good part of his income comes from this cover. Previously, GERENDE had been able to "prove" a total income of about 8000 pesos per month, ostensibly from IDEN B. [CERSA] IDEN B was owned by LISTERINE, and for years he had carried GERENDE on his payroll as an independent salesman on commission. He would ostensibly pay GERENDE a certain amount of money, and IDEN B's accountant would duly file income tax returns and social security based on this alleged payment. IDEN B would also pay whatever taxes were called for by the statements filed. This

system of "ghost payrolling" is quite common in Mexico, as everybody gains: the company because its declared profit is lower than it really is and, therefore, subject to less tax, and the individual because he is ordinarily given a kickback for allowing his name to be used (or in GERENDE's case, because it provided cover).

3. All this ended on 31 December 1967, when LISTERINE sold IDEN B to IDEN A. For a while thereafter, GERENDE paid taxes only on the money he actually earned with IDEN A, which was, as stated, about 500 pesos per month. As of 1 July 1968, however, LISTERINE arranged, at GERENDE's request, to have his accountant (who continued to handle GERENDE's taxes as a favor to LISTERINE) to lump together all of GERENDE's earnings (from teaching as well as IDEN A) as "professional earnings" and to file returns for GERENDE which included the total amount. This is not quite as satisfactory as the old arrangement (among other things GERENDE must now pay his own taxes) but for cover purposes it is entirely adequate. Other than LISTERINE and the accountant, no one knows that GERENDE's ostensible earnings have dropped, and, as far as we know, LISTERINE is the only person who is aware of GERENDE's tie with WOFIRM.

1. The Station has finally compiled the information necessary to answer the questions raised in Ref B and, in doing so, wishes to repeat the request originally made in Ref A to amend Raymond H. GERENDE's contract to provide him with a certain amount of job security.

2. First, Ref B raised the point that there had been no efficiency reports written on GERENDE or "evidence of outstanding performance." GERENDE's performance has been evaluated regularly within the context of the regular LIEMPTY Project progress reports, and a review of the past several reports will demonstrate that the Station has been more than satisfied with GERENDE's performance and is anxious to take advantage of his full potential. The Station does not believe, however, that "evidence of outstanding performance" should be a prerequisite for the type of contract amendment being requested. It is perfectly true, as pointed out in Ref B, that the Station had gone on record in 1959 that GERENDE should not be paid a termination bonus if he should resign simply to get the extra money or to pursue another career. By now, however, GERENDE has cast his lot with WOFIRM. He really has no other career, and to try to start one at this point would be extremely difficult. On the other hand, if he should decide to try his hand at something else, the Station would

undoubtedly wish to reward his long years of loyal service with a generous termination payment. He has earned it, and only termination for cause per paragraph 10 (b) of his contract would prevent him from receiving it.

3. Mexican law (it is the law, not custom) says that an employee who is fired must be paid three months' salary plus twenty days' salary for each full year employed by the company at the pay rate existing at the time of separation. GERENDE's current cover company adheres to this formula. Since GERENDE's termination clause has always read that he would be paid a full month's salary for every year of service (in the event of his termination by WOFIRM), we would not want to change that, and in fact we wish to add to it the three months' pay guaranteed by Mexican law. At the same time, we do see some virtue in the suggestion in paragraph 3 of Ref B that full retirement benefits (in the event of GERENDE's resignation) would apply only after 20 years' service, with lesser benefits until then. Our suggestion would be that in the event of his resignation prior to 15 full years of service (i.e. prior to 18 March 1970) he be paid twenty days' salary for each full year, that after 15 years but prior to 20 he be paid this amount plus three full months' salary, and that after 20 years he be paid three months' salary plus one months' salary for every full year. It is true, of course, that Mexican law does not make any provision for payment of a termination bonus to an employee who resigns, but most enlightened companies have some sort of retirement program, and, as Ref B correctly points out, "working for WOFIRM is a very special case and deserves exceptional financial consideration." In the case of GERENDE, we are not attempting to establish any pattern. This is a special case (as are most) and the Station merely wishes to insure that GERENDE, who has made WOFIRM a career without receiving any career benefits in return, is rewarded for his loyalty and is given some incentive for the future. GERENDE is not without his faults, and he is being adequately compensated for the work he performs, but we cannot expect to get more out of him without showing him greater respect.

4. The Station requests, therefore, that the following amendment be made in paragraph 11 of GERENDE's contract:

a. In the event of GERENDE's termination by WOFIRM, he will receive three months' pay plus one month's pay for every full year of service since 18 March 1955, calculated at the rate applicable at the time of termination.

b. GERENDE's resignation upon 60 days' notice will be accepted by WOFIRM as being in its best interest, and GERENDE will be eligible for terminal payment according to the following formula: Prior to 18 March 1970, GERENDE will receive 20 days' pay for every full year of service since 18 March 1955; after 18 March 1970 but prior to 18 March 1975, GERENDE will receive three months' pay plus 20 days for every full year since 18 March 1955; after 18 March 1975 GERENDE will receive three months pay plus one month for every full year of service since 18 March 1955. All payments are to be calculated at the rate applicable at the time of resignation.

5. Paragraph 10 (b) will, of course, remain in force.

6. Ref D asked that GERENDE's contract be extended for another year without change. We assume that this has been done, although we have not been notified.

SUBJECT: 6 LIEMPTY Progress Report, 1 July through 31 December 1968

ACTION REQUIRED - REFERENCES

Reference: HMMA-35030, 22 July 1968

SUMMARY

1. There have been no basic changes in the operation of the project during the reporting period. Raymond H. GERENDE continues as principal agent, handling the personnel of the two base houses, LILYRIC and LICALLA, and performing other additional tasks. On 27 December 1968, consistent with our effort to get as much of the support activity as possible handled by outside officers, direct agent-handling responsibility for GERENDE and the LIEMPTY project was turned over to Bruce H. FERNALD. Vincent P. RIZZUTO remains as alternate and as FERNALD's inside contact.

GERENDE

2. Until the introduction of FERNALD, there was no change in the meeting arrangements with GERENDE. Meetings were held on an average of three times per week until October, when LIEMPTY-19 (GERENDE's wife) was relieved of the responsibility of transcribing the Spanish-language portions of LIENVOY coverage of the BEDOX installation. Thereafter meetings averaged twice per week, the main business being the transfer of LIEMPTY base house material and discussion of base house business.

3. GERENDE's agent handling responsibilities within the LIEMPTY project remain as previously reported. He had also handled EMPAIN-2 until the latter's termination in August 1968. He developed a good relationship with EMPAIN-2, and he showed that he is quite capable, with proper case officer guidance, of providing useful service to the Station in the handling of agents beyond the support type to which he had been limited in the past. The Station intends to try to expand this role, with due regard for security and for GERENDE's limited experience. Furthermore, the Station still has every intention of using GERENDE selectively in cultivation and development of operational leads, as outlined in reference. No such leads were found for GERENDE during the reporting period (among other reasons, we have no intention of giving GERENDE a lead simply for the sake of giving him something to do), but as soon as a suitable lead is uncovered, it will be passed to GERENDE.

4. GERENDE was particularly useful during the Olympic period. While he did not get a job with the Olympic Committee as he had hoped, his wife was employed as a translator by the European television networks who had come to cover the games. This, plus other personal contacts, gave GERENDE a certain amount of access to Olympic facilities. Both GERENDE and his wife helped considerably in the distribution of AEEGGHEAD material, and GERENDE performed a number of miscellaneous tasks assisting the Station in various Olympic responsibilities.

5. GERENDE has also been used in support of JMROD operations, such as making mail pick-ups and delivering material and making phone calls to AMBASSOON. Following the Warsaw Pact Powers' invasion of Czechoslovakia, GERENDE was asked to cover a demonstration in front of the Soviet Embassy, and he wrote a good report which was used in Embassy briefings. Recently, GERENDE has enrolled at the University of the Americas to work for an M.A. in contemporary Mexican history. The Station will explore the possibility of his getting access to persons or information of interest on the University campus.

LICALLA

6. LIEMPTY-9's work (in the LICALLA base house) was inhibited in July due to the construction of a maid's room near his working quarters. During the reporting period, however, he took a total of 2,217 operational photos. His regular reporting and commentary continued as in the past. LIEMPTY-9 is a steady and dependable performer, and his unique vantage point remains the source of the most interesting and revealing photos as well as often very informative reporting.

LILYRIC

7. LIEMPTY-13, -14, -26, and -27 have been able to keep the LILYRIC base house manned on a regular basis from 0800 to 1800 hours weekdays and 0800 to 1500 hours on Saturdays, with other hours coverable upon request. This has proven to be a far better arrangement than depending on LIMITED for some of this coverage. In addition to the 6,763 operational photos taken during the reporting period and the daily fixed surveillance reports, LILYRIC reporting is of considerable help in compiling current vehicle and license plates lists, PCS arrivals and departures, unusual activities such as demonstrations or protests, unusual or lengthy absences of personnel, etc., all of which have obvious CI importance. It was LILYRIC photos which made it possible for LNERGO to identify the Subject of 201-841520, who had been in clandestine contact with AEGRIP officers. LILYRIC also reported on a half dozen other American (or American appearing) visitors, some of whom it was possible to identify through tracing license plates.

Charlie - who was this?

LIMITED

8. As reported in Ref, LIEMPTY-8 has been terminated and the LIMITED base house closed. All equipment has been turned in, and it can truthfully be said that due to the continuing quality performance of LICALLA and LILYRIC, LIMITED has not been missed at all.

PHOTO LAB

9. LIEMPTY-4 continues to process all photos made by the base houses. In addition, 101 enlargements were made during the reporting period, and 210 prints for LIENTRAP. The quality of LIEMPTY-4's work is good, and he rarely misses his routine deadlines.

Please extend GERENDE's contract, without amendments, for one year. We had hoped to have answers to HMMS-5971 prepared in time to have amendments included in the annual extension, but GERENDE's "cover company" has recently undergone a change of management, and we have been waiting for GERENDE to provide us with a written statement of his current cover status, as well as a statement of the retirement rights and benefits provided legitimate employees of the cover company. Our intention is to have GERENDE's contract provide, in so far as possible, termination benefits equivalent to those granted by his cover company to a normal employee. Summary

1. During the reporting period, the project's principal agent, Raymond H. GERENDE, was assigned additional tasks, aimed at broadening his usefulness to the Station. These tasks included spotting and assessment as well as the handling of a recruited agent, ERFAIN-3.* GERENDE did well, and it is believed that a new dimension has been opened for him, and by the same token, the Station has, in effect, gained a new asset. The LIEMPTY base houses continued to produce at their usual rate and with their usual effective support to Station REDTOP operations. The LIMITED Base House and its operator, LIEMPTY-6, were terminated on 31 May 1968. Termination was decided upon partly to save money and partly because advancing age had measurably decreased the reliability and effectiveness of LIEMPTY-6's work. LIEMPTY-26 was rehired, which permitted the LILYRIC Base House to give us the same total hours of coverage as LILYRIC and LIMITED had together in the past.

GERENDE

2. During the reporting period, the case officer has been meeting GERENDE an average of three times per week. Meetings are usually pre-arranged, at various sites and times. Meetings average 20 to 30 minutes. GERENDE turns over to the case officer negatives, prints, logs, and other reports which he has picked up from the base houses since the previous meeting, along with brief contact reports on his meetings with base house representatives. Reports on other operational activities are also turned in and discussed, and GERENDE is given instructions, notes for the base houses, and negatives for any enlargements which may be desired by the Station. Also, LIENVOY tapes and transcripts are exchanged at each meeting. (The departure of LIACUTE-1 at the end of April 1968 left the Station without a BEDOX transcriber. As a temporary solution, pending the return of LIACUTE-1 or the recruitment of another BEDOX transcriber, GERENDE's wife, LIEMPTY-19, has been hired at the rate of 31.50 pesos per hour to transcribe the Spanish language portions of the tapes. She does the work in her home, and GERENDE transports the tapes.)

3. GERENDE has the direct agent-handling responsibility for the following LIEMPTY agents: LIEMPTY-4 (photo-processor; met twice per week); LIEMPTY-6 (LIMITED; met once per week until termination); LIEMPTYs 13, 14, 26, and 27 (LILYRIC; LIEMPTY-13 normally met twice per week -- in his absence LIEMPTY-27 makes meetings); and LIEMPTY-9 (LICALLA; met twice per week). He is responsible for directing their work, paying them, and handling all of the administrative problems which may develop. To judge from the results, GERENDE has excellent rapport with these agents and is able to get a consistently high performance rate from them — particularly LICALLA and LILYRIC personnel.

4. As noted in reference, GERENDE was employed by the Mexican MHRAVEL committee, which we found a useful side benefit. His MHRAVEL activity during the reporting period has been minimal, but we expect it to start picking up again. GERENDE has conducted a few discreet inquiries and investigations for us within the MHRAVEL complex, and we have instructed him to try to get an assignment which will keep him as close to the FJSTEAL delegation as possible.

5. Reference also pointed out that GERENDE had performed nicely in the cultivation and development of an operational lead, and that the Station planned to give GERENDE more of the same. Furthermore, GERENDE's standing assignments (LIEMPTY base houses, MHRAVEL activity, and occasional support of JMROD requirements) were not challenging enough or occupying enough of GERENDE's time. GERENDE is rather firmly committed to WOFIRM by virtue of the fact that he has worked for WOFIRM for over 13 years and has no other outside employment of any consequence. By the same token, he was, through no fault of his own, doing less work for WOFIRM than at any time in his career. GERENDE's operational exposure through the years dictated more and more restrictions on his activity, for sound security reasons. The solution to GERENDE's problem (lack of a promising future) and the Station's (not getting its money's worth) seemed to be to give GERENDE additional tasks which he could handle under suitable cover and with due regard to security precautions. Since most of GERENDE's support activities had been against the FJSTEAL target, particular care would have to be taken in committing him further in this direction. It was decided, therefore, that his principal retooling would be in a non-FJSTEAL field.

6. In line with the above reasoning, GERENDE was introduced to Andrew R. DOSCHER on 17 February 1968. The idea was that GERENDE would be trained to assist DOSCHER in some of his operations against Central American targets. GERENDE's principal duty thus far has been to take over the handling of ERPAIN-3, under DOSCHER's close supervision and guidance. GERENDE has performed quite creditably in this task. He seems interested in the work and has learned quickly. On the other hand, an apparently ingrained habit of procrastination has resulted in dilatory reporting. If GERENDE can overcome this (and both case officers are working hard to teach GERENDE the importance of prompt and complete reporting) there seems to be every reason to believe GERENDE will develop into a competent agent handler.

7. GERENDE was also given the task of locating and developing (in alias) a girl who, per LIENVOY, was being cultivated by AERODENT. Although GERENDE had to be continually reminded of the assignment, he did an excellent job of meeting the girl and gaining her confidence. It is quite likely that he could have recruited the girl as an access agent against AERODENT, but as this point was reached another operation against AERODENT was launched and it was not felt that attempting to recruit the girl would serve any useful purpose, for the time being at least (among other things, there was no indication that she had had any contact with AERODENT for some months). The only flaw in GERENDE's performance was the time it took him to get around to doing the job. It should be mentioned, however, that at the same time GERENDE had a number of pressing personal matters to attend to, including overseeing the completion of his new house, which he finally moved into on 10 March 1968, even though construction is still not entirely completed.

8. Among other assignments completed by GERENDE in the reporting period were the renting of an apartment for use as a listening post; and initiating a relationship with a Russian translator working for the MERAVEL committee.

SUBJECT: Amendment to GERENDE's Contract

ACTION REQUIRED - REFERENCES

Reference: HMMT 8751

1. Before amending GERENDE's contract in accordance with reference, we would like to clarify a few points about GERENDE and about terminations and resignations in general.

2. We assume from the files that GERENDE's performance has been entirely satisfactory but since there are no efficiency reports or actual evidence of outstanding performance, we would like to have a statement from the station which would justify the requested amendment. Nine years ago the station said, in HMMA-13571 that "station would not want to give GERENDE a terminal payment if he elects to resign just to receive some extra money or to pursue some other career." That was a long time ago, however, and thirteen years of loyal collaboration may very well have changed your mind on this point.

3. Reference says that GERENDE has no intention of resigning, and we hope this is true if you feel that he is still as valuable as he ever was. Assuming, however, for a moment that he might have in the back of his mind the idea of leaving in a few months to take a more secure and productive job while the taking is good - do you feel that if he quits at his own convenience he is entitled to the same benefits that would normally accrue to him if he had worked longer and was released at our convenience? Assuming that he were to quit next week, would you still want to pay him the proposed termination bonus? Or would you want to include in the

contract the proviso that full retirement benefits (three months salary plus one month's salary for each year worked) should apply after, say, twenty year's service, with lesser benefits to apply between now and then?

4. Could you recapitulate for us the prevailing Mexican law or custom (which is it?) on termination-at-the-convenience-of-the-employer? A number of months ago you told us that it was three months pay plus 20-days-per-year-worked, but the LIFIRE/4 and 5 MOC's said that "following local custom of termination subject only has to be paid one month's salary for each year of employment". Your proposed GERENDE terminal payment formula, (which may be a special case rather than a pattern and which, as we understand it, makes no distinction between voluntary resignation and termination-at-the-convenience-of-the-employer) is one month's pay for each full year of employment, plus three months pay at the rate applicable at the time of termination. Does this imply that the one month's pay for each year worked is computed at the rate of pay prevailing during each respective year worked? Does Mexican law or custom dictate the payment of terminal bonus to employees who resign voluntarily? (Working for WOFIRM is a very special case, obviously, and deserves exceptional financial consideration, but we do want to understand the background as it applies to commercial work so that we may have a frame of reference or point of departure).

5. We apologize for the long delay in sending this dispatch. It was originally written in March, and mislaid in transit, but we thought it had been pouched.

6. Apart from the foregoing, do you recommend any changes in GERENDE's contract which will be due for renewal on 1 October 1968?

Acting Chief of Station, Mexico City

SUBJECT

Amendment of Raymond H. GERENDE's Contract

ACTION REQUIRED - REFERENCES

REFERENCE: HMMW-8281, 2 December 1959

1. It is requested that the following amendments be made to Paragraph 11 "Terminal Payment" of Raymond H. GERENDE's contract (see reference):

a. The amount of terminal payment, in addition to one month's compensation for each full year of employment since 18 March 1955, should also include three months' pay at the rate applicable at the time of termination.

b. GERENDE's resignation upon 60 days' notice will be accepted by the government as being in its best interest, and GERENDE will be eligible for full terminal payment.

2. The revision requested in paragraph 1 a above is for the purpose of having the contract conform to Mexican law, which calls for three months' salary plus one month for each year of service. The second revision is designed to give GERENDE the option of resigning without jeopardizing his terminal payment. He has no intention of resigning, but he feels that the contract, as it stands, leaves him with no security. The terminal payment is his only retirement program, but as written it does not give him the option of retiring. The Station advised GERENDE that any request of his to retire would undoubtedly be accepted as long as there were no adverse security or operational factors, but agrees that in fairness to GERENDE, who has, in effect, chosen a career with WOFIRM, the clause should be rewritten to guarantee him a termination payment. GERENDE understands that paragraph 10 (b) of the contract will remain in force, and if invoked will deprive him of any terminal payment.

GERENDE - 201

9. "As reported in reference, (HMMA 32721, 7 Aug 67) GERENDE had been developing a possible access agent to LIRING. This eventually culminated in an attempted recruitment of the prospect by GERENDE. Although the attempt was unsuccessful, GERENDE exhibited considerable resourcefulness and operational skill in developing the target to a point where the recruitment attempt was possible. We plan to use GERENDE in similar roles in the future as opportunities arise, and for this reason we plan to document him with a set of false Mexican documentation. GERENDE is collecting exemplars and getting the background information needed and once the necessary data are assembled, headquarters (WOACRE) support will be requested."

1. From 1 May through 31 July 1967, 26 operational meetings were held with Raymond H. GERENDE, Principal Agent for the LIEMPTY Project. With the exception of one unscheduled meeting, meetings during this period were prearranged and meeting times and sites were varied. The unscheduled meeting was arranged via telephone using a prearranged open code. During the absence of GERENDE, two operational meetings were held with Oliver G. SCANTLING, alternate Principal Agent for LIEMPTY, and four with LIEMPTY-4, photo lab operator. All of these meetings were prearranged.

2. GERENDE met with LIEMPTY-4, -9, -10 and -13 on a twice a week basis and with LIEMPTY-6 on a once a week basis during this period. GERENDE's meetings with these assets were all prearranged. SCANTLING met with LIEMPTY-9 and -13 on two occasions and with LIEMPTY-6 once during the absence of GERENDE.

3. All assets involved in the LIEMPTY Project performed in a satisfactory manner during this period. Effective 1 July 1967 LIEMPTY-4 and LIEMPTY-11 were given slight salary increases, because of their increased activity.

4. There were no known security incidents affecting the LIEMPTY Project or the assets involved during the three months under review.

LICALLA

5. This basehouse, the operator of which is LIEMPTY-9, provided 1277 frames of operational photographs covering the patio and garden area of PJSTEAL. LIEMPTY-9 also prepared fixed-surveillance reports, sighting reports and special notes and comments.

LILYRIC

6. The LILYRIC basehouse, which is staffed by LIEMPTY-13, -14 and -27, produced 2854 frames of operational photograph during the period. The LILYRIC basehouse operators continued to prepare fixed-surveillance reports on each member of PJSTEAL and turned these in on a weekly basis. LIEMPTY-27 resumed his duties on 1 July as scheduled and this basehouse has now reverted to its normal hours of coverage. (See reference relative to the absence of LIEMPTY-27.)

LIMITED

7. The LIMITED Basehouse, operated by LIEMPTY-6, produced 279 frames of operational photographs plus weekly fixed surveillance reports on each of the members of PJSTEAL. The LIMITED basehouse was closed from 17 through 22 July because of the illness of LIEMPTY-6. During this period LIEMPTY-6 did very little radio-alerting for the LIEMBRACE surveillance team because of the variation of the surveillance team's activities.

LIENTRAP

8. The LIENTRAP mobile photo vehicle had a decrease in activity during this period because of the dismantling of the old LIENTRAP vehicle and the modification and installation of equipment in the new vehicle. The old LIENTRAP vehicle was used to cover photographically all of the residences of opposition elements in Mexico City. As in the past LIENTRAP provided photographic coverage of addresses of the local Communist parties, residences of members of other Hemisphere parties and several PBRUMEN targets. A total of 332 frames of operational photographs were provided by LIENTRAP.

PHOTO LAB

9. LIEMPTY-4, the operator of the LIEMPTY photo lab, processed all of the operational photographs mentioned above as well as providing from 2 to 6 enlargements of 299 frames of photographs of special interest taken by the basehouses. LIEMPTY-4 does the photo processing on Tuesday and Thursday nights.

10. Raymond H. GERENDE started the development of a possible access agent to LIRING and also continued to provide support for the JMROD operation. These task being aside from his regular LIEMPTY duties. GERENDE was on vacation from 25 May through 4 June 1967.

11. There will be one administrative change during the coming period when Vincent P. RIZZUTO will assume the Case Officer responsibilities for GERENDE/LIEMPTY. No problems are envisioned in this change over. No other significant changes are planned.

If Subject cannot be located at either of the above addresses, he possibly could be located through LIEMBRACE-3.

3. The following oral recognition dialogue, using the English language, is to be employed as indicated:

CONTACT: "Mr. (GERENDE, true name) Your Aunt and Uncle in the 'States' asked me to look you up."

GERENDE: "Then you are referring to the IDENTITY C"

CONTACT: "No, I meant your other relatives in South Carolina, the IDENTITY D"

GERENDE: "Yes, Auntie is my Mother's sister."

1. COS Lima did well to raise the question as to what will happen, vis a vis our operational security, when the Cubans achieve diplomatic recognition in the various Latin American countries where this is gradually occuring. The responses from the Branches indicate that we do have a considerable amount of operational activity and equity that revolve around our Cuban assets and that we would do well to begin a gradual cut-back in our use of Cubans, given the targetting that we presume will be made on them as the Cuban CI effort begins in the various countries.

2. However, the solution to our problem should be a gradual one and keyed initially to where the official Cuban presence is, and then to those countries where it is coming. Therefore we start with Peru.

b. Subject is used by the Bogota Station to provide cover, status and funds for an operation handled by Errol R. LITHGOE, also a Cuban, who is nominally Subject's partner in the business enterprise.

c. Cuban

d. Legitimate businessman who was formerly in Mexico and now manages a Mexican business firm in Bogota.

e. Resident alien of Colombia.

g. Since Subject provides cover for LITHGOE, he is not required to utilize any tradecraft. Having his own company provides for adequate cover.

h. Due to his position, Subject is probably well-known in the Cuban community, but he performs no operational tasks.

WH/3/Col - B. Merrell

NUMBER: 201-267298

SUBJECT: GICITRON/4

REFERENCE: Your Memorandum, Dated 28 October 1970 mss

A Provisional Operational Approval is granted for the use of this Subject as set forth below.

A Provisional Operational Approval issued by CI Staff grants the same authority, on a temporary basis, for the use of an individual as the authority granted in an Operational Approval unless otherwise specified by CI/OA. It is based, however, only on preliminary file checks and investigation and is subject to a further final review when all investigation is completed.

For limited use as requested in your memo of 28 October 1970, the POA is reinstated until 30 January 1971.

To process the Operational Approval, full information (completed PRQ Parts I and II) must be submitted as soon as possible and not later than six (6) months from this date. An Operational Approval will follow when all investigation is completed and upon the receipt of satisfactory PRQ Parts I and II. Cancellation must be requested if use of Subject by interested Divisions ceases.

SUBJECT : GICITRON-4 (201-267298)

1. We have received your memorandum of 22 October 1970 informing us that GICITRON-4's file has been closed. However, from Bogota Station correspondence we know that GICITRON-4 is still of operational interest and there is a strong probability that the missing PRQ Part II has been delayed by the recent restriction on pouching material to and from the field.

2. It is requested that the file on GICITRON-4 be reopened and his POA be extended for an additional 30 days to allow time for the PRQ Part II to arrive or to be prepared if need be.

1. We have been notified that the POA for GICITRON-4 was cancelled on 22 October 1970 because we failed to provide a PRQ Part II showing the details of our present relations with him. We made an attempt to complete this Part II here at the desk, but found that there were too many items of information that we do not have.

2. We have requested that GICITRON-4's POA be extended for an additional 30 days to allow time to provide the Part II. We indicated that perhaps the document has been delayed by the recent pouch restrictions.

3. We would appreciate the receipt of the PRQ Part II within the next 30 days. If it has crossed this dispatch in the mail, please disregard this notice.

1. The receipt of Reference A Provisional Operational Approval for Subject was much appreciated. We were puzzled, however, by the request for PRQ Parts I and II on GICITRON-4 since all biographic and operational data on him with the exception of References and DIRECTOR 006731 is on record only at Headquarters as far as we are aware unless Mexico City has retained their old file on him. Paragraph 3 of Reference B specifically requested that pertinent material from Subject's 201 be forwarded to Bogotá, but we have never received it.

2. Errol C. Lythgoe, despite his old friendship with Subject, has no present justifiable reason consistent with cover to question him regarding all the biographic details required for preparation of a full PRQ Part I. Nor could Lythgoe logically elicit from Subject the answers to such PRQ Part II items as "How, when, where, why and by whom Subject was first contacted or developed" by KUROCK, "List other case officers who have handled Subject or whom he knows or has known...", and the like.

3. Subject's proposed present operational use is detailed in Reference B, and Headquarters has the rest of the basic data necessary for preparation of both parts of the PRQ. It is therefore suggested that this be done at Headquarters, with copies being forwarded to Bogotá for updating.

Raise in salary - $500 per annum

PROPOSED ACTION (Include Branch and/or field recommendations; specific operational task performed by individual; views re long and/or short range utility of individual for Branch area and over-all Division needs)

The contract for Raymond H. GERENDE expires on 30 September 1965. The Mexico City Station has recommended that the contract be extended for one year, and that GERENDE be granted a salary increase from $6,000 to $6,500 per annum.

GERENDE received his last salary raise on 1 August 1963, from $5,500 to $6,000. He was first placed under contract on 1 October 1955 at $3,600.

There are sufficient funds in the LIEMPTY Project to cover this salary increase, and GERENDE's local cover job can logically cover this additional income.

Chronological Narrative Performance Report

NAME/PSEUDONYM:

(Summary of evaluation of past performance /if applicable/ with emphasis and details of current performance for assigned operational tasks)

DATES | LOCATION | AGENCY TASK

GERENDE was recruited in March 1955, just prior to his graduation from the Mexico City College. He was trained as a member of a surveillance team, and was also used as an investigator to collect operational data on persons and organizations of interest to the Station. He quickly demonstrated a capacity for leadership and at one time was leader of the team.

He was also used as a basehouse keeper in an audio operation and processor of tapes. He excelled in this type of work because of his bi-lingual Spanish/English facility, and, more importantly, due to his diversified experience in clandestine operations which permited him to spot operational leads.

Since 1958 his primary use has been as main cutout/principal agent to a group of photographic basehouses targeted against the Soviet Embassy, and one mobile photographic truck. He processes the raw photographic take and services the majority of the accomodation addresses used by the Station. He has contributed significantly to the AMROD operation

He performs all his tasks in a professional manner. He is well suited to intelligence work, and plans to make KUBARK his career. The Station depends heavily on him because of his knowledge of Mexico, and his mobility as a Mexican. He works full time for KUBARK; cover company requires very little time.

In case of "New Hire" give a personality assessment in terms of capability, attitude, and projected suitability; state names of Division personnel who have interviewed him; give account of his performance in current non-Agency job.

1. Station Mexico City fully agrees with Headquarters evaluation of Subject as a "valuable long term asset with stay behind potential." In order to place the matter of the 2,100 pesos in the apropriate frame of reference it is felt that a few background points should be noted.

In January 1956 the LIEMPTY/LILYRIC basehouse was set up and placed in operation in a site which provided visual coverage of the LIMERICK installation. A deposit of three months rent was made per terms of the rental contract at that time (2,100 pesos.) In April 1961 the building in which LIEMPTY/LILYRIC is located was sold by the owner. Normally the rental deposit would have been transferred to the new owner as part of the sale transaction. However, approximately three months after the transfer of the property to the new owner, the rental deposit was returned to the basehouse operator, LIEMPTY-13. The deposit was then returned to GERENDE. GERENDE did not inform the then LIEMPTY case officer nor the present case officer of the return of the LIEMPTY/LILYRIC deposit. This 2,100 pesos continued to be carried on the Station books as an outstanding operational advance charged to GERENDE. GERENDE used part of this 2,100 pesos to make loans to two sub-agents (LIEMPTY-6 and LIEMPTY-9.) It is probably that he also used some of this on ocassion for his own purposes.

On 16 October 1963 GERENDE returned the 2,100 pesos to the case officer and the Station has adjusted its books to reflect the return of this money. GERENDE noted at the time of the return that he had this money intact but did not know how to go about returning it so long after having received it. This is the same as he stated at the time of the LCFLUTTER interview. GERENDE was obviously impressed with his inability to "beat" the LCFLUTTER. He was sincerely remorseful when talking to the case officer

about the incident and has twice stated that nothing of this nature would happen again. With the reality of future LCFLUTTER tests set firmly in GERENDE's mind, it is believed that he will not attempt any such action again.

As to what can be done of a positive nature (other than periodic re-LCFLUTTER) to prevent recurrence it must be noted that GERENDE kept apart the 2,100 pesos which were really still charged to him and the Station had no way of knowing that the money had been returned to him by the basehousekeeper. Only when the close down of the LIEMPTY/LILYRIC basehouse would be effected would the Station expect to have the rental deposit returned. Until such time the deposit would remain charged to GERENDE. The only way to completely safeguard against this type of action would be for the case officer to meet directly with the basehouse keepers, thereby eliminating GERENDE from the operation and causing unacceptable security risks. It is believed that periodic LCFLUTTER of GERENDE is the best insurance against a similar occurence in the future.

As to GERENDE's regular operational revolving fund, irregularities have never been discovered in his handling of these funds. Cash counts are conducted by the case officer to control the unspent portion of the revolving fund by comparison with accountings (receipts) GERENDE makes every two weeks. GERENDE's revolving fund is kept at the minimum amount consistant with efficient conduct of the operation for which GERENDE is responsible.

The "other false claims" GERENDE admitted making involved occasional use of his QP vehicle for personal driving while entering all receipts for gas on his KUBARK accountings. Station does not consider this a major problem. If GERENDE used his QP car for only operational employment any hostile surveillance of him would be relatively easy (i.e., surveilling only when he is using his QP vehicle) and it is believed that latitude must be allowed in this area for indigenous agents.

2. In the area of GERENDE's morale and his statement that he "is not being utilized to his full potential" the Station is as fully concerned as Headquarters. It should be noted however, that GERENDE has never written the report setting forth what he thinks he can do and when prodded on this has stated that he had been thinking about what additional work he could assume and that he "just does not know". The reason he gives is he does not know what else is being done in the operations area other than that to which he is already exposed. Additional operational work is assigned to GERENDE when this can be done securely and taking into account compartmentation of operations. An example of this was his introduction to the AMROD operation. Station is reluctant to expose GERENDE to additional operations only for the purpose of "improving his morale" since he already has considerable knowledge of many Station past and going operations. The Station appreciates Headquarters comments on the results of GERENDE's LCFLUTTER and will make every effort to determine the best possible utilization of GERENDE in the future.

REF: HMMW-12065

1. Reference is made to the results of the LCFLUTTER interview of Raymond H. GERENDE which was held on 8 October 1963. Headquarters would like to have a progress report on what steps have been taken by the Case Officer with regard to the 2,100 pesos which he had kept but belonged to KUBARK. Headquarters is also interested in what has been done about other false claims he admitted making in his accountings, and what precautions are being taken to see that this does not continue in the future.

2. The Station's comments are requested on GERENDE's statement that he is not being utilized to his full potential and that he often has free time. Headquarters would be interested in seeing a copy of the report which the LCFLUTTER examiner suggested he write, setting forth what he (GERENDE) thinks he can do and what he would like to do. Headquarters considers GERENDE a valuable long term asset with staybehind potential, and it is hoped that the Station will do what it can within the limits of security, to raise his morale and see that KUBARK is receiving full benefit of his services.

1. By reference Subject's annual salary was increased to its present figure of US $5,040.00.

2. Station hereby requests a further increase in Subject's annual salary to US $5,500.00 based upon Subject's outstanding performance as Principal Agent in the LIEMPTY project. The latest LIEMPTY Project Renewal Request, recently forwarded to Headquarters, detailed GERENDE's duties. In Station's opinion, the noted salary increase is considered justified not only from agent's excellent job performance, but also as an incentive to continued superior work as well as an offset to the inflationary trend of the cost of living in Mexico.

3. It is requested that Headquarters initiate the appropriate amendment to GERENDE's contract increasing his yearly salary to thenoted figure of US $5,500.00 to be effective 1 January 1962.

Mr. Raymond H. Gerende

Dear Mr. Gerende:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 October 1955, as amended.

Effective 1 July 1959, the amendment effective 1 July 1959 to said contract is revised to read as follows:

(a) The figure $4080 is deleted from the first sentence of paragraph one (1) entitled "Compensation" and in lieu thereof the figure $4560 is substituted.

(b) The following paragraph is added after paragraph ten (10), entitled "Term":

"11. Terminal Payment. In the event your contractual relationship with the Government hereunder is severed for one of the reasons set forth below, you, or your estate, will be entitled to a terminal payment of one (1) month's compensation for each full year of your utilization by the Government after 18 March 1955. Said amount shall be calculated at the contractual rate of compensation applicable at the time said payment becomes due."

(a) Said contract is terminated by the Government under subparagraph (a) of paragraph ten (10) above, or

(b) Said contract expires and is not renewed by the Government, or

(c) Your resignation hereunder is accepted by the Government as being in its best interests (the Government's determination as to what constitutes its best interests shall be final and conclusive), or

All other terms and conditions of the contract, as amended, remain in full force and effect.

1. As requested by reference, KURIOT is herewith forwarding the following: (Confirming documentation charging you for this item will be issued in the near future.)

1 each "Mineralight" Model SL-3660
Long Wave Ultraviolet Lamp

2. For ordinary F&S work, the difference between long and short wave lamps is very minor and the long wave UV lamp should prove adequate for the needs of Raymond H. GERENDE. Should a special need arise demanding the use of a short wave UV lamp by GERENDE, it will be supplied by KURIOT.

3. Disclosure of the existence, advantages, or uses of short wave UV lamps, or in any way making available such lamps to other than KUBARK personnel requires prior Headquarters approval. A copy of Instruction No. 20-2 containing the basic KURIOT policy governing the use of short wave UV lamps is herewith enclosed for your guidance.

4. Short wave UV lamps embody a definite health hazard and should be used with caution. Short wave UV rays quickly cause sunburn, to which the eyes are particularly susceptible, and should not be used without wearing protective goggles. Ordinary eye glasses cut out most of the harmful rays, but even persons wearing glasses may receive harmful eye burns from UV rays entering at the sides of the glasses. Short wave UV lamps also produce small quantities of ozone so that the lamp should be used in a well ventilated room, which, of course, must also be darkened. For the above reasons, it is advisable to use only a long wave UV lamp whenever possible.

HMMA-15979, KAPOK-1842 dated 18 November 1960

1. In compliance with the KUBARK regulation, CSI-F No. 230-60, Annex A, concerning contact arrangments under emergency conditions, the following information, including recognition signals and bona fides, is forwarded for Headquarters records. Due to the sensitivity of the information, it was believed more appropriate to forward it separately rather than to include it with reference (Request for Renewal of Project LIEMPTY).

2. Insofar as can be determined at the present time, GERENDE could probably be contacted at one of the following places:

a. Present Residence: IDENTITY A

b. Mother's Residence: IDENTITY B

c. Cover Employment Address: IDENTITY C

3. The following oral recognition signals, using the English language, are to be used as indicated:

CONTACT: "Mr. (GERENDE-true name), I bring the most sincere wishes and greetings from your Aunt and Uncle."

GERENDE: "Then you are referring to the IDENTITY D."

CONTACT: "No, I am referring to your other relatives in South Carolina, the IDENTITY E ."

GERENDE: "Yes, Auntie is my Mother's sister."

4. For use as physical bona fides, the Station is forwarding a one peso note with the serial number T348510 for Headquarters files. GERENDE has been given a one peso note with the next higher serial number, T348511, to keep in a safe place pending his having to show it to some future KUBARK contact. It has been explained to GERENDE that he is to show his half of the physical bona fides only after the recognition signals have been completely and accurately recited and his new contact has requested to see his physical bona fides. GERENDE has also been instructed to assure himself of his contact's bona fides by asking to see the contact's one peso note (T348510).

5. Assuming that adequate time will be available at the beginning of an emergency condition, it may well be possible to instruct GERENDE in Secret Writing so that correspondence could be conducted using IDENTITY D or E addresses.

6. It is assumed that Headquarters will advise the Station should more detailed or sophisticated contact arrangments be desired.

1. In compliance with a Station Request, LIEMPTY principal agent Raymond H. G[illegible]RDE, is being given training in basic flaps and seals techniques. It is felt advisable to have a second person outside the Station who can service this type of requirement in case MULFORD is prevented from doing so by the security situation arising from the ALPHUR case.

2. As an aid to this training, a copy of the portion of the MKCHARITY Operations Manual (Section I.D.I.) dealing with basic flaps and seals work has been made and turned over to GERNDE. A second copy is being forwarded herewith to Headquarters. This material was prepared on the basis of the content of the KURIOT training course of mid-1957. If KURIOT training is in possession of newer and improved techniques in this field and will make them available to MULFORD for use here, it would be greatly appreciated.

1. Reference (c) forwarded a contract amendment which provided increased compensation and a termination settlement for Raymond H. GERENDE. This dispatch also requested that the Station comment on the provisions of the Terminal Payment clause as written into this amendment.

2. Since the provisions of the original contract amendment were written in general terms and did not specifically cover the circumstances under which GERENDE would be eligible for a terminal settlement as interpreted by the Station and outlined in reference (b), a revised contract amendment was written. The attached contract amendment also shows corrected compensation figures. The original contract amendment was incorrect due to the absence of the amendment, effective 1 September 1957, which increased GERENDE's compensation from $3,600 to $4,080.

3. Since GERENDE's original contract was prepared at Headquarters and forwarded to you for execution and retention, this amendment should follow the same procedure. Therefore, the original and one copy are attached for your action and retention. Return one signed copy.

4. Reference (a) requested Headquarters to comment on a two-year extension for GERENDE's contract, indicating that the extension should be from 1 July 1959, the date of the last amendment, to 1 July 1961. There seems to be some confusion on contract extension procedures which Headquarters would like to clarify at this point. Contract extensions are based on the date of the original contract not the amendments. Accordingly, GERENDE's contract, originally effective 1 October 1955 and extended to 30 September 1959, was further extended for a period of two years from 1 October 1959 to 30 September 1961.

1. Forwarded herewith as Attachment No. One is GERENDE's signed contract amendment. GERENDE is most appreciative for the raise in salary and is delighted with the new Terminal Payment clause.

2. The Station interprets the Terminal Payment clause to mean any termination by the Government or acceptance of GERENDE's resignation in the "best interests of the Government." Examples in connection with the "best interests of the Government" interpretation would involve GERENDE's resignation for health reasons or other logical personal reasons such as a change of residence to some geographical area where his services could not be utilized by KUBARK. Assuming that no security problems are involved in making such a payment, the Station also interprets the clause to be applicable for payment to GERENDE's estate in the event of his death while in the employ of KUBARK.

3. The Station understands clearly why the clause was not written as originally requested and concurs in Headquarters reasoning. Certainly, the Station would not want to give GERENDE a terminal payment, and he has been so informed, if he elects to resign just to receive some extra money or to pursue some other career. The Station hastens to add, however, that to the best of its knowledge, GERENDE has no intention of resigning from his present KUBARK job.

4. As requested in Reference B, enclosed as Attachment No. Two are the original and one copy of the contract amendment dated 1 September 1957. Headquarters will note that the amendment was accepted by GERENDE and approved by the Chief of Station, but was not formally witnessed. It is suggested that Matthew S. DINGLEY (ps), who is presently in Headquarters, be requested to witness the document. DINGLEY was the Case Officer handling GERENDE at the time this amendment became effective.

In the event this contract is terminated by the Government under subparagraph (a) of paragraph ten (10) above or in the event of its expiration and nonrenewal by the Government, you will be entitled to a terminal payment of one (1) month's compensation for each full year of your utilization by the Government after 18 March 1955. Said amount shall be calculated at the contractual rate of compensation applicable at the time this payment becomes due."

All other terms and conditions of the contract, as amended, remain in full force and effect.

1. In accordance with your request to amend Subject's contract providing him with an increase in compensation and a termination payment, the attached contract amendment was written.

2. Paragraph (a) of this amendment states that the figure $3600 is deleted from GERENDE's contract and in lieu thereof the figure $4560 is substituted. This figure of $3600 is the amount GERENDE was to receive under his original contract, dated 1 October 1955. According to the referenced dispatch, however, Subject's contract was amended on 1 September 1957 to provide him with an increase in compensation, bringing his salary up to $4080. Neither Contract Division nor your area desk has a copy of this amendment. Please forward a copy to Headquarters for our files.

3. Your attention is also directed to the "Terminal Payment" clause. Under the provisions of the attached amendment, GERENDE is not eligible for a termination settlement if he resigns from KUBARK. Only in the event that we give him 30 days' notice of termination or fail to renew his contract is he eligible for this termination payment. Your comments on the stipulations as written into the attached amendment are requested. In the event you feel that GERENDE should be entitled to a termination payment should he resign his position, the clause will be rewritten.

4. The attached amendment should be returned to Headquarters with your comments and a copy of the contract amendment dated 1 September 1957.

MEMORANDUM FOR THE RECORD:

SUBJECT * Contract for GERENDE

In reviewing the last contract amendment, it came to note that CPD was deleting the original compensation figure of $3600 instead of the figure sent by the Station which was $4080. In checking this out, we find that we have no copy or notification of the amendment dated 1 September 1957 increasing his salary from $3600 to $4080. CPD is rewritting the contract without using a compensation figure for the amount to be deleted.

When we send this to the field, ask them to send us a copy of the contract amendment, dated 1 September 1957. Also inform them that they are to execute and retain the original copy of this new contract amendment. It may be well to point out that Subject's termination clause stipulates that he will received this benefit only if we terminate the contract.

ACTION REQUIRED Headquarters preparation of a new contract.		

REFERENCE(S)

HMMW-5626, 3 December 1957

1. Raymond H. GERENDE was initially employed by the Station on 18 March 1955 under provisions of an oral agreement. Effective 1 October 1955 GERENDE was placed under a written contract, prepared by Headquarters, with an annual salary of $3,600.00. On 1 September 1957 his contract was amended to increase his salary to $4,080.00 per annum, which is the salary he is presently receiving. It is requested that a new two year contract be prepared, to be effective 1 July 1959, providing an increase in salary to $4,560.00 per annum and including a termination clause which will give GERENDE a termination payment of one month's salary, calculated at the prevailing rate of compensation at the time of termination, for each full year of his KUBARK employment. All other provisions of GERENDE's initial contract should remain in force. (The increase in salary to $4,560.00 per annum is already covered by the LIEMPTY Project.)

2. As pointed out in the attachment to HMMA-11368, 22 October 1958, paragraph three of MEXI-2836, 25 November 1958, and in the LIEMPTY Field Project Outline, GERENDE is a highly valued full-time Station asset who carries a significant work load and who has a great deal of responsibility. He is the LIEMPTY Principal Agent who handles the LIMITED, LILYRIC and LICALLA base houses, the LIENTRAP operation, the outside photographic processing and translation service and all the agents participating in these activities. He performs his duties in a conscientious and professional manner and his already excellent abilities are showing continued improvement.

3. Paragraph eight of HMMA-12095, 4 February 1959, indicated that the Station was considering amending GERENDE's contract to provide for some type of retirement benefits. Although it is recognized that indigenous agents are not usually granted such contract provisions, the Station believes that GERENDE should have monetary incentive, in addition to his idealogy, to make a long career with KUBARK. Accordingly, the Station recommends that GERENDE's new contract provide for a termination settlement of one month's salary for each full year that he has worked for KUBARK. In other words, should GERENDE's career with KUBARK last for 24 years and his yearly salary at the end of this period is $8,000.00, then he, or his heirs, would receive a lump sum payment of $16,000.00. After considering different types of insurance plans, an escrow account and several other ideas, the Station considers the above proposal to come closest to meeting the criteria of control, production incentive and creation of the desire to make KUBARK a career. The date, 18 March 1955, should be used as the beginning date for the computation of GERENDE's termination benefits.

HEADQUARTERS CASE OFFICER:

1. It is requested that approval be granted to amend Raymond H. GERENDE's contract to provide him with a termination settlement of one month's salary for each full year that he works for KUBARK and to raise his salary effective July 1959 from $4,080 to $4,560.00 per year. His last salary increase was granted on 1 September 1957. The date, 18 March 1955, has been suggested by the Station as the beginning date for the computation of GERENDE's termination benefits. The Station believes that this benefit will provide GERENDE with the necessary incentive to make KUBARK a career and at the same time will give the Station an additional element of control.

2. As pointed out in the LIEMPTY Project Approval, GERENDE, an indigenous agent, is one of the Station's most valuable assets. He has a responsible full time job as the LIEMPTY Principal Agent who handles the LIMITED, LILYRIC and LICALLA base houses, the LIENTRAP operation, the outside photographic processing and translation service and all the agents participating in these activities. He performs his duties in a conscientious and professional manner and his already excellent abilities are showing continued improvement.

3. Money was already allocated in the LIEMPTY Project approval for the salary increase. With the effective date of 18 March 1955, for the termination clause, GERENDE will already have accrued $1,520 (his salary is $4,560 per year) if he should resign today. The LIEMPTY Project, as approved, has sufficient funds to cover this cost if it is necessary to obligate this amount during the present Project year. Therefore, no additional funds are requested.

SYNOPSIS OF DEVELOPMENTS

1. During the period covered by this report, a new Case Officer, Quinton N. OUSLER, assumed operational direction of several LIPSTICK assets (Oliver G. SCANTLING, Raymond H. GERENDE, LIMITED, LICALLA, LIENTRAP and several support agents), the LIJERSEY surveillance team and the LILYRIC Base. The Station has continued to use SCANTLING, primarily, to follow up LIMESA leads obtained from LIFEAT and the photographic bases; however, no positive returns have been realized from his prodigious efforts except the collection of a considerable amount of operational information. GERENDE performed his principal agent responsibilities for the photographic bases. LIENTRAP, LIJERSEY until 19 December 1958 handled the LIFEAT/BOMORNING and LIFEAT/ ... radio operations. The LIJERSEY surveillance team has been used sparingly for precise investigations and routine static surveillances; however, a principal agent, ... G. CLACKETT, is currently being trained in Headquarters to assume the full-time direction, control, training and development of the LIJERSEY team. The ... project, LIEMPTY, covering all the assets discussed in this report was submitted to Headquarters on 3 October 1958 with requested project year approval period from 1 December 1958 through 30 November 1959. An operational security review of Raymond H. GERENDE's activities was forwarded to Headquarters as an attachment to HMMA-11363, 22 October 1958.

ACCOUNT OF DEVELOPMENTS - OLIVER G. SCANTLING SEGMENT

2. Agent Information - Oliver G. SCANTLING has continued to perform his assigned tasks in an outstanding manner. SCANTLING's poise, common sense, education, ideology and native ability for the pursuit of clandestine activities make him one of the most valuable support assets available to the Mexico City Station. The fact that SCANTLING has full time overt occupation as Chief Engineer and Production Manager for a local manufacturing company adds to his long-range potential as a KUBARK agent. On two occasions during the past six months SCANTLING has indicated to his Case Officer that he would like to resign from his overt position and devote full time to his KUBARK operational duties; however, the Case Officer has discouraged him from doing this on the basis that he has more long-range potential when his cover occupation is legitimate. Of course, SCANTLING would be more valuable if he could work full time for the Station, but not sufficiently so to warrant his resignation from his overt job (his monthly salary in his overt job is in excess of $800.00 U.S.). The only significant limitation that SCANTLING has evidenced to his present Case Officer is his occasional delay in preparing written reports of investigations and other matters requiring reports for the files. However, this limitation gradually is being overcome and it is expected that SCANTLING's reports will continue to be factual, comprehensive and soon will be promptly submitted.

3. Security Developments - SCANTLING is constantly under a considerable amount of exposure and pressure when following up LIMESA leads obtained from LIFEAT and the photographic bases. Since time is always of the essence when ... such perishable leads, SCANTLING frequently is directed to make approaches to individuals performing services for the LIMESTICK target after routine, and sometimes only cursory, investigation. Therefore, the possibility always exists of his entanglement in an undesirable security incident. This necessarily

[illegible] calculated risk which both SCANTLING and the Station must take if penetration of the primary target is achieved, whether technically or by a recruitment in place. It is to SCANTLING's credit that he has not yet become involved in an incident which [illegible] has compromised him and/or alerted the target of KUBARK's [illegible] interest in them. The closest SCANTLING has come to being compromised and to being identified as a [illegible] agent stems directly from the LIPSTICK [illegible] of June 1956. The cut-out used by the surveillance team was [illegible] by SCANTLING in his true name at the time that he was leader of the team. No [illegible] indication, however, has been uncovered which points to SCANTLING [illegible] of investigation by a local police service. SCANTLING and the case officer [illegible] and will continue to watch closely for any sign of local police and other [illegible] interest in his activities.

4. Operational Success and Effectiveness - Briefly discussed below are some of the [illegible] operational activities in which SCANTLING participated during the period covered by this report:

A. Juan *CASTRO (201-) - SCANTLING continued seeing CASTRO through [illegible] 1958 following the last [illegible] of [illegible] the original LIMESA / [illegible]LIGHTING operation through CASTRO. As late as September 1958 possibilities [illegible] existed, or appeared to exist, that CASTRO would complete his work in the [illegible] LIMERICK office and that it might be possible to install MELIGHTING. While CASTRO, through SCANTLING, was the principal source of this information, portions were also confirmed by LIFEAT. During July, August and September 1958, SCANTLING had approximately eight meetings with CASTRO. In late September 1958 LIFEAT indicated that the LIMERICK target was [illegible] under the supervision of one of their regular local employees, [illegible] *[illegible] (201-2[illegible]), to complete some of the work CASTRO was supposed to finish and that other contractors were doing jobs around the target area which CASTRO would normally have been expected to do had he still been in the employ of the target. Thus, LIEMTRO and LIFEAT confirmed that the LIMERICK target had lost interest in CASTRO - he was not seen visiting the target installation nor did the target people attempt to get in touch with him. In view of this, SCANTLING was instructed to cease all contact with CASTRO as of 1 November 1958.

B. Pablo *[illegible] Rosas (201-) - During the period covered by this report SCANTLING had two interviews with [illegible] Rosas. SCANTLING's most recent report was forwarded to Headquarters as an attachment to HKMA-11143, 1 [illegible] 1958. Unquestionably the Station has identified [illegible] Rosas as the technician who services LIMERICK radio [illegible]. SCANTLING will continue his development of [illegible] Rosas (please see HKMA-11711, 19 December 1958).

C. [illegible] *VIDALES (201-) - SCANTLING's activities in connection with the LIMESA/MELIGHTING operation were summarized in HKMA-11297, 20 October 1958, and previous correspondence.

D. HERRERIA GABELICH - This is the firm that made the steel vault door for the LIMERICK installation. SCANTLING made two visits to this firm's workshop and succeeded in obtaining enough information to make an

...accurate drawing of the type door installed at LIMERICK. This drawing was forwarded to Headquarters via HMMA-11926, 21 January 1959.

E. Casing Report on West German Embassy - During June, July and August 1958, SCANTLING prepared a detailed casing report on the new West German Embassy. SCANTLING's engineering ability enables him to prepare accurate drawings and sketches from a minimum of data. Also, his personality and gregariousness permit him to visit the inside of such establishments, with an appropriate cover story, and retain minute details which later he commits to paper and drawings with a comprehensive floor plan and important construction data.

F. LIMERICK Construction - SCANTLING's long association with this target from the casing standpoint provides the Station with an unparalleled source of information about LIMERICK construction methods, modifications and reasons for same. All of the LIMERICK casing reports on file in Headquarters are the product of SCANTLING's casing ability and knowledge. Discussions with Station Officers about LIMERICK construction have been of benefit to the Station during this reporting period and they will continue to be of worthwhile importance.

G. Routine Investigations and Surveillances - Although the Station has several assets capable of performing investigations and surveillances, SCANTLING is utilized in situations requiring the utmost in discretion and dependability. His activities in this connection are too numerous to list here; suffice it to state that he has contributed materially to the Station's collection of operational information through his investigative efforts. SCANTLING's interview of Paul Frederick Kirschhoff (201-45345) of LCMAY-TOWL interest is an example of SCANTLING's use on investigations (see HMMA-11749, 17 December 1958).

H. ENGEM-15 - SCANTLING served as the contact with ENGEM-15 during the latter's December 1958 trip to Mexico City. In this connection SCANTLING is a support asset which is trustworthy and dependable. SCANTLING never displays undue curiosity in operations such as the ENGEM-15 case; he accepts the minimum amount of information given and performs his duties in a professional and sincere manner.

I. LIEMPTY/3 - SCANTLING handles the administrative matters connected with L/3. Dexter M. KILLGO provides operational direction to L/3. During this reporting period, the Station had hopes of SCANTLING taking over the operational supervision of L/3's activities. However, after a four-month trial period with both SCANTLING and KILLGO meeting with L/3, it was decided that it would be desirable for KILLGO to continue handling L/3. L/3's [illegible] personality and intellect indicated that he could best be directed by a PBPRIME citizen. Therefore, SCANTLING no longer attends KILLGO's and L/3's operational meetings, although he does continue to handle L/3's administrative problems.

J. Raymond H. GERENDE's Duties - During GERENDE's absence from

Mexico City in December 1958 and January 1959. It was considered appropriate for SCANTLING to handle LIMITED, LICALLA and LIENTRAP. Although this procedure defeats some compartmentation principles, it was the only manner in which the Station could maintain efficiency with the three operations listed above. SCANTLING has known the agents involved with LIMITED, LICALLA and LIENTRAP for several years. In fact, he was at one time the agent in charge of these three operations.

5. Operational Methods Evolved During the Period - The VIDALES operation [illegible] to [illegible] the necessity for thorough [illegible] and discussions with the agent making an approach to a target. This can hardly be described as a new operational method, but it does serve to illustrate the [illegible] of [illegible] that should be followed. The [illegible] LIENVOY IV [illegible] whereby SCANTLING must [illegible] the landlord of the target's building [illegible] SCANTLING and the Station the opportunity to prepare thoroughly for SCANTLING's recruitment pitch. The excellent documentation prepared by [illegible] and the story being created by SCANTLING and the Station should increase the [illegible] on SCANTLING's cold approaches. (See HMMA-11356, 22 October 1958, and HMMW-7000, 21 November 1958, for additional details on this aspect.)

In general terms, one other conclusion can be made about any Station's support assets - where technical and photographic operations are possible, the utility of the information obtained is enhanced considerably by accurate, [illegible] and timely casing reports. SCANTLING, as previously mentioned, is an excellent asset for this type of support.

6. Administrative - SCANTLING's contract expires on 18 February 1959. As of that date SCANTLING will have received an annual salary of $3,600.00 U.S. for two years. The Station plans to raise his annual compensation to $4,000.00 U.S. No other significant administrative problems exist.

7. Outlook for Future Developments - Station plans call for the continued utilization of SCANTLING in the same manner as he is presently being used. The Station will keep SCANTLING as an independent asset and, it is hoped, resist the temptation to make him a principal agent in charge of numerous sub-agents. It is believed that SCANTLING is the type of support asset that can be valuable to the Station for many years to come and that every effort should be made to protect his security and value to KUBARK.

ACCOUNT OF DEVELOPMENTS - RAYMOND H. GERENDE SEGMENT

8. Agent Information - Aside from the agent information given in HMMA-11366, 22 October 1958, the only significant development was GERENDE's December 1958 marriage to a U.S. [illegible] girl of Dutch citizenship. The $[illegible].00 U.S. for the purchase of two plane tickets as a wedding gift to GERENDE was designed to impress GERENDE with the fact that KUBARK thinks highly of him as an individual and that KUBARK has a great interest in his intelligence career. GERENDE is at the age and stage in life where he is beginning to wonder just what the future holds for him. In the near future, the Station will propose a salary raise for GERENDE

and request a new contract that provides for some type of retirement benefits - perhaps similar to the Civil Service Retirement program for KUBARK employees.

9. Security Developments - Again, the information on this subject was covered adequately in HMMA-[illegible]. GERENDE was relieved of his LIFEAT/[illegible] and LIFEAT/Cuban Exiles duties on 10 December 1958. This, of course, was in line with recommendations contained in HMMA-11[illegible] and represents a definite security improvement. GERENDE was told that LIFEAT/[illegible] was being [illegible] because it had not been productive of enough significant information and that LIFEAT/Cuban Exiles was being terminated because the occupants of the target [illegible] had moved [illegible]. (This was true where the Cubans are concerned.) Additional security improvements will be made when Morris D. CLACKETT returns to Mexico and relieves GERENDE of responsibility for the LIENVOY surveillance team.

10. Operational Successes and Accomplishments - Briefly outlined below are the [illegible] operational activities which GERENDE managed during the period covered by this report:

A. LIMITED - This base functioned smoothly, securely and effectively during the period July through December 1958. The base operator, LIEMPTY/6, demonstrated his usual competence and devotion to duty. In addition to the primary objective of taking photographs of individuals of interest, L/6 also prepared detailed daily logs on the arrivals and departures of all target personnel, weekly reports of workers activities at the LIMERICK installation, performed three one-man surveillances of Mexicans working at LIMERICK in an effort to identify them by name and home address, and provided SCANTLING with information on LIMERICK construction. During this six-month period, LIEMPTY/6 took approximately 800 photographs from the LIMITED base.

B. LILYRIC - This base is operated by LIEMPTYs/13 and 14, with LIEMPTY/12 serving as a contact between the base and GERENDE. LIEMPTY/14 does most of the photography and reporting for the base since LIEMPTY/13 has a regular job and is not on the premises during regular daytime working hours. L/14 devotes approximately six hours (0800-1400) each day to photography and the remaining time is spent preparing reports. The base prepares complete individual logs on each target personality indicating their arrivals and departures from the LIMERICK installation. These reports are filed in the appropriate Soviet 201 file and are available to [illegible] officers in analyzing a target personality's pattern of daily activity. LILYRIC also prepared a weekly report on workers activities at the Club and reports the license plate numbers of all vehicles discharging or picking up individuals at LIMERICK. (Note: These license plate numbers are then checked out through LIVESTOCK/2 for the owners names and addresses - in case of immediate or later operational interest.) During GERENDE's recent absence from Mexico City, [illegible] met directly with LIEMPTY/12. During this period approximately 2,000 photographs were taken from the LILYRIC base.

C. LICALLA - While LILYRIC and LIMITED are excellent bases for photographing individuals entering and leaving the LIMERICK installation, the LICALLA base is the Station's best source of photographs of LIMERICK

employees. LICALLA is so situated that photographs can be made of target personnel in the garden area of LIMERICK. LIEMPTY/9 is the base operator for LICALLA and in the Station's opinion performs his job in an excellent manner. As reported in HKMA-[illegible], LIEMPTY/9 is the brother of former LIPSTICK/27 (the first LIPSTICK surveillance team member arrested in June 1958). No repercussions, or indications of any impending ones, have resulted to this family relationship. This, certainly, is the major security problem faced by L/9 during this reporting period. L/9 and his family must still have to vacate the LICALLA base for the period of time required to [illegible] [illegible]. The Station is making sure that L/9 does not know that his current employer owns the LICALLA base and the three adjoining houses and every effort is being made to prevent this knowledge from L/9. (See HKMA-[illegible], 28 January 1959, for a more detailed explanation.) Of course, during the remodeling of LICALLA there will not be any LICALLA reporting or photographs. In addition to taking approximately 2,500 photographs during this six-month period, the LICALLA base also prepared weekly reports on LIMERICK garden activities. These reports indicate which LIMERICK employees are seen together each day, which vehicles different employees are accustomed to using, construction activities and other matters which appear of significance to L/9.

D. LIENTRAP - LIENTRAP continues to be a worthwhile Station asset. Approximately 1,400 clandestine photographs have been made of numerous targets during this reporting period and LIENTRAP type activities will undoubtedly remain one of the Station's best investigative assets. As explained in the Field Project Outline, forwarded to Headquarters on 8 October 1958, the Station is of the opinion that the LIENTRAP vehicle should be replaced as soon as possible. Nearly four months have elapsed without receiving Headquarters authority to replace the vehicle. The necessity to replace is even more acute now than at the time of the request. LIEMPTYs 10 and 11 do an excellent job on LIENTRAP operations.

E. LIEREST - This operation can be characterized as somewhat dormant for the July - December 1958 period. Because of CERENDE's other important activities, he did not have the time to train and work with the surveillance team. Also, the Station considered that it would be stretching security just a bit too far to have CERENDE engaged in surveillance at the same time that he was handling the photographic base houses and performing monitoring chores for LIFEAT/BOMBONERO and LIFEAT/Cuban Exiles. The expected arrival of Simon D. CLACKETT in April and his relieving CERENDE of LIEREST will enable the Station to retrain, within a year, an effective mobile surveillance team. At present, LIEMPTYs/15, 16 and 17 compose the LIEREST team.

F. LIFEAT - Until 10 December 1958 CERENDE served as monitor in the base houses covering LIFEAT/BOMBONERO and LIFEAT/Cuban Exiles. In addition to living in the base house, CERENDE also transcribed the majority of the BOMBONERO and Cuban Exile tapes. He performed these jobs satisfactorily even though his efficiency was handicapped by numerous other duties. Relieving CERENDE of his LIFEAT duties enables him to devote more time to his other operations with a corresponding increase in the security of all his activities.

c. LIEMPTYs/4 and 5 - LIEMPTY/4 does a truly professional job of developing and printing the base house photographs. No significant developments occurred in relation to L/4 except that OALLER met directly with him during the December 1958 period that GERENDE was away from Mexico City. LIEMPTY/5, L/4's wife, continued doing routine translations in a very competent manner.

11. Administration - Other than the fact that LIENSET and the above-mentioned portions of the LIPSTICK projects were combined into this new project, LIEMPTY, there is nothing of significance to report to Headquarters.

12. Outlook for Future Developments - Although not meaning to be repetitive or [illegible] upon those recommendations made above, a summary of the Station's outlook on the future of the LIEMPTY GERENDE Segment is believed to be appropriate. With the arrival of CLACKETT in April, GERENDE will be free to devote full time to photographic base house operations. GERENDE can do a lot to professionalize these operations by preparing written communications procedures, by thoroughly briefing base house operators on their methods of operation, by preparing detailed security reviews on each base and by supervising the trial of new photographic techniques. GERENDE will continue to be used on occasional sensitive investigations, [illegible] operational travel [illegible] and to perform other services for the Station which will not jeopardize the security of his primary responsibilities. It is planned that CLACKETT will put some life into the LIENSET surveillance team and that the Station will soon have another first rate investigative group to support other Station operations.

SUBJECT : Wedding Gift for Raymond H. GERENDE (ps), Contract Agent

1. It is requested that the Mexico City Station be authorized to give Raymond H. GERENDE (ps), as a wedding gift, two airplane tourist class tickets from Mexico City to San Francisco and Washington D.C. and return to Mexico City. Although this trip may appear to be a generous and unusual wedding gift, the Station considers it is more than justified in view of GERENDE's outstanding performance of his duties for the Station and his future value as a principal agent. GERENDE has been working for the Station since February 1955.

2. The Station estimates that the cost of the plane tickets will be $600.00. The LIPSTICK Project, which covers GERENDE, can absorb this added expense.

ACTION REQUIRED Headquarters study and comments.

REFERENCE(S)

1. The subject paper is attached. It is believed that Headquarters will have a clearer picture of what GERENDE is doing at the present time together with several informative facts concerning the security of GERENDE's operations. Also included in this paper are several recommendations which the Station proposes to implement through Project LIEMPTY. Obviously, some of the recommendations are goals to work for and, because of a lack of personnel and other valid reasons, cannot be immediately adopted.

2. The attached paper should be read in conjunction with the new LIEMPTY field project outline, which was recently forwarded to Headquarters. Please note, however, that the old agent cryptonyms are used in this paper.

3. The attachment has been read and approved by Matthew S. DINGLEY, who recruited this excellent agent (GERENDE) and was his Case Officer until GERENDE was recently assigned to Quinton N. Ousler.

4. GERENDE is one of the most valuable assets of this Station. This review is considered to be a worthwhile exercise; but under the present operational pace and with present assets, security compartmentation, which is desirable, cannot be achieved. The main security precaution (viz getting GERENDE out of Mexico City and well hidden in case of an emergency) will constantly be kept in mind.

OPERATIONAL SECURITY REVIEW OF RAYMOND H. GERENDE'S OPERATIONS AND ACTIVITIES

1. SITUATION

As a result of the June 1958 LIPSTICK flap, it was decided by the Chief of Station on 30 June 1958 that Quinton N. OUSLER would assume direct contact with several of Matthew S. DINGLEY's agents, one of whom was Raymond H. GERENDE. After being introduced to GERENDE by DINGLEY on 1 July 1958, OUSLER assumed contact responsibilities with GERENDE on 2 July 1958. On 18 July 1958, the Chief of Station decided that OUSLER should be assigned permanent responsibility for the management and handling of GERENDE and GERENDE's operations.

2. PURPOSE

The purpose of this operational security review is threefold:

a. To identify possible security problems and conditions;
b. To establish a framework for recommendations which will result in the Station's submission of a new support project (LIEMPTY) with Raymond H. GERENDE as a principal agent; and
c. To acquaint the new case officer with the operational problems and agent personnel with which he should have a comprehensive knowledge and detailed understanding.

3. PRINCIPAL AGENT - Raymond H. GERENDE

a. Background - GERENDE has been employed by KUBARK since 18 March 1955, which was just prior to his graduation from the Mexico City College. He is now only 24 years of age, but in the Station's opinion, is a mature, experienced and dedicated KUBARK contract agent. During the three and one-half years that he has been working for the Mexico City Station, GERENDE has participated in a varied assortment of support and intelligence operations. Initially, he was trained and used by Matthew S. DINGLEY as a member of the LIPSTICK surveillance team. In addition, to surveillance work, he was used as an investigator to collect operational data on persons and organizations of interest to the Station. He quickly demonstrated a capacity for leadership and at one time was the leader of the LIPSTICK team. He has been used as a LIFEAT Base House operator

SECRET

and processor of tapes; he has excelled in this type of work because of his bi-lingual Spanish/English facility and, more importantly, due to his diversified experience in clandestine operations which permits him to spot operational leads much more readily than the average LIFEAT monitor.

b. Duties - GERENDE is currently serving as the principal agent in charge of LIMITED, LICALIA, LIPSTICK Photo Truck, LIJERSEY Surveillance Team and LILYRIC. In addition, he monitors and processes the BGMORNING and Cuban Exiles LIFEAT taps. He also supervises the photographic processing of LIPSTICK-38 (his brother-in-law) and the translation work of LIPSTICK-40 (his sister). He maintains contact with and provides administrative support to LIMITATIONS 5 and 6, LICOOL-7 Base operators. Quite obviously GERENDE's many duties overlap the bounds of several Station operations, namely LIPSTICK, LIJERSEY, LIFEAT, LICOOL and several activities which are not listed under formal projects such as BGMORNING. It is recognized by the Station that it is not advisable to have one principal agent connected with as many operations as is GERENDE. However, the present scarcity of both staff and contract agents of the principal agent type necessitate such efficiency measures. Every effort is being made to compartment the various segments of GERENDE's operations and to decrease, and to eliminate where possible, all lateral communications between agents.

c. Security Problems - The most serious security situation surrounding GERENDE and his many activities is the fact that LIPSTICKS 12 and 30 (two of the LIPSTICK Team members arrested in the June 1958 flap) know GERENDE by true name, and knew that he also worked for KUBARK. In fact, LIPSTICK-30 is a close personal friend of GERENDE's and was originally recommended for KUBARK employment by GERENDE. The operational security hypothesis that can be constructed from these existing acquaintances are too numerous to list in this brief review; suffice to say that should GERENDE be arrested by one of the local police agencies, most of the remaining support assets would be destroyed or so seriously compromised that the Station would indeed be foolish to continue using them. It is appropriate to state here, however, that neither GERENDE nor the Station believes that GERENDE has yet been named or otherwise identified as a result of the LIPSTICK flap. It is granted though that any future questions by one of the local police agencies to the compromised LIPSTICKERS represents a continuing type of danger for GERENDE. Based on the duties which GERENDE is currently performing, the readers of this review can well imagine what the consequences to several operations

would be if GERENDE were arrested by one of the local police agencies and interrogated in detail. Also, the Station must forever be aware that the local police agencies are certainly capable, for only a few dollars, of selling information concerning KUBARK to the Soviets and/or Satellites.

d. Recommendations - It would be unwise to consider terminating GERENDE since he is a highly competent agent and since his termination would not eliminate the fact that he knows a great deal about the Station's support operations. He has been reminded several times, and the Case Officer will continue to remind him, that his tradecraft professionalism must improve and stay ahead of the increasing sophistication of the local police agencies and opposition services operating in Mexico.

It is the opinion of the Station that GERENDE should continue to be used in about the same manner that he is presently being used. It would be advisable, however, to separate him from the two LIFEAT functions he is currently handling, BGMORNING and the Cuban Exile taps. This is suggested not only because of the possible future security ramifications, but also because GERENDE does not have time to run properly his support mechanism and to monitor taps seven days a week.

To provide for a situation whereby one of the local police agencies becomes aware of GERENDE's illegal activities and assuming that either GERENDE or the Station learns of this before the local police agency can take positive action, it is imperative that a warning system of communications be established to facilitate GERENDE's removal from Mexico. Arrangements such as those used for Wilfred O. CLOWER could be set up or local arrangements could be made with ODUNIT or ODOATH for a more expeditious exit from Mexico. The Case Officer will develop this plan in detail.

4. OPERATIONS

a. Limited

(1) Target - Stationary photographic surveillance of persons entering and leaving the LIMERICK installation.

(2) Personnel - LIPSTICK-14 is the agent in charge of the LIMITED Base. According to GERENDE, LIPSTICK-14 is conscientious, security minded, speaks no English, and on occasion is a bit over confident. He performs his operational duties competently and with discretion. In addition to his photographic duties, he is also used occasionally as a one-man

foot surveillance to follow individuals leaving the LIMERICK installation, LIPSTICK-14 receives a monthly salary of $1,800.00 (MN) and free rent and utilities at the LIMITED Base. His wife (LIPSTICK-27) and son (LIPSTICK-28) live with him at the LIMITED Base.

LIPSTICK-28 until 15 July 1958 assisted his father with photographic work at the LIMITED Base. However, on the above date he decided to resign from his LIMITED job and, strange as it may seem, to devote full time to working on a chicken farm. LIPSTICK-28 made this decision on his own and against the wishes of his father. He will continue to live at the LIMITED Base and it is believed that no security problems will result, since any security difficulties could adversely affect his mother and father. Although LIPSTICK-28 has been terminated and a termination report forwarded to Headquarters, it is suggested that we maintain his operational approval since he continues to live in the LIMITED Base.

(3) Communications - At the present time GERENDE meets with LIPSTICK-14 three times a week at contact points away from the Base. They have seven separate contact points which are used for their meetings. Usually the place of contact is prearranged at the previous meeting; however, a rapid means of communication exists whereby GERENDE telephones LIPSTICK-14 and through a pre-arranged open code, utilizing insurance policy numbers, sets the time and place of contact. LIPSTICK-14's overt occupation is that of an insurance salesman and adjuster; consequently, there is a cover basis for such a telephonic conversation. A reserve system of communication with LIPSTICK-14 has not yet been arranged. GERENDE has been instructed to do this as soon as possible, thereby giving the Station a means to contact LIPSTICK-14 directly should the need ever arise.

(4) Security - Excluding KUBARK staff personnel, the LIMITED Base is known to LIPSTICKS-2, 14, 27 and 28 and to Oliver G. SCANTLING and Raymond H. GERENDE and possibly to LIPSTICK-12 (GERENDE's opinion). Since LIPSTICK-14 has known LIMEWATER (LIFEAT Project) for many years and since LIMEWATER is LIPSTICK-2's brother, it is important to recognize that the desirable degree of compartmentation between LIPSTICK/LIMITED and LIFEAT probably does not exist. Although LIMEWATER must be aware of LIPSTICK-14's and 2's PBPRIME employment, it has not been possible to ascertain the extent of LIMEWATER's knowledge about their specific activities, and vice versa. LIPSTICK-14

worked with James O. AYCALL (LIMESTONE) during WW-II; however, he claims that the only members of AYCALL's family that he ever met was AYCALL's "alleged wife." Since she saw him only one time many years ago, LIPSTICK-14 does not believe that she would recognize him now.

Neither GERENDE nor LIPSTICK-14 are aware that KUBARK owns the LIMITED Base House. The extent of their knowledge is that LIMOUSINE is the owner and we simply rent from him.

(5) Recommendations - It is recommended that GERENDE continue to meet with LIPSTICK-14 and to supervise his operation. In this connection, GERENDE has been instructed to reorganize his existing communications arrangements with LIPSTICK-14 to include a new regular system, a rapid non-scheduled system and a reserve system. Also, GERENDE is to review with LIPSTICK-14 their cover reasons for meeting and knowing each other and to be prepared to use this cover story should they ever be apprehended together.

LIPSTICK-14 was instructed on 8 August 1958 to cease all social and business contact with LIPSTICK-2. Oliver G. SCANTLING, who has previously handled LIPSTICK-14 and sees him occasionally even now, has been directed to cease all contact with the LIMITED Base and LIPSTICK-14 except when approved by the Case Officer. (NOTE: It is necessary at times for SCANTLING to debrief LIPSTICK-14 for LIMESA leads).

b. LILYRIC

(1) Target - Stationary photographic surveillance of persons entering and leaving the LIMERICK installations.

(2) Personnel - LIJERSEY-5 is personnel manager of a Mexican affiliate of a large PBPRIME company. In addition to serving as a spotter for potential surveillance team members, he also serves as the cutout for the LILYRIC Base. GERENDE manages and directs the LILYRIC Base through LIJERSEY-5. LIJERSEY-5 maintains direct contact with LIJERSEY-2, the Base House operator, and his wife, LIJERSEY-12, who does most of the photographic work. LIJERSEY-5 is a PBPRIME citizen. He is paid a monthly salary of $1,000.00 (MN).

LIJERSEY-2 is the LILYRIC Base operator. He is a Captain in the Mexican Army Reserve and is also employed by Colgate-Palmolive Peet Company as an industrial engineer. He receives a monthly salary of $1,000.00 (MN) and he and his wife live rent and utilities free in the LILYRIC Base.

LIJERSEY-12 is the wife of LIJERSEY-2. She does most of the photographic and reporting work at the LILYRIC Base and has proven herself to be a capable and worthwhile asset. It has been necessary for her to become proficient in the LILYRIC work since her husband works at his regular job during the day. She receives a monthly salary of $800.00 (MN).

(3) Communications - GERENDE contacts LIJERSEY-5 twice weekly at prearranged contact points during the late afternoon hours. LIJERSEY-5 contacts LIJERSEY-2 two to three times weekly at prearranged car contact points and receives the "take" from the LILYRIC Base. On occasion GERENDE has contacted LIJERSEY-2 directly, but this procedure is used only when LIJERSEY-5 is out of town or otherwise not available. GERENDE does not know LIJERSEY-12 or vice versa. No reserve system of communications exists whereby a Station officer could contact LIJERSEY-2 directly should the need arise; however, GERENDE has been instructed to set up such a system of communications. The same will be done with LIJERSEY-5, although he is known to several Station officers and little difficulty would be experienced in contacting him directly.

(4) Security - The security of the LILYRIC Base appears, at least on paper, to be in better shape than the Limited or LICALLA Bases. Insofar as the Case Officer has been able to determine, the only indigenous agents aware of the LILYRIC Base are GERENDE, LIJERSEYS 2, 5 and 12, and LIPSTICKS 38 and 40, and all of these individuals have a close connection with the operation of the Base. The only tie-in the LILYRIC Base has with the LIPSTICK operations is through GERENDE.

(5) Recommendations - GERENDE has been instructed to change his meeting plans with LIJERSEY-5 and to review the communications set-up between LIJERSEY-5 and LIJERSEY-2 (L-5 and L-2 are long-time friends and, consequently, the cover problem is minimized). A staggered schedule of coverage of the LIMERICK target between LILYRIC and LIMITED was initiated on 18 August 1958. Although the operators of these two bases are unaware of the existence of the other, a suitable cover story has been worked out to satisfy any

curiosity that LIPSTICK-14 and LIJERSEYS-2 and 12 may have. This procedure is believed desirable due to the confining nature of the photographic tasks and the lack of additional personnel to assist at each of the bases. Also, this staggered schedule of coverage should reduce some of the duplication presently coming in from the two bases.

c. LICALLA

(1) Target - Stationary photographic surveillance of persons and activities in the garden area of the LIMERICK installation.

(2) Personnel - LIPSTICK-39, his wife and three small children live at the LICALLA Base. He is an accountant for a local bus line and works at his cover job in the evenings. LIPSTICK-39 does an excellent and conscientious job of photographic coverage at the LICALLA Base. In addition to the photos he takes, he writes a narrative description of the events which take place in the target's garden area. He receives a monthly salary of $2,000.00 (MN) and free rent at the LICALLA Base.

(3) Communications - GERENDE meets LIPSTICK-39 twice weekly, usually on Tuesdays and Thursdays. They have four contact points, one of which is selected at each meeting for use for the next meeting. In the event that contact is not established, GERENDE has the initiative in contacting LIPSTICK-39 by phoning him at the bus line office during the evenings. Then, by prearranged open code, a meeting site and time are agreed on. Since Oliver G. SCANTLING is also acquainted with LIPSTICK-39, it would be possible to contact him through SCANTLING should something happen to GERENDE. However, to facilitate proper and secure communications procedures, GERENDE has been directed to establish a reserve system of communications with Lipstick-39, using the customary oral and physical bonafides.

(4) Security - The most serious security problem concerning LICALLA is the fact that LIPSTICK-39 is the brother of LIPSTICK-47 (the first agent arrested by the local police agency during the recent LIPSTICKflap). Although it is generally believed by Station officers that LIPSTICK-39's name was not mentioned by LIPSTICK-47 nor that any indication was given concerning LIPSTICK-39's job, it must be understood that should the local police agency decide later to interrogate LIPSTICK-47, the probability exists of compromising LIPSTICK-39 and LICALLA. The Station sees no way to overcome this possibility.

It is important to note here that LICALLA occupies one of the four LIMUST properties. While it is believed that LIPSTICK-39 does not know that KUBARK owns the Base or has anything to do with the other three houses, it is entirely conceivable that should one of the local police agencies or the LIMERICK personnel become aware of LICALLA activities, they could very easily arrive at some logical conclusions about all of the LIMUST property. This would be detrimental, if not fatal, to our aims. However, another Station viewpoint on this same problem is that if compromised, LICALLA would divert suspicion from, rather than to, LIMUST. Should one of the local police agencies begin an investigation which might involve LIMUST and LICALLA, then LICALLA could be sacrificed to protect the LIMUST Base. These possibilities become somewhat theoretical and perhaps impractical due to the lack of predictibility of the local police agencies, but neverthe-less must be weighed one against the other.

In view of the apparent importance of the LIMESA/LIMUST operation a lot of thought and discussion have transpired at the Station about continuing the LICALLA operation in its present location or suspending it for the immediate future and attempting to find another suitable location away from the LIMUST property. A sound argument can be made for terminating the base since such an alternative might have the effect of limiting any knowledge LIPSTICK-39 may have about the LIMESA/LIMUST installation. However, the termination of a productive base such as LICALLA would require an explanation to LIPSTICK-39 which could not help but leave him a bit suspicious. For Headquarters information, the local rental laws are such that LIPSTICK-39 would not be able to comprehend why we did not insist on him maintaining "squatters rights" (as stated previously, LIPSTICK-39 apparently does not know that we own LICALLA or even have an interest in any of the other LIMUST properties) which can easily be done in Mexico. Therefore, any attempt to terminate LICALLA might cause more of a security problem with LIPSTICK-39 than permitting LICALLA to operate as it is now. Another possibility would be terminating LIPSTICK-39 and putting another agent in the present LICALLA Base. If this measure were followed, it would not eliminate the fact that LIPSTICK-39, even if terminated, would still know of the existance of the present LICALLA Base. Still another possibility would be to terminate LIPSTICK-39 and the LICALLA Base; however, since LICALLA and the other LIMUST properties are ostensibly owned by one man, LIMOUSINE, suspicions and investigations could still lead to LIMUST.

(5) Recommendations - The Station is inclined not to "rock the

boat" at this stage of the game and suggests that we maintain LICALLA at its present location and with its present operator, LIPSTICK-39. One alternative appears to be about as good as another in this case, and it is an acknowledged fact that LICALLA, at its present location, is a worthwhile and productive asset. Headquarters ideas and comments on the LICALLA Base would be appreciated.

At the present time it is planned to move LIPSTICK-39 and family to a furnished apartment when the time comes to remodel the LICALLA Base. After completion of the remodeling, LIPSTICK-39 and family will return to the present LICALLA Base.

d. PHOTO TRUCK

(1) Target - Investigative asset used for taking surreptitious photographs of persons, places and things that are from time to time of interest to the Station and Headquarters.

(2) Personnel - LIPSTICK-2, as indicated by the low numerical designation of his cryptonym, has been employed by KUBARK for several years. At the present time LIPSTICK-2 is responsible for the day-to-day operation of the photographic surveillance truck. He is also used occasionally to spot and rent operational apartments. In the past, LIPSTICK-2 has served as team leader of a low level surveillance team (which was compromised and subsequently disbanded), as a LIFEAT line inspector (when he was not busy with the photo truck), and as a static surveillance man (i.e., used as an outside sentry during the March 1958 entry of the LIMUST Base by KUTUBE/D, KURIOT and KUCLUB technicians. (NOTE: LIPSTICK-2 was assigned the task of watching the entire area during the day for any unusual activity on the part of target personnel. He was not told that he was to watch a specific house. He was dismissed from his static surveillance before dusk and the Headquarters technicians did not enter LIMUST until after 2030 hours.) LIPSTICK-2 is the brother of LIMEWATER (LIFEAT Project) and LIPSTICK-34 (LIPSTICK Surveillance team member) is LIPSTICK-2's wife's nephew. LIPSTICK-2's cover is buying and selling cars; however, about the only business he has in this connection is when he buys and sells cars for KUBARK. His cover is quite weak. He receives a monthly salary of $3,200.00 (MN) plus $600.00 (MN) per month for the use of his personal car.

LIPSTICK-24 does not know GERENDE and, presumably, knows only LIPSTICK-2, with whom he works on the photo truck. His cover is as a salesman of electrical appliances; however, he does not pursue his cover job to the desirable extent. LIPSTICK-24 was recruited by LIPSTICK-2 about one year ago and is currently receiving a salary of $1,000.00 (MN) per month. Since he has now worked a year for the Station, and performed satisfactorily, his salary should be raised to $1,200.00 (MN) per month (LIEMPTY will provide for this increase).

(3) Communications - GERENDE meets LIPSTICK-2 two to three times a week. These meetings are arranged by phone and take place at previously selected contact points which can be referred to in telephonic conversations by innocent sounding code names. LIPSTICK-2 also knows GERENDE's true name, where he lives, and his phone number. In the past he has had occasion to telephone GERENDE at the latter's home. LIPSTICK-2 knows DINGLEY, and could, in an emergency situation, contact DINGLEY. However, GERENDE has been instructed to arrange a complete communications plan with LIPSTICK-2, including a reserve means of contact. For security reasons, GERENDE has been instructed to inform LIPSTICK-2 that his only contact is with GERENDE and that in the future he is not to contact anyone else in the organization without GERENDE's permission. Also, that should contact with GERENDE be disrupted, he is to await for the higher echelon to establish contact with him (all agents under GERENDE are being so instructed). This is particularly important in the case of Lipstick-2, since he has by-passed GERENDE in two or three instances in the past.

(4) Security - Probably the most serious security situation involving the photo truck, LIPSTICK-2 and Lipstick-24 is the basic knowledge of the LIPSTICK surveillance team that such an asset exists, even to the point that one of the team members (LIPSTICK-34) is the listed owner of the photo truck. The personal knowledge of LIPSTICK-2 about the LIFEAT operation also represents a security hazard of the first class. For example, if LIPSTICK-2 were compromised and arrested as a result of his activities, there is a possibility that he could compromise his brother, LIMEWATER, the LIMITED Base and LIPSTICK-14, GERENDE and our interest in the highly sensitive LIMESA/LIMUST operation. (NOTE: According to the LIFEAT Case Officer and the former LIPSTICK Case Officer, both LIMEWATER and LIPSTICK-2 have been reminded on several occasions during the past few years that they were not to discuss any aspect of their operations with each other. Also, LIPSTICK-2, to the best of the Station's

knowledge, does not know the location of any of the LIFEAT Base houses).

A new truck should be purchased as soon as possible to replace the present truck. The new truck should be purchased in an assumed name and vehicle papers should list an untraceable address. LIPSTICK-2 has already been informed that he is to have no contact with LIPSTICK-14 or any other operational personnel he may know except, of course, LIPSTICK-24, with whom he works, and GERENDE, who supervises his activities. In addition to the above, the Station should begin thinking about a replacement agent for LIPSTICK-2 and every effort should be made to set up an independent and compartmented photo truck operation. This would permit the eventual termination of LIPSTICK-2, after we have given him several months to reduce his knowledge of current operations.

d. LIJERSEY

(1) Target - Foot surveillance and investigative support of other Station operations.

(2) Personnel - LIJERSEY-4 is of a low social class and lives with his mother in a slum area of Mexico City. He is the sole support for his mother and several younger brothers and sisters. He is described by GERENDE as having a lot of ambition and a strong desire to improve his standard of living and position in life. The Station has found him to be a good observer and, consequently, adequate for static surveillance work. Although he now has his drivers license, he is not a capable driver and probably will never develop into one. GERENDE has been encouraging LIJERSEY-4 to obtain employment as a salesman to supplement his KUBARK income of $1,000.00 (MN) and to establish himself in a cover job. However, LIJERSEY-4 has not yet obtained such employment. It is the Station's opinion that LIJERSEY-4 is definitely an asset of limited value and will never develop into the high-calibre surveillance asset which the Station really needs.

LIJERSEY-8's situation is about the same as LIJERSEY-4's. He lives with his family and is currently taking highschool courses (LIJERSEY-4 is doing the same). He is not an imaginative talker and has difficulty making up cover stories and spur-of-the-moment excuses and explanations - the vital qualifications for a good surveillance man. He is the best driver of the three LIJERSEY

team members and with more practice will probably develop into a capable and dependable driver. LIJERSEY-8 has recently shown a commendable amount of initiative where his cover situation is concerned. He has obtained a job as a commission salesman for UNDERWOOD typewriters and, according to GERENDE, is making a substantial amount of "pin" money. However, as in the case of LIJERSEY-4, LIJERSEY-8 is at best an asset of only limited value. LIJERSEY-8 also receives a salary of $1,000.00 (MN) per month.

LIJERSEY-13 does not know LIJERSEYS-4 and 8 and vice versa. LIJERSEY-13 is better dressed than the other two team members and can pass as a better educated and more socially flexible individual. He speaks fairly good English. He performs pretext investigation assignments with facility and imagination and is adept at making up cover stories. In brief, he makes a good impression on the people he interviews. He is not a good driver and is too nervous to develop into one. His salary is $1,000.00 (MN) per month.

(3) Communications - GERENDE has daily contact arrangements with the three LIJERSEYS. Prearranged meeting places are used on designated days of each week and the LIJERSEYS are instructed to go to each meeting. They have standing instructions to continue going to their meeting sites for two weeks; if they have not been contacted during that period of time, they can discontinue their communications plan and await contact by GERENDE or another appropriately selected agent at their respective homes. None of the LIJERSEYS have home telephones; hence, it is impossible to arrange any type of communications using this means. GERENDE is currently in the process of setting up new and more complete communications arrangements with the three LIJERSEYS.

(4) Security - Insofar as knowledge of other operations, personnel and assets is concerned, the LIJERSEYS appear to have the best security of any of the operations handled by GERENDE. New communications plans with the LIJERSEYS will do much toward increasing security and ability to meet contingencies. GERENDE will be instructed to give refresher training to all three LIJERSEYS in operational security, cover and communications. The major danger existing with the LIJERSEY team, and with any surveillance team, is the possibility of compromise and arrest by one of the local police agencies. Should this happen, GERENDE and his other operations would be placed in considerable danger.

For this reason, it is not advisable to have GERENDE connected with a surveillance team and also contacting and directing the sensitive photo base houses. Therefore, until such time as a suitable asset can be developed or acquired to take over the LIJERSEY team, their actual surveillance assignments will be kept at the minimum.

(5) Recommendations - It is suggested that the LIJERSEY framework be used for the recruitment of at least three competent and higher class local nationals for use on surveillance assignments. After the recruitment of such individuals, it may be suggested that LIJERSEYS-4 and 8 be terminated. LIJERSEY-13 should remain as an independent investigative asset to conduct "credit" and other type of inquiries which he can do without help from other agents. LIJERSEY-5 has already been asked to spot prospective candidates of a higher social standing for use on a new surveillance team; however, even under optimum conditions, one and a half years will be required to get such a team functioning. In order to recruit the type of team member that will be most worthwhile to the Station, we must plan to pay a minimum starting salary of $1,600.00 (MN) per month. The cost of living in Mexico is continually on the rise and where $1,000.00 (MN) was a good salary one to two years ago, it really is not adequate today.

f. LIFEAT

(1) Target - Conversations coming from two telephone taps, BGMORNING and Cuban exiles.

(2) Personnel - GERENDE lives in the apartment where these two lines are maintained. He personally processes the take from the lines and passes it to OUSLER for Station dissemination to Robert B. RIGGS (BGMORNING) and Calude K. Shyrock (Cubans). GERENDE, in accordance with LIFEAT procedures, is supposed to remain in this apartment seven days a week. However, this is impossible due to his other operational assignments and activities.

(3) Communications - GERENDE meets daily with OUSLER to pass the LIFEAT "take" and to discuss other operational matters.

(4) Security - It is not a good security practice to have a LIFEAT monitor working on anything except LIFEAT. Other duties, which GERENDE certainly has, limit one's capability for maintaining the required security alertness for telephone

repairmen and others who might accidentally discover one of our LIFEAT taps. Also, should GERENDE be compromised through any of his other operations, it is conceivable that the EGMORNING and Cuban Exiles LIFEAT taps would be discovered by one of the local police agencies.

(5) Recommendations - It is suggested that a replacement be found as soon as possible to relieve GERENDE of his present LIFEAT duties.

g. LICOOL-7

(1) Target - A planned technical installation against a person of interest to the Station and to Headquarters.

(2) Personnel - LIMITATION-5 and his wife, LIMITATION-6, are the LICOOL-7 Base House operators. LIMITATION-5 has been with KUBARK for several years. He was at one time the LIAXIOM Base House operator. He presently works for the DuPont Company. He dresses well, speaks some English and could be described as belonging to the rising middle class of Mexicans. His wife can do photographic work and has had previous experience with KUBARK in the dispatching of car surveillances by radio. LIMITATIONS-5 and 6 are not participating in any active work pending the installation of LICOOL-7 in their apartment. LIMITATION-5 receives a monthly salary of $500.00 (MN) and LIMITATION-6 receives $400.00 (MN) monthly.

(3) Communications - A complete communications plan does not exist between GERENDE and LIMITATION-5. At the present time it is only necessary for GERENDE to see LIMITATION-5 on pay day and when Harvey C. MULFORD desires to visit the apartment for technical surveys and other work. Therefore, GERENDE and LIMITATION-5 utilize an open code telephonic means of getting together. So far, this has worked quite well, but it will be necessary later to set up a more sophisticated communications system.

(4) Security - The operational aspects of LICOOL-7 are under the jurisdiction of Matthew S. DINGLEY; therefore, the author of this report is not familiar with the security ramifications, if any, surrounding this technical installation and the agents operating it.

(5) Recommendations - None.

h. MISCELLANEOUS

Also on the payroll as worthwhile assets are GERENDE's brother-in-law, LIPSTICK-38, and his sister, LIPSTICK-40. GERENDE and LIPSTICK-38 process and print all the LIMITED, LILYRIC, LICALLA and truck photos. LIPSTICK-40 does non-sensitive translation work for the Station. Both LIPSTICKS-38 and 40 are handled by GERENDE. They do not have contact with other agents or with station officers. LIPSTICK-38 receives a monthly salary of $1,000.00 (MN). LIPSTICK-40 receives the equivalent or $1.75 U. S. in pesos per hour for her work.

Although it is not adviseable from the security point of view to have any indigenous agent aware of all three of our LIMERICK photographic bases and the photo truck, the load on the Station photographer several months ago resulted in just such a solution to the problem. Previously, GERENDE and LIPSTICK-38 had processed only the photographs from LIMITED, LILYRIC and the truck.

5. RECOMMENDATIONS

Recommendations have been included in several sections of this paper. These same recommendations, excepting those which have already been carried out or are in the process of implementation, are listed below in a composite form to facilitate the readers' overall comprehension.

a. Continue the reorganization of communication arrangements with all agents.

b. Relieve GERENDE of his LIFEAT duties (BGMORNING and Cuban Exiles taps) as soon as possible.

c. Continue to use GERENDE for the time being as the principal agent in charge of LIMITED, LILYRIC, LICALLA, the Photo Truck, LIJERSEY, LIMITATIONS-5 and 6, and LIPSTICKS 38 and 40.

d. Arrange a warning system of communications for removing GERENDE to PBPRIME should he be compromised to one of the local police agencies.

e. Purchase a new photo truck for use by LIPSTICKS 2 and 24.

f. Begin planning for a compartmented photo truck operation which will later permit termination of LIPSTICK-2.

g. Spot and recruit at least three indigenous agents from the middle class social level to form the nucleus of a new LIJERSEY

surveillance team.

h. Eventually separate GERENDE from either LIJERSEY surveillance team duties or the three photographic base houses, preferably the former. The two types of activities are not compatible with each other and should not be handled by the same principal agent.

i. Implied, but not specifically stated elsewhere in this paper, is the suggestion that GERENDE be given a "cooling off" and training period of two to three months in PBPRIME. Of course, this will not be possible until other assets are developed to take over GERENDE's present duties. After his return from PBPRIME, GERENDE could be used to develop new support assets which would be completely compartmented from all of his previous operations, personnel and activities.

6. CONCLUSIONS

It would take several weeks of uninterrupted study of files to write a really comprehensive security review of GERENDE's operations and activities. However, based on the facts contained in this paper, it is the Station's opinion that GERENDE probably is not now known to the local police agencies as a KUBARK or PBPRIME agent. It is believed that GERENDE could be identified by the local police agencies at any time they choose to interrogate LIPSTICKS-12 and 30 in detail or when one of the other agent assets formerly or currently associated with GERENDE is compromised. Furthermore, if GERENDE is arrested, he could compromise most of the Station's support assets, plus the BGMORNING and Cuban Exiles portions of LIFEAT.

Given several months time, the slow process of compartmentation can be introduced into GERENDE's operations. Such compartmentation, however, will never reach the truly desirable point, but some improvement over the existing situation can be made. If GERENDE can emerge basically unscathed from the current incidents, then KUBARK will have an extremely valuable long-range support asset.

1. References outlined the arrest of LIPSTICK-47, the subsequent arrests of LIPSTICKS 12 and 30, their interrogation by the Mexican Secret Service and their eventual release from prison. References truly portrayed the incident with the following exceptions:

a. None of the arrested men was tortured.

b. LIPSTICK-45 was never arrested.

c. Only LIPSTICK 12, 30 and 47 were arrested.

d. LIPSTICK-29 was not taken from his home by force. In fact he was never arrested.

2. While under detention the arrested men told the story as it appears in Attachment A which was written by LIPSTICK-30. It is not believed that the men told anything more because:

a. The substance of the story was told to Station Mexico identically by three (3) separate and compartmented sources, i.e. from the arrested men, from the attorney, Raul F. CARDENAS, and from the Counselor of Canadian Embassy, Sidney FREIFELD.

b. Each operation mentioned in Attachment A, which was susceptible to a check by the Secret Service, was investigated by them. However, no operation not mentioned in Attachment A was investigated by the Secret Service.

c. LIPSTICK-47, who had only been with the team about one and a half months and who did most of the talking, did not know any information other than that in Attachment A.

d. LIPSTICK-12 and 30, who knew considerably more about our operations, are both made of sterner stuff than LIPSTICK-47 and have keener minds.

e. The "ring of truth" that Attachment A has. It is not believed that the Secret Service is sufficiently sophisticated to concoct such a believable story.

f. The combined opinion of every Case Officer who has known LIPSTICK-12 and 30 that they did not reveal any information other than that contained in Attachment A.

g. On 10 July 1958 LIPSTICK-12 and 30 were examined by Martin F. REMALEY on LCFLUTTER. REMALEY was satisfied that the results of this examination completely exonerated LIPSTICK-12 and 30 from any cooperation with the Mexican Police. The results of those tests are attached as Attachment B.

3. In order to assess what possible damage might have been done to Station Mexico's operations if the arrested men had told the Secret Service everything they knew, there follows a list of those operations known to the arrested men:

a. LIPSTICK-47 did not know anything more than he told the Secret Service as outlined in Attachment A.

c. LIPSTICK-39:

(1) He was recruited by Raymond S. GERUNDE. He knows that GERUNDE works for Station Mexico but does not know in what capacity.

(2) He knows the true names of Thomas G. [illegible], Edward P. SECHEN, Matthew B. DINGLEY, Wilfred O. CLOWER, Oliver G. SCANTLING, and Harvey P. DENENHOLTZ.

(3) He participated in the raid on the apartment of Alfredo Guerra Borges.

(5) He knows all of the present LIPSTICK team and LIPSTICK-12 and 14.

(6) Through surveillance, he has learned of all the operations as listed in the case of LIPSTICK-8.

4. At the present time the LIPSTICK team is inoperative. The team members are working at their various cover jobs and writing a critique on the surveillance techniques they used which caused these three to be arrested.

Matthew S. DINGLEY has stopped all sensitive contacts and turned them over to Quinton N. CUSLER as a precautionary measure should DINGLEY be under surveillance. DINGLEY continues to see LIPSTICK-30 who now administers the team, and DINGLEY also continues to be the case officer for LIVEROCK.

LIPSTICK-47 has been fired and the LIPSTICK offices have been vacated and the furniture stored in a public warehouse. With the excellent cooperation of Nogales and Monterrey Bases, Wilfred O. CRAMER was smuggled out of Mexico.

5. Future planning for the LIPSTICK team will depend upon the results of operational tests and additional defective reassessment based upon the actions of the team and the results obtained. General Miguel MOLINAR Simondi, Chief of the Mexican Secret Service, has agreed to protect the team fully and assume responsibility for their actions for the sum of $240.00 U.S. per month. MOLINAR has also promised to issue the team credentials from the Secret Service, or some other official investigative group, after the presidential inauguration in November of 1958. The future of the LIPSTICK team will depend upon the following factors:

a. It is not believed that the Secret Service demanded, nor even suggested, that the team report future activities to the Secret Service. (Test leads, susceptible of checking, will be given to the LIPSTICK team to determine if they are being reported to the Secret Service).

b. Degree of access to Secret Service files given to the LIPSTICK team.

c. Effectiveness of General MOLINAR's protection.

7. Station Mexico recommends that the LIPSTICK team be allowed to continue operations for a period of three months at which time a reassessment will be made based upon the evidence accumulated over that period of time. The reassessment will be concerned mainly with whether or not the team is really under the control of the Secret Service and the degree of success of their "penetration" of the Secret Service.

MEMORANDUM FOR: WH/III/Mexico

SUBJECT: Raymond H. GERENDE

REFERENCE: HMM-A-11368

1. This dispatch represents the type of operational reporting we need. I think any answer to the Station should lead off with an expression of appreciation for a good job. Maybe it will encourage them to write more of this type.

2. GERENDE is very exposed and should be taken off some of his jobs at once. Specifically, my ideas are as follows:

3. Re para. 3 a, agent is very capable and should be retained if secure means can be found. Getting rid of him would not solve the problem. As long as he is in Mexico he is vulnerable. Some thought should be given to how he would be supported in the event of arrest. Personally, I believe the Station would do better to sacrifice a case officer than permit things to drag on to the point where GERENDE might tell all to the police.

Recommendations:

a. GERENDE be briefed so as to be ever ready with an innocuous story to tell the police in the event of arrest.

b. GERENDE be told to contact one of already blown Station officers like HAZLETT in the event of arrest and that the Station officer be ready to appear personally at police station to free GERENDE. If the case officer named for this duty and GERENDE both know the innocuous cover story, there should be little problem. I have done it myself. A good cover story is "looking for draft dodgers" or some such tale which does not have implications of working against Mexican citizens.

c. That if not allowed to communicate directly GERENDE should tell the senior officer present at police station that he works on (cover story) for HAZLETT and insists HAZLETT be sent for.

d. That a second blown case officer's name be given as an alternate for HAZLETT, who is often out of town and unavailable.

e. That GERENDE be taken off LIFEAT at once and all suspicious audio equipment be removed from his home or offices. At present, LIFEAT is the only illegal activity being engaged in by GERENDE; if he is made merely in connection with his physical surveillance activities he is not likely to be hurt by the Mexicans.

f. Concur preparations should be made to hide out GERENDE if it is known he is to be arrested.

4. Re para. 4 a, GERENDE's participation in LIMITED is O. K. I believe no law is being broken. However, LIMITED is probably blown to the Soviets. Here is the more real danger. Station should find out who is the registered owner of the phone at LIMITED. Prior to leaving Mexico I noted to MAHONEY it was still held in the name of LIMESTONE-3 (now fired and hence a possible threat).

5. Re para. 4 b: This is the same situation as LIMITED but not so likely blown to the Soviets. There is no reason why GERENDE should not continue this work.

6. Re para. 4 c, LICALLA is a very special problem and should be taken up at once with Headquarters elements working on LIMESA/LIMUST. I thought LICALLA had been cancelled out when LIMESA began to shape up. I consider it a danger to LIMESA. Has LICALLA produced anything of value? I think we could vacate this in such a way that the agents in LICALLA would have no cause to be suspicious. (Put an obvious tail on the agent, scare him off, etc. This would throw off the Mexican police, too, in the event they are already wise to LICALLA through LIPSTICK 47. We could pretend to believe the Soviets ran the tail and the game is up.)

Recommendation: Get rid of LICALLA unless very productive. Better do this before the remodeling begins.

7. Re para 4 d, photo truck. LIPSTICK-2 does know of the locations of some of the basehouses on LIFEAT since he was a line inspector.

Recommendations:

a. New compartmented truck should be set up. Don't use false names and addresses. It could result in great harm.

b. LIPSTICK-2 be sent off to some small town as "resident agent" for general work and to get him out of the area.

8. Re para. 4 e. I have no particular thoughts on LIJERSEY but think it consistent for GERENDE to handle it.

9. Re para. 4 f: GERENDE should be taken off LIFEAT at once, even if it means losing lines. As of March this year the Station had enough agent personnel to handle bases for 24 lines. They should be able to fill the gap even though LIMESTONE-3 and his tribe were fired. Only 12 lines are now being handled (latest report). The way GERENDE is handling his LIFEAT work seems to be breaking all the rules we set up inseven years of experience.

10. Re para. 4 g, LICOOL-7. I see no harm in GERENDE's handling the operational aspect of this case. But through LIMITATION-5 the police could get back to LIMITATION and the main LIMERICK tap, that is, if they were able to make GERENDE talk before we could save him. The danger to LIMITATION was not brought out in the Station's survey.

11. In re para. 5, recommendations -

a. Approve.

b. Get him off LIFEAT right now.

c. Concur, but liquidate LICALLA.

d. This needs some discussion. What do we do with GERENDE in the U. S.?

e. Concur.

f. Concur with reservation noted above.

g. O. K.

h. I don't see why he can't handle all these jobs since they are physical surveillances.

i. Not a bad idea.

12. Final observations:

a. What is GERENDE's cover?

b. We must be sure he is not overworked. Sloppy work has resulted from people being overworked.

c. Raymond H. [illegible], a contract agent, uses cover provided by [illegible] and is responsible for LIPSTICK office number 2. [illegible] supervises the work of [illegible] who processes the film from [illegible], LICALLA, and LILYRIC basehouses. [illegible] directs the activities of the [illegible] surveillance team (a separate project discussed in [illegible]-0151). [illegible] is also responsible for the activities of the fixed surveillance basehouse, LILYRIC.

(1) LILYRIC is a second story apartment which affords a view into the right angle of the main gate of the [illegible] installation at an angle which photographs from the top of the heads downward. The equipment is the same as that used in [illegible] and LICALLA and the film is processed in the same way. [illegible]-12 lives in this apartment and is responsible for the photographic and physical surveillance. His reports supplement but do not duplicate those submitted by the [illegible] basehouse. The photographs from LILYRIC are superior in quality to those obtained from either [illegible] or LICALLA. [illegible]-12 is an efficient stenographer and good photographer. Also, this base offers a better position from which to take photographs.

(2) [illegible]'s contacts in private investigative agencies are used to check leads from other operations. During June and July 1957 [illegible] received training at Headquarters and both he and the Case Officer feel this training has been most beneficial.

1. There is attached for Headquarters retention a translation of a report concerning the Subject. The original report was obtained through a private detective agency in Mexico City which had been contacted by Raymond H. GERENDE. GERENDE posed as a businessman seeking credit and character reports on the commercial firm of Gibbon, Alonson y Cia., S.A. de Mexico. This was a trial assignment for the detective agency in order that Station Mexico could assess the investigative assets of the agency for possible future operational exploitation.

2. The sub-source of HMMA-1021, the former [illegible] chief in Mexico, knows the Subject personally. The Case Officer will contact him direct for additional information on the Subject and his activities.

SUBJECT GENERAL - Operational
SPECIFIC - Raymond H. GERENDE

The following is the evaluation of Raymond H. GERENDE written by the instructor of foreign trainees on 12 September 1957.

1. Instruction commenced 10 June and was concluded 12 July 1957. It covered tradecraft, observation, description, casing and reporting, principles of CE and CI, elicitation and interviewing, investigative techniques, and briefings in photo and use of recording machines.

2. Trainee was known as "Ray". He was easy to work with. He was always pleasant, courteous, cheerful and seemed genuinely interested in every phase of the training. He can speak, read and write English without any difficulty.

3. Ray seemed well motivated; more Pro-American than Mexican. He possesses a strong interest in clandestine work. He is an avid reader. He demonstrated ability to apply principles he had learned from reading and study. He seemed possessed of initiative although there was a limited opportunity of observing this quality in action.

4. While Ray's duties to date apparently have not given him a wide and varied experience in clandestine activity, he seemed to grasp the material quite readily, and although in the field of CI and CE he stated he had never thought of many of their aspects as applying to him, he seemed glad of the opportunity to learn and absorbed them quite readily. He now possesses a good working knowledge of fundamental principles involved. However, it is felt that if he is to work primarily in this field, it should be under the supervision of a case officer with considerable experience and background in this type of activity.

5. As previously indicated, Ray was an avid reader. In addition to certain case studies, he read the following books:

SUBJECT Audio Briefing

DATES TRAINED 3 July 1957 (1330 hours)

On 3 July 1957 an Audio Briefing was given to Raymond H. GERENDE. The major portion of the briefing was on the Revere T-700 tape recorder. When asked if he knew anything about recorders, GERENDE stated that he was quite familiar with the Revere T-700 as he had had some experience with this recorder when he was a disc jockey in a radio station. A step by step operation of the recorder was explained to him, the tape recorder head was explained also how the sound was recorded on the tape. The following were also explained to him: tape speeds, frequency response, footage indicator, dual tracks—how they can be used in the Revere T-700—, the mechanical section of the recorder and the amplifier.

The recorder was removed from the case by the Subject and the possible breakdown points were shown to him, the recorder and amplifier units were taken out of the case by him and the operation of the sections explained. The recorder was then put together by GERENDE.

GERENDE asked many questions relative to microphones and microphone installations. There were explained to him—carbon microphone, crystal microphone, dynamic and controlled reluctance.

He appeared to be intelligent and was interested in the subjects discussed.

Raymond H. GERENDE

(home phone. OL 2-9514)

1. On 28 May 1957, Harry Mexell (Safehouse Procurement Officer, X8185), William Lidenheimer (S.C.) and the undersigned met to obtain a safehouse for Raymond H. GERENDE (ps). The safehouse obtained was the following:

Apartment D-22, Madison
Presidential Gardens Apartment Hotel
Mount Vernon Avenue and Russell Road
Alexandria, Virginia
Telephone: TEmple 6-4400

2. This apartment was tentatively approved orally by Mr. Lidenheimer from a security standpoint. Registration was made by me in the name of Rufus KING, attorney, Southern Building, Washington, D. C. National 8-3115. GERENDE will be ostensibly a legal client of Mr. King and will be registered in true name upon his arrival. His name was not given upon obtaining the apartment nor was mine. Only Mr. King's name was used.

3. My cover story, if necessary to use one, was to be that of law clerk, Larry HERMAN, in Mr. King's office. Mr. Mexell has cleared this cover with Mr. King's office. Mr. King's office, according to Mr. Mexell, will pay for the apartment by check.

4. The apartment was rented at the rate of $155 a month from 8 June 1957 onward (to be through 13 July 1957).

5. Mr. Frazes of S.C. (SB/2, X547 and X3071) informed me telephonically on 31 May that the safehouse site had been approved.

SUBJECT : Contract Agent Covert Training
Raymond H. GERENS (ps)

1. Subject, Project LIPSTICK contract agent, will arrive in Washington on approximately 8-9 June 1957 for five weeks of covert training. Covert training has been arranged and a safe house obtained.

2. The matter of entertainment of Subject was discussed with Mr. Wattles, C/WH/Support, who said that entertainment of contract agents is authorized under certain conditions and that it would be permissible to entertain Subject conservatively while in Washington. He spoke to Mr. Price of the General Counsil's Office who supported this view.

3. To favorably impress Subject and to maintain his morale while in Washington, it is contemplated that the desk operations office will entertain him with dinner and drinks approximately twice a week during the first and final weeks and once a week during the intervening weeks.

SUBJECT : Request For Covert Training

Project: LIFSTICK

Pseudo : Raymond H. Gerende

1. Initiated by: WH, Branch 3, Mexico - FI

2. Date of Project Approval: 2 November 1956

   Type and Date of Clearance: Amended Operational Approval C-32743 effective 19 March 1956. Supersedes OA granted 28 February 1955.

3. Agent Status: Contract Agent

4. Agent Nationality: Born in U.S., but renounced citizenship to become Mexican citizen on 31 July 1952.

5. Operations Officer: Lawrence B. Sulc Known to student as: Larry Room 2114, Barton Hall, x-2555

   Alternate Operations Officer: John B. Brady Known to student as: Jack Room 2111, Barton Hall, x-3162

6. Training dates: Beginning about 10 June 1957 for approximately 5 weeks.

7. Complete biographic background of trainee: See memorandum attached.

8. Previous intelligence training: Trained in surveillance and related techniques by his field case officer. No formalized training.

9. Project Objective: Physical surveillance in Mexico City area to obtain CE and operational information on Soviet/Satellite and Communist Party personnel, plans and activities. This project supports a technical surveillance project in Mexico. Some of the basehouses under Project LIFSTICK support the physical surveillance aspect of Station operations whereas some of the basehouses support technical surveillances.

10. Description of agents duties in the field: Under the direct supervision and guidance of the Case Officer, full operational and administrative responsibility and control of the following:

   a. LIPSTICK Team
   b. LIPSTICK Car #4
   c. LIPSTICK/LIMITED basehouse
   d. LIPSTICK/LILYRIC basehouse
   e. LIPSTICK/LIAISON basehouse
   f. LIPSTICK
   g. LIPSTICK office #2
   h. Pretext investigations
   i. Spot assignments

In summary it can be said that the subject's principal duties are administration and operational direction of the LIPSTICK team, processing 35 to 40 rolls of 35 mm film each week, contacting agents and acting as cut-out for the Case Officer, conducting individual investigations, handling cash advances, accountings, and property.

Description of agent's cover in the field: Gerende is perfectly covered working for LIPSTICK 19 as purchasing agent. He spends approximately three to four hours per day working on his cover duties. This cover is believed by all his friends, is durable and allows sufficient freedom for operational activity.

11. Proposed cover to be used during training: It is anticipated that subject will come to the U.S. as a tourist. Inasmuch as Gerende's mother has six sisters and three brothers living in either Columbia or Sumter, South Carolina, (as of June 1955) tourist cover for him would appear to be appropriate.

12. Student availability for training: full time.

13. Specific problems to be considered in handling trainee: None envisioned at this time. Subject speaks English.

14. Specific training subjects to be covered: Basic Tradecraft, CI/CE course, Photography, and some audio surveillance techniques.

15. Technical training requirements: Photography and audio surveillance techniques.

16. Has student in the past, or does he at present, visit overt installations of the organization? Never in the Washington area. Presumably he has never been in the Station in Mexico City.

Dr. H[illegible] KUNOV professor, Univer[illegible]y of Toronto, visited Moscow from September 1-14, 1975 to undertake research at the USSR Academy of Sciences, under the USSR/Canada General Exchange Agreement. The research was carried out at the Academy of Sciences Computer Centre, 40 Vavcoha Street. KUNOV's host was Yuriy I. TORGOV, 2nd in charge of the Computer Centre and on whom a separate personality sketch is attached.

On September 3 while having a coffee break in the Computer Centre KUNOV was approached by a man who identified himself as William MARTIN, an American who defected to the USSR in 1960. MARTIN openly spoke about his past and stated that he now lives in Moscow and that he is a consultant to TURGOV's group at the Computer Centre. He said much of his work is done at home but he does drop into the Centre weekly.

It was at this time that MARTIN told KUNOV that he would like to get out of the USSR even if he has to run certain risks. He also said that (Bernon) MITCHELL feels the same and has voiced his desire to the Soviet authorities.

MARTIN asked KUNOV if he might enquire with the Canadian authorities on his behalf to see what his status would be in this country or if there was any chance of his being allowed in here as a political refugee. KUNOV agreed to contact the Canadian Embassy in Moscow to see what the official view would be and notify MARTIN at a later date. MARTIN seemed most pleased at this and left KUNOV his home telephone number, cautioning him not to say anything over phone that would tip off the Soviet authorities as to his intentions. This first meeting lasted a little over one half hour and took place in the coffee lounge area of the Centre. There were other Soviets present in the lounge, however, TORGOV was not among them. KUNOV does not believe the others were aware of their conversation.

On the 5 September 75 KUNOV called at the Canadian Embassy, Moscow and spoke to a doorman asking him who he might speak to regarding some Americans living in the USSR who would like to immigrate to Canada. The doorman referred KUNOV to the office of a Mrs. Louise O'CONNOR. KUNOV then spoke to a U/M who stated that he was the under secretary to Mrs. O'CONNOR. KUNOV enquired about the Americans living in the USSR and asked could they be allowed to immigrate to Canada. The Embassy official would not commit himself and stated that KUNOV should enquire officially with the nearest office of Manpower and Immigration when he returned to Canada. KUNOV did not give this official MARTIN or MITCHELL's names. KUNOV telephoned MARTIN after the Embassy visit and stated that the reply from the Embassy was negative. MARTIN seemed upset that KUNOV should phone him, then he later stated that it would probably be all right.

MARTIN met KUNOV on at least two occasions after the 5 September, all at the Centre, usually in the coffee lounge and in the general presence of others. They spoke English at all times. MARTIN thanked KUNOV for his trouble in enquiring at the Embassy and cautioned KUNOV not to get personally involved with him in this venture as it would be bad news. KUNOV promised MARTIN that he would check with Canadian Manpower and Immigration authorities on the matter when he returned to Canada.

SECRET

The following observations were made by KUNOV regarding MARTIN:

(a) Physical Description

5'7' or 8" tall, fair hair, crewcut, balding at the temples, not bellied.
- may suffer from a nervous condition, and bears the mark of a man who has experienced rough times.
- always dressed with a shirt, tie and jacket.
- spoke perfect English with a slight Russian accent on certain words.

(b) MARTIN provided KUNOV with the following home address and telephone number, cautioning him that his telephone was bugged.
- telephone number - 433-03-81
117421 Obrucheva Street
Building 4-1
Apt. 126
Moscow, USSR

(c) MARTIN stated that his friend MITCHELL lives in Leningrad and is married to the Dean of the Music Conservatory in Leningrad. MITCHELL is very unhappy and he has openly asked Soviet authorities for permission to leave Russia and return to the USA. Apparently he has never been able to adjust to the Soviet way of life and is now very desperate. MITCHELL is willing to divorce his wife and take any risk to get out of the USSR. To date however he has been met with a wall of silence by the Soviets.

(d) MARTIN is unmarried. He claims to have a comfortable apartment and feels that he has adjusted to the Soviet life and is accepted in the USSR. He does not want to return to the USA but would like to get out of the USSR. He said he would have quite a story to tell about his life in Russia as well as his past and that he would have no compunctions about telling all about the Russians. MARTIN at one point stated that he would not consider attempting to escape from the USSR.

(e) MARTIN claims that he is constantly harrassed by Soviet officials. His apartment has been broken into on several occasions and he refused to use the Soviet mail system. He has also refused to show up for work in the past as a form of protest. MARTIN also indicated that he has had several contacts with Americans in Moscow and that they have not shown any animosity towards him. He actually dated an American woman for some time but did not mention her name.

(f) MARTIN stated that in the past American journalists have tried to contact him many times, asking for interviews but their requests have been refused by Russian authorities. He said he hoped some day that one of these journalists would be able to just knock on his door and talk to him.

... /3

TORGOV and KUNOV spoke in general terms about MARTIN after the first meeting. TORGOV does not claim to know MARTIN well. MARTIN has been at the centre for approximately 6 to 8 months assigned to TORGOV's group. Prior to that he worked as a consultant in another area of the Academy of Sciences. TORGOV commented that MARTIN does much of his work at home. He said he felt sorry for MARTIN because he was not accepted by the Russians in the Academy. He also stated that he felt MARTIN was a basically honest man.

KUNOV said his motives for trying to assist MARTIN and MITCHELL are based on huminatarian grounds, only, as he feels they are suffering under the Soviet system. He does not intend to take any further action to assist them in leaving the Soviet Union. KUNOV hopes to return to the Soviet Union next year for a more extended period of study.

Re: [illegible] Igoryevich T[illegible]GOV

TORGOV, DOB 6 June, 1932 Vitebsk, USSR, Head of Laboratory, Computer Centre, Academy of Sciences, Moscow, was a visiting professor in Toronto and Ottawa, Canada, for four months - November 1974 to February 1975.

A number of sources were impressed by TORGOV's frankness and his willingness to speak out, at social gatherings, on current problem areas in the Soviet system. For example he discussed dissidents in Soviet society and commented on one occasion that present day Soviet society allowed for far greater freedom of expression than had been allowed previously. He said that things were being said in Moscow that one would never have heard in Stalin's era. Nevertheless, TORGOV argued that a return to "terror tactics" under Soviet rule was always possible. He considered that such tactics were unlikely at this time because of the personal philosophy of Premier Leonid BRESHNEV.

TORGOV is reported to be the son of a scientist and party member and he himself is an admitted party member. He is married with three children. He is considered to be one of the top experts on his field (computers) in the Soviet Union. He mentioned having travelled to other Western countries two or three times. His English is good. He was very friendly towards Canadians during his visit but it was observed that he did not associate with three other Soviet research students at the same institution. On one occasion in Ottawa he was berated quite severely by a Soviet Embassy official for his failure to report periodically, as required, to the Embassy. TORGOV later told a source that this Embassy official "could be a dangerous man to your country".

Dear Harry,

We have learned that on the evening of 8 September 1975, James WILKINSON of the U.S. Embassy in Moscow had a conversation of interest with a Canadian Embassy Officer. Wilkinson stated that while attending a social function at the Australian Embassy, he engaged Canadian Consular Officer Geoffrey FARROW in conversation. Farrow advised that he had been recently approached by Dr. Harry KERNOV, an Associate Professor of English at the University of Toronto in Canada, regarding American defectors Bernon F. MITCHELL and William H. MARTIN. Kernov implied that he had had recent personal contact with one or both of the defectors and recommended that the Canadian government give Martin and Mitchell permission to emigrate to Canada. Farrow furnished no further details regarding Kernov's contact.

During the same conversation Farrow asked Wilkinson if he could supply any basic background material on Mitchell and Martin. Wilkinson replied that he would pass Farrow's request on to the Consular Section of the Embassy. Subsequently, Farrow was given an unclassified article concerning the defectors which appeared in the June 1961 issue of True magazine.

We would, of course, be interested in any indications that Martin and Mitchell are attempting to leave the USSR and would be grateful for any information you may be able to provide us in regard to the above.

I am using the CAZAB channel in this instance as this information has been passed to us informally.

Yours,

George T. Kalaris

MEMORANDUM FOR: Federal Bureau of Investigation

SUBJECT: Bernon Ferguson MITCHELL, William Hamilton MARTIN, Espionage - R

1. Reference is made to our memorandum of 17 July 1961, captioned as above, and also to Bureau letter dated 22 June 1961, addressed to the Director, National Security Agency, with copy to this Agency, Subject: "Bernon Ferguson MITCHELL, William Hamilton MARTIN, MISCELLANEOUS - INFORMATION CONCERNING".

2. The following information supplements the material on Nicolas Georges DAMASCOU aka DAMASKOU aka DAMASKOS aka DAMASCUS, reported in paragraph 4 of our 17 July 1961 memorandum, referenced above.

a. Our representatives in Melbourne advised that Australian Security Service indices reflect that Nicolas Georges DAMASCOU aka DAMASCOS, Greek national born 10 March 1911 at Alexandria, Egypt, arrived in Sydney, Australia, for permanent residence on 26 October 1956, aboard the S. S. STRATHNAVER, traveling on Greek Passport No. 8063/1949, issued 8 March 1949 at Alexandria, Egypt. At the time of his arrival in Sydney, DAMASCOU was in possession of Australian Visa No. 4231, issued in Cairo on 18 July 1956. He was described as follows: single, 5 feet 10 inches tall, normal build, brown eyes, black hair, occupation "writer". He departed Australia on 25 May 1960 aboard the S. S. ORONSAY, destination not indicated, and as of 18 July 1961 had not re-entered Australia.

b. Our representatives in Mexico City meanwhile had learned that Anastasia Georges DAMASCOU aka DAMASCUS, sister of the above, on 8 July 1960 applied at the Mexican Consulate in San Antonio, Texas, for a Mexican Tourist Card to enter Mexico to visit her brother Nicolas Georges DAMASCUS, then residing at the Hotel

New York to Mexico City. At the time of her application for an entry permit, she made no mention of any wedding plans. The Mexican Government approved her trip on condition that she deposit with the Consulate a 10,000 Peso bond, as a guarantee of her intention to depart Mexico upon expiration of her tourist card. Mexican Immigration files contain no record of her actual arrival in Mexico following approval of her 8 July 1960 application. The most recent correspondence on this case contained in Mexican files is dated 15 February 1961, reflecting that Anastasie DAMASCOU again requested a Tourist Card on or about the date of the letter, at which time her address in the United States was given as c/o Mexican Consul, San Antonio, Texas. In reply to her second application for an entry permit, Mexican authorities again replied with a request that she post a bond in the amount of 10,000 Pesos, to guarantee departure from Mexico upon expiration of her tourist visa. There is no further information currently available on her further travel plans.

c. With reference to Nicolas Georges DAMASCOU, on basis of the information reported in preceding paragraph, a recheck by our representatives with officials of the United States Embassy in Mexico City revealed that Nicolas Georges DAMASKOU, born 10 March 1931 at Alexandria, Egypt, holder of Greek Passport 1951 issued in Alexandria, Egypt, on 5 March 1949 and valid to 29 April 1961, with address of 3 Elizabeth Bay Road, Elizabeth Bay, Sydney, Australia, was the recipient of a United States Visa on 22 October 1960. On his application, DAMASKOU indicated that he desired to visit the United States for a period of four months, described as a pleasure trip to visit his sister. His visa application did not include any destination address in the United States. It was also noted that the visa card maintained on Nicolas DAMASKOU in the Embassy in Mexico City contains a notation "I-683 to Immigration and Naturalization Service, Los Angeles, May 29 1961."

d. Through a reliable confidential source our representatives in Egypt had learned in the interim that Nicolas DAMASCOU, who is identical with the individual described in preceding paragraphs, currently resides in Los Angeles, California, at 1430 North Gardner, Apartment 18, and that he advised his mother and younger brother, still residing in Alexandria, that he plans to marry the daughter of an American official, who is not further identified. The same source also advised that Georges DAMASCOU aka DAMASKOU, father of Nicolas and Anastasie DAMASCOU aka DAMASCUS, died during the summer of 1960. Following the demise of the father, Angelika DAMASCOU nee SAVOURAS, widowed mother of Nicolas and Anastasie

DAMASCOU, in company of a younger son not identified by name, had planned to emigrate from Egypt to join her son Nicolas in the United States. However, prior to the realization of these plans, Angelika DAMASCOU suffered a stroke, exact details concerning which are not known, but she is reported as of this writing still to be paralyzed and obviously is unable to travel. No further information was available on the possible future emigration plans of Angelika DAMASCOU nee SAVOURAS and/or of the unidentified younger brother of Nicolas DAMASCOU and of Anastasie DAMASCOU.

c. On basis of the reported filing of an application for a United States Visa in July 1956 at the U.S. Embassy in London by Anastasie DAMASCOU, our representatives in London were requested to initiate a check of British liaison indices in the names of Nicolas DAMASCOU and of Anastasie DAMASCOU. MI-5 advised that as of late July 1961, they held no traces on Nicolas Georges DAMASCOU aka DAMASKOU aka DAMASKOS aka DAMASCUS, but that although they had no traces on Anastasie DAMASCOU, they were continuing to check her possible residence in London during 1956, based on the reported visa application date. MI-6 advised that they held no traces on either Nicolas Georges DAMASCOU aka DAMASKOU aka DAMASCUS or on his sister Anastasie Georges DAMASCOU.

3. It is suggested that the indices of the Department of State, Visa Section as well as the indices of the Immigration and Naturalization Service, Department of Justice, may contain further detailed information on the current immigration status, whereabouts in the United States, and also the contacts in the United States of Nicolas Georges DAMASCOU aka DAMASCUS, of Anastasie Georges DAMASCOU aka DAMASCUA, and any other members of the family who may have applied for entry visas from abroad.

4. With regard to Justo SIERRA Casasus, mentioned in above referenced memorandum of 17 July 1961 as a contact of Nicolas DAMASCOU aka DAMASCUS, it is suggested that the indices of the Department of State may contain additional information on his activities during his service at the Mexican Embassy in Washington, D.C.

5. The information reported above is for the internal use of

addressees only and may not be further disseminated without the prior permission of the originator.

c. Further inquiries in Mexico by our officials there revealed that Nicolas DAMASCUS had been ordered to leave Mexico in October 1960 solely because of the expiration of his tourist card, which had been once extended. Mexican Records fail to show that he returned to Mexico, following his entry into the United States at Brownsville, Texas, from Matamoros, Tamaulipas on 24 October 1960. Upon arrival in Mexico on 22 June 1960, he indicated that the purpose of his visit was to attend the wedding of his sister, Anastasia, identified in preceding paragraph, however, as of 21 June 1961, there was no record of Anastasia DAMASCUS aka DAMASCOU in official Mexican Files, and there was as yet no identification of the individual she was alleged to have been scheduled to marry. From the same source it was learned that for the period 22 June through 6 September 1960, the only address listed in official indices for Nicolas DAMASCUS is c/o Justo SIERRA, Reforma 95-407, Mexico City, which is the law office maintained by Justo SIERRA Casasus, former Counselor of the Mexican Embassy in Washington, D.C., and who is further identified in the documents cited in paragraph 1. c. through h. above. DAMASCUS reportedly used SIERRA to attempt to obtain an extension of his tourist permit, although the details of his contacts with and knowledge of SIERRA himself are not known at this time. Neither has it been possible as of this date to verify the reported contact between Nicolas DAMASCUS and Subjects at the Hotel New Yorker, as reported by Mr. Thomas CONLON. Investigation efforts abroad by this Agency are continuing, however, and any further information developed will be forwarded as soon as available.

9. In light of the escape route used by the two NSA defectors, transitting Mexico and presumably Cuba enroute to the USSR, your particular attention is invited to the information concerning the contacts and views of Justo SIERRA Casasus furnished in the reports cited in paragraph 1. e., f., and g. above. It is noted Justo SIERRA Casasus is identical with the Senor Don Justo SIERRA, First Secretary at the Embassy of Mexico, mentioned in Bureau Reports cited in paragraph h. above as a contact of Boris A. KAZANTSEV, First Secretary of the Soviet Embassy in Washington from 1952-54. It is further noted that Boris KAZANTSEV, after returning to Moscow in 1954 and assuming the post of First Secretary in the Latin American Division of the USSR Ministry of Foreign Affairs, was next assigned from 1955 to 1957 as First Secretary and subsequently Counselor of the Soviet Embassy in Mexico City, and that as of 1960 he was assigned to the Soviet Embassy in Havana, Cuba, in the position of Counselor, departing Havana for Mexico, in company of his wife and daughter, on 30 June 1961, and then proceeding to Canada on 2 July 1961.

Adsit, captioned: Soviet Cultivation of Latin American Diplomats - Internal Security - R' and Bureau letter of 21 August 1954, addressed to this Agency, forwarding as Enclosure Washington Field Office Report of 16 August 1954, prepared by Special Agent William C. 2. Since the writing of our memorandum of 14 June 1961 (cf. para 1.a. above), the following supplementary information has been developed concerning Nicolas Georges DAMASCUS aka DAMASKOS, who is a contact and client of Justo SIERRA Casasus, mentioned in the communications referenced in paragraphs 1. c. through h. above.

a. Nicolas Georges DAMASCUS reportedly is officially listed in Egypt under the name of Nicolas George DAMASCOU, born 10 March 1931 at Alexandria, the son of George DAMASCOU and Angelika DAMASCOU nee SAVOURAS. He is a Greek national and holds Greek citizenship. From 1947 through 1957, he resided at 57 Heliopolis Street in Alexandria. [Representatives of this Agency in Alexandria] advise that local available records indicate that as of May 1959, Nicolas DAMASCOU resided at 6 Birtley Place, Elizabeth Bay, Sydney, Australia, and that he listed his occupation as that of Clerk. Our field records indicate that as of May 1959, the United States Consulate in Sydney had some interest in him, and it is suggested that the indices of the Department of State may contain further information concerning this individual.

b. Anastasie (or Anastasia) George DAMASCUS aka DAMASCOU, sister of Nicolas DAMASCUS, above, was born March 1933, place of birth not indicated but presumably Egypt, was identified by [our representatives in Alexandria] as having filed application for a United States Visa at London, England in July 1956, listing her occupation as that of entertainer. It is suggested that the Visa Files of the Department of State may contain additional information on this individual.

4. The records of this Agency indicate that Boris A. KAZANTSEV is a known Soviet Intelligence Officer, most probably representing Soviet State Security (KGB). It is requested that any further information which may be reflected in the indices of your Bureau, or those of information addressees, reflecting upon the relationship of Nicolas Georges DAMASCUS aka DAMASCOU and his sister Anastasia Georges DAMASCUS aka DAMASCOU with Justo SIERRA Casasus, on the latter's contacts with representatives or agents of the CASTRO government in Cuba, or on SIERRA's continued contacts with KAZANTSEV or other suspect Soviet officials or agents in this country or elsewhere be forwarded to this Agency as quickly as possible. A request along the same lines has already been forwarded to our representatives in Mexico City, and you will be kept advised of any further information which may be developed in this regard.

MACHADO Llosas, Manuel 201-267298 (Machado) JUN 1960

1. Biographical Data: Born 12 December 1913, Auras, Oriente, Cuba. He now lives in Mexico and is owner and manager of a printing establishment, "Manuel MACHADO, S.A.", Tlalpan 710, in Mexico City. He is single and well-off financially.

2. Political Activities: Machado was a member of the 26th of July group of Cuban revolutionaries in Mexico. Now he is in exile in Mexico. He was Treasurer of the Mexican movement and handled operational funds. He was a good friend of Fidel Castro, but became disillusioned with the Castro government some months ago and is ready to fight against it.

3. Security Aspects: Machado is a CIA Agent (LITAMIL-1, POA/OA requested 9 Dec 1959; POA granted 8 January 1960; OA granted 6 June 1960). The Mexico City Station planned to use him to report on the activities of Cuban revolutionaries and possibly, due to his friendship with Fidel Castro and members of the Cuban Government, as a "political action" asset. (Note - the Mexican Desk is interested in any action taken on Machado, since he is their agent. They hold his 201-267298).

4. Contacts: Machado is a friend of Ambassador Arcos y Bergnes. He also has a certain amount of prestige in revolutionary circles.
